BOARD OF ALDERMEN,

JUNE 27, 1859.

The following communication from the Comptroller, transmitting his Quarterly Report, for the three months, ending March 31, 1859, giving a detailed list of all accounts against the Corporation, audited and paid during said period, was received, laid on the table, and directed to be printed.

D. T. VALENTINE, *Clerk.*

OFFICE OF THE AUDITOR OF ACCOUNTS,
April 4, 1859.

ROBERT T. HAWS, Esq., *Comptroller,*

SIR:—In compliance with the charter and ordinances, I respectfully submit the annexed detail of all accounts audited by me, on City and Trust Account, from January 1st to March 31st, inclusive, and for which warrants have been drawn upon the Chamberlain.

Respectfully, yours, &c.,

EDWARD V. PRICE,
Auditor of Accounts.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,

June 23, 1859.

Gentlemen of the Common Council:

In conformity to the requirements of the 22d section of the charter, and the ordinance of the Common Council, I have the honor to submit herewith a detailed list, prepared by the Auditor of Accounts, of all accounts against the Corporation, audited and paid, during the first quarter of the present year, ending March 31st.

The payments for said period were as follows:

On <i>City Accounts</i> , for the support of the city government, as per summary thereof, on page	\$768,324 55
On <i>Special and Trust Accounts</i> , as stated on page.....	3,046,702 24
Total.....	<u>\$3,815,026 79</u>

All disbursements made are classified under three general heads, designated respectively, "Treasury" or "City Accounts," "Trust Accounts," and "Special Accounts."

CITY ACCOUNTS, are those which represent the receipts and expenditures for support of the city government, and for which provision is made by taxation.

TRUST ACCOUNTS, are those which represent the receipts and payments, on account of loans obtained upon "Revenue Bonds," and "Assessment Bonds;" also all payments, as well as receipts, on account of any street or other improvements, the cost of which is defrayed by assessments upon property deemed benefited thereby. The receipts

and payments on account of "*Intestate Estates*," are also classed under this head.

SPECIAL ACCOUNTS, are those which exhibit the receipts and expenditures, on account of the construction of the public works, for the cost of which, provision is made by the issue of Corporation stocks, redeemable from the Sinking Fund, or otherwise.

All disbursements upon "City Accounts," are made by warrants, printed with *black ink*, and also distinguished by the letter "A." Payments upon "Trust" and "Special" accounts are made by warrants distinguished by the letter "B," and printed in *red ink*. Each kind of warrants are numbered consecutively, in the order they are issued.

Respectfully submitted,

ROBT. T. HAWS, *Comptroller*.

DOCUMENT No. 24.

BOARD OF ALDERMEN,

JULY 7, 1859.

The following report of the Joint Special Committee appointed to re-district the city, with an ordinance therefor, dividing the city into election districts, was received, laid on the table, and directed to be printed.

D. T. VALENTINE, *Clerk.*

The Joint Special Committee of the Common Council, to whom was referred the subject of re-districting the city into election districts, respectfully

REPORT:

That they have had the same under consideration ever since the appointment of the Committee, and have given parties interested in the matter every facility for presenting their suggestions. Your Committee submit, as the result of their labors, the following ordinance, and recommend the adoption of the same.

F. I. A. BOOLE,	} <i>Special Committee</i>	
ROBT. L. DARRAGH,		<i>Board of</i>
THOS. STEPHENS,		<i>Aldermen.</i>

GEO. P. BICKFORD,

Special Committee Board of Councilmen.

AN ORDINANCE

TO DIVIDE THE CITY OF NEW YORK INTO CONVENIENT ELECTION DISTRICTS, PURSUANT TO SEC. 8, ART. 3, TITLE 3, OF ACT OF THE LEGISLATURE, PASSED APRIL 5TH, 1842.

The Mayor, Aldermen and Commonalty of the city of New York in Common Council convened, do ordain as follows:

SECTION 1. The twenty-two Waads in the city of New York (comprising seventeen Aldermanic Districts, as constituted under the fiftieth section of the amended charter, passed April 14th, 1847), shall be, and are hereby severally divided into election districts, the extent and limits of which said election districts shall be as follows, that is to say:

FIRST WARD.

§ 2. The First Ward shall be divided into five election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the First Ward shall contain all that part of the city bounded by and lying within North Hudson river, Morris street, Whitehall street and the East river, including Governor's. Ellis' and Bedlow's Islands, in the bay, and belonging to the city, and within its jurisdiction.

The second election district of the First Ward shall contain all that part of the city bounded by and lying within Hudson river, Rector, Greenwich Thames street, Broadway and Morris street.

The third election district of the First Ward shall contain all that part of the city bounded by and lying within Hudson river, Liberty street, Broadway, Thames, Greenwich and Rector streets.

The fourth election district of the First Ward shall contain all that part of the city bounded by and lying within corner Broadway and Beaver, through Broadway to Liberty street, Maiden lane, East river, Old slip and Beaver street to Broadway.

The fifth election district of the First Ward shall contain all that part of the city bounded by and lying within Whitehall, Beaver street, Old slip and East river.

SECOND WARD.

§ 3. The Second Ward shall be divided into two election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Second Ward shall contain all that part of the city bounded by and lying within Broadway, Chatham, Spruce, Gold and Liberty streets.

The second election district of the Second Ward shall contain all that part of the city bounded by and lying within Gold and Ferry streets, East river and Maiden lane.

THIRD WARD.

§ 4. The Third Ward shall be divided into four election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Third Ward shall contain all that part of the city bounded by and lying within Hudson river, Vesey street, Broadway and Liberty street.

The second election district of the Third Ward shall contain all that part of the city bounded by and lying within Hudson river, Robinson, Greenwich and Murray streets, Broadway and Vesey streets.

The third election district of the Third Ward shall contain all that part of the city bounded by and lying within Hudson river, Chambers street, Broadway, Murray, Greenwich and Robinson streets.

The fourth election district of the Third Ward shall contain all that part of the city bounded by and lying within Hudson river, Reade street, Broadway and Chambers streets.

FOURTH WARD.

§ 5. The Fourth Ward shall be divided into five election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Fourth Ward shall contain all that part of the city bounded by and lying within Chatham, Duane, Rose, Frankfort and Dover streets, East river, Peck elip, Ferry, Gold and Spruce streets.

The second election district of the Fourth Ward, shall contain all that part of the city bounded by and lying within Rose, Duane, Chatham, Roosevelt, Madison and Pearl streets, New Bowery and Frankfort street.

The third election district of the Fourth Ward, shall contain all that part of the city bounded by and lying within New Bowery, Pearl, Madison and Roosevelt streets, East river and Dover street.

The fourth election district of the Fourth Ward, shall contain all that part of the city bounded by and lying within Oak and Catharine streets, East river and Roosevelt streets.

The fifth election district of the Fourth Ward, shall contain all that part of the city bounded by and lying within Roosevelt, Chatham, Catharine and Oak streets.

FIFTH WARD.

§ 6. The Fifth Ward shall be divided into eight election districts, the extent and limit of which said election districts shall be as follows:

The first election district of the Fifth Ward, shall contain all that part of the city bounded by and lying within Broadway, Reade street, West Broadway and White street.

The second election district of the Fifth Ward, shall contain all that part of the city bounded by and lying within Broadway, Canal street, West Broadway and White street.

The third election district of the Fifth Ward, shall contain all that part of the city bounded by and lying within West Broadway, North Moore, Hudson and Reade streets.

The fourth election district of the Fifth Ward, shall contain all that part of the city bounded by and lying within West Broadway, Canal, Hudson and North Moore streets.

The fifth election district of the Fifth Ward, shall contain all that part of the city bounded by and lying within Reade, Hudson, Harrison and West streets.

The sixth election district of the Fifth Ward, shall contain all that part of the city bounded by and lying within Harrison, Hudson, Beach and West streets.

The seventh election district of the Fifth Ward, shall contain all that part of the city bounded by and lying within Beach, Hudson, Vestry and West streets.

The eighth election district of the Fifth Ward shall contain all that part of the city bounded by and lying within Vestry, Hudson, Canal and West streets.

SIXTH WARD.

§ 7. The Sixth Ward shall be divided into nine election districts, the extent and limit of which said election districts shall be as follows:

The first election district of the Sixth Ward, shall contain all that part of the city bounded by and lying within Broadway, Chatham, Centre, Duane and Reade streets.

The second election district of the Sixth Ward, shall contain all that part of the city bounded by and lying within Broadway, Reade, Centre and Pearl streets.

The third election district of the Sixth Ward, shall contain all that part of the city bounded by and lying within Chatham, Duane, Centre and Pearl streets.

The fourth election district of the Sixth Ward, shall contain all that part of the city bounded by and lying within Broadway, Franklin, Centre and Pearl streets.

The fifth election district of the Sixth Ward, shall contain all that part of the city bounded by and lying within Centre, Franklin, Baxter, Pearl and Chatham streets.

The sixth election district of the Sixth Ward, shall contain all that part of the city bounded by and lying within Baxter, Bayard, Mott and Chatham streets.

The seventh election district of the Sixth Ward, shall contain all that part of the city bounded by and lying within Bowery, Chatham, Mott and Bayard streets.

The eighth election district of the Sixth Ward, shall contain all that part of the city bounded by and lying within Canal street, Broadway, Franklin and Baxter streets.

The ninth election district of the Sixth Ward shall contain all that part of the city bounded by and lying within Canal, Baxter and Bayard streets and Bowery.

SEVENTH WARD.

§ 8. The Seventh Ward shall be divided into nine election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Seventh Ward, shall contain all that part of the city bounded by and lying within Division, Market, Henry and Catharine streets.

The second election district of the Seventh Ward, shall contain all that part of the city bounded by and lying within Henry, Market, Monroe and Catharine streets.

The third election district of the Seventh Ward, shall contain all that part of the city bounded by and lying within Monroe and Pike streets, East river and Catharine street.

The fourth election district of the Seventh Ward, shall contain all that part of the city bounded by and lying within Division, Pike, Monroe and Market streets.

The fifth election district of the Seventh Ward, shall contain all that part of the city bounded by and lying within Madison and Clinton streets, East river and Pike street.

The sixth election district of the Seventh Ward, shall contain all that part of the city bounded by and lying within Division, Clinton, Madison and Pike streets.

The seventh election district of the Seventh Ward, shall contain all that part of the city bounded by and lying within Division, Gouverneur, Monroe and Scammel streets, East river and Clinton street.

The eighth election district of the Seventh Ward, shall contain all that part of the city bounded by and lying within Cherry street, East river and Scammel street.

The ninth election district of the Seventh Ward, shall contain all that part of the city bounded by and lying within Division and Grand streets, East river, Cherry, Scammel, Monroc and Gouverneur streets.

EIGHTH WARD.

§ 9. The Eighth Ward shall be divided into twelve election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Spring street, Broadway, Canal and Wooster streets.

The second election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Spring, Wooster, Canal and Sullivan streets.

The third election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Spring, Sullivan, Canal and Varick streets.

The fourth election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Spring, Varick, Canal and Hudson streets.

The fifth election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Spring, Hudson and Canal streets, and Hudson river.

The sixth election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Houston street, Broadway, Spring and Wooster streets.

The seventh election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Houston, Wooster, Spring and Sullivan streets.

The eighth election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Charlton, Prince, Sullivan, Spring and Hudson streets.

The ninth election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Hudson, King, Macdougall, Houston, Sullivan, Prince and Charlton streets.

The tenth election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within the west side of Macdougall street, from Houston to King, northerly side of King to Hudson, easterly side of Hudson to Hamersley, and southerly side of Hamersley to Macdougall.

The eleventh election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Charlton, Hudson and Spring streets, and Hudson river.

The twelfth election district of the Eighth Ward, shall contain all that part of the city bounded by and lying within Hamersley, Hudson and Charlton streets, and Hudson river.

NINTH WARD.

§ 10. The Ninth Ward shall be divided into twelve election districts, the extent and limits of which said election districts, shall be as follows:

The first election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Christopher, Hudson and Hamersley streets, and the Hudson river.

The second election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Hudson, Christopher, Bedford and Hamersley streets.

The third election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Bedford, Christopher and Fourth streets, Sixth avenue, Carmine and Bleecker streets, and Cottage place.

The fourth election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Fourth and Charles streets, Greenwich avenue, West Tenth street and Sixth avenue.

The fifth election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Greenwich and Eighth avenues, Fourteenth street, Sixth avenue and West Tenth street.

The sixth election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Bleecker, Christopher, Fourth and Charles streets, Greenwich avenue and Hammond street.

The seventh election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Bleecker and Hammond streets, Greenwich and Eighth avenues.

The eighth election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Fourteenth street, Eighth avenue, Horatio street and the Hudson river.

The ninth election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Horatio street, Eighth avenue, Troy street and the Hudson river.

The tenth election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Troy street, Eighth avenue, Bleecker and Hammond streets and the Hudson river.

The eleventh election district of the Ninth Ward, shall contain all that part of the city bounded by and lying ~~in~~ within Hammond, Bleecker and Charles streets and the Hudson river.

The twelfth election district of the Ninth Ward, shall contain all that part of the city bounded by and lying within Charles, Bleecker and Christopher streets and the Hudson river.

TENTH WARD.

§ 11. The Tenth Ward shall be divided into six election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Tenth Ward, shall contain all that part of the city bounded by and lying within Rivington, Forsyth, Delancey, Eldridge and Grand streets and Bowery.

The second election district of the Tenth Ward, shall contain all that part of the city bounded by and lying within Rivington, Ludlow, Delancey, Orchard, Grand, Eldridge, Delancey and Forsyth streets.

The third election district of the Tenth Ward, shall contain all that part of the city bounded by and lying within Rivington, Norfolk, Grand, Orchard, Delancey and Ludlow streets.

The fourth election district of the Tenth Ward, shall contain all that part of the city bounded by and lying within Grand, Norfolk, Division and Orchard streets.

The fifth election district of the Tenth Ward, shall contain all that part of the city bounded by and lying within Grand, Orchard, Canal, Forsyth and Hester streets and Bowery.

The sixth election district of the Tenth Ward, shall contain all that part of the city bounded by and lying within Hester, Forsyth, Canal, Orchard and Division streets and Bowery.

ELEVENTH WARD.

§ 12. The Eleventh Ward shall be divided into eighteen election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Clinton, Houston, Pitt, Stanton, Ridge and Rivington streets.

The second election district of the Eleventh Ward, shall

contain all that part of the city bounded by and lying within Ridge, Stanton, Pitt, Houston, Sheriff and Rivington streets.

The third election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Sheriff, Houston, Cannon and Rivington streets.

The fourth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Cannon, Houston, Rivington streets and the East river.

The fifth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue D, Houston, Fifth street and the East river.

The sixth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue C, Houston street, Third street and Avenue D.

The seventh election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue B, Third street, Avenue C and Houston street.

The eighth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue B, Fifth street, Avenue C and Third street.

The ninth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue C, Fifth street, Avenue D and Third street.

The tenth election district of the Eleventh Ward, shall contain all that part of the city, bounded by and lying within Avenue D, Fifth street, Eleventh street and the East river.

The eleventh election district of the Eleventh Ward, shall contain all that part of the city, bounded by and lying within Avenue C, Fifth street, Seventh street and Avenue D.

The twelfth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue B, Avenue C, Fifth and Seventh streets.

The thirteenth election district of the Eleventh Ward, shall contain all that part of the city, bounded by and lying within Avenue B, Avenue C, Seventh and Ninth streets.

The fourteenth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue C, Avenue D, Seventh and Ninth streets.

The fifteenth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue C, Ninth street, Eleventh street and Avenue D.

The sixteenth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue B, Avenue C, Ninth and Eleventh streets.

The seventeenth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue B, Eleventh street, Twelfth street and East river.

The eighteenth election district of the Eleventh Ward, shall contain all that part of the city bounded by and lying within Avenue B, Twelfth street, Fourteenth street and East river.

TWELFTH WARD

§ 13. The Twelfth Ward shall be divided into six election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Twelfth Ward, shall contain all that part of the city, bounded by and lying within North river, Eighty-sixth street, Seventh avenue and One hundred and twentieth street.

The second election district of the Twelfth Ward, shall contain all that part of the city, bounded by and lying within East river, Eighty-sixth street, Seventh avenue, One hundred and fifth street and East river.

The third election district of the Twelfth Ward, shall contain all that part of the city, bounded by and lying within East river, One hundred and fifth street, Seventh avenue, One hundred and twenty-second street to East river, including Ward's Island.

The fourth election district of the Twelfth Ward, shall contain all that part of the city, bounded by and lying within East river, One hundred and twenty-second street, Seventh avenue and Harlem, including Randall's Island.

The fifth election district of the Twelfth Ward, shall contain all that part of the city, bounded by and lying within North river, One hundred and twentieth street, Seventh avenue and One hundred and forty-fourth street.

The sixth election district of the Twelfth Ward, shall contain all that part of the city bounded by and lying within north of One hundred and forty-fourth street and west of Seventh avenue.

THIRTEENTH WARD.

§ 14. The Thirteenth Ward shall be divided into seven election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Thirteenth Ward, shall contain all that part of the city, bounded by and lying within Rivington, Clinton, Grand and Norfolk streets.

The second election district of the Thirteenth Ward, shall contain all that part of the city, bounded by and lying within Rivington, Ridge, Division and Clinton streets.

The third election district of the Thirteenth Ward, shall contain all that part of the city, bounded by and lying within Rivington, Willett, Grand, Division and Ridge streets.

The fourth election district of the Thirteenth Ward, shall contain all that part of the city, bounded by and lying within Rivington, Columbia, Grand and Willett streets.

The fifth election district of the Thirteenth Ward, shall contain all that part of the city, bounded by and lying within Rivington, Goerck and Columbia streets.

The sixth election district of the Thirteenth Ward, shall contain all that part of the city, bounded by and lying within Rivington street, East river, Grand and Goerck streets.

The seventh election district of the Thirteenth Ward, shall contain all that part of the city, bounded by and lying within Grand, Clinton, Division and Norfolk streets.

FOURTEENTH WARD.

§ 15. The Fourteenth Ward shall be divided into ten election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Fourteenth Ward, shall contain all that part of the city, bounded by and lying within Houston, Mott, Prince streets and Broadway.

The second election district of the Fourteenth Ward, shall contain all that part of the city, bounded by and lying within Houston street, Bowery, Spring and Mott streets.

The third election district of the Fourteenth Ward, shall contain all that part of the city, bounded by and lying within Prince street, Bowery, Spring and Mott streets.

The fourth election district of the Fourteenth Ward, shall contain all that part of the city, bounded by and lying within Prince, Mott and Spring streets and Broadway.

The fifth election district of the Fourteenth Ward, shall contain all that part of the city, bounded by and lying within Spring, Marion, Centre and Grand streets and Broadway.

The sixth election district of the Fourteenth Ward, shall contain all that part of the city, bounded by and lying within Spring, Mott, Grand, Centre and Marion streets.

The seventh election district of the Fourteenth Ward, shall contain all that part of the city, bounded by and lying within Spring street, Bowery, Grand and Mott streets.

The eighth election district of the Fourteenth Ward, shall contain all that part of the city, bounded by and lying within Grand street, Bowery, Canal and Mott streets.

The ninth election district of the Fourteenth Ward, shall contain all that part of the city bounded by and lying within Grand, Mott, Canal and Baxter streets.

The tenth election district of the Fourteenth Ward, shall contain all that part of the city bounded by and lying within Grand, Baxter and Canal streets and Broadway.

FIFTEENTH WARD.

§ 16. The Fifteenth Ward shall be divided into ten election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Houston, Hancock, Bleecker and Carmine streets and Sixth avenue, Fourth, Thompson, Amity and Sullivan streets.

The second election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Houston, Sullivan, Amity, Thompson, Fourth and Wooster streets.

The third election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Houston, Wooster and Fourth streets and Broadway.

The fourth election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Fourth street, Sixth avenue, Tenth street and University place.

The fifth election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Tenth street, Sixth avenue, Twelfth street and University place.

The sixth election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Eighth street, University place, Fourteenth street and Broadway.

The seventh election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Fourth, Wooster and Eighth streets and Broadway.

The eighth election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Houston street, Broadway, Fourth street and the Bowery.

The ninth election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Fourth street, Broadway, Fourteenth street, Fourth avenue and the Bowery.

The tenth election district of the Fifteenth Ward shall contain all that part of the city bounded by and lying within Twelfth street, Sixth avenue, Fourteenth street and University place.

SIXTEENTH WARD.

§ 17. The Sixteenth Ward shall be divided into ten election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Sixteenth street, Seventh avenue, Seventeenth street, Sixth avenue, Fourteenth street, and Eighth avenue.

The second election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Nineteenth street, Sixth avenue, Seventeenth street, Seventh avenue, Sixteenth street and Eighth avenue.

The third election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Twenty-second street, Sixth avenue, Nineteenth street and Eighth avenue.

The fourth election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Twenty-sixth street, Sixth avenue, Twenty-second street, Eighth avenue, Twenty-fourth street and Seventh avenue.

The fifth election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Twenty-sixth street, Seventh avenue, Twenty-fourth street, Eighth avenue, Twenty-third street and Ninth avenue.

The sixth election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Twentieth street, Eighth avenue, Fourteenth street and Ninth avenue.

The seventh election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Twentieth street, Ninth avenue, Fourteenth street and Tenth avenue.

The eighth election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Twentieth street, Tenth avenue, Fourteenth street and Eleventh avenue.

The ninth election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Twenty-third street, Eighth avenue, Twentieth street and Eleventh avenue.

The tenth election district of the Sixteenth Ward shall contain all that part of the city bounded by and lying within Twenty-sixth street, Ninth avenue, Twenty-third street and Eleventh avenue.

SEVENTEENTH WARD.

§ 18. The Seventeenth Ward shall be divided into eighteen election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Houston, Eldridge, Rivington streets and Bowery.

The second election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Houston, Essex, Rivington and Eldridge streets.

The third election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Houston, Clinton, Rivington and Essex streets.

The fourth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Third street, First avenue, Houston street and Bowery.

The fifth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Sixth street, First avenue, Third street, Bowery and Third avenue.

The sixth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Ninth street, First avenue, Sixth street and Fourth avenue.

The seventh election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Fourteenth street, Second avenue, Ninth street and Fourth avenue.

The eighth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within First avenue, Fourteenth street, Second avenue and Eleventh street.

The ninth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Fourteenth street, Avenue A, Eleventh street and First avenue.

The tenth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Eleventh street, First avenue, Ninth street and Second avenue.

The eleventh election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Avenue A, Eleventh street, First avenue and Seventh street.

The twelfth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Avenue A, Seventh street, First avenue and Third street.

The thirteenth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Third street, Avenue A, Houston street and First avenue.

The fourteenth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Fourteenth street, Avenue B, Twelfth street and Avenue A.

The fifteenth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Avenue A, Twelfth street, Avenue B and Tenth street.

The sixteenth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Tenth street, Avenue B, Fifth street and Avenue A.

The seventeenth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Avenue B, Third street, Avenue A and Fifth street.

The eighteenth election district of the Seventeenth Ward shall contain all that part of the city bounded by and lying within Avenue B, Houston street, Avenue A and Third street.

EIGHTEENTH WARD.

§ 19. The Eighteenth Ward shall be divided into fourteen election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Fourteenth street, Sixth avenue, Eighteenth street and Irving place.

The second election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Eighteenth street, Sixth avenue, Twenty-second street, Irving place and Lexington avenue.

The third election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Twenty-second street, Sixth avenue, Twenty-sixth street and Lexington avenue.

The fourth election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Fourteenth street, Irving place, Seventeenth street and Second avenue.

The fifth election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Seventeenth street, Irving place, Twentieth street and Second avenue.

The sixth election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Twentieth street, Gramercy Park, Lexington avenue, Twenty-third street and Second avenue.

The seventh election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Twenty-third street, Lexington avenue, Twenty-sixth street and Second avenue.

The eighth election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Fourteenth street, Second avenue, Seventeenth street and First avenue.

The ninth election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Seventeenth street, Second avenue, Twentieth street and First avenue.

The tenth election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Twentieth street, Second avenue, Twenty-third street and First avenue.

The eleventh election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Twenty-third street, Second avenue, Twenty-sixth street and First avenue.

The twelfth election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Fourteenth street, First avenue, Seventeenth street and East river to Fourteenth street.

The thirteenth election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Seventeenth street, First avenue, Twentieth street and East river.

The fourteenth election district of the Eighteenth Ward, shall contain all that part of the city bounded by and lying within Twentieth street, First avenue, Twenty-sixth street and East river.

NINETEENTH WARD.

§ 20. The Nineteenth Ward shall be divided into five election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Nineteenth Ward, shall contain all that part of city bounded by and lying within Fifty-second street, Third avenue, Fortieth street and Sixth avenue.

The second election district of the Nineteenth Ward, shall contain all that part of the city bounded by and lying within Fifty-second street, East river, Fortieth street and Third avenue.

The third election district of the Nineteenth Ward, shall contain all that part of the city bounded by and lying within Sixty-eighth street, East river, Fifty-second street and Sixth avenue, including Blackwell's Island, (in the East river) belonging to the city, and within its jurisdiction.

The fourth election district of the Nineteenth Ward, shall contain all that part of the city bounded by and lying within Eighty-sixth street, Third avenue, Sixty-eighth street and Sixth avenue.

The fifth election district of the Nineteenth Ward, shall contain all that part of the city bounded by and lying within Eighty-sixth street, East river, Sixty-eighth street and Third avenue.

TWENTIETH WARD.

§ 21. The Twentieth Ward shall be divided into fourteen election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Hudson river and Twenty-sixth street, Ninth avenue and Twenty-eighth street.

The second election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Hudson river and Twenty-eighth street, Ninth avenue and Thirtieth street.

The third election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Hudson river and Thirtieth street, Ninth avenue and Thirty-fourth street.

The fourth election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Hudson river and Thirty-fourth street and Ninth avenue and Thirty-seventh street.

The fifth election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying

within Hudson river and Thirty-seventh street, Ninth avenue and Fortieth street.

The sixth election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Twenty-sixth street and Ninth avenue, Thirty-first street and Eighth avenue.

The seventh election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Thirty-first street and Ninth avenue, Thirty-sixth street and Eighth avenue.

The eighth election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Thirty-sixth street and Ninth avenue, Fortieth street and Eighth avenue.

The ninth election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Twenty-sixth street and Eighth avenue, Twenty-eighth street and Sixth avenue.

The tenth election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Twenty-eighth street and Eighth avenue, Thirtieth street and Sixth avenue.

The eleventh election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Thirtieth street and Eighth avenue, Thirty-second street and Sixth avenue.

The twelfth election district of the Twentieth Ward, shall contain all that part of the city bounded by and lying within Thirty-second street and Eighth avenue, Thirty-fourth street and Sixth avenue.

The thirteenth election district of the Twentieth Ward shall contain all that part of the city bounded by and lying within Thirty-fourth street and Eighth avenue, Thirty-sixth street and Sixth avenue.

The fourteenth election district of the Twentieth Ward shall contain all that part of the city bounded by and lying within Thirty-sixth street and Eighth avenue, Fortieth street and Sixth avenue.

TWENTY-FIRST WARD.

§ 22. The Twenty-first Ward shall be divided into eleven election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Twenty-first Ward, shall contain all that part of the city bounded by and lying within Twenty-sixth street and Third avenue, Twenty-eighth street and East river.

The second election district of the Twenty-first Ward, shall contain all that part of the city bounded by and lying within Twenty-eighth street and Third avenue, Thirtieth street and East river.

The third election district of the Twenty first Ward, shall contain all that part of the city bounded by and lying within Thirtieth street and Third avenue, Thirty-second street and East river.

The fourth election district of the Twenty-first Ward, shall contain all that part of the city bounded by and lying within Thirty-second street and Third avenue, Thirty-fourth street and East river.

The fifth election district of the Twenty-first Ward, shall contain all that part of the city bounded by and lying

within Thirty-fourth street and Third avenue, Thirty-sixth street and East river.

The sixth election district of the Twenty-first Ward, shall contain all that part of the city bounded by and lying within Thirty-sixth street and Third avenue, Thirty-eighth street and East river.

The seventh election district of the Twenty-first Ward, shall contain all that part of the city bounded by and lying within Thirty-eighth street and Third avenue, Fortieth street and East river.

The eighth election district of the Twenty-first Ward, shall contain all that part of the city bounded by and lying within Fortieth street, Third avenue, Thirty-sixth street and Sixth avenue.

The ninth election district of the Twenty-first Ward, shall contain all that part of the city bounded by and lying within Thirty-sixth street, Third avenue, Thirty-second street and Sixth avenue.

The tenth election district of the Twenty-first Ward shall contain all that part of the city bounded by and lying within Thirty-second street, Third avenue, Twenty-ninth street and Sixth avenue.

The eleventh election district of the Twenty-first Ward, shall contain all that part of the city bounded by and lying within Twenty-ninth street, Third avenue, Twenty-sixth street and Sixth avenue.

TWENTY-SECOND WARD.

§ 23. The Twenty-second Ward shall be divided into eight election districts, the extent and limits of which said election districts shall be as follows:

The first election district of the Twenty-second Ward, shall contain all that part of the city bounded by and lying within Forty-fourth street, Sixth avenue, Fortieth street and Ninth avenue.

The second election district of the Twenty-second Ward, shall contain all that part of the city bounded by and lying within Forty-ninth street, Sixth avenue, Forty-fourth street and Ninth avenue.

The third election district of the Twenty-second Ward, shall contain all that part of the city bounded by and lying within Fifty-sixth street, Sixth avenue, Forty-ninth street and Ninth avenue.

The fourth election district of the Twenty-second Ward, shall contain all that part of the city bounded by and lying within Forty-fourth street, Ninth avenue, Fortieth street and Hudson river.

The fifth election district of the Twenty-second Ward, shall contain all that part of the city bounded by and lying within Forty-ninth street, Ninth avenue, Forty-fourth street and Hudson river.

The sixth election district of the Twenty-second Ward, shall contain all that part of the city bounded by and lying within Fifty-sixth street, Ninth avenue, Forty-ninth street and Hudson river.

The seventh election district of the Twenty-second Ward, shall contain all that part of the city bounded by and lying within Sixty-fifth street, Sixth avenue, Fifty-sixth street and Hudson river.

The eighth election district of the Twenty-second Ward, shall contain all that part of the city bounded by and lying within Eighty-sixth street, Sixth avenue, Sixty-fifth street and Hudson river.

DOCUMENT No. 25.

BOARD OF ALDERMEN,

JULY 11, 1859.

The following communication from the Croton Aqueduct Department, presenting a record of its transactions for the last six months, from January 1 to July 1, 1859, was received, laid on the table, and directed to be printed.

D. T. VALENTINE, *Clerk.*

CROTON AQUEDUCT DEPARTMENT,

July 9, 1859.

To the Honorable the Common Council:

The Croton Aqueduct Board have the honor of presenting the following report, under the provisions relating thereto in the charter of 1857. This report embraces the fiscal condition of the Department, with a record of its executive transactions for the past six months.

RECEIPTS AND DISBURSEMENTS.

*City Treasury in account with**The Croton Aqueduct Department, DR.*

To disbursements on account of Aqueduct Repairs and
Improvements for six months ending July 1, 1859.

Respectfully submitted,

M. VAN SCHAICK, *President.*

The following contracts have been awarded under ordinances of the Common Council.

Those marked in margin A, are completed.

" " B, are in progress.

" " C, are awaiting confirmation.

I. SEWERS.

B—1. Forty-first street, from the sewer in Madison avenue, to the easterly line of Fifth avenue.

A—2. East Broadway, from the sewer in Pike street, to the sewer in Rutgers street.

3. Withdrawn for amendment by Common Council, and readvertised as No. 24.

B—4. Seventh avenue, from the sewer in Fifty-sixth street, to a point thirty-five feet south of Fifty-eighth street.

A—5. Front street, from the sewer in Old slip, to near Gouverneur lane.

B—6. Ludlow street, from the sewer in Rivington street, to within one hundred feet of Delancey street.

A—7. Greenwich street, from the sewer in Perry street to near Charles street.

A—8. Washington street, from the sewer in Cortlandt street, to near Liberty street.

B—9. Henry street, from the sewer in Pike street to Birmingham street.

B—10. Thirty-sixth street, from the sewer in Thirty-sixth street at the easterly curb of Seventh avenue to near Broadway.

B—11. Fifty-fourth] street, from the East river to a point eighty feet east of Second avenue.

B—12. East Broadway, Columbia and Grand streets, from the sewer in Broome street, to a point thirty-three feet east of Gouverneur street.

B—13. Seventeenth street and Ninth avenue, from sewer in Ninth avenue at Sixteenth street, to the westerly line of Eighth avenue.

B—14. Fiftieth street, from the sewer in Second avenue to a point sixty-four feet east of the easterly line of Third avenue.

A—15. Downing street, from the sewer in Bedford street to a point about one hundred feet east of Varick street.

B—16. Fifty-first street, from the sewer in Ninth avenue to a point about three hundred and fifty feet east of Ninth avenue.

B—17. Twenty-fourth street, from Tenth avenue to about one hundred and fifty feet west of Eighth avenue.

A—18. Washington street, from the sewer in Cedar street to a point about thirty feet north of Albany street.

B—19. Eighty-sixth street, from East river to the west line of Third avenue; and in Third avenue, from Eighty-fourth to Eighty-sixth street, with branch in Eighty-fifth street.

B—20. Forty-seventh street, from the sewer in Seventh avenue to a point one hundred and seventy-five feet west of Broadway.

B—21. Essex street, from the sewer in Division street to a point opposite No. 10 Essex street.

B—22. Eighth avenue, from the sewer in Sixteenth street to a point twenty feet north of Fifteenth street.

B—23. Tenth avenue, from the sewer at Forty-sixth street to a point one hundred feet north of Forty-sixth street.

C—24. Thirty-fourth street, from Hudson river to a point two hundred and seventy-five feet east of Tenth avenue.

C—25. Ludlow street, from sewer in Hester street to a point seventy feet northerly from Canal street.

C—26. Seventh avenue, from sewer in Forty-first street to a point forty-five feet south of Forty-second street.

C—27. Forsyth street, from sewer in Grand street to a point sixty-nine feet south of Broome street.

C—28. Fifty-third street, from sewer in Third avenue to one hundred feet west of Fourth avenue, with lateral branches in Lexington avenue.

C—29. Attorney street, from the sewer in Houston street to a point sixty feet north of Stanton street.

C—30. East Broadway, from the sewer in Market street to the sewer in Pike street.

C—31. Sixty-first street, from Third avenue to a point eighty feet west of Second avenue.

C—32. One hundred and twentieth street, from the Third avenue to the East river.

II. PAVEMENTS.

(a) *Trap-block Pavement.*

B—3. Thirty-ninth street, between Second and Third avenues.

B—5. Columbia street and Avenue D, from Grand street to Eleventh street.

C—6. Fifth avenue, from Washington square to Forty-second street.

B—8. Thirty-seventh street, between Fifth and Sixth avenues.

C—9. Thirty-sixth street, between Fifth and Sixth avenues.

C—10. Forty-fourth street, between Sixth avenue and Broadway.

C—11. Sixth avenue, from Carmine to Forty-second street.

C—12. Fifty-second street, from Second to Third avenue.

C—13. Forty-ninth street, from Third to Lexington avenue.

C—15. Eighth avenue, from Hudson to Forty-second street.

C—16. Eighteenth street, from Broadway to Sixth avenue.

C—17. Thirty-fourth street, from Fourth to Ninth avenue.

C—18. St. Mark's place, from east side of First avenue to the west side of Third avenue.

C—20. Fifty-third street, between Broadway and Eighth avenue.

C—21. Forty-sixth street, between Fifth and Sixth avenues.

C—22. Battery place, from Broadway to the pier.

(b)—Cobble Stone Pavement.

7. Forty-third street, Eleventh avenue to Hudson river.

14. Forty-second street, from Tenth avenue to Hudson river.

(c)—Cross-walks.

C—19. Laying and relaying cross-walks on Second, Third and Fourth avenues, from Seventy-ninth to Ninety-fifth street.

III. MISCELLANEOUS.

B—1. 1,500 five-eighth-inch brass stop-cocks.

B—2. 2,500 cast-iron pipes, six inches in diameter.

B—3. 50 12-inch, and 50 6-inch cast-iron stop-cocks.

DOCUMENT No. 26.

BOARD OF ALDERMEN,

JULY 11, 1859.

The following communication from his Honor the Mayor, transmitting decision of Supreme Court in West Washington market case, was received, laid on the table and ordered to be printed.

D. T. VALENTINE, *Clerk.*

MAYOR'S OFFICE,
New York, July 11, 1859.

To the Honorable the Common Council:

GENTLEMEN:—In the month of April, 1858, a lease was granted to James B. Taylor and Owen W. Brennan, by the Commissioners of the Land Office of this state, of the entire land known as West Washington Market, with the piers adjoining the same, at a yearly rent of five thousand dollars.

Taylor and Brennan, soon after commenced a suit in ejectment, against the city, and one hundred and eighty-

six persons, tenants of the Corporation, who occupied stands for market purposes on the land, as well to recover the possession thereof, as for the rents of the premises. The proceedings were, however, afterwards amended by adding the People of the State as complainants.

An application was also made by the complainants before Justice Davies for the appointment of a receiver of the rent of the tenants. This was opposed on the part of the city, but the motion was successful, and the Receiver, who was thereupon appointed, subsequently took charge of the rents.

From the decision thus made by Justice Davies, an appeal was taken to the full Bench of the Supreme Court, which, as I am informed, reversed the decision of the Justice; but, as Taylor and Brennan afterwards discontinued their action as against the city, no formal order was entered of such reversal.

The suit having been discontinued against the city, their tenants were left as the only defendants therein. In consequence of this, they requested, in a letter to me, which I transmitted to the Common Council in the month of January last, that the city should take upon itself their defense. In this communication, deeming the city the only party actually interested, I recommended that the Counsel to the Corporation be directed to take charge of such defense, and a resolution to that effect was promptly adopted by your Honorable Body.

Before, however, the Counsel to the Corporation was substituted in the suit, a default was taken about the 12th of May last, against all these tenants, and a judgment was entered against them for over sixty-nine thousand

dollars. A writ of possession was thereupon delivered to the Sheriff, who proceeded, about the 23d of May, to remove the parties in occupation. It was only then that the Counsel to the Corporation learned of the rendering of the judgment. He at once took vigorous measures to open the default, and set aside the judgment; and after an able argument by him, on the motion made for this purpose, assisted by Wm. Curtis Noyes and John McKeon, Esq's, as associate counsel, a decision was rendered on the 9th instant, by Justice Roosevelt, setting aside the inquest, and all the subsequent proceedings of the complainants.

The able and conclusive opinion of this distinguished jurist made on the occasion, which is herewith transmitted, it will be seen, not only completely vindicates the claim of the city to the land, but it also shows that the lease of the state to Taylor and Brennan was entirely void, as the state officers had no authority to make the same. The learned Judge, besides, orders that the Receiver shall account for all the sums received by him, and that they be paid over into the city treasury. He also orders, that an injunction issue to prevent the tenants from paying to, or the Receiver from collecting any rents from the premises. They are to be paid, as heretofore, to the agents only.

The result of this proceeding is of great importance to the Corporation, for which it establishes its rights; it at the same time turns into its treasury a considerable portion of its revenues from the pockets of private individuals, into which it had been sought unjustly to divert them.

DANL. F. TIEMANN, *Mayor*.

SUPREME COURT.

SPECIAL TERM.

Before Hon. Judge ROOSEVELT. James B. Taylor, &c.,
vs. The City of New York, &c.

The Corporation of the city, it appears, having filled in the plot of about four hundred and sixty feet square, constituting the water front of the old Washington Market, and constructed a bulkhead and piers in connection with it, gave permits, from time to time, to various persons, (more than one hundred and eighty in number), to erect upon it temporary sheds, for the sale of meats and vegetables, "the respective occupants" paying, as the complaint avers, a "weekly" sum or rent "for the use thereof."

On the 24th of April, 1858, while the city was thus in possession of the premises, claiming the ownership, and receiving from them a revenue, in the aggregate exceeding fifty thousand dollars per annum, the Commissioners of the Land Office, in the name of the people of the state, for reasons not very satisfactorily explained in the papers before the court, and seemingly without notice to the city authorities, executed to James B. Taylor and Owen W. Brennan, two of the plaintiffs, a lease of the whole plot, at a rent for one year of five thousand dollars, and with a covenant, if valid, binding the state to maintain them, (the two lessees), in peaceable and quiet possession.

Immediately upon the execution of the lease, Taylor and Brennan, in their own names alone, instituted an eject-

ment, or quasi ejectment against the city and its one hundred and eighty tenants, to indemnify themselves for the five thousand dollars, payable by them into the state treasury, by withdrawing ten times that amount, and more, from the treasury of the city—a not unimportant portion of the state.

The complaint, in its original shape, being soon found to be defective, an amended one was filed, making the people of the state co-plaintiffs, and paying, among other things, in addition to “the rendering of possession to the plaintiffs, (that is, the people and Taylor and Brennan), or to such of them as shall be declared entitled thereto,” that the defendants may be adjudged “to pay them jointly or severally, the sum of one hundred thousand dollars damages for the rents, issues and profits, whilst the same have been unlawfully withheld from the plaintiffs.”

This complaint is verified by James B. Taylor; but, instead of being subscribed as usual by one name or firm, as “attorneys for the plaintiffs,” it purports to be signed by the Attorney General, for the people, and by other attorneys for Taylor and Brennan.

On the 15th of February, about nine months after its commencement, with the consent of the attorney for the city, and, on motion of the attorney of Taylor and Brennan, nothing being said in the order as to any motion or consent on the part of the people, the other plaintiffs, the suit, as against the city, “costs having been paid,” was discontinued—so far at least as such an order could have an effect.

Having thus disposed of the city, the only real party to the controversy, and having made some arrangement, as

may be inferred, with one or more of the other defendants, the precise nature of which does not appear, the plaintiffs, on the 13th of May, 1859, brought the cause on to a nominal trial, their adversaries, as the order expresses it, "having, by failure to appear, waived a trial by jury," and the judges "thereupon found and directed judgment to be entered as follows": in substance, first, that one set of plaintiffs, to wit, the people, recover possession of the land; second, that the other set, to wit, Taylor and Brennan, having been previously entitled to possession of the premises for the year just expired, recover possession of the rents for that period, adjusted at the sum of sixty-nine thousand one hundred and eight dollars and forty-five cents, to be paid by "the defendants," not proportionately and respectively, but in solido, (that being the legal effect of the terms), "as damages for the withholding of the possession of the premises from the plaintiffs (Taylor and Brennan), from 1st of May, 1858, to 24th of April, 1859."

It will thus be seen, without reference to another feature in the transactions to which I shall presently advert, that Taylor and Brennan, in one year, recover, in round numbers, seventy thousand dollars, on an outlay of five thousand dollars, and that the city, at the same time, is dispossessed of the same amount of revenue, and of the fee of a property which, by the plaintiffs' showing, is worth more than a million, without a trial; and after the plaintiffs, or two of them at least, had voluntarily discontinued the suit, as against the city, and admitted it to be unfounded, by "paying the costs" of the defence. Nor is this all; the tenants, so called, the mere temporary occupants "respectively," of distinct and separate moveable

shanties, are made liable, not each for his own occupancy, but each for the whole plot, to the seemingly enormous *ex parte* assessment of seventy thousand dollars, and that, too, after they had already, by an interlocutory proceeding, as will presently be shown, been directed to pay their respective rents for the same identical period, to a receiver appointed by the order of the court, made at the instance of the plaintiffs themselves.

The statute, too, provides, (2 R. S., 307), that when an action is against several defendants, if it appear on the trial, (as it must necessarily have done in this case), that any of them occupy distinct parcels in severalty or jointly, and that other defendants possess other parcels in severalty or jointly, (that is, singly or in groups), the plaintiff shall elect, at the trial, against which he will proceed; which election shall be made before the testimony in the case shall be deemed closed, and a verdict shall thereupon, (as a sort of penalty), be rendered for the defendants not so proceeded against." In other words, if a plaintiff, as in this instance, shall bring an ejectment against a multitude of persons not holding in common, but in distinct and separate parcels, he shall, instead of recovering against all, pay the costs of all except one.

The well-known existence, at the time of such a provision of law, together with other circumstances already in part alluded to, demonstrates that the judgment complained of, must have been the result of collusion, accident, mistake or fraud. A tenant, whether by his own direct act, or by a collusive judgment, has no right or power to surrender the possession of his landlord to a stranger, against his landlord's consent. (1 R. S., 744.)

A fraudulent attornment is none the less fraudulent, and none the less void by being invested with the habiliments of a sham judgment, which itself, in such case, is one of the greatest indicia of collusion. It is to be observed that the judgment was obtained, notwithstanding that the defendants only, a few days before, had able and faithful counsel, and was obtained by default; and in its present extraordinary and illegal form, notwithstanding that those counsel, as the plaintiffs themselves show, then were paid nine hundred dollars to watch over the interests of their clients. And it is further to be observed, that notwithstanding the seemingly onerous, and certainly most irregular form of the judgment, one of the very defendants, against whom it stands on the record, is found making an affidavit to resist the motion to vacate the entry, and to let the parties in to defend their rights.

But the case does not stop here. On the very day of filing the first complaint, and before the name of the people was inserted in the proceedings, the plaintiffs obtained from one of the judges an order, usually very much a [matter of course, requiring the defendants to show cause, not before him, or before any of the judges, who might be present at chambers, but before another and a particular judge by name, why an injunction should not be issued, and a receiver appointed to take charge of the premises, and collect the rents. Although this notice of motion (an order to show cause is in substance nothing more), was returnable on the 17th of May, 1858, three days after its date, yet, for some reason unexplained, no hearing upon it was had till the 29th of June, and no decision till the 2d of August, clearly showing that the necessity for a private receiver, as against the ample guar-

antee of the city treasury, and that, too, in an ejectment suit, was not very pressing, even if the right had been undisputed, as it certainly was not, and as the admissions on the present argument show it could not be. A receiver in an ejectment suit is confessedly, in any case, a novelty—in a case where there is nothing to be injured, and (the city of New York not being quite yet insolvent) nothing to be lost, it is, I conceive, without a precedent—for even the one made by the special term order, in the present instance, was overruled, as I am informed, at the General Term, although the decision, in consequence, it is said, of the supposed discontinuance above referred to, was never formally pronounced.

On the 2d of August, nevertheless—erroneously as the written opinion of the General Term subsequently showed—a receiver (Mr. Cyrus Curtiss), was appointed, during the pendency of the action, and until the further order of the court, first giving security in the sum of twenty thousand dollars, and with directions to pay all moneys into the United States Trust Company, to be drawn out only on a judge's fiat, as the court should, from time to time direct.

Before, however, any action was had on this appointment, the city authorities, conceiving the order to be erroneous, appealed from it to the General Term, and on the 4th of August, pending the appeal, applied to another judge, as the practice permits, and obtained a stay of proceedings, without security, till a decision on the appeal could be had. On the 13th of the same month, another order, modifying the previous one, was obtained, allowing the receiver "to collect the rents," but without prejudice

to any motion to be afterwards made, &c. Mr. Curtiss, accordingly, with limited powers, entered partially upon the duties of the office of receiver. He was "at liberty (as the order declared), to collect the rents," until the decision of the General Term, unless even this "allowance" should previously to the hearing, be "vacated" by "any of the justices of this court." Judge Clerke, it is obvious, had great hesitation in modifying his absolute stay of proceedings, even to the above extent, and he finally concurred in reversing the order of the 2d of August, for an injunction and receiver altogether. Much of the present difficulty would have been obviated, had that reversal, like others at the same term, been duly announced, and entered of record before the discontinuance of the 15th of February. I see no reason, however—none that is insuperable—why the reversal actually agreed on by the court, may not now be entered *nunc pro tunc*, according to the fact, as of November, 1858.

Should, however, the order appealed from not be vacated in the manner indicated, the question will present itself, and it must prospectively be considered what was the effect upon it of the partial discontinuance of the suit itself after the order appointing a receiver in the suit, and the actual appointment under it, were made.

It is quite obvious, as it seems to me, that the intention of the Counsel to the Corporation in consenting to a discontinuance, exacting costs as a condition precedent, and of the counsel of the plaintiffs in paying the costs, was, that so far as the city was concerned, matters should be restored to their *statu quo*, and stand thereafter precisely as they stood before the commencement of the suit. With-

out a suit against the city, no receiver against the city could have been appointed. The order would not have been merely erroneous, but void. Striking out the city, therefore, was striking out the order, and a judicial declaration, therefore, for the guidance of the receiver, as an officer of the court, may properly be made to that effect. Such a declaration would not be a reversal by one judge of the order of another judge. It would be simply a judgment that the parties, by their own subsequent acts, had taken from under the order the basis on which it rested, and as a consequence that the order fell. In such a proceeding there is no unfitness or interference. The order of the 2d of August had, moreover, been temporarily modified or suspended by Judge Clerke. This he was authorized to do, pending an appeal, by express statute. Mr. Curtiss never was, therefore, put in possession of the premises, or authorized "to take charge of or to let the same." All proceedings in that direction were "stayed." He was "at liberty to collect the rents," meaning, of course, the rents of antecedent lettings by the city, and not to make new leases himself. He occupied consequently the position of a sheriff who has received moneys under an attachment, in a suit subsequently discontinued before judgment, and who of course must refund them to the defendant, to whom they originally belonged. For greater caution, perhaps, like the sheriff, he would require, and would be justified in requiring an order to that effect. But such an order would only declare, not give, rights. As to the land itself, the receiver having no possession himself, could give no possession to others; and the tenants, owing a duty to their landlord, the city, and having received possession from the city, could only atone to a

stranger by first obtaining the city's consent. An atonement of their own will, without such consent, is regarded in law as an act of quasi treason, and therefore void. The receiver consequently obtained no possession of the land by order of the court or by the act of the tenants. The one was suspended, and is so still; the other had no legal existence from the beginning.

As to the judgment, which was allowed to be entered by default, I have shown, I think, already, that it contains on its face the most unequivocal intrinsic evidence of collusion between some of the plaintiffs, and some, perhaps only one of the defendants, abundantly sufficient to set it aside as against the city, and all the defendants not implicated in the arrangement. There is, however, an additional circumstance, not yet adverted to, which materially strengthens this conclusion.

The same one of the defendants who, and who alone, in June, 1858, verified under oath an answer in opposition to the plaintiff's claims, and who, in June, 1859, presented an affidavit similarly verified by himself, in support of their claims, was furnished two days before the so-called trial of the cause, with a written substitute in blank to be filled up at his direction, signed by the then attorneys of all the defendants except the city, they receiving from him at the time (contributed by whom is not stated by him) the liberal compensation, as already shown, of nine hundred dollars for their past services. This substitution in blank (I quote his own affidavit) he kept, and still keeps, unacted on in his pocket—showing conclusively that its sole object, as understood at least by himself, was to discharge one attorney and not to provide for another—in other words,

to let his apparent adversaries quietly take by default any judgment in any form they might see fit, not only against himself, but also against his confiding associates; and against the city, too, if its effects be such as is now contended for by the plaintiff's counsel.

It is urged as a reason among others why the court notwithstanding should not interfere with the plaintiff's proceedings, that the affidavits and papers "clearly show that the city has no title to the premises." If that be so, it must be quite as clear that the execution of a lease by the state officers to two private individuals, for these same premises, yielding a rent of seventy thousand dollars and upwards, for five thousand dollars, to the prejudice of a city constituting in interest more than one-fourth of the state, and that, too, as far as appears without any public notice, was a very extraordinary measure. But the state officers, it appears, if we may rely on their report to the Senate, were not quite so clear as the counsel. They exacted, they say, from Taylor & Brennan, by authority of what law is not stated, before giving the lease or bond, to indemnify the state against "all costs and expenses incurred in any and all actions that should be brought to test the title to the demised premises;" thus, in effect, admitting that there was an adverse possession at the time, and that the city, if sued, might establish its title. They add also, to show their knowledge of the subject: "It is understood by the commissioners that the title of the state to the lands rests upon the ground that said lands have been made by filling in the Hudson river, without cost to the state, below high water-mark, and beyond the boundaries of any lands that had been previously granted, either by

the ancient charter of New York, or by any subsequent grant; that said lands having been formed by additions made to the bed of a public navigable river, the title thereto is vested in the people of this state. This title, however, is disputed by the persons claiming in hostility to the state, but upon what grounds these claims are based, the commissioners are not fully informed." Had they extended their researches the commissioners would probably have ascertained that the city indubitably owned the land, at least to (and four hundred feet beyond) low water-mark, and of course several feet more beyond the "high water" line. (See the charter.) They might also have ascertained, or at least have discovered, some probable ground for supposing, that the city not only owned to that extent the land under water, with the right of building on it, but with "all and singular the benefits, easements, advantages, &c., thereto belonging or appertaining," including, not improbably, the right of wharfage and navigation, and other uses of the 'water in front, to the exclusion, of course, of any right in the state, without just compensation, to deprive the city of these appurtenances, and lease them to another, especially if such lease were not for "public use," but mere private emolument. It may be that the filling in, if any, beyond the outer line fixed by law, wherever that line may be, was an injury to navigation, and as such, a purpresture or public nuisance, for which the city, if it occasioned any serious injury to the general public, might have been indicted by the state, and which, if practicable, the city might also, perhaps, have been compelled, not by the fiat of the Land Office, but by the will of the Legislature, to remove—for that or any other reason; (*Lansing vs. Smith*, 4 Wendel, 9,) but

did the ground formed by the encroachment constitute state land—"improved" state land—which the state officers could lease to private individuals, and not for the removal of the nuisance, if it was one, but for its continuance, to be built on and occupied to their profit, and to the prejudice of the city? The right of the state to the substratum of a navigable river below low water-mark, and four hundred feet beyond, does not, as it seems to me, come within the words "lands belonging to the state," (1 R. S., 198.) which the Commissioners of the Land Office are authorized "to lease, for terms not exceeding one year." To warrant such leasing, the law not only requires that the subject of the lease should, in the ordinary sense of the expression, be "lands belonging to the state," but "such lands belonging to the state as have improvements on them," and those improvements, too, justly and equitably, the property of the state, as well as the lands on which they were made. What color of authority, then, was there for the lease on which this action is founded? As it appears to me, none. Even the counsel who framed the amendments to the plaintiff's complaint, has impliedly signified an opinion to that effect. In the first clause as amended, he avers the right of the state to the possession of the premises, "unless a certain lease thereof to James B. Taylor and Owen W. Brennan, hereinbefore more particularly referred to, be valid." In the second clause he alleges that the Corporation of the city have taken possession thereof, "and, unless said lease be held valid," withhold "from the people the possession to their great damage." In the third clause, he avers that "under said lease, if the same be held valid, the plaintiffs, Taylor and Brennan, became lawfully possessed of the premises."

Such language, and such frequent repetition of it, are not usually characteristic of counsel entertaining a clear conviction of their client's pretensions.

To make the argument still stronger, however, there is an express statute, specially on the subject "of grants of land under water," (1 R. S., 208,) applying as well to leases for one or more years, as to conveyances in fee.

"The Commissioners of the Land Office," says that statute, "shall have power to grant in perpetuity or otherwise, so much of the lands under the waters of navigable rivers or lakes, as they shall deem necessary to promote the commerce of this state, or proper for the purpose of beneficial enjoyment of the same, by the adjacent owner; but no such grant shall be made to any person other than the proprietor of the adjacent lands, and any such grant that shall be made to any other person, shall be void."

The grant, therefore, to Taylor and Brennan, out of which this litigation has sprung, and on which the injunction and receivership and final judgment rests, is a direct violation of law, and not only of dubious validity, but absolutely void. Whatever, consequently, may be the title of the city—and it certainly is not to be determined, as in this case has been attempted, by the loose conversations, inaccurately reported, of corporate officials—whatever, I say, may be the city's title, Taylor and Brennan, it is clear, are not authorized to call it in question. They have no standing in court.

¶ So much for the state's grantees. As to the grantors, or rather the assumed agents of the grantors, their opinion on the subject, as already observed, may be measured by

comparing the five thousand dollars, for which they sold right for one year, with the seventy thousand dollars which they say they "proved" the rent for one year (on the trial) to be worth.

There is still another objection to be considered. This suit, it is apparent, although the name of the people has been made use of, was commenced for the benefit of individuals. Now the statute on the subject of "action of ejectment in the name of the people," especially declares (1 R. S., 180) that no such suit shall be commenced for the benefit of an individual without the consent of the Attorney General. And no such consent shall be given by the Attorney General, unless the individual desirous to prosecute the suit shall give security (not to the people, but) to the defendant for the payment of the taxable cost, in case the suit shall be determined in favor of the defendant." It is made "the duty" also of the Attorney General (section 1) "to prosecute and defend all actions in the event of which the people of this state shall be interested." Here no such consent was given or applied for, and of course no such duty performed, till long after "the name of the people" had been inserted in the complaint, and after the complaint had been matured into a judgment. And I do not admit that, in the case of a public officer, with power strictly defined by law, an *ex post facto* consent, given not by the principal but by the agent, can make that valid which before was void. Nor do I well see how the Attorney-General was to discharge "the duty" of "prosecuting," while he had no knowledge of the pendency of the prosecution. The name of the people, it appears, and of the Attorney-General was first used, in obtaining the injunction on the 26th of May, 1858.

A year, or thereabouts, after that date, in answer to a resolution of the senate, he reported that no such action had been commenced by him or by his authority, nor had he charge of any such action. He adds, however, that "on examination of the proceedings of the Commissioners of the Land Office—showing that he had no knowledge of the matter before—he finds a resolution entered in the "minutes," authorizing a distinguished member of the bar, by name, "to take charge of the interests of the state in the action brought to recover the possession of lands, known as West Washington Market, at the expense of the lessees."

Under what law such a resolution was passed I am unable to discover. The Attorney General himself in case of necessity, is undoubtedly "authorized to employ additional counsel." (1 R. S. 181, sec. 17.) But a resolution of the Land Commissioner, although he be one of the members of the Board, especially if he was not present (and the law, as it does, gives all the power to the majority) is clearly not "an employment by the Attorney General." It is an employment, if at all, by the Board, as a Board, and not by either of its *ex officio* members, and in their distinct and separate capacities. And how could private counsel thus employed, without the knowledge of the Attorney General, and without informing him of the existence of the suit, be said to be "counsel additional to him?" The resolution referred to was, therefore, a nullity, and remains a nullity, notwithstanding the action of the Attorney General on the 8th of June last. His *post mortem* letter of that date, "consenting that the action be continued in the name of the people," cannot resuscitate a dead proceeding, and one which never had any vitality. All the important steps in the suit—the complaint, the injunction, the receiver, the *ex parte* trial, the judgment,

the execution, the dispossession—all were prior to the date of that consent, and were, therefore, all illegal and void, as against both the city and the state; and it was not competent to the Attorney General, by any *ex post facto* volition on his part to prevent their being so declared, or to deprive the city of its rights resulting from their invalidity. They were void—not voidable. There was no power in the Land Board prospectively to dispense with the Attorney General; and no power in the Attorney General retrospectively to dispense with himself. The consent of the Attorney General on the 8th of June that the action—meaning, of course, so far as anything after that date was to be done—should be continued in the name of the people, was no doubt sufficient to warrant any subsequent proceedings. But his “desire” accompanying it “that no objection based upon the allegation of any want of authority to prosecute said action in the name of the people as plaintiffs, should prevail,” although entitled to the most respectful consideration as matter of courtsey, can have no retroactive effect as matter of law. The law of the land and the rights of parties are superior alike to the “desires” and the “consents” of public officers, however exalted. They can neither dispense with the one nor divert or interfere with the other.

Counsel have cited a section of the act in relation to the office of Attorney General, (1 R. S., 181) in which an incidental allusion occurs to actions of ejectment “brought by the Attorney General, or by the direction of the Commissioners of the Land Office.” I see no incongruity, however, in allowing the Commissioners, in certain cases, to direct suits, and at the same time, by another section, providing that such suits, when so directed by the Com-

missioners, shall be "prosecuted" by the Attorney General, and by him alone, unless he, and not the Commissioners, shall see fit, by reason of the press of "other official duties," to employ "additional counsel." If this view of the law be correct—and I see no reason to doubt it—the appointment by the Commissioners of private counsel "to take charge of the interests of the State" in this action, was an oversight, and gave no authority to the distinguished appointee, beyond what he received from his individual clients. The people, consequently, as matter of law, were not represented in the suit, and incurred no obligations and acquired no rights, either from the order in question, or from the undefended judgment that followed upon it.

But the Commissioners had no authority to "direct" an action in the present case, no matter by whom conducted. "The general care and superintendence of all lands belonging to the state (1 R. S., 198) interpreted by the whole scope of the statute, is a power clearly having no application to the bed of the Hudson river. It means lands in the common acceptance of that term—lands wild or improved, of which the State was the original owner, or to which it had become entitled by foreclosure, or purchase, or escheat, or gift. It surely could never have been contemplated that by the use and by the mere force of these general expressions, the Commissioners of the Land Office were to "survey" or "sell" or "grant" or "lease" the bed of the Hudson "for the promotion of the settlement thereof," taking care to observe the injunction "not to "sell more than twenty thousand acres at any one action," and to "expose to sale each lot separately." (1 R. S., 201) or that they were to direct ejectment suits to preserve the bed of the Hudson from obstruction, any more than that

they were to preserve it from obstruction by granting leases to private individuals, with liberty by implication to fill it up and build on it themselves, or to build on the filling already done at the expense of the city.

“Actions of ejection brought by the direction of the Commissioners of the Land Office,” means necessarily, actions which the Commissioners were authorized by law to direct the Attorney General to commence and prosecute. This was not such an action. It was not an incident to the power of taking “care of the lands of the State.” Lands under water were not the lands intended by the general provisions. They were provided for, as we have seen, specially in a distinct article, containing no authority, express or implied, to direct an ejectment for what the law denominates a nuisance or purpresture—a wrong, if seriously prejudicial, to be redressed by the Legislature, or perhaps by the Grand Jury, certainly not by the Land Office.

The direction, moreover, if given, was a direct violation of the spirit of the statute of champerty and maintenance. Its object and intent were to give effect to the lease. That lease, to the extent of the terms embraced in it, was the sale, not by the people or their legislative representatives, but by executive officers with defined and limited powers, of “a pretended right or title” to lands of which the grantor was not “in possession.” And we can hardly presume that the legislature, without expressing language to that effect, intended to authorize public officers to do an act essentially wrong in itself, and as to which, by a general law, they had declared that “no person” should do it, and that every person violating the commandment, should be “deemed guilty of a misdemeanor.” (2 R. S., 691.)

From what has been said, and from other arguments which will readily suggest themselves, the following propositions may be deduced:

First. That the lease granted by the Commissioners of the Land Office, in the name of the people of the State, at a rent of less than one-tenth of the value of the term, taking a bond of indemnity against costs, and giving an inconsistent covenant for quiet enjoyment, was confessedly on its face, the lease of a lawsuit, in violation of the spirit, if not of the letter, of the statute of champerty, and therefore, void.

Second. That although the people, through their representatives in the legislature, can make that legal which, by the general law is illegal, their executive functionaries entrusted with special limited duties, have no such dispensing power. The unauthorized use of the name of the people does not make the deed the act of the people.

Third. The lease, had there been no adverse possession, was equally void as "a grant of land under water," made not for "the promotion of commerce," but for the mere emolument of private individuals.

Fourth. That it was void also as a grant of land under water to persons "other than the proprietors of the adjacent lands."

Fifth. That the lease being void, the lessees had no standing in court to call in question, either the title of the city or its mode of management.

To warrant the appointment of a receiver before judgment, the Code requires (sec. 244) that the party shall "establish an apparent (that is, a *prima facie*) right to the property which is the subject of the action, and which is in the possession of the adverse party;" and also that he shall establish, as a matter of fact, that "the property,

or its rents and profits, are in danger of being lost or materially injured or impaired."

Taylor and Brennan did neither. No injury to the shanties was pretended, and if it had been, the injury was no wrong to the plaintiffs. And as to any loss of rents, the metropolitan city of the United States being responsible for the value of the use, whether more or less than the actual receipts, the security, it may be presumed, was not less ample than the individual bond for twenty thousand dollars of a private receiver.

Sixth. The alleged conversations of individual members of the city government (even if not denied, as they substantially were) are no evidence in law to determine or to divest the city's title to its real estate, of which it is confessedly in possession, which was in effect created by the city, and of which the city claims to be the owner in fee.

Seventh. That the judgment by default and the proceedings upon it were in the nature of a collusive attainment made by tenants, to the prejudice and without the consent of their landlord, and therefore void.

Eighth. That the defendants having made out a clear case of merits on their part, as well as of demerits on the part of their adversaries, are entitled on that ground to have the default opened and to be allowed to defend.

Ninth. That the judgment entered against all the respective occupants, in solids, for the aggregate rental of the whole premises, notwithstanding the implied admissions in the complaint, instead of a judgment for costs in favor of all the defendants, but one against the plaintiffs, was contrary to law.

Even if the complaint did not admit the separate occupancy in distinct parcels, the affidavits show the fact indisputably, and that it would be established on the trial, should a real trial be had.

Tenth. That the default allowed by one of the defendants, while holding a substitution in his hands, in collusion with the plaintiffs, was a fraud upon the other defendants, and should, for that reason, were there no other, be opened, and all the proceedings founded on it set aside.

An order will accordingly be entered—its form to be first settled by the court—to the following effect:

1. That the order of the 2d August, granting an injunction and appointing a receiver, be annulled or vacated, and the rents collected under it accounted for before a referee, and the balance paid over by the receiver, on passing his accounts to the city, and deposited in the treasury.

2. That the default taken at the Circuit Court in consequence of the failure of the tenants to appear, be opened, the judgment entered thereon vacated, and the execution and all subsequent proceedings, including the attornments, if any signed by the occupants, set aside.

3. That the order of discontinuance, irregularly entered (without the consent of the people) on the supposed consent of all parties, and on the impliedly conditional and misapprehended or misapplied consent of the Corporation Counsel, be either discharged and the city reinstated as co-defendant in the action; or if not, that the city be allowed as the sole party to defend, in the place of and without regard to their nominal, and in some respects disloyal, tenants, whose "weekly" occupancy, as existing at the commencement of the suit, has necessarily long since expired.

4. That for greater caution an injunction issue restraining the occupants from paying to the plaintiffs or the receiver, and the plaintiff and the receiver from collecting of the occupants, any rents or moneys whatever for the use or occupancy of the premises in question until the further order of the Court.

DOCUMENT No. 27.

BOARD OF ALDERMEN,

JULY 14, 1859.

The following Communication from the Comptroller, transmitting a summary of Expenditures on City Account, also upon the several Special and Trust Accounts, for and during the first half of the present fiscal year, ending June 30th, was received, laid on the table and directed to be printed.

D. T. VALENTINE, *Clerk.*

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, July 14, 1859.

Gentlemen of the Common Council:

I transmit herewith a statement giving a summary of expenditures on City Account, also upon the several Special and Trust Accounts for and during the first half of the present fiscal year, ending June 30th, amounting, in the aggregate to eight millions nine hundred and forty-four thousand five hundred and five dollars, and five cents. (\$8,944,505 05.) *

Respectfully submitted,
ROBT. T. HAWS, *Comptroller.*

* The details of these accounts are shown by the Quarterly Reports of bills and claims audited.

CORPORATION OF THE CITY OF NEW YORK.

APPROPRIATIONS AND EXPENDITURES FOR AND DURING THE YEAR 1859.

“No portion of said respective sums shall be expended or applied to any other purposes or objects, than said objects and purposes respectively for which the Board of Supervisors of said City and County of New York are empowered to raise the same.”—*Tax Law*, 1859.

Trust and Special Accounts in *Italics*.

DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,
July 14, 1859.

ROBT. T. HAWS, *Comptroller*.

DOCUMENT No. 28.

BOARD OF ALDERMEN,

JULY 14, 1859.

The following communication from the Street Commissioner, transmitting his Semi-annual Report, was received, laid on the table, and directed to be printed.

D. T. VALENTINE, *Clerk.*

STREET COMMISSIONER'S OFFICE,
New York, July 14th, 1859.

To the Honorable the Common Council :

GENTLEMEN:—In compliance with section 29 of the Charter of 1857, which requires that "every head of department shall report in writing to the Common Council quarterly, the state of his department, with such suggestions in relation to the improvement thereof, and to the public business connected therewith, as he may deem advisable," I have the honor to submit the following report for the first six months of the present year.

No report was submitted at the end of the first quarter, for the reason, that the appropriations for the year were not made until after the expiration of that time.

On the 19th of April last, the Legislature of the State passed an Act authorizing the raising of money by tax to meet the current expenses of the city of New York, for the year 1859. This city was, up to that time, without authority to appropriate money for any purpose whatever, with the exception of unexpended balances, already appropriated for specified purposes, and which cannot, without violation of law, be diverted to other objects.

Such a state of things is productive of great irregularities and uncertainty in business, very embarrassing under any circumstances, and really dangerous to the best interests of the city, and to all law and order, because the Charter declares, that "no expense shall be incurred by any of the departments or officers thereof, whether the object of expenditure shall have been ordered by the Common Council or not, unless an appropriation shall have been previously made covering such expense."

This had been foreseen, and various communications relative thereto were made to the Common Council by this department, from time to time, during the year 1858.

The Finance Committee of the Board of Councilmen, in a report to that body, dated December 28th, 1858, recommended that the Common Council urge upon the Legislature the propriety of changing the commencement of the fiscal year of this city, from the first of January to the first of July, in order to avoid the uncertainty and doubt now attending the legality of all the expenditures of the city government incurred previous to the passage of the Tax Levy by the Legislature.

The Mayor, in his last Annual Message, states his opinion, that it is important that the fiscal year for this

city be changed from the first of January to some later period in the year, and gives conclusive reasons therefor.

In compliance with the plain and mandatory terms of the charter, and in view of the action of the Common Council and opinion of the Mayor, there was, fortunately, no room for doubt as to what course it was my duty to pursue. My first official act this year, was, therefore, the transmittal of a communication on the day of the organization of the two Boards of the present Common Council, stating the necessity for refusing to incur further expenditures under the direction and control of the Street Commissioner, until appropriations were made therefor, and asking authority from your Honorable Bodies to incur such expenditures as were necessary to the well-being of the city government, and essential to the safety of property.

Again, on the 13th day of January, in a communication to your Honorable Bodies, after calling your attention to the dangerous and disorganizing state of things then existing, I said : "To prevent the recurrence of this condition of affairs next year, it is necessary for the present Legislature to make provision for expenditure to be incurred by the city government, during at least two or three months of the year 1860."

The want of money with which to meet current necessary expenses, was highly detrimental to the business of the department, injurious to the interests of the city, and unsatisfactory and annoying to all. The Street Commissioner's duties, as I understand them, are executive—not legislative—to obey, not to make, laws; I therefore awaited the action of the law-making power.

Certain expenses were, however, incurred by the different departments before the passage of the Tax Levy, notwithstanding the efforts of this department; and the Deputy and Acting Street Commissioner considered it best, under all the circumstances, after the passage of the Tax Levy, to audit and pass accounts for such expenditures, on the certificate of the head of the department under which the expense had been incurred, rather than go into Court with almost a certainty of a verdict against the city.

The passage of the appropriation bill by the Common Council, and its approval by the Mayor on the 17th of February, gave some relief; for the unexpended balances reappropriated were thus made available; but the annual appropriation was *not* available until the Supervisors were empowered by the Legislature to raise the money by tax; its passage by the Common Council being but a preliminary, upon which to base their application to the Legislature for an enabling act.

Various communications from this department, during the year 1858, the report of the Finance Committee of the Board of Councilmen of last year, upon the Tax Levy for 1859, the Mayor's annual message of January last, all agree in urging upon the Common Council and the Legislature the necessity for wording the Act (making or authorizing appropriations,) in such manner, that there should be no mistake in regard to what work was to be done, or supplies furnished, or under whose authority the expenditure was to be made, and what amount of money should be applied to the purpose. The Common Council of this year prepared such an ordinance, and based thereon an application to the Legislature for power to

raise money by tax. The Legislature, in the act authorizing the Tax Levy, entirely ignoring the "specific and definite appropriations" to be expended under the direction of particular heads of departments, went back to the old plan, arbitrarily and largely reducing gross amounts, without a word as to what work or supplies were to be omitted; leaving this point to be determined by a general scramble, resulting in exhausted appropriations and large arrearages.

Before entering upon an account of the actual business of this department for the present year, I would respectfully and urgently request the attention of your Honorable Bodies to the recommendations contained in my annual report for last year, and to those of the Superintendents of the various bureaux under my charge, and to communications made from time to time, during the last six months not yet acted upon, a synopsis of which is hereto appended, marked C.

The offices of the Street Commissioner, and of the Bureaux of this Department, with the exception of those of the Collector of Assessments, and the Chief Engineer of the Fire Department, were removed to No. 39 Park Row in March last. This has enabled me to assign proper offices to the superintendents and clerks, thereby affording them proper facilities for the transaction of their official duties, and bringing the different bureaux of the department more under the immediate supervision and control of the Street Commissioner.

The system upon which the books, accounts, payments, correspondence and general office business of this department is conducted, was fully described in my last annual report. Under this system it would require connivance

and collusion on the part of very many persons to conceal any portion of the details even, of the business transactions of this department—alteration of records without detection is next to impossible. I am perfectly aware of the fact, that all that portion of the business pertaining to the offices may be admirably conducted, and still, if the actual work is not well executed, the whole is practically a failure. The out-door work is in many respects well executed, but in this particular the affairs of the department are not entirely satisfactory. Serious attention is given to this subject by officers of the department, and I would recommend that a change be made in the duties, manner of appointing and rate of compensation of inspectors of work done by contract. There is no use in making specifications unless contractors are compelled to comply with them. The Superintendents of many of the bureaux are very much confined by office duties. The same is the case with both the Commissioner and Deputy Commissioner. We must therefore of necessity rely, in great degree, upon the judgment and integrity of the inspectors, in regard to the execution of work in accordance with detailed specifications. It is very important that these officers should be competent and reliable men, thoroughly identified with the department, experienced in their duties, and able to compel compliance (on the part of contractors) with the specifications for work. I would respectfully suggest that this department be authorized by ordinance to appoint, say not to exceed, eight inspectors of work done by contract under the Bureau of Street Improvements; four inspectors of work done by contract under the Bureau of Wharves, and two inspectors of work done by contract under the Bureau of

.

.

Roads; and that each inspector be paid monthly for his services, at the rate of nine hundred dollars per year. I am sure that by this means contract work would be better executed, and at a less cost for supervision than it has heretofore been. Under the present system it is usual to appoint an inspector on each work done by contract; whether the time is long or short, the work important or unimportant, at a uniform rate of two dollars per day. This duty is not, by any means, always performed satisfactorily; it admits of improvement, the best way of effecting which is the one above recommended.

The number of inspectors of work done by contract employed by this department on the 30th of June last was twenty-six. (See Appendix, marked F.)

If the services of a sufficient number of competent inspectors can be permanently secured, the business of this department will be in about as good condition as it can well be placed, under existing laws; but in my annual report for 1859, referring to a change in the fiscal year, and the necessity for specific appropriations to be expended, under appropriate heads of departments, I stated "I do not hesitate to say, that until these changes are made, the business of this department cannot be properly conducted." I have had no cause to change this opinion; on the contrary, I adhere to, and reiterate it.

In making estimates last year for the expenditures necessary in 1859, this department labored under serious embarrassments, for want of accurate data upon which to base a reliable opinion.

From the best information that could be procured, it was determined to ask for one million five hundred and

forty-nine thousand dollars, to be included in the Tax Levy. This, together with the reappropriation of unexpended balances, and the estimates of expenditures on trust account, made the whole estimate a little more than three millions of dollars.

The Board of Councilmen of 1858, allowed one million three hundred and twenty-one thousand and seventy dollars to be included in the Tax Levy, which reduction, after consultation with their Committee on Finance, was satisfactory to this department. The Common Council of 1859, inserted to be raised by tax and expended under direction of the Street Commissioner, one million three hundred and fifty thousand, six hundred and twenty dollars. The amount authorized by the legislature to be raised by tax in 1859, for appropriations supposed to pertain exclusively to this department, was nine hundred and ninety-seven thousand one hundred and twenty-five dollars, being about five hundred and fifty thousand dollars less than the original estimate of the Street Commissioner, and about three hundred and twenty-five thousand dollars less than the amount allowed by the Common Council. In striking out this amount of money the Legislature did not say what work was to be omitted, nor did the Common Council thereafter.

The amount reappropriated by the Common Council, to be expended under the direction of the Street Commissioner, is four hundred and eighty-five thousand sixty-eight dollars and twenty cents, which, added to the amount as above, (nine hundred and ninety-seven thousand one hundred and twenty-five dollars,) supposed to be exclusively under this department, makes the available means of this department, not including trust funds, one million

four hundred and eighty-two thousand one hundred and ninety-three dollars and twenty cents. Of this amount there has been expended, and requisitions drawn upon the Comptroller for four hundred and two thousand four hundred and seventeen dollars and sixty-five cents, leaving an unexpended balance of these appropriations, amounting to one million and eighty-eight thousand and eighty-seven dollars and sixty cents. In addition, this department has drawn requisitions against other appropriations, "Salaries," "City Contingencies," and "Streets Regulating, Grading," &c., (trust) to the amount of two hundred and thirty-four thousand three hundred and sixty six dollars and ninety-nine cents; making the total amount of requisitions drawn by this department during the first six months of this year, six hundred and thirty-six thousand seven hundred and eighty-four dollars and sixty-four cents.

For full details of these appropriations, and the amounts drawn against each, see Appendix A, and for full details in regard to the precise amount applied to each particular object and purpose, and for statements of amounts charged Collectors of Assessments, amounts paid by Collectors of Assessments to the City Chamberlain, and amounts returned to the Clerk of Arrears, see Book-keeper's report, Appendix, marked B.

There have been thirty-three contracts made by the Street Department, since the first of January last, and there are twenty-one awards of contract made by the Street Department, which have not yet been confirmed by the Common Council; five of the latter were awarded during the year 1858; amongst them, one for furnishing coal for the city of New York for last winter; for state-

ment of these contracts and awards see Appendix, marked C.

The amount of assessments uncollected in the Bureau of Collection of Assessments, on the 1st of January, 1859, was one million and forty thousand, seven hundred and forty-six dollars and forty-three cents. The amount transmitted for collection since that time is one million five hundred and ninety-three thousand five hundred and eighty-four dollars and fifty-five cents. The amount paid by the Collector of Assessments to the City Chamberlain for the six months ending June 30th, is five hundred and seventeen thousand five hundred and eighty-seven dollars and nine cents, including interest; and the amount returned to the Bureau of Arrears for the same period is ninety-two thousand three hundred and eighty-nine dollars and eighty-three cents.

For full particulars and explanations of the business entrusted to the various bureaux of this department, you are respectfully referred to the reports of the Superintendents, and other papers and documents herewith transmitted.

The Bureau of Street Improvements.

In addition to what was said in my annual report, and that of the Superintendent of this bureau, including the voluminous special report on contracts, I have now to say that the retro-active legislation asked for, in order to enable this department to correct and unravel the entanglements caused by gross irregularities in past contracts, has not been granted, and that a large portion of this important business is necessarily in abeyance, awaiting authority for this department to act. I would again urgent-

ly call attention to the reports and recommendations of the Superintendent, already transmitted by this department to Common Council.

The amount of expenditure for which certified vouchers of the Superintendent of this bureau have been rendered during the last six months, is one hundred and forty-eight thousand seven hundred and ninety-eight dollars and ninety-four cents.

The number of contracts made and signed is fifteen. Contracts awarded and confirmed by Common Council, but not yet signed, two.

Contracts awarded, and awaiting confirmation by the Common Council, twelve. Final payments, fourteen. Number of Inspectors of contract work, twenty-three.-- (See report of Superintendent, transmitted herewith.)

Bureau of Wharves.

Your attention is respectfully called to my opinion and recommendation of January last, in regard to making the wharves of durable materials. No new appropriation was asked for this purpose, the unexpended balance of last year (amounting to one hundred and sixty-seven thousand seven hundred and fifty three dollars and seven cents), being considered sufficient. There are now lying before the Common Council seventeen cases in which authority is asked, but not yet granted, for repairing piers, and seven for dredging slips. On the 1st of June I transmitted to the Common Council copies of communication from the Comptroller, referring to deductions claimed by lessees, in consequence of certain piers and slips being in bad condition, and asked for authority to advertise for

proposals to repair certain piers and dredge certain slips. The amount of expenditure in this bureau for which certified vouchers of the Superintendent have been rendered during the last six months, is thirty-nine thousand six hundred and sixty-one dollars and twenty-six cents. (See report of Superintendent, herewith transmitted.)

Bureau of Roads.

Under authority of a resolution of the Common Council, approved July 21st, 1858, the roads are repaired without contract. The amount asked for the Bloomingdale and Kingsbridge Road was fifty thousand dollars, and for other roads various sums, amounting in all to one hundred and twenty-seven thousand dollars, with which it is believed the roads of the island could, for once, have been put in good order, and afterwards could have been kept so for a comparatively small amount.

The Legislature authorized ten thousand dollars for Kingsbridge Road, and forty thousand for roads and avenues, thus reducing the estimated amount from one hundred and twenty-seven thousand, to fifty thousand dollars. There have been expended on the Kingsbridge Road two thousand one hundred and sixty-two dollars and forty-two cents, leaving a balance of seven thousand eight hundred and thirty-seven dollars and fifty-eight cents, and for roads and avenues, (including implements furnished by Deputy Superintendent of Repairs and Supplies,) twenty-two thousand and thirty-nine dollars and sixty-one cents, leaving a balance of seventeen thousand nine hundred and sixty dollars and thirty-nine cents.

The reappropriation for Tenth avenue working as a

county road, included in the late Comptroller's report among unexpended balances, has been found to be void, the original appropriation having been exhausted. The work has been completed, and final payment made, by drawing requisition against "Arrearages."

Of the reappropriation for Eleventh avenue working as a county road, there has been expended six hundred and three dollars and fifty-five cents (including two dollars and fifty cents on vouchers of contract clerk for advertising), leaving a balance of nineteen thousand three hundred and ninety-three dollars and ninety-five cents. The contract for this work was awarded to John F. Gray, January 6th, 1859, but has not yet been confirmed by the Common Council. Of the reappropriation for macadamizing Second avenue, above Sixty-first street, there have been expended one thousand and seventeen dollars and sixty-eight cents, (including voucher for pay of Inspectors for one hundred and fifty-six dollars, certified by Superintendent on the last day of June, for which requisition was not drawn upon the Comptroller during the time covered by this report,) leaving a balance of forty-eight thousand eight hundred and one dollars and eighty-nine cents. A contract for this work was made with John Kinsley, on the 17th of December, 1858; but on account of the weather he was not allowed to commence work until the latter part of April, 1859. The time allowed within which to complete it is seven months.

The work is progressing very slowly, notwithstanding the fact that the contractor is required to commence and carry on the work in three sections. The work already done does not comply with the specifications; the con-

tractor has been notified of this, and special instructions have been given to the Superintendent and Inspectors. There are three Inspectors on this work. On the 30th of June there were two hundred and sixty-seven men employed, viz: on Kingsbridge Road, twenty-two; Bloomingdale Road, one hundred and fifty-six; Third avenue, eighty-nine. A portion of the Bloomingdale Road is in quite good order; we will endeavor to keep it so, and do what we can for all the roads as far as the means at our disposal will allow. (For particulars of this bureau, see report of Superintendent, herewith transmitted.)

Bureau of Lands and Places.

The appropriation asked for Lands and Places amounted to thirty-four thousand nine hundred dollars. The amount appropriated was sixteen thousand dollars; re-appropriated, five thousand and ninety-eight dollars and eight cents; amount expended, including implements, &c., furnished by the Deputy Superintendent of Repairs and Supplies, four thousand two hundred and one dollars and forty-two cents—leaving a balance of sixteen thousand eight hundred and ninety-six dollars and sixty-six cents. The amount asked for Tompkins Square was six thousand dollars. Amount appropriated, eight thousand dollars. Amount expended, three hundred and forty-two dollars and eighty-four cents; leaving a balance of seven thousand six hundred and fifty-seven dollars, and sixteen cents. The railing for Fourth avenue Parks and Worth Monument are under the Superintendent of Street Improvements. In the Bureau of Lands and Places there are fourteen keepers and twenty-three laborers. (For details, see report of Superintendent, herewith transmitted.)

Bureau of Lamps and Gas.

The appropriation asked for this bureau was four hundred and sixty-nine thousand two hundred and twenty dollars. The amount appropriated is four hundred and sixty thousand dollars. Amount reappropriated, thirty-six thousand three hundred and eighty dollars and forty-three cents. Amount of requisitions upon certified vouchers of the Superintendent, up to and including 30th of June, one hundred and fifty-one thousand nine hundred and fifty-eight dollars and thirty-seven cents, leaving a balance of three hundred and forty-four thousand four hundred and twenty-two dollars and six cents.

The number of men employed, exclusive of permanent inspectors, is thirteen, (four painters and nine lamp-lighters.)

The report of the Superintendent of this bureau is very full and satisfactory. Your particular attention is requested to all his recommendations in this and previous reports, particularly to that portion referring to the fact, that the contracts under which several of the Gas Companies furnished light to the city have expired, and that they are now being paid for this service at the rates of their old contracts.

Bureau of Repairs and Supplies.

The amount of appropriation asked for the construction and repair of public buildings was two hundred and ninety-four thousand four hundred and seventy-five dollars, including twenty-five thousand dollars for Tompkins market; the amount appropriated is one hundred and ninety-three thousand eight hundred dollars; reappro-

priated, ten thousand two hundred and fifty-six dollars and nineteen cents. Requisitions upon certified vouchers of the Superintendent, up to and including June 30th, amounted to thirty thousand five hundred and fourteen dollars and eighty-five cents, leaving a balance of one hundred and seventy-three thousand five hundred and forty-one dollars and thirty-four cents.

In illustration of the manner in which the estimates of this department, acted upon favorably by the Common Council, were passed by the legislature, the following is extracted from the records:

“For expenditures to be incurred under the direction of the Street Department, the accounts therefor to be audited and paid by the Finance Department:”

“Bureau of Repairs and Supplies.”

“For repairs, additions and alterations	\$80,000
For rebuilding that portion of the City Hall destroyed by fire	50,000
Building station-houses for first, third, fourth, seventh and tenth precincts	60,000
Repairs to police station-houses	20,000
Additions to Centre Market	10,000
Repairs and improvements to Fulton Market, &c., &c.	20,000

The amount asked for by the Common Council, exclusive of the Foundling Hospital, was two hundred and ninety-four thousand four hundred and seventy-five dollars, embracing twenty-six items, each of a specified amount. The amount appropriated is one hundred and ninety-three thousand eight hundred dollars, being one

hundred thousand six hundred and seventy-five dollars less than was passed by the Common Council, and all in one item, viz :

“ Public Buildings Construction, repairs and alterations, including City Hall, Police and Fire Departments, and Tompkins market;”

And this important condition, viz: “ to be expended under the direction of the Street Commissioner,” is entirely omitted.

The construction of Tompkins market has been very materially delayed, owing principally to gross defects in the original specifications. After much discussion and great differences of opinion, new and supplementary contracts have been made for all of the building, except the roof. The latter would have been awarded and sent to the Common Council for confirmation, but for the fact that the Comptroller declined to pass upon the sureties. (See copies of Correspondence, Appendix, marked E.)

It will be seen that this portion of the work will have to be re-advertised. For information concerning alterations to second story of Hall of Records for Comptroller's office, see communication from Superintendent of Repairs and Supplies, appended to his report.

City Hall Repairs.

The Common Council, on the 27th of June, passed a resolution “ directing the Street Commissioner to have specifications drawn, and advertise immediately for proposals to have the City Hall building put in proper repair, and as it was previous to the fire.” A competent architect

was put in charge of this work the next day, and specifications are being prepared as rapidly as practicable.

There will be no unnecessary delay in submitting the award to the Common Council for confirmation. For full details in regard to all the business of the Bureau of Repairs and Supplies, you are referred to the reports of the Superintendent and Deputy Superintendent, transmitted herewith.

The latter has the immediate charge of the Supplies to Public Offices, and under the ordinances corresponds directly with the Street Commissioner. The Deputy Superintendent renders vouchers against a variety of appropriations, (see statements accompanying his report) many of which are much more largely drawn upon by others. A full statement of all his transactions is included in his report.

It is upon this bureau that the general business of all the offices of the city government so directly depends for fuel, stationery, printing, etc., etc. Several of these appropriations were exhausted last year, which proved to be a source of great vexation and annoyance, besides detrimental to the public interests. I asked this year for twenty-five thousand dollars for stationery; the Common Council reduced it to fifteen thousand dollars, which sum was included in the Tax Levy. This appropriation is exhausted, the amounts supplied to different offices being as follows:

Comptroller's office.....	\$2,298 97
Clerk of Common Council.....	1,944 02
Clerk of Board of Councilmen.....	1,669 00
City Inspector.....	933 95

Sixth District Civil Court.....	\$656 87
Public Administrator.....	509 88
Street Commissioner's office.....	466 00
Corporation Attorney's office.....	441 23
Chief Engineer Fire Department.....	416 50
Corporation Council.....	404 50

And so on, including thirty-eight offices or courts; none of the others, however, having as large an amount as the lowest of the above. The whole amount of requisitions drawn, up to and including June 30th, is twelve thousand seven hundred and four dollars and ten cents, showing an apparent balance of two thousand three hundred and seventeen dollars and fifty-five cents. Other appropriations of similar character in this bureau will, I fear, be exhausted before the end of the year. I asked for two hundred and seventy thousand dollars, including fifty thousand dollars for printing Proceedings of the Common Council. This was under nine different headings, of which stationery was one. The Common Council struck off one hundred thousand dollars from what I asked for, fifty thousand dollars of which was for printing their own proceedings. The legislature reinstated this amount, and then struck off seventy-eight thousand dollars from the amount allowed by the Common Council for printing, advertising, stationery, fuel, furniture, cleaning, lighting and supplies generally for all the Public offices, Courts, Police and Fire Departments of the city, and for all other purposes not otherwise provided for. (See Proceedings of the Common Council.)

This department has been furnished with thirty thousand dollars for "Contingencies Street Department;" this

was not asked for by the Street Commissioner nor allowed by the Common Council, but was included in the Tax Levy by the Legislature. I have been informed by the Comptroller, that I can neither draw against "City Contingencies," nor "Supplies to Public Offices," in payment for stationery, but that the proper appropriation for me to draw against for supplies of stationery to the Comptroller's office, is "Contingencies Street Department;" notwithstanding the fact that there is a large appropriation for "Contingencies Finance Department." I have not yet definitely determined what is best to be done in this matter, but at present will continue to furnish stationery in such quantities as are absolutely needed; and will, in the meantime, endeavor to understand how it happens that the appropriation for stationery is reported by the Comptroller as "exhausted," when I have drawn requisitions upon it for an amount less by two thousand three hundred and seventeen dollars and fifty-five cents than the appropriation. I shall take an early opportunity of communicating to your honorable bodies any decision that I may come to on this question, likely to affect the furnishing of needful supplies to the public offices.

Bureau of the Chief Engineer of the Fire Department.

The amount asked for this bureau by the Chief Engineer, was sixty-seven thousand dollars, including two thousand dollars now drawn from the appropriation for salaries.

The amount asked for by this department, (most of the increase being made necessary by work then ordered by the Common Council) was seventy-six thousand seven hundred and seventy-five dollars. The Common Council

allowed seventy-five thousand six hundred and twenty-five dollars, under fifteen different heads. The Legislature authorized sixty-four thousand two hundred and twenty-five dollars, under the general head "Fire Department."

Notwithstanding this large reduction in the amount of money asked for, the Common Council have ordered an additional amount of new work. There can be but one result from this way of legislating for practical business.

There are other appropriations authorized for Fire Department—"lots and houses" for engine companies Nos. 20 and 41, and hook and ladder company No. 3; but these have no connection with the bureau of the Chief Engineer nor the fire apparatus. One department of the city government purchases real estate, another constructs buildings.

The amount for which requisitions have been drawn by this department against the appropriation for "Fire Department," is thirty-nine thousand five hundred and seventy-five dollars and twenty cents, of which thirty-five thousand seven hundred and twenty-seven dollars and eighty-six cents, were on certified vouchers of Chief Engineer, and three thousand eight hundred and forty-seven dollars and thirty-four cents on vouchers of other officers of this department; leaving a balance of twenty-four thousand six hundred and fifty-two dollars and forty-eight cents for payment of bills already rendered and hereafter to be incurred. You are respectfully referred to the reports of the Chief Engineer of the Fire Department and Superintendent of Fire Apparatus, transmitted herewith, for particulars in regard to the business of this bureau.

Bureau of the Collection of Assessments.

For full particulars and details in reference to the business of this very important bureau, you are referred to the report of the Collector of Assessments, herewith transmitted, and to Appendix B.

In various communications made to your honorable bodies since May, 1858, the condition of the business of this bureau previous to that time, was stated at length. It will be perceived by the report of the Collector, that in the Comptroller's certificate, "that the moneys have been actually paid to former Deputy Collectors;" large amounts are now being credited, and the liens discharged of record, which it appears had not been done at the time the payments were made. Early in the present year the Comptroller called upon the Street Commissioner to furnish the Finance Department with a statement showing the title, date of confirmation, and amount remaining unpaid, of every assessment list in the hands of the Collector of Assessments, and also with a statement of the accounts of Isaac Edwards, who, as Collector of Assessments, was succeeded by Joseph R. Taylor, in 1856. Both these requests were complied with.

The examination of the accounts of Isaac Edwards and deputies, had absorbed the time of four clerks for several months, and the result of this investigation was communicated to your honorable bodies on the 24th day of February last, through his Honor the Mayor. I am informed (though not officially) that on the basis of that report, a settlement of these accounts has been effected.

This department has afforded the Comptroller every

facility within its power, to put into proper shape the accounts which (to use his own words) "were kept, or rather not kept" in his department previous to the 1st of January last; and the present smooth working of the two departments, so far as concerns the collection of assessments, is an exemplification of a proper system of checks.

The duties required of the Collector and deputies are arduous, and such as cannot be delegated. The service (upon each individual assessed) of two personal notices, and the execution of an affidavit that he has so done, are necessary before any list can be returned to the Clerk of Arrears for collection; and a sale of property for unpaid assessments, without diligent endeavor having been made to collect the amount, would be void.

Payments into the City Treasury, to the credit of the Collector of Assessments, of all amounts collected by the deputies are now required to be made every day, and the subject of making these payments by the Collector, and rendering full detailed statements, returns, final receipts and accounts daily, (in accordance with the demands of the Comptroller,) has been considered; but I have decided that the plan is not feasible, and have not seen fit to countermand my directions to the Collector, requiring him to make his payments to the City Chamberlain, and render his accounts weekly, in accordance with the amended ordinance reorganizing this department.

The rate of fees prescribed by the amended ordinance is two and a half per cent. on all amounts collected, and two per cent. on all amounts properly returned to the Bureau of Arrears, being the same rates that were before *claimed* on street openings, and fixed by ordinance on all

other assessments, and a reduction of one-half per cent. on all amounts returned to the Bureau of Arrears for collection.

The beneficial effects of these two changes as to fees, may be seen on an examination of the amounts collected on all new assessment lists, and the small proportion of assessments returned to the Bureau of Arrears; and in the fact that the accounts of the late Collector of Assessments, who resigned his office on the 14th ult., were settled on the 8th instant, by requisition upon the Comptroller for the amount of all his claims against the city.

The amount collected last year, from April 22d to December 31st, was two hundred and forty-two thousand six hundred and twenty-eight dollars and twenty-six cents, assessments and interest. The average fees of Collector and deputies were one hundred and eighty-one dollars and one cent each per month. This year, to June 30th, the amount collected is five hundred and seventeen thousand five hundred and eighty-seven dollars and nine cents, assessments and interest. The average fees of Collector and deputies were six hundred and sixteen dollars and fourteen cents each per month. The largest amount of fees for any one month was for May last, viz: nine hundred and thirty dollars each.

It will be remembered, that from these fees the officers of the bureau are obliged to pay all expenses for carriage hire in serving notices, salaries of bookkeeper, assistant and messenger; and in addition thereto, each of the deputies employs an assistant to aid in preparing notices and receipts, and keep his individual cash-books and condensers posted, making a total of ten persons constantly

employed. Their expenses are increased by the additional work, but not fully in proportion; still, should their fees continue to increase as they have done, it will be for your honorable bodies to decide what change, if any, may be necessary.

The assessments for Central Park Opening and Bowery Extension, owing to their magnitude, have not yet been returned to the Bureau of Arrears. I am disappointed that this is so, and it is not entirely satisfactory to me; but much of the old work that was found in this bureau unfinished has been closed, and I trust that very soon *all* will be. Every assessment confirmed since April 19th, 1858, has been promptly delivered to the Clerk of Arrears on the expiration of the year allotted for collection.

The investigation of certain questions which arose during the last winter, rendered necessary an examination of the various cases in which judgments had been obtained against the city upon suits connected with the business of this department. A brief synopsis, compiled from the records of the courts, and statement of facts based upon the records of this office, has been prepared and is herewith submitted to your honorable bodies for the reason that it contains information of an important character, affecting the appropriations and business of this department. (See Appendix marked D.)

In reporting upon the "state" of the department in this particular, I have purposely refrained from making any "suggestions in relation to the improvement thereof."

Whilst great improvements have undoubtedly been made in the manner of keeping the accounts and conduct-

ing the public business entrusted to the Street Commissioner, the affairs of this department are not in an entirely satisfactory condition, and never can be under existing laws, and the present manner of making appropriations.

It is necessary for the head of this department to know, in advance, what work is required to be done, and what amount of money is appropriated for the purpose. It is reasonable, too, that the amount appropriated should be expended entirely under the direction of the department having charge of the work. Neither of these three essential conditions is complied with; worse than all, for three or four months, at the beginning of every year, expenditures are incurred for this city government, in advance of the passage of the Tax Levy by the Legislature, in direct violation of the plain and mandatory requirements of the Charter.

I shall not authorize expenditures under cognizance of this department after appropriations applicable to the purpose have been exhausted, until after further appropriations shall have been made. Under existing circumstances, it is necessary to consider present appropriations as being all that can be made available before the 1st of April, 1860, and though they are, in many cases, inadequate for the present year, make them last until April by commencing now to deny every application for expenditure that can possibly be dispensed with. In this, as in other matters, I respectfully ask the aid of the Common Council. I hope that you will at least give me a hearing before passing resolutions ordering any more new work not included in the Tax Levy.

I would respectfully recommend that the Common

Council pass a resolution directing that an inventory be made by the various officers in charge of the furniture, law books, and other personal property belonging to the city, in the courts, police station-houses, engine-houses and all other public offices of the Corporation, and that a certified copy of said inventory be transmitted by the officers making them, to the Street Commissioner, in whose office they shall be filed and copied into a book to be kept for that purpose.

There are many intelligent and competent officers under me in the department, and to them great credit is due for the improved condition of this varied and extensive business; but in order to place it in an entirely satisfactory condition, it is not only necessary that appropriations be made as suggested above, but more Executive authority must be conferred upon the Head of the Department.

Very respectfully,

G. W. SMITH,

Street Commissioner.

APPENDIX A.

TAX LEVY.

STATEMENT showing the Amount of each Appropriation for the year 1859, for the Street Department, asked for by the Street Commissioner, and passed by the Board of Councilmen of 1858; Amount included in the Tax Levy, as it passed the Legislature, and amount of Requisitions upon the Comptroller, drawn by the Street Commissioner on each Appropriation and Account.

APPROPRIATIONS APPERTAINING TO THE STREET DEPARTMENT EXCLUSIVELY.

TITLE OF APPROPRIATION.	Re Approp- riation.	Amount asked by Street Commissioner, and passed by Board of Councilmen.			Amount of Requisition drawn by Street Com- missioner.	Balance.

"	Fourth avenue, grading, curb and gutter and flagging, between 38th and 58th streets; con- firmed May 31, '59	34,048 16
	Total	<u>\$566,696 49</u>

I have delivered to the CLERK OF ARREARS—from February 24th to June 29th, 1859—sundry returns of arrears on assessments, received by me, as follows, viz:

From Dan'l E. Delavan, Collector—from Feb. 19 to May 30, '59,	\$72,768 64
" Jonathan Trotter, " —on 20th and 28th June, '59..	19,621 19
" the "Deficient returns of Jos. R. Taylor, Collector," (see following mems.)	60,992 28
	<u>\$153,382 11</u>

These are—First Avenue Opening, confirmed August 1, '56....	\$36,394 13
Deduct—amount received by Delavan, Collector, and paid by him to the Chamberlain, Feb. 14, '59,	836 72
	<u>35,557 41</u>
Forty-second street, regulating, from Tenth to Twelfth avenues; confirmed February 21, '57....	25,434 87
	<u>\$60,992 28</u>

And are part of four returns (amounting to \$88,165 70) supposed to have been delivered by Jos. R. Taylor, Collector, to D. D. Conover, an acting Street Commissioner, and particularly noticed on folios 59 and 60 of my report to your Honorable Body, to December 31st, 1858.

I am still in possession of the remaining two returns, viz:

Eighty-third street—curb and gutter and flagging, between Avenue A and Third avenue; confirmed August 9, '56	\$25,008 57
This is subject to the decision of the Court of Appeals, in a suit now pending between persons assessed and the city.	

Park Place—Paving, between Church street and College place; confirmed

February 20th, '57..... 1,326 13

The assessment roll, which was sent back to the Assessors for correction, has been returned by them to the Common Council for approval, but has not yet reached this office.

\$26,334 70

The COLLECTORS OF ASSESSMENTS have been credited, from January 4th to June 29th, 1859, with payments made by them to the Chamberlain, viz :

	INTEREST.	ASSESSMENT.
Daniel E. Delavan—from Jan. 4, to June 14, '59..	\$51,215 29	396,903 94
Jonathan Trotter—on 22d and 29th June, '59....	992 43	68,475 43
		<u>\$465,379 37</u>
Interest—as above stated....	\$52,207 72	52,207 72

The confused manner in which the books and accounts were kept by Joseph R. Taylor, a former Collector of Assessments—the errors already discovered—the large amounts paid by those assessed (but not discharged of record,) and for which the Comptroller is constantly receiving the receipts and affidavits, and delivering his certificates authorizing the canceling of record of all such payments—all these combined, prevent my giving information, entirely correct, relating to the accounts of said Taylor;—a statement has been prepared, however, presenting, in as reliable a form as practicable, the position of this account at the time his successor (Mr. Schieffelin) took possession of the office—say about 1st May, 1858. See “Recapitulation” on page 64.

Messrs. H'y M. Schieffelin and Dan'l E. Delavan, Collectors of Assessments, from May, 1858, to June 13, 1859, having both resigned, the accounts of themselves and their deputies, Messrs. John H. Chambers, David Kissner and Gershon Cohen (who are still in office) have been rendered and balanced, without the variation of a single cent.

The Deputy Collectors render, weekly, detailed and sworn statements of amount received by them on each lot, when and by whom paid, &c. (a copy of which is retained in this office, and another I transmit to the Comptroller) and the Collector pays over, weekly, to the Chamberlain, the amount thus received by said Deputies, and at same time renders to the Comptroller and myself, a sworn statement of the aggregate amount

received on each assessment list, and to which the Chamberlain's receipt is attached. Duplicate monthly balance sheets, or accounts current, are also rendered to me by the Collector, (one of which I transmit to the Comptroller), embracing the amount of assessments uncollected, at the commencement of the month—the assessments that I may deliver him for collection—amount collected and paid by him to the Chamberlain—amount of arrears on assessments transmitted by him to me, for collection by the Clerk of Arrears—amount of certificates of the Comptroller, which I may have transmitted him, for canceling of record—and any other requisite entry—and closing the account current by carrying down the balance remaining uncollected.

Jonathan Trotter, Esq., having been appointed Collector, has given the requisite receipt for one million five hundred and seventy-six thousand six hundred and forty-four dollars and thirty-six cents (\$1,576,644 36)—a copy of which has been transmitted to the Comptroller—being the balance apparently due or uncollected on the morning of June 14th, inst. (June 14th, 1859) as represented in the detailed account rendered by his predecessor, Daniel E. Delavan, Esq. As large amounts of the assessments placed in Mr. Taylor's hands are included in the above sum of \$1,576,644 36, I have protected Mr. Delavan before, and Mr. Trotter, at the present, by excepting, "all discrepancies, errors or omissions, that may be discovered."

RECAPIT

*Presenting the Charges and Credits on folios 56 to 63 of this Appendix—also,
M. SCHIEFFELIN and DANIEL E. DELAVAN, (former Collectors), and
the balances apparently due from said JOSEPH R. TAYLOR and JONATHAN*

Assessment lists delivered and charged Joseph R. Taylor, a former Collector		\$3,469,632 90
Balance due January 1st, 1859, from Henry M. Schieffelin, a former Collector	\$11,201 41	
Amount supposed to be unpaid on sundry assessment lists, found in the office of the Collector of Assessments, when taken possession of by said Schieffelin, (who succeeded Joseph R. Taylor), in May, 1858, and has been charged said Schieffelin, and credited said Taylor; (see opposite side of this account)	1,025,082 29	
		\$1,036,283 70
Balance due January 1st, 1859, from Daniel E. Delavan, a former Collector, and who succeeded Mr. Schieffelin	4,936 10	
Amount supposed to be unpaid on sundry assessment lists, found in the office of the Collector of Assessments, when it was delivered by said Schieffelin to said Delavan, in June, 1858; this amount has been charged said Delavan, and credited said Schieffelin; (see opposite side of this account)	1,036,283 70	
Amount of assessments delivered said Delavan, from February 7th to May 31st, 1859	1,026,588 06	
Amount of interest collected by said Delavan, and paid to the Chamberlain, from January 4 to June 14, 1859	51,215 29	
Amount of a collection made by said Delavan, on the First avenue opening, confirmed August 1st, 1856. The assessment list was never in possession of said Delavan, but was among the "Deficient returns of Joseph R. Taylor, Collector," then in this office, and this amount was received by said Delavan, in accordance with a mutual understanding between the Comptroller and this office, and to facilitate some business matters of those paying	836 72	
Amount of sundry omissions and errors	14 53	
Amount supposed to be unpaid on sundry assessment lists, found by Jonathan Trotter (the present Collector) in the office of the Collector of Assessments, when it was delivered to him by Daniel E. Delavan, on 14th, June, 1859—and said Trotter has been charged and said Delavan credited with the same; (see opposite side of this account)	1,576,644 36	
Amount of assessments delivered said Trotter on 20th June, 1859	566,696 49	
Amount of interest collected by Trotter and paid to the Chamberlain, on 22d and 29th June, 1859	992 43	
Amount of sundry omissions and errors	9 06

APPENDIX C.

Statement of Recommendations made to the Common Council by the Street Commissioner, since 1858, and not yet definitely acted on:

Recommends that appropriations for the Street Department be made specific and definite, and in such manner that the money can be drawn on the requisition of the Street Commissioner only. This was acted upon favorably by the Common Council, but entirely ignored by the Legislature. (Doc. 10, p. 7.)

Recommends change in fiscal year. Nothing done. (Doc. 10, pp. 8 and 20; see communication of Street Commissioner to Board of Aldermen, Jan. 13, 1859, referred to Committee on Finance.)

Asks that more power be conferred on Street Commissioner in regard to details of executive business. Nothing done. (Doc. 10, p. 11.)

Recommends the Common Council to apply to the Legislature for the passage of a law regulating contracts, &c., made under illegal ordinances. Nothing done. (Doc. 10, p. 12; Doc. 5, pp. 4, 5 and 6.)

Recommends that a plan be adopted for making the wharves of the city of durable material, &c. Nothing done. (Doc. 10, p. 13.)

Recommends that in all future leases of wharves, piers and slips, the city should engage to keep them in repair

at its own expense, &c. In reference to this matter, a resolution was offered in the Board of Councilmen, on the 7th March last (p. 356), covering this recommendation. It passed the Board of Councilmen, March 28th, 1859, (p. 532), was received in the Board of Aldermen, April 25, 1859, and referred to Committee on Wharves, Piers and Slips (p. 99, 2d part), where it now is. It has not yet been reported. (Doc. 9, pp. 21 and 22.)

In relation to contracts with gas companies. Nothing done. (Doc. 10, p. 14; also, Doc. 6, p. 56.)

Recommends that contracts be made for supply of cocks, tubes and burners, at a saving of 200 per cent., &c. Nothing done. (Doc. 6, p. 44.)

Recommends that the city supply its own meters for use in public buildings, &c., as the charges of the gas companies for rent are very high, &c. Nothing done. (Doc. 6, p. 48.)

Applications made to the Common Council, and granted during the year, for expenditures for various purposes, *not* included in the tax levy, are embarrassing to the department. The charter requires these applications to be made before the tax levy for the year is passed and provision to meet them inserted therein. Nothing done. (Doc. 10, p. 10.)

The impropriety of Common Council accepting work, &c., and passing resolutions directing the Comptroller to pay a specific amount from a specific appropriation, which should be under the control of one of the heads of department; also in relation to payment of judgments in same manner; suggesting they should form part of arrearages

for the year. Nothing done. (Doc. 10, p. 11; also Doc. 6, p. 54.)

Asks authority to appoint two extra clerks to prepare copies of all uncollected items of assessments for the Comptroller.

Communications sent to Board of Aldermen, March 24, 1859, p. 1033, and referred to Committee on Salaries and Offices. Committee report favorably, p. 1051; laid over; called up and passed April 25, 1859, p. 89. Part 2. Received in Board of Councilmen May 2, 1859, p. 706, and referred to Committee on Salaries and Offices. No report.

Recommendation in reference to change of grade in that part of the city included between south side of Fifty-ninth street, north side of One hundred and tenth street, east side of Eighth avenue and Hudson river.

Communication sent to Board of Aldermen, February 7, 1859, pp. 597, '8 and 9, and referred to Committee on Roads. No report.

Attention of the Board again called to the matter, February 21st, 1859, p. 775, by communication of Acting Street Commissioner, submitting plan and profile of Mr. G. A. Sage, &c. Referred to same Committee.

Again, on petition of Jacob Harsen and others, at a later date, March 7th, p. 837, praying that the change might be made in conformity with said plan, &c. No report.

Recommendation in reference to the necessity for excavating west half of bulkhead between Hubert and Laight

streets, North river. Referred to Committee on Wharves, &c.; submitted to Board of Aldermen, February 24 1859, p. 825. No report.

Recommendation in reference to Philip Fohey's contract for regulating and grading Fiftieth street, from Fifth to Lexington avenue. Illegal, and contract abandoned, &c. Communication to Board of Aldermen, March 14, 1859, p. 942; laid over; subsequently taken up and referred to Committee on Roads. No report.

Asks authority to advertise, &c., piers 43, 46, 48 and 53, East river; piers 14, 20, 29, 46, 47 and 48, North river; slips foot of Broome, Delancey and Rivington streets bulkhead foot of Fourteenth street, East river.

Communication sent to Board of Aldermen, March 28, 1859, p. 1035. In connection with this, a resolution was offered directing Street Commissioner to advertise, &c., which was referred to Committee on Wharves, &c. No report, neither has any of the above lists been acted on separately.

Communication in reference to fraud, &c., in Slattery's contract, sent to Board of Aldermen, March 31, 1859, p. 45, part 2, and referred to Committee on Joint Accounts. No report.

Recommendation in reference to street numbers, &c.; sent to Board of Aldermen, June 6, 1859, p. 463, part 2d, and referred to Committee on Streets. No report.

Recommendation on complaint of Pilot Commissioners in reference to piers 56, 57, 58 and 59, East river.

Communication sent to Board of Councilmen, May 9,

1859, p. 754, and referred to Committee on Wharves, &c. Committee reported June 2d, 1859, p. 947, and resolution passed June 6, p. 995; received in Board of Aldermen, June 13, '59, p. 550, and referred to Committee on Wharves, &c. Reported June 30, 1859, p. 675; laid over.

* Asks authority—on complaint of Comptroller that in consequence of bad condition of certain piers, he is obliged to make reductions in rent—to advertise, &c., pier 43, East river; pier foot of Thirty-fourth street, North river, and to dredge slips between piers 43, 44 and 46 East river. Sent to Board of Councilmen, June 2, 1859, p. 951, and referred to Committee on Wharves, &c. No report.

Asks modification of ordinance relating to flagging sidewalks. Communication sent to Board of Aldermen, June 9, 1859, p. 532, and referred to Committee on Ordinances. No report.

List of Awards of Contracts made by the Street Department—awaiting confirmation of Common Council. Total number 21, viz:

1858—Filling sunken lots between Forty-second and Forty-third streets, Tenth and Eleventh avenues.

Sent to Board of Aldermen, July 26, 1858, p. 184; laid over; subsequently (p. 218) referred to Committee on Pub-

* A resolution was offered in the Board of Councilmen, June 13, 1859, p. 1037, "authorizing the Street Commissioner to take *prompt* measures to dredge such of Corporation slips as may require it," &c.; which was adopted as above, and sent to Board of Aldermen, June 20, 1859, p. 625, and referred to Committee on Wharves, &c. No report.

lic Health; reported and laid over, June 13, 1859, p. 531; passed June 20, 1859; and sent to Board of Councilmen, June 24, 1859, p. 1118. Laid over.

1858—Dredging slips, between piers 13 and 14, North river. Sent to Board of Councilmen, August 23, 1858, p. 271; and confirmed Sept. 6, 1858, p. 316; received in the Board of Aldermen, September 9, 1858, p. 384, and referred to Committee on Wharves, &c. No report.

1858—Flagging in University place, West Thirteenth street and Varick street. Sent to Board of Aldermen, October 11, 1858, p. 166, and referred to Committee on Streets. No report.

1858—Worth Monument railing. Sent to Board of Aldermen, October 28, 1858 p. 303, and referred to Committee on Lands and Places; reported June 13, 1859, p. 508, and laid over; passed June 20, 1859; sent to Board of Councilmen, June 24, 1859, p. 1118, and referred to Committee on Lands and Places. No report.

1858—Coal for city. Sent to Board of Aldermen, November 15, 1858; confirmed November 19, 1858, p. 476; received in Board of Councilmen, November 26, 1858, p. 850, and referred to Committee on Repairs and Supplies. No report.

1859—Grading and setting curb and gutter stones in Eighty-ninth street, between Fourth and Fifth avenues. Sent to Board of Councilmen, Mar. 24, '59; confirmed April 11, '59; and sent to Board of Aldermen, April 25, '59, p. 103, and referred to Committee on Roads. No report.

1859—Working Eleventh avenue, from One hundred and seventh to One hundred and forty-fourth street as a

country road. Sent to Board of Councilmen, January 13, 1859, p. 96, and referred to Committee on Roads. No report.

1859—Flagging in Prince street, from cor. of Thompson up to No. 182 Prince street. Sent to Board of Aldermen, Jan. 13, 1859, p. 187; confirmed and sent to Board of Councilmen, May 12, 1859, p. 265; received in Board of Councilmen, May 19, 1859, p. 842, and referred to Committee on Streets. No report.

1859—Flagging Thirty-fourth street, from Second to Fourth avenue. Sent to Board of Councilmen March 24, 1859, p. 511, and referred to Committee on Streets; reported and laid over, p. 550; postponed, p. 625, and finally recommitted to Committee on Streets, April 18, 1859, p. 643. No report since.

1859—Flagging south side of Seventeenth street, between Avenues A and B. Sent to Board of Councilmen April 25, 1859, p. 675, and referred to Committee on Streets. No report.

1859—Hose company No. 11, new apparatus. Sent to Board of Aldermen May 16, 1859, p. 303; confirmed May 19, 1859, p. 338; received in Board of Councilmen, May 23d, 1859, p. 875, and referred to Committee on Fire Department. No report.

1859—Rebuilding pier foot of Fortieth street, North river. Sent to Board of Councilmen June 2, 1859, p. 948, and referred to Committee on Wharves, &c. No report.

1859—Flagging Seventeenth street, between Eighth and Ninth avenues. Sent to Board of Councilmen June

2, 1859, p. 949, and referred to Committee on Streets. No report.

1859—Flagging Thirty-ninth street, between Lexington and Fifth avenues. Sent to Board of Councilmen June 2, 1859, p. 949, and referred to Committee on Streets. No report.

1859—Flagging, &c., Avenue C, between Eleventh and Twelfth streets; Catharine street, between Oak and Cherry streets; West Ninth street, between No. 8 and corner of Sixth avenue; Sixth avenue, from No. 116 to corner of Ninth street; Twenty-second street, south side, between Broadway and Fifth avenue; Broadway, west side, from Twenty-second street to southerly line of vacant lot. Sent to Board of Councilmen June 27, 1859, p. 1145, and referred to Committee on Streets. No report.

1859—Flagging and setting, curb and gutter, &c., Jackson street, between Cherry and Water streets; Scammel street, between Cherry and Water streets; Thompson street, No. 123; Waverly place, from No. 123 to corner of Sixth avenue; Sixth avenue, from No. 80 to corner of Waverly place; Carmine street, front Nos. 63, 65, 67, 69 and 71; Hamersley street, front of Nos. 39 and 45; East Tenth street, from Avenue C to Dry Dock street; Prince street, between Mott and Elizabeth streets. Sent to Board of Councilmen, June 27, 1859, p. 1144, and referred to Committee on Streets. No report.

1859—Flagging in Canal street, between Centre and Baxter streets; in Twelfth street, from No. 20 to 28; in Thirteenth street, between Third and Fourth avenues. Sent to Board of Councilmen June 27, 1859, p. 1143, and referred to Committee on Streets. No report.

1859—Engine company No. 44, new apparatus. Sent to Board of Councilmen June 27, 1859, p. 1146, and referred to Committee on Repairs and Supplies. No report.

1859—Flagging Forty-sixth street, between Fifth avenue and East river. Sent to Board of Councilmen June 27, 1859, p. 1145, and referred to Committee on Streets. No report.

1859—Flagging around Market square, between One hundred and twentieth and One hundred and twenty-first streets, Third and Fourth avenues. Sent to the Board of Councilmen, June 27, 1859, p. 1143, and referred to Committee on Streets. No report.

1859—Regulating and grading Sixty-first street, between Third and Fifth avenues. Sent to Board of Councilmen, June 27, 1859, p. 1147, and referred to Committee on Roads. No report.

Statement of Contracts made by the Street Department since January 1st, 1859. Total number 33, viz:—

1859.

Jan. 1. For repairing pier at foot of Thirteenth street, North River. Jacob Sharp Contractor. Amount of bid \$2,616; one half to be paid by William B. Astor. All paid.

Feb. 25. Supplemental agreement to contract made with Theodore Hunt, to build Tompkins Market; Mr. Hunt to receive for extra work done, \$4,550 82; and to deduct for alterations to be made in the original contract, \$13,184.

1859. For repairing pier No. 35, foot of Franklin March 1. street, North River, Jacob Sharp, Contractor. Amount of bid, \$2,800. All paid.
- March 10. For repairing pier No. 52, west side of Gouverneur Slip, East river; Richard C. Wel- den, Contractor; amount of bid, \$2,000; Mr. J. S. Martin to pay one half the expense. Nothing paid.
- March 14. For repairing pier at One hundred and thirty- first street, Manhattanville, North river; Moody Cummings, Contractor; amount of bid, \$820. All paid.
- April 2. Setting back iron railings south side of Battery Place; L. W. Armstrong, Contractor; amount of bid, \$689. All paid.
- April 6. For 1,500 gas-lamp irons; B. Lang, Contractor; amount of bid, \$1,214 85. Paid, \$222 31.
- April 22. For building a new engine for the use of en- gine company No. 10; Van Ness & Co., Con- tractor; amount of bid, \$1,175. Nothing paid.
- April 30. For building a new hose carriage for the use of hose company No. 38; Joseph Pine, Con- tractor; amount of bid, \$315. All paid.
- May 2. For regulating, grading, reflagging and resetting curb and gutter stone in Forty-third street, be- tween Ninth and Tenth avenues; Taylor & Elder, Contractors; amount of bid, \$600 50. Nothing paid.

1859. For flagging sidewalks in Lexington avenue, between Thirty-third and Thirty-fourth streets, and Thirty-first street, near Third avenue; William Baird, Contractor; amount of bid, \$274 60. Nothing paid.

May 10. For flagging &c. four feet wide sidewalks and setting curb and gutter stone in Forty-third street, between Third and Fifth avenues; William Baird, Contractor; amount of bid, \$1,140 90. Nothing paid.

May 10. For flagging six feet wide the sidewalks in Third avenue, between Forty-second and Forty-Fourth streets; William Baird, Contractor; amount of bid, \$448 80. Nothing paid.

May 13. For flagging and reflagging the sidewalks in New Bowery and Pearl streets, between Chatham Square and Peck Slip; David Donaldson, Contractor; amount of bid, \$1,552 60. Nothing paid.

May 13. For flagging and setting curb and gutter stones from No. 19 East Twelfth street to the corner of University Place; David Donaldson, Contractor; amount of bid, \$258 01. Nothing paid.

May 13. Repairing block end of pier foot of Forty-seventh street, North river; Jacob Sharp, Contractor; amount of bid, \$1,196 16. All paid.

May 14. For flagging four feet wide the sidewalks in Thirty-eighth street, between the Third and

1859. Fourth avenues; William Baird, Contractor; amount of bid, \$370. Nothing paid.
- May 14. For regulating and grading the Ninth avenue, from Fifty-third to Sixty-fourth street; Michael Casey, Contractor; amount of bid, \$29,955. Nothing paid.
- May 17. For building a new hose carriage for the use of hose company No. 50; William Williams, Contractor; amount of bid, \$325. All paid.
- May 17. For building a new truck for the use of hook and ladder No. 10; William Williams, Contractor; amount of bid \$350. All paid.
- May 21. For excavating slip foot of Broad street, East river; Liddle & Orr, Contractors; amount of bid, fourteen cents per cubic yard. All paid.
- May 25. For flagging, four feet wide, the north sidewalk of Twenty-ninth street, between First and Second avenues; Jeremiah Crowley, Contractor; amount of bid, \$289 36. Nothing paid.
- May 30. For flagging, four feet wide, and setting curb and gutter stones in Thirty ninth street, between Second and Third avenues; John Lenahan, Contractor; amount of bid, \$245 04. Nothing paid.
- June 1. For flagging, four feet wide, the sidewalks on Fortieth street, from Eleventh avenue to the Hudson river; Jeremiah Crowley, Contractor; amount of bid, \$941 70. Nothing paid.

- June 1. For flagging, eight feet wide, the sidewalks and setting the curb and gutter stones in West Forty-second street, between Tenth avenue and Hudson river; Jeremiah Crowley, Contractor; amount of bid, \$4,782 58. Nothing paid.
- June 6. For repairs and alterations to Center Market; Stewart & Buck, Contractors; amount of bid, \$10,640. Nothing paid.
- June 6. For building a house in East Twenty-eighth street, for the use of hook and ladder company No. 9; Edward Linnen, Contractor; amount of bid, \$4,773. Nothing paid.
- June 6. For building the foundations and erecting the iron railing around the parks in Fourth avenue, between Thirty-fourth and Thirty-eighth streets; Jacob W. Smith, Contractor; amount of bid, \$18,248 10. Nothing paid.
- June 6. For building a station-house in Oak street, for Fourth Precinct police; Carpenter & Vandervoort, Contractors; amount of bid, \$11,232. Nothing paid.
- June 6. For rebuilding, &c., the Fifteenth Precinct station-house; J. V. Gridley, Contractor; amount of bid, \$8,500. Nothing paid.
- June 7. For filling low and sunken lots on the block bounded by Ninth and Tenth avenues, Forty-first and Forty-second streets; Oscar Taylor, Contractor; amount of bid, \$1,779. Nothing paid.

June 7. For setting curb and gutter stones, and flagging four feet wide, on south side of Fifty-ninth street, between Seventh and Eighth avenues; Oscar Taylor, Contractor; amount of bid, \$949 92. Nothing paid.

June 21. For flagging and reflagging, setting and resetting the curb and gutter stones, and altering the grade of Mulberry street south of Canal street; Michael J. Green, Contractor; amount of bid, \$1,005 56. Nothing paid.

APPENDIX D.

List of thirty-seven judgments recovered against the city since 1st January, 1858, by parties acting, and claiming to act, as inspectors on contracts under the Street Department; in thirty-five of which, information was asked by the Corporation Counsel, and furnished by the Street Department:

Abraham Ackerman, judgment December 2, 1858, for \$57 78, as inspector on Fifty-seventh street, between Third and Fourth avenues.

Answer of the Street Department to this claim:

“ Case, Fifty-seventh street—There has been no such contract, but there is one on this street, from the Third to the Fifth avenues. Ackerman’s name does not appear on our Inspector’s Book.”

Richard Austin, judgment December 2, 1858, for \$169 06
As inspector on One hundred and sixteenth street, from November 1, 1857, to January 22, 1858.

Richard Austin, judgment December 2, 1858, for 198 02
By A. S. Banta, assignee, as inspector on One hundred and sixteenth street, from July 15, 1857, to November 1, 1857.

Richard Austin, judgment December 2, 1858, for 159 85
By Matthew Fullum, assignee, as inspector on One hundred sixteenth street, from February 1, 1858, to May 1, 1858.

Total..... \$526 98

Information furnished by the Street Department in this case—“ One hundred and sixteenth street. The claim is

from November 1, 1857, to May 1, 1858, whereas the work was finished in the early part of January, 1858, and the list sent to the assessors from this office January 18, 1858, showing conclusively that for more than three months of this claim, there could, by no possibility, have been any just foundation. This claim appears to have been divided into three parts, for the purpose of bringing it within the jurisdiction of the Marine Court. The judgments in the above three cases were entered on the same day."

Charles Boyd, judgment December 2, 1858, for \$187 48
As inspector on Fifty-second street, from July 10, 1857.

Charles Boyd, judgment January 20, 1859, for 122 00
As inspector on Fifty-second street, between Fifth and Sixth avenues, from November 1, 1857, to January 1, 1858.

Total..... \$309 48

Information furnished by the Street Department—
"Fifty-second street, between Fifth and Sixth avenues. This work was completed on the 10th of June, 1857, just one month before the commencement of this claim." Judgment was nevertheless rendered in favor of this unfounded demand.

Peter Banta, judgment April 9, 1858, for..... \$211 05
As inspector, the location not given, and no time specified.

Peter Banta, judgment February 12, 1858, for 104 00
As inspector on Sixty-second street, between Eighth and Ninth avenues, from March 15, 1858, to May 15, 1858.

Total..... 315 05

Information furnished by the Street Department—
“Peter Banta claims on Sixty-second street, between Eighth and Ninth avenues. Two other persons, J. Gaffney and R. Flannagan, have already claimed on this work, as you will see by turning to your own records of July last. What disposition was made of these suits you know best yourself. I would repeat what was then said, amongst other things, that the ordinance dated 16th of August, 1856, gave no authority to appoint an inspector.” In this case, therefore, no appointment of any inspector could have been legal; nevertheless, in addition to the above two judgments, Peter Banta was paid by judgment, \$463 97, on the 15th of March, 1858. And Richard Flanagan recovers judgment for \$924 79, on the same work. (See Flanagan’s case further on.)

Richard Flanagan, judgment October 2, 1858, for \$924 79

As inspector on the same street, same work,
from May 30, 1856, to May 20, 1858.

Information furnished by the Street Department.—
“Richard Flanagan, as appears by the books of this department, was appointed on the 30th of July, and removed on the 29th of Oct., 1856. At the time he was removed, he was duly furnished with a bill for twenty-eight days’ service, the number of days that the work was in progress while he was inspector. But the ordinance directing the work, contains no authority to appoint an inspector. It is dated August 16th, 1856. Notwithstanding this want of authority, Peter Banta (see preceding case,) was paid \$463 97, on the 15th of March, 1858, as inspector’s fees.”

The contract for this work was not made until the 15th of January, 1857. It will thus be seen, that Flanagan

was paid by judgment, for his services as inspector for two and a half months, before even the ordinance authorizing the work was passed, and seven months and a half before any contract was made for carrying it out. James Humes was the contractor, and assigned to Terrence Farley, who performed about one-fourth of the job, and then abandoned it. Nothing has been done since. The total amount of work performed at the prices stated in the contract, is estimated at about \$500, while more than \$1,700 has been recovered by judgment for inspector's fees from the city; more than three times the value of the work actually performed.

James Cruise, judgment July 13, 1858, for \$40 00
As inspector on Fifty-first street.

Information furnished by the Street Department.—
“First. There is no evidence that Cruise was ever appointed. Second. The work has not been in progress, which the appointment makes a *sine qua non*, for the recovery of payment. Third. He has never reported to this office. Fourth. All the inspectors were removed by Mr. Edward Cooper.”

Matthew Fullum, judgment December 2, 1858, for \$200 00
As inspector on Eightieth street, from Fourth
avenue to East river, from January 1, 1858, to
May 1, 1858.

Information furnished by the Street Department.—
“There is no evidence in this office that Matthew Fullum was ever appointed inspector on this work. His name does not appear on any of our books, nor is it in the list of inspectors sent here by Mr. Ring, the Superintendent of Street Improvements under Mr. Charles Devlin. We

have searched through the reports of inspectors, but have not found any report made by Mr. Fullum. So that he has not, it appears, ever reported, which his appointment would require him to do."

Michael Kelly, judgment December 2, 1858, for \$139 00

As inspector on Second avenue, between Fifty-second street and Eighty-sixth street, from August 1, 1857, to October 4, 1857.

Michael Kelly, judgment March 9, 1858, for \$186 18

Same street, same work, from Oct. 4, 1857, to Jan'y 1, 1858.

Total.....\$325 18

Information furnished by the Street Department—"That no such contract was ever made by this department;" no such claim as this, therefore, could, by any possibility, be legal.

Bernard McParlin, judgment Aug. 26, 1858, for \$200 00

As inspector on Third avenue, between Eighty-sixth street and One hundred and tenth street, from Dec. 12, 1857, to April 7, 1858.

Bernard McParlin, judgment May 27, 1858, for 124 27

By assignee, J. M. Fox, for same street, same work, from 1st November to 31st December, 1858.

Bernard McParlin, judgment Nov. 15, 1858, for 40 00

By assignee, Peter J. Henry, for same street, same work, no time given here.

Bernard McParlin, judgment Jan'y 27, 1859, for 191 00

By assignee, Joseph B. Smith, for same work, same street, from May 1 to July 31, 1858,

Total.....\$555 72

Information furnished by the Street Department in the first suit only ; no information asked in the other cases. McParlin was removed in May, 1858, by the Street Commissioner, and therefore had no shadow of a claim for the \$315 27 recovered for services subsequent to that date. Affidavit can be made that McParlin was personally notified of his discharge.

Thomas Moloney, judgment April 13, 1858, for \$316 00

As inspector on Sixth avenue, between Fifty-fourth and Fifty-ninth streets, from July 1, 1857, to Jan'y 1, 1858.

Thomas Moloney, judgment Nov. 9, 1858, for 100 00

As inspector same street, same work, from Jan. 1, 1858, to Feb. 20, 1859.

Total..... \$416 00

Information furnished by the Street Department.—“It appears that J. Langdon also recovered judgment as inspector on this same work for \$260 12, for services up to Nov. 23, 1857; thus covering a considerable part of the time embraced in Moloney's judgment. T. L. Taylor also was paid, as inspector, \$235 50, on the same work, to 29th September, 1857, also covering a considerable part of the time embraced in both Moloney's and Langdon's judgments.”

Michael O'Brien, judgment Dec. 2, 1858, for \$115 50

As inspector on Eleventh avenue, the precise part not stated, from 1st September, 1857, to 24th October, 1857.

Information furnished by the Street Department—“That S. McMurray recovered judgment to 1st November, 1857,

embracing the entire time for which O'Brien claims. McMurray's judgment amounted to \$121 75." One or the other of these parties was not entitled to recover."

David Cargill, judgment October, 1858, for \$125 70

As inspector on Fifty-second street, between
Sixth avenue and Broadway, from November
7, 1857, to May 1, 1858.

David Cargill, judgment October 19, 1858, for \$183 80

As inspector on same street for a portion of
same time, the claim having been divided.

Total..... \$309 50

Information furnished by the Street Department—
"That Moses Smith had performed the work, as Inspector on this street, and he alone made weekly reports as required by the terms of all inspectors' appointments; and that said Smith had sent in his bill, accompanied by an affidavit of the contractor, that he (Smith) and no other person had attended to the work."

Moses A. Pierce, judgment October 14, 1858, for \$103 00

As inspector (by assignee) on Fourth avenue,
from Seventy-ninth street, since December 1,
1857, to May 1, 1858.

Moses A. Pierce, judgment October 14, 1858, for 166 62

As inspector (by assignee), same work, portion
of same time.

Total..... \$269 62

Information furnished by the Street Department—
"That nothing was officially known of Mr. Pierce as an inspector; also, that J. Watson had recovered judgment as inspector on the same work, to 12th December, 1857,

embracing a portion of the time for which Pierce claims; also, that Charles McCarty has recovered judgment for the whole time included in both Pierce's and Watson's judgments. *Three* parties, nevertheless, recovered judgment for the same time."

David Cunningham, judgment March 2, 1859, for \$164 65

As inspector on Ninety-third street, between
Second and Fourth avenues, for 72 days prior
to May 1, 1858.

Information furnished from the Street Department--

"That the name of Cunningham is not to be found on any of the records of this department; also, that there were two other claimants as inspectors on this work.

John Healey, judgment February 18, 1859, for \$111 48

As inspector on Seventy-sixth street, from
Second avenue to East river, from December
3, 1857, to February 10, 1858.

Information furnished by the Street Department--

"That there was never any contract made by the Department for work on this street, and that consequently there could be no just claim." Judgment by default.

Thomas Meeker, judgment January 20, 1859, for \$110 24

As inspector on Fifty-fifth street, between Sixth
and Seventh avenues, services up to January
1, 1858, fifty-two days.

Information furnished by Street Department--"That no such name appears on the list of inspectors said to have been appointed by any of the occupants or claimants of the office of Street Commissioner, and that this party could have no just claim, as he had never discharged the duties of an inspector."

Patrick H. Kelly, judgment January 2, 1858, for \$150 07

As inspector (by assignee) from Fifth avenue,
between Forty-ninth and Sixty-first streets,
from November 1, 1857, to January 31, 1858.

Patrick H. Kelly, judgment January 20, 1858, for 163 58

As inspector (by assignee) for same work, from
February 1, 1858, to May 1, 1858.

Patrick H. Kelly, judgment January 20, 1858, for 192 54

As inspector (by assignee) on Third avenue,
from Forty-fourth to Fifty-sixth street, from
August 1, 1857, to November 10, 1857.

Total..... \$506 19

Information furnished by the Street Department in reply
to the last case (no information asked in the other two)—

“That Kelly did not appear to have ever performed work
as inspcctor, though his name was furnished by Mr. C. H.
Ring, Superintendent of Street Improvements, under
Charles Devlin, not, however, upon this work, but on
Fifth avenue, from Sixty-first to Eighty-sixth streets,
which work has not yet been commenced; consequently
Mr. Kelly could have no just elaim. John Mountjoy has
been paid, by judgment and otherwise, as inspector on
Fifth avenue, from Forty-ninth to Sixty-first streets, for
the whole time for which Kelly makes his elaim.”

Henry West, judgment January 19, 1858, for \$200 00

As inspector on Fifty-fifth street, between
Tenth and Eleventh avenues, from January 1,
1858, to May 1, 1858.

Information furnished by the Street Department—

• “That there was no evidencce he had ever done duty as

inspector on the work, as he made no reports to this office." Judgment by default.

John Odell, judgment October 23, 1858, for \$960 00
As inspector on Sixtieth street, from Second
to Fifth avenue, January 10, 1857, to May 15,
1858.

Information furnished by the Street Department—
"That on 17th November, 1857, O. A. Clark recovered
judgment, as inspector on the same work, for \$226 87, and
J. Hays for \$254 87." It was added, "that as the courts
had decided that Clark and Hays were inspectors on this
work, the Street Department had refused to pay Odell,
although he had an appointment from Street Commis-
sioner Taylor, and seemed to have performed the work in
good faith."

Henry C. Hope, judgment November 4, 1858, for \$316 66
As inspector on One hundred and twenty-fifth
street, 124 days, from December 8, 1857.

Information furnished in this case by the Street De-
partment, but copy of the letter mislaid. It will be seen
that the next case covers the whole time claimed by Mr.
Hope. Judgment by default.

William Cooper, judgment February 5, 1859, for \$696 60
As inspector on One hundred and twenty-fifth
street, from August 1, 1857, to May 15, 1858.
M. R. Brewer, Referee.

As in the foregoing case, payment for the same time
is claimed, and it is evident that one or the other, if not
both, must have been unjust claims. A. Cossick was also
paid, by judgment, on the same work, to November 14,

1857, \$214 12, covering a large portion of Cooper's claim. The three parties, however, recovered for the same time.

Charles McCarty, judgment March 10, 1859, for \$671 15
As inspector on Fourth avenue, from Seventy-first to Seventy-ninth street, from July 1, 1857, to May 15, 1858. M. R. Brewer, Referee.

Information furnished from the Street Department—
“That there is no evidence of McCarty's appointment by Mr. Devlin, or that he was employed in the work, as he made no reports and gave no information relative to the progress of the work. Moses A. Pierce and J. Watson have recovered judgments on the same work, as inspectors, for a portion of the same time.” This third judgment was rendered notwithstanding.

James Durning, judgment February 22, 1858, for \$370 68
As inspector on Fifty-fifth street, from 20th March, 1857, to May 1, 1858.

Information furnished from the Street Department—
“That there was no work in progress on that street during the time for which the claim was made, and that the appointments of inspectors contained a clause that payment was to be made only during the progress of the work.” Judgment, nevertheless, for plaintiff.

William H. Gray, judgment January 8, 1859, for \$339 85
As inspector on Sixtieth street, between Third and Fifth avenues, from October 20, 1857, to May 1, 1858.

Information furnished, “that the Street Department had no knowledge of Mr. Gray as an inspector, and that

Mr. Odell had recovered judgment for the whole time claimed by Gray." Judgment by default.

List of Judgments obtained against the city for alleged services as Inspectors under the Street Department, in which no call upon the Street Department for any difference in behalf of the city was made by the Law Department.

Charles Demoulin, judgment, Jan. 15, 1858, for \$499 00
As inspector on One hundred and twenty-fifth street. Services from 16th September, 1856.

The contract, in this case, was not made until 12th January, 1857. It will be seen that his claim commences four months prior to the date of the contract. Hope, Cooper and Cusack all recovered judgments on the same street.

Wm H. Blauvelt, judgment, Nov. 26, 1858, for.. \$200 00
As inspector on Forty-fourth street, from 1st January, 1858, to 1st May, 1858.

No information asked in this particular case; but in reply to a call for information in the case of James McKinn, who claimed to be an inspector on the same street, the Corporation Counsel was informed that John M. Mimne had produced his appointment on this work, by the Street Commissioner and evidence of his having discharged the duties as inspector during all the time for which McKim claims; and that he has paid up to May 1, 1858. Judgment for Blauvelt by default.

Gilbert W. Oliver, judgment, Aug. 26, 1858, for.. \$194 41
As inspector on Thirtieth street, between Madison and Third avenues.

Carried forward..... 194 41

Brought forward	\$194 41
Gilbert W. Oliver, judgment, Aug. 26, 1858, for..	108 00
As inspector on Thirty-first street, between Madison and Third avenue, from August 29th, 1856, to June 30th, 1857.	
Gilbert W. Oliver, judgment, Aug. 26, 1858, for..	125 29
As inspector (by assignee) on Thirty-first street, between Madison and Third avenues, for a portion of the last time.	
Total	<hr/> \$427 70

No such name appears on Mr. Taylor's book of inspectors, or on any inspector's list, although if he had an appointment, it must have been given by him, he being Street Commissioner at the time specified.

Oscar A. Clark, judgment, January, 11, 1858, for	\$67 14
As inspector on Sixtieth street. No time stated.	
Oscar A. Clark, judgment, April 9, 1858, for...	184 00
As inspector (name of street not mentioned) for 92 days, from April 1st, 1857.	
Oscar A. Clark, judgment, Dec. 20, 1858, for...	64 35
As inspector (by assignee) on Sixty-first street, between Third and Fifth avenues.	
Total	<hr/> \$315 49

It will be observed that Clark claims for a part of the time (not stated) on Sixtieth street; for another part of the time, on Sixty-first street; and for another part of the time, as inspector on a street not named. In the first two cases Clark obtained judgment by default.

Patrick Cornell, judgment, March 9, 1858, for.. \$346 13
 As inspector from 23d June, 1857, to January
 1st, 1858. Locality of the work not stated.

Nevertheless Cornell obtained judgment by default.
 He claims to have been appointed by Mr. Charles Devlin.

Walter L. Cassin, judgment, April 9, 1858, for.. \$318 24
 As inspector, from July 1st, 1857, to January,
 1858. Locality of work not stated.

He claims an appointment from Mr. Charles Devlin,
 but does not locate the street on which he performed his
 services.

John Cutter, judgment, April 9, 1858, for..... \$201 00
 As inspector, from November 10th, 1857, to
 May 10th, 1858. Locality of work not stated.

John Cutter, judgment, January 20, 1859, for.. 117 13
 As inspector on Fifty-seventh street, between
 Eighth and Ninth avenues, from 20th May,
 1857, to 31st July, 1857.

Total..... \$318 13

Thomas McSpedon appears to have been appointed in-
 spector on this work, and was paid for all the time claim-
 ed by Cutter. Nathan Kavanagh, also claims for the
 same work, and the same time. Both of these reported
 to the Street Department, which Cutter did not do. Mr.
 Cutter also claims to have been appointed by Mr. Charles
 Devlin.

James G. Cooper, judgment, Feb. 3, 1858, for.. \$480 00
 As inspector on Fifty-first street, from Third
 to Sixth avenue, from July 28th, 1856, to Sep-
 tember 11th, 1857.

This appears to be a just claim, so far as the records of the Street Department show, as Cooper's name is on Mr. Taylor's book of inspectors.

Gilbert Dugan, judgment, March 29, 1858..... \$135 57
As inspector on Fifty-fifth street, from Tenth
to Eleventh avenues, September 1st, 1856, to
November 12th, 1857.

Albert S. Banta has recovered judgment for \$309 13 on the same street, and Terence Branigan has been paid by judgment and otherwise, \$542 87 for the same work on the same street. Also Henry West recovers judgment for \$200 for the same work; making more than \$1,200, paid for *supervising* a job, where not \$100's worth of work had been done by the contractor during that time. The work not being in progress, these parties were not entitled to pay.

John Hogan, judgment, Sept. 23d, 1858, for.... \$146 00
As inspector on the Battery Enlargement, from
November 16th, 1857, to February 5th, 1858.

No work in progress here during the time of Hogan's claim and for many months previous; consequently he was not entitled to pay for services. The records show that he was appointed inspector but that the appointment was revoked.

Dennis Hanley, judgment, April 9, 1858, for.... \$45 00
As inspector, from December 5th, 1857, to
January 1st, 1858. Locality of work not
stated.

In this case no information can be given, as no street is specified on which the alleged services were performed.

Albert S. Banta, judgment, Aug. 6, 1858, for...	\$200 00
As inspector on Fifty-fifth street, between Tenth and Eleventh avenues. No time stated.	
Albert S. Banta, judgment, March 9, 1858, for..	83 13
As inspector on same street. No time stated.	
Albert S. Banta, judgment, Jan. 20, 1859, for..	26 00
As inspector (by Charles Boyd, assignee,) for same street. No time stated.	
Total.....	\$309 13

No information was asked from the Street Department as to this particular claimant, but it will be seen that Gilbert Dugan, Terence Branigan and Henry West have been already paid on this work, during a large part of the time it has been in progress. Mr. Banta claims to have been appointed by Charles Devlin.

R. G. Hunt, judgment February 3, 1859, for.... \$492 00
As inspector on Fifty-sixth street, between
Broadway and Sixth avenue, from November
24th, 1856, to January 23d, 1858.

The ordinance directing the work to be done, did not authorize the appointment of an inspector, consequently there could have been no authority for appointing him previous to 1st May, 1857; moreover the contract was not made until the 6th April, 1857, nearly four months and a half subsequent to the date on which his claim as inspector commences. He nevertheless recovers judgment for the whole time.

Daniel Lynn, judgment April 9, 1858, for..... \$234 19
As inspector for 116 days, before the 1st of
March, 1858. Location of work not stated.

Of course, as this claim is not located, no definite information can be given. The party claims to have been appointed by Mr. Charles Devlin. On a list of judgments, furnished by Comptroller Flagg, Daniel Lynn appears to have recovered judgment to the 1st of March, 1858, as inspector on Fifty-sixth street, from Fourth avenue to the East river, for \$453 93. It will thus be seen either that Mr. Lynn is being paid twice for the 116 days previous to 1st of March, 1858, or that he must have been appointed inspector on two different streets, and drawing pay for both at the same time.

Charles Moore, judgment January 16, 1858, for \$316 00
As inspector for 158 days, between July 6th,
1857, and January 1, 1858. Location of work
not given in the complaint.

In this case judgment was given by default. Mr. Charles Moore claims to have been appointed by Mr. Charles Devlin.

James McLoughlin, judgment April 9, 1858, for \$182 00
As inspector from December 14, 1857, to April
1, 1858. Location of work not given.

He claims an appointment from Charles Devlin. Judgment by default. Of course, nothing can be known of the claim, as the location is not specified.

David McBride, judgment April 9, 1858, for . . . \$155 54
As inspector from Nov. 30, 1857, to March 1,
1858. Location of work not stated.

He also claims an appointment from Mr. Charles Devlin. Judgment by default.

James Neary, judgment April 9, 1858, for..... \$246 00
 As inspector 153 days prior to April 1, 1858.
 Location of work not stated.

He claims appointment from Charles Devlin. No evidence that he has ever performed any work in this department.

Denison Parks, judgment April 9, 1858, for..... \$402 00
 As inspector on streets, August 10, 1857, to April 1, 1858. Location of work not stated.

He claims his appointment from Charles Devlin. Judgment by default.

James Nelson, judgment December 20, 1858, for \$184 73
 As inspector on Eighth avenue, from One hundred and fourteenth street to One hundred and twenty-fifth street, from February 1, 1858, to May 1, 1858—by assignee.

James Nelson, judgment for..... \$199 00
 As inspector on same work, from October 14, 1857, to February 1, 1858—by assignee.

Total..... \$383 73

The contract for this work was dated October 15, 1855, and was never confirmed by the Common Council. No work was ever done by the contractor, and consequently there is no shadow of foundation for this claim. Mr. Nelson, up to the 14th of November, 1857, recovered judgment for \$254 87, on the same street, which embraces part of the time included in the second judgment—thus making a total of \$638 60, obtained for the inspection of a work which was never commenced by the contractor, and for part of the time he was paid twice.

John E. O'Toole, judgment Dec. 20, 1858, for...	\$162 73
As inspector on Seventy-ninth street, from Broadway to Hudson river, November 14, 1857, to February 1, 1858—by assignee.	
John E. O'Toole, judgment Dec. 20, 1858, for...	187 79
As inspector on same street, from February 1, 1858, to May 1, 1858—by assignee.	

Total..... \$350 52

Daniel McGinn and John P. McGinn, recovered judgment, for the same work on the same street, embracing part of the time claimed by O'Toole, together, amounting to \$364 60; and Wm. Twine, who appears to have been the only proper inspector on the work, has been paid for the whole time included in the judgments of the other three. There are thus four claimants on this work, and all recovering judgments for the same time.

James I. Young, judgment December 16, 1858, for	\$41 50
As inspector on Thirty-sixth street, from the Second to the Third avenue, from September 12, 1856, to October 9, 1856.	

The office records show this to be a just claim.

Isaac Robinson, judgment April 9, 1858, for....	\$248 88
As inspector from August 11, 1857, to December 31, 1857. Location of work not stated.	

Isaac Robinson, judgment January 13, 1859, for	107 10
As inspector (by assignee) on Fifty-ninth street, between Fifth and Sixth avenues, from March 1, 1858, to May 1, 1858.	

Isaac Robinson, judgment January 13, 1859, for	107 10
As inspector (by assignee,) from January 1, 1858, to May 1, 1858, on same work and same street.	

Total..... \$463 08

There was no contract for any such work made by this department, nor was any such work in progress at that time; consequently these three claims are without a shadow of foundation. He claims appointment under Mr. Charles Devlin.

Robert Simonton, judgment April 9, 1858, for... \$208 00

As inspector on streets for 104 days, prior to April 1, 1858. Location of work not stated.

Claims his appointment under Charles Devlin.

Jacob T. Smith, judgment June 30, 1858, for... \$163 50

As inspector of paving and flagging, for 102 days. No time given, and the location of the work not stated.

Michael Tevan, judgment January 7, 1858, for.. 301 50

As inspector on Forty-third street, between Tenth avenue and Hudson river, from November 24, 1856, to January 30, 1857.

Mr. Tevan's name appears on the Inspector's Book of Street Commissioner Taylor. The ordinance authorizing the work gave no power to appoint an inspector, and there was no authority for Tevan's appointment.

Dennis Tivnan, judgment January 7, 1858, for.. \$181 67

As inspector on Forty-third street, between Third and Fifth avenues, from November 24, 1856, to April 3, 1857.

This name also appears on Mr. Taylor's Inspector's Book.

Francis Slocum, judgment December 2, 1858, for \$405 40

As inspector on Ninety-third street, between Second and Third avenues, from October 8, 1857, to May 15, 1858.

Daniel Cunningham obtained judgment on the same work for nearly all the time included in Mr. Slocum's claim. It appears, however, that Slocum's name is on the Inspector's Book, and some reports of his are on file in the Street Department. Both parties were not entitled to pay for the same work.

Joshua M. Cooper, judgment January 21, 1858, for \$80 00
As inspector on Fifty-second street, from Fourth avenue to East river, November 16, 1857, to December 31, 1857.

Charles Smith, judgment January 21, 1858, for. \$68 00
As inspector on Fortieth street, from First to Second avenue, November 21, 1857, to January 1, 1858.

Smith seems to have been the proper inspector, and to have reported regularly at this office.

Michael Sheehan, judgment March 26, 1858, for. \$104 00
As inspector on One hundred and fourteenth street, at Harlem river, November 1, 1857, to December 31, 1857.

No contract for any such work was made by this department, and consequently there can be no foundation for this claim.

Samuel P. Perkins, judgment April 23, 1858, for \$246 00
As inspector on Fifty-seventh street, from Eighth to Eleventh avenue, from August 28, 1856, to March 3, 1857.

Mr. Taylor was Street Commissioner at this time, and his books show that Perkins was appointed on this street as inspector, September 1, 1856, and removed December 3, 1856.

John Sheppard, judgment April 23, 1858, for.. \$63 00
As inspector on Eighth avenue, from Fifty-ninth to Eighty-second street, November 16, 1857, to December 22, 1857.

No work was in progress on this contract at that time, and consequently no inspector was entitled to payment.

John Mountjoy, judgment April 23, 1858, for... \$102 33
As inspector on Fifth avenue, from Forty-ninth to Sixty-first street, October 22, 1857, to December 19, 1857.

This party recovered another judgment on the same work, to the same date, December 19, 1857, for \$201 69, and was therefore paid twice for the same work.

Nicholas Brooks, judgment October 23, 1858, for \$639 32
As inspector from October 1, 1857, to October 1, 1858, on Forty-third street, from Ninth avenue to Hudson river.

All work on this contract was suspended in the early part of 1857, on account of a change of grade in the street. No inspector therefore was entitled to payment. Moreover, all inspectors were discharged by Mr. Cooper on the 15th of May, 1858; and a new contract was made for this work in the latter part of 1858. The claim of Mr. Brooks was therefore without any just or legal foundation.

Charles Golden, judgment February 5, 1857, for \$290 38
As inspector on Fifth avenue, from Forty-ninth to Sixty-first street, November, 1856, to June 30, 1857.

The contract for this work was not made until the 7th of April, 1857; more than five months after the alleged

commencement of Mr. Golden's services, and could not have been in progress for more than forty-seven working days embraced in this claim.

List of twelve Judgments recovered against the city since 1st of March, 1859, by parties acting or claiming to act, as Inspectors on Contracts under the Street Department, in all of which information was asked by the Counsel to the Corporation, and furnished by the Street Department. In nine of these suits an answer was put in, but no appearance; in the other three, there was no answer.

William Bourke, by assignee, Matthew Fullum,
inspector on retaining-walls on Fifth avenue,
between Forty-eighth and Fifty-ninth streets,
from the 10th of December, 1857, and 1st of
March, 1858. No answer. Judgment June
28th, 1859..... \$123 83

William Bourke, same as above, from the 1st
day of October, 1857, to 10th day of Decem-
ber, 1857. No answer. Judgment June 2d,
1859..... \$120 00

William Bourke, by assignee, Thomas Williams,
same as above, from 1st of March, 1858, to
July 1st, 1858. No answer. Judgment June
28th, 1859..... \$158 86

Total..... \$402 19

The following was the answer in reply to Mr. Busteed's communication asking for information:—

“In the matter of three suits of Mr. Bourke and his assignees, for services as inspector for building retaining-walls on Fifth avenue, between Forty-eighth and Fifty-

ninth streets, from the 1st day of October, 1857, to the 1st of July, 1858, I would respectfully state, that there is not, nor never has been, any contract or authority to make a contract for the work; neither has there been any such work done. I do not find any record of appointment of Mr. Bourke as Inspector; moreover, Mr. Edward Cooper, late Street Commissioner, discharged all the inspectors on May 15th, 1858."

Daniel McCullum, by assignec, Charles Herring, Inspector, regulating and grading Fortieth street, from First to Second avenue, 65 days next preceding May 1st, 1858. No answer. Judgment April 6th, 1859.....	\$139 10
Daniel McCullum, same work as above, from October 20th, 1857, to March 1st, 1858. No answer. Judgment April 6th, 1859.....	\$192 70
Total.....	\$331 80

The following information was furnished Mr. Busted for defense in these suits:—

"Daniel McCullum, as Inspector on Fortieth street, between First and Second avenues. Charles Smith is the only inspector we have known in connection with this work. He has been paid for all the time claimed for by this man. He reported regularly, and no other person did. There has been several claims on this street already."

Samuel Johnson, by assignee, John M. Fox, In- spector building piers at Manhattanville and Harlem, from 20th of September, to December 11th, 1857. Judgment June 28th, 1859.....	\$119 70
---	----------

Samuel Johnson, same work as above, from 1st of April to July 5th, 1857. Judgment July 5th, 1859, by default.....	\$170 50
Samuel Johnson, by assignee, William Cooper, same work as above, from July 5th to September 20th, 1857. Judgment July 5th, 1859, by default.....	\$129 00
Total.....	\$419 20

The following information was furnished the Corporation Counsel by this department:--

"There is no evidence on any books of this office, of any contract existing at the time for which he claims, or during the year 1857, for work in that locality, except the contract with Mr. Adams, which was made on the 2d day of July, 1857, which you will readily observe, was subsequent to the date when his claim commences. I would also add, that according to the Ordinances, no inspector could be appointed on any work unless the work had been made by contract, and authority given by the Common Council."

Daniel Kelly, Inspector, regulating, paving and grading of Fifty-fifth street, between Fifth and Sixth avenues, from February 1st to June 1st, 1858. No answer. Judgment June 28th, 1859.....	\$168 00
Daniel Kelly, by assignee, Albert Terhune, same work as above, from August 1st to 1st of November, 1857. No answer. Judgment June 28th, 1859.....	\$155 50
Total.....	\$323 50

In answer to the Counsel to the Corporation, asking information to defend the above suits, the following was furnished by this department:—

“1st. There was no such contract for work on that street at that time, and consequently no inspector can be paid for inspecting.

“2d. The Street Commissioner removed all inspectors on May 15th, 1858.

“3d. No such name appears on our books of inspectors.”

Thomas Meeker, inspector on Fifty-fifth street,
from Sixth to Seventh avenues, from February
15th to May 1st, 1858. No answer. Judgment April 6th, 1859..... \$111 00

This same Meeker recovered \$110 24, January 20th, 1859.

The Corporation Counsel at that time was furnished with the following information:—

“That no such name appears on the list of inspectors said to have been appointed by any of the occupants or claimants of the office of Street Commissioner; and that this party could have no just claim, as he had never discharged the duties of an inspector.”

John Healey, inspector on Seventy-sixth street,
from Second avenue to the East river, from
February 1st, 1858, to April 11th, 1858.

No answer. Judgment April 6th, 1859..... \$111 28

Same Healey got judgment on the 18th of February, 1858, for \$111 48, when Mr. Busteed was furnished with the following information:—

"John Healey, as inspector on Seventy-sixth street from Second avenue to East river. There has been no such contract on this street, and consequently there can be no true or just claim for inspection. Such claims are a great outrage."

Dennis Ryer, assignee of Joseph Cosine, inspector, appointed January 28th, 1856, on One hundred and twenty-nine, One hundred and thirty and One hundred and thirty-first streets, between Tenth avenue and Hudson river, to 30th day of August, 1857. Judgment June 20th, 1859..... \$680 49

There was no information asked of this department to defend this suit. The records of this office show that Cosine was first appointed April 28th, 1856, and was paid \$117, to the 1st day of September, 1856.

Daniel Reynolds, flagging and reflagging sidewalks on Thirty-first street, between Madison and Fifth avenues.

3,250 feet new flagging, at $12\frac{1}{2}$ cents a foot.

125 do relaid at $1\frac{1}{2}$ cents a foot.

Judgment May 18th, 1859..... \$340 12

In answer to a communication from the Corporation Counsel, asking information in the above suit, Mr. Ewen answers as follows:

"With the exception of the ordinance having passed the Common Counsel in different years, it otherwise appears to be regular."

Thomas Gerrity, flagging sidewalks north side,
of Twenty-second street, between Third and
Fifth avenues.

7,310 square feet new flagging, at 10 cts. a foot.

400 do relaid, at $1\frac{1}{2}$ cents a foot.

Judgment April 13th, 1859..... \$705 29

There was no information asked of this department
upon which to defend this suit. I find, in Document
No. 3, communication of the Street Commissioner, Janu-
ary 24th, 1859, (G. page 344, No. 13.)

"Gerrity's bid was Flagging 8,500 square
feet, at $10\frac{1}{2}$ cents a foot..... \$892 50
Do 150 relaid..... 22 50

"Total..... \$915 00

"E. Boyle, Surveyor.

"The following quantities and prices are returned on
the assessment list:

"5,068 square feet flagging at $10\frac{1}{2}$ cents..... \$315 14

"No payment returned by Comptroller's statement."

*List of seventeen judgments obtained against the city for
supplies and materials furnished and work done, for the
Street Department.*

John McCoole (by assignee) September 16, 1858,
judgment, for..... \$200 00
For mason work in house of engine company
No. 2.

John McCoole (by assignee), same date, judg-
ment, for..... 190 83
For mason work on house of hose company
No. 24 and engine company No. 2.

Total..... \$390 83

The original bills presented to the Comptroller amounted to \$462 75, for work on house of engine company No. 2; and that for hose company No. 24 was \$137 17, making a total of \$599 92; on which he allowed and paid \$412 04. And Mr. McCooole gave a receipt in full for all demands against the city; but subsequently sued and recovered \$203 95 more than the amount originally claimed by him. No information was asked from this department in relation to McCooole's claims.

John McCooole (by assignee), judgment for..... \$498 69
February 4, 1858, for mason work on house of
engine company No. 7.

The original bill presented for this work amounted to \$202 67, on which the Comptroller allowed and paid \$174 59; and Mr. McCooole gave his receipt in full. This amount, together with that obtained by judgment, gave him \$470 61 more than his original claim for the work. On the 17th November, 1857, McCooole recovered by judgment \$495, for work done on this same house, and the house of hose company No. 57.

John McCooole (by assignee), judgment, for..... \$200 00
For mason work on house of hose company
No. 55, September 16, 1858.

The original bills presented to the Comptroller for this work, amounted to \$273 10, on which he allowed and paid \$65.

John McCooole (by assignee), judgment for..... \$500 00
January 7, 1858, for work on houses of engine
companies Nos. 9 and 5.

The original bills presented to the Comptroller were as follows;

Engine company No. 9.....	\$208 87	
“ “ 5.....	224 91	\$433 78

On which the Comptroller allowed and paid \$141 25; and McCooles gave a receipt in full of all demands; but subsequently sued and recovered \$207 47 more than the amount originally claimed.

The original claims of McCooles amounted, in the aggregate, to \$7,057 86; but on examination of the work by an experienced mason, a deduction was made of \$3,918 74, and McCooles accepted the balance, \$3,139 12, as a fair compensation for his work, and receipted in full of all demands. (See doc. No. 13, Board of Councilmen, for 1857.) No information asked for from this department.

John Quinn, on the 9th October, 1858, recovered two judgments amounting to..... \$367 23
For filling a pond in Fifty-sixth street, between Seventh and Eighth avenues.

His original bill presented at this office for the same work, was \$225, which Mr. Cozzens, in his report, refused to allow, as he found, on examination, that the work had been done by Mr. Cosgrove. Mr. Quinn, nevertheless, recovered the whole amount, and \$142 23 in addition.

John Quinn, on 9th October, 1858, recovered judgment for filling a pond in Fifty-eighth street, between Broadway and Seventh avenue, for..... \$157 02

In his original bill, presented at this office, the pond was located in Thirty-eighth street. On examination, Mr. Cozzens found that Quinn had a contract for digging

out cellars in Thirty-eighth street, and obtained permission from the owners of the sunken lots near by to deposit the dirt therein, provided he would level off the ground after filling. He afterwards sued the city, and recovered judgment for filling a pond in Fifty-eighth street. No information was asked for in these cases, from this department.

William Joyce, several judgments, amounting to \$791 84
For damages in contract for filling sunken lots
on south side of Fortieth street, between Ninth
and Tenth avenues.

There was due Joyce, as per assessment list, on this contract, \$2,091 93, and he was paid by the Comptroller, \$1,700, leaving a balance due of \$391 93; he, nevertheless, recovers not only this balance, but \$400 in addition, on the 23d of October, 1858. No information asked from this department.

Edward Linen, for work about house of hose
company in Thirty-seventh street, between
Seventh and Eighth avenues, judgment 12th
March, 1858, for.....\$1,425 42

Linen had a contract for this work, for \$2,147 on the 12th March, 1857, he recovers judgment for \$1,160 75, leaving a balance due of \$986 25, but recovers in this last suit this amount and \$439 17, in addition; counsel for the city not appearing, judgment was given by default. No information asked for from this department.

R. H. Lamont. *Copy of complaint in this case.*

R. H. Lamont *vs.* the Mayor, Aldermen and Commonalty of the city of New York.

The complaint of the above-named plaintiff respectfully shows, that the above-named defendants are indebted to him, as assignee, for the sum of \$1,475, for moneys paid out, and expended for said defendants at their especial instance and request, prior to the 1st day of October, 1858; that no part of said sum has been paid, but the defendants are now justly indebted therefor to the plaintiff in the sum of \$1,475. No answer was put in on the part of the Corporation, and judgment was given by default.

This suit is *supposed* to have been brought in connection with the Street Department, but from the very indefinite nature of the complaint, no information can be given in relation thereto. No information asked from this department.

Walter R. Havens, judgment, 22d November,
1858, for carpets, oil cloth, &c.....\$3,114 45

The original bills for these supplies presented, amounted to \$2,511 31, but after examination by an experienced person, an allowance was made him of \$1,898 59. These bills were compared with Mr. Haven's books, and it was found that they included all his demands. He, nevertheless, recovers \$603 14, over and above his original charges. No information asked from this department.

George Boyd (by assignee), judgment, for.....\$1,198 15
17th December, 1858, for furniture, desks, &c.

Information was asked, in this case, by the Corporation Counsel. The Street Commissioner requested, in writing, that Mr. Cozzens be called as a witness. He was not so called. Mr. Cozzens could have proved that some of the articles were not delivered, and that the charges were

excessive. No answer was put in by the Counsel to the Corporation. Judgment by default.

James B. Brady, judgment, for.....\$2,804 38
15th February, 1859, damages on contract to
pave, set curb and gutter, &c., in Eighth
street, between Lewis street and East river,
for not removing obstacles encumbering
streets.

The contract was made in 1853, and the estimated
value of the work to be done by Mr. Brady, was \$780 12.
The amount recovered for damages is nearly four times
the value of the entire contract. No information was
asked of this department.

John Pettigrew, 22d October, 1858..... \$972 61
for return of moneys charged to him as con-
tractor on Eighty-fourth street, between Second
and Third avenues, for inspector's fees for the
time, over and above that in which Pettigrew
agreed to perform the work.

Pettigrew's contract for the above work, dated 23d
September, 1852, contains the following clause:

"The contractor further agrees to pay the amount paid
for inspector's services, over and above the time fixed
upon for the execution of this contract, to be retained out
of the moneys payable to him according to this agree-
ment."

On the completion of the work and the return of the
assessment list, the amount of \$748 50 was retained out
of the moneys payable to him under the agreement, under
authority of the clause above quoted.

He received payment on these terms in 1854, and some four years after, he commences this suit. The Corporation Counsel did not call on this department for information. No answer was put in on behalf of the city, and Pettigrew obtained judgment by default, for the whole amount originally deducted, with an addition of \$224 11.

Lucius B. Allen, judgment, 10th March, 1859... \$236 31
Salary as lamp inspector.

Mr. Allen recovered a judgment on 29th December, 1857, for \$154 40, but whether for the same services, is not known, as the complaint has been torn off the judgment roll on file in the Marine Court.

John Callaghan, judgment, 10th March, 1859,
for\$10,322 17
For regulating Fourth avenue, from Seventy-first to Seventy-ninth street.

Information was furnished in this case by the Street Department, to the effect that John McGrane, with whom the contract for the above work was made, and by whom it was assigned to Callaghan, was not the lowest bidder, the award of contract having been made and duly confirmed to Michael Tracy, a lower bidder. This fact, if established, would have been sufficient to set aside the contract. No attempt appears to have been made to prove this point, and the referee, Mr. M. R. Brewer, gave a decision adverse to the confirmation, on which judgment was rendered.

Harsin & Clark, judgment, 10th February, 1859,
for\$47,991 21
For regulating, &c., Eighty-sixth street, from Third avenue to East river.

Information was furnished in this case by the Street Department, "that the contract for the above named work was not made with the lowest bidder; that Harsin, himself, was a lower bidder than O'Meara, the contractor; but declined to make the contract, after it had been awarded to him, and that it was actually made with another party; and after two assignments, the contract thus illegally made, fell into the hands of Harsen, at an advance of \$6,000 upon his own bid; notwithstanding this fact, judgment was rendered against the city on the report of Mr. Wm. Fullerton, referee, for the amount above named, in addition to \$5,460, which had already been paid by the Comptroller. Harsin thus recovers \$53,451 21 on a contract which in his bid he offered to perform for \$21,190. The total value of the work done was \$7,800, as certified by the surveyor in charge of the work.

John Pettigrew, 15th January, 1859, for.....\$26,351 61
For regulating Sixty-third street, between
Fifth and Sixth avenues, and for filling sunken
lots, between One hundred and fourteenth and
One hundred and twenty-third streets.

No call for information in this case was made by the Corporation Counsel on the Street Department; attention was called to it only by its appearance in the Tax Levy for 1859. An examination was then ordered, which resulted in discovering that an important alteration had been made in the contract by substituting 42 cents per cubic yard for earth filling, in place of 22 cents per yard, which was the price named in Pettigrew's bid.

APPENDIX E.

STREET COMMISSIONER'S OFFICE,
(Times Buildings, Park Row),
New York, June 27, 1859.

ROBERT T. HAWS, Esq., *Comptroller*:

SIR,—Herewith I transmit the estimate and sureties offered by Messrs. Gillespie and Martling, who are the lowest bidders for 'Part Three, (roof) of Tompkins Market.

Respectfully,
[Signed]

G. W. SMITH,
Street Commissioner.

COMPTROLLER'S REPLY.

CITY OF NEW YORK,
DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,
June 27, 1859.

G. W. SMITH, Esq., *Street Commissioner*;

SIR,—The bid of Gillespie and Martling, for roof of Tompkins Market, has been presented to me for the purpose of certifying to the adequacy and sufficiency of the sureties offered by them.

I perceive, by reference to our abstract of proposals, that John Noe's bid was three thousand nine hundred and seventy-five dollars lower than Gillespie and Martling. I learn, though not officially, that Mr. Noe's bid was informal.

Will you advise me of the facts in the case, and the reasons for awarding the contract to Messrs. Gillespie and Martling?

Respectfully, yours,
[Signed] ROBT. T. HAWS,
Comptroller.

MY REPLY TO THE ABOVE.

STREET COMMISSIONER'S OFFICE,
New York, June 27, 1859.

ROBERT T. HAWS, Esq., *Comptroller*:

SIR,—In reply to yours of this date, requesting the facts in the matter of the bids received for Part Three, (roof) of the alterations, additions, &c., to Tompkins Market, I have to inform you, that two bids were received for this portion of the work: one from Messrs. Gillespie and Martling, amounting to fourteen thousand five hundred dollars; and one from Mr. John Noe, amounting to ten thousand five hundred and twenty-five dollars. Mr. Noe offered, as sureties, two gentlemen who did not consent to become bound, in case the award was made to him; and his bid is set aside as informal.

Respectfully,
[Signed] G. W. SMITH,
Street Commissioner.

COMPTROLLER'S REPLY.

CITY OF NEW YORK,
DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,
June 29, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR,—I return, herewith, estimate for Part Three, (roof) of Tompkins Market, without my approval of the

"adequacy and sufficiency of the sureties;" the parties to this estimate not being the lowest bidder.

Very respectfully,
[Signed] ROBT. T. HAWS,
Comptroller.

MY COMMUNICATION TO COMMON COUNCIL.

STREET DEPARTMENT,
New York, July 7, 1859.

To the Honorable the Common Council:

GENTLEMEN,—On the second day of May, 1859, bids for the alterations and additions ordered to be made to new Tompkins Market, were opened in presence of the Comptroller. The work was divided into four parts, viz: Part One, iron work; Part Two, mason's and carpenter's work; Part Three, roof work; Part Four, first story floor.

Parts One, Two and Four.—The sureties offered by the lowest bidder were approved by the Comptroller; the award made and confirmed by the Common Council, and the contracts have been executed by the several parties. For the work embraced in part Three, (roof) two bids were received—one from Mr. John Noe, offering to do the work called for, for ten thousand five hundred and twenty-five dollars; and one from Messrs. Gillespie and Martling, offering to do the work called for, for fourteen thousand five hundred dollars; copies of these two bids are attached hereto. The bid of Mr. Noe was rejected as defective, and considered to be no bid, because of the omission to have the sureties named in his bid execute the consent to become bound as sureties for him in case the work should be awarded to him. The bid of Messrs. Gillespie and Martling being in every respect correct,

and the amount thereof being, in the opinion of the Superintendent of Construction and Repairs to Public Buildings, not more than a fair price for the work to be done, was forwarded to the Comptroller for his approval of the "adequacy and sufficiency of the sureties offered;" this approval the Comptroller declines to give, and this department has no alternative but to re-advertise the work called for in Part Three.

Respectfully submitted.

[Signed]

G. W. SMITH,

Street Commissioner.

APPENDIX F.

*List of Inspectors employed in the Street Department,
June 30, 1859, on contract work:*

BUREAU OF STREET IMPROVEMENT.

Charles Croft, New Bowery and Pearl street, from Chatham square to Peck slip; flagging.

Samuel Banta, Ninth avenue, from Fifty-third to Sixty-fourth street; regulating and grading.

Herman J. Bachran, Fourth avenue, from Seventy-first to Seventy-ninth street; regulating and grading.

Thomas Culkin, Battery place; set back iron railing.

John Callahan, Forty-second street, from Tenth avenue to North river; flagging.

Thomas Cromwell, Mulberry street; regrade south of Canal street.

Joseph Gutman, Twenty-ninth street, north side, from First to Second avenue; flagging.

Oliver S. Hibbard, Tenth avenue, Fifty-fourth street to Broadway; regulating and grading.

Charles E. Howe, Forty-third street, Ninth to Tenth avenue; regulating and grading.

William Kiernan, Lexington avenue, from Thirty-third to Thirty-fourth street; flagging.

Charles S. Livingston, Ninety-third street, from Second to Fourth avenue; regulating.

Thomas McSpedon, Sr., Fifth avenue, from Sixty-first to Eighty-sixth street; regulating curb, gutter and flagging.

Neil Neuson, Lexington avenue, from Fifty-seventh street to Hamilton square; regulating and grading.

Stephen A. Pierce, from Fifty-seventh street, First avenue to East river; regulating, grading, curbing and guttering and flagging.

James Powers, Fifty-second street, Tenth to Eleventh avenue; curbing and guttering.

Edward J. Quirk, Second avenue, from Seventy-seventh to Eighty-sixth street; curbing and guttering and flagging.

John M. Tracy, Forty-fourth street, from First to Third avenue; regulating and grading.

Alfred W. Taylor, Fifth avenue, from Forty-ninth to Sixty-first street; regulating, curbing, guttering and flagging.

William H. Tone, Eighty-fourth street, from Eighth avenue to Broadway; regulating, grading, curbing and guttering and flagging.

John Tagen, Forty-third street, from Third to Fifth avenue; flagging.

John Wright, One hundred and twenty-ninth, One hundred thirtieth and One hundred and thirty-first streets, from Eighth avenue to North river; regulating, grading, curbing and guttering.

William H. Webber, Fourth Avenue Park; iron railing.

Michael Dee, Forty-first and Forty-second streets, and Ninth to Tenth avenue; filling sunken lots.

Total number of Inspectors employed in this Bureau, twenty-three.

BUREAU OF ROADS.

DOCUMENTS OF THE

LEGATION OF THE UNITED STATES
AT
ST. PETERSBURG

THE UNIVERSITY OF CHICAGO

COLLEGE LIBRARY

STREET DEPARTMENT.—BUREAU OF WHARVES.

New York, June 30th, 1859.

G. W. SMITH, Esq., *Street Commissioner* :

SIR—In reply to your letter, bearing date June 8th, 1859, calling for a report in two parts: the first to embrace the months of January, February and March, and the second, the months of April, May and June, to be made prior to the first meeting of the Common Council, in July next; I very respectfully reply, that after the resignation of the late incumbent, Honorable J. A. Westervelt, on the 13th of last November, I was invited to fill the vacancy, which I accepted, and forthwith entered upon the duties of my office. The labors of this bureau being onerous and complicated, in order to facilitate the business appertaining to the building, repairing and inspecting the various wharves, piers, slips and bulkheads belonging to the city, the services of a first class bookkeeper were secured, and Mr. Samuel H. P. Meigs received the appointment of clerk, and commenced his duties on the first of April of the present year. From an examination of the books and papers of this bureau, I respectfully present to you a list of the contracts made by the city in relation to wharves, piers, &c., and completed within the present year:—

A contract made with Moody Cummings for repairing pier foot of One hundred and thirty-first street, Manhattanville, dated the 14th day of March, the whole to be completed within 45 days.

I have drawn vouchers for the same to the amount of..... \$820 00

Extra work done on this pier for which vouchers have been drawn to the amount of.. 225 00

A contract made with Jacob Sharp for extending pier 51, North river, dated the 13th day of November, 1858, to be completed within 90 days. Completed April 30th, 1859.

I have drawn vouchers for the same, to the amount of..... 8,216 00

A contract made with William H. Adams, for rebuilding the inner portion of pier 51, North river, dated November 5th, 1858, to be completed within 90 days. Completed February 8th, 1859.

I have drawn vouchers for the same, to the amount of..... 3,789 00

A contract was made with Jacob Sharp for repairing and extending pier foot of One hundred and thirtieth street, Harlem river, dated the 1st day of December, 1858, to be completed within 45 days. Completed January 26th, 1859.

I have drawn vouchers on the same, to the amount of..... 1,016 00

A contract was made with Jacob Sharp for repairing pier foot of Thirteenth street, North river, dated January 14th, 1859, to be completed within 45 days. Completed May 10th, 1859.

Carried forward.....

Brought forward.....	\$14,066 00
I have drawn vouchers for the same, to the amount of.....	2,616 00

There was extra work done on this pier, to the amount of \$496, half of which (\$248) to be paid by the city, for which vouchers were drawn.....

	248 00
--	--------

And the other half was paid by William B. Astor, Esq.

A contract was made with Jacob Sharp for rebuilding pier foot of Forty-seventh street, North river, dated October 10th, 1858.

I have drawn vouchers for the same, to the amount of.....	2,531 32
---	----------

An additional contract was made for the same pier, dated May 13th, 1859, the whole to be completed within twenty days after the date of the contract. Completed June 4th, 1859.

I have drawn vouchers for the same, to the amount of.....	1,196 16
---	----------

A contract was made with Liddle & Orr, for excavating the slip foot of Broad street, between piers 4 and 5 East river, dated May 21st, 1859, at 14 cents per cubic yard for the material removed, and the whole to be completed within 30 days. Completed June 21st, 1859.

Carried forward.....	\$20,657 48
----------------------	-------------

Brought forward.....	\$20,657 48
I have drawn vouchers for the same, to the amount of (13,032 cubic yards, at 14 cents per yard).....	1,824 48
A contract was made with Robert Earle for repairing pier foot of Fifth street, East river, dated November 13th, 1858, to be completed within 90 days. Completed June 21st, 1859.	
I have drawn vouchers for the same, to the amount of.....	2,500 00
A contract was made with Jacob Sharp for repairing pier No. 35 North river, dated March 1st, 1859, the whole to be completed within 60 days. Completed April 16th, 1859.	
I have drawn vouchers for the same, to the amount of.....	2,800 00
The whole amount paid on contracts.....	<u>\$27,781 96</u>
Amount paid inspectors on the above contracts.....	\$1,008 00

Balance on hand..... \$128,091 81

In this connection it is proper to state, that there are some amounts due from private owners, for work done under direction of my predecessor, an account of which I have not been able to obtain.

The whole number of Inspectors appointed, *nine*.

There are now no contracts in progress. In view of the great difficulty in making specifications for the repairs of old and worn out piers, wharves, &c., where it appears that precise specifications cannot be made for such repairs, and that the work can be executed more cheaply by this bureau directly, than by advertising for proposals, I would recommend that the Common Council order the work to be done otherwise than by contract. I would

further recommend, that in all future leases of wharves, &c., the city should engage to keep the same in repair at its own expense, as great difficulty is found under the present system of collecting the expenses incurred for repairs to these piers and slips from the lessees.

All of which is respectfully submitted.

(Signed)

BERNARD KELLY,

Sup't. of Wharves.

[COPY.]

STREET DEPARTMENT—BUREAU OF ROADS.

July 1, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR,—In reply to your circular of June 8th, calling for a report of the business of this bureau for the six months ending June 30th, 1859—the first part of said report to embrace the months of January, February and March—the second part, the month of April, May and June—the same being required by section 29 of the charter of 1857:

I respectfully submit, that for the first quarter of the present year I have nothing to report on, except the receipt of numberless complaints of the dangerous condition of the roads in general, as, from the small balance of last year's appropriation that came under my control, it was impossible for me to leave the roads in proper condition at the end of the working season of 1858, and the delay of the Legislature in passing the tax levy for the present year, prevented me from commencing operations until April; since which time the work of repairing and putting in order the roads and avenues under my supervision has been vigorously prosecuted. And although the roads at that time were in a very bad state, requiring a heavy outlay of material and labor to render them passable, it is generally conceded that the roads are now in better condition than they have been for many years past; and the material used under my direction is of such a description that, by proper attention, the roads may be kept in their present condition at a comparatively small expense for the balance of the year.

In addition to the main roads, viz: Bloomingdale, Third

avenue and Kingsbridge, I have caused repairs to be made, to a considerable extent, on the following streets and avenues, viz:

Forty-sixth street, between Third and Lexington avenues.

Eighty-third street, between First and Fourth avenues.

One hundred and tenth street, between Sixth avenue and Bloomingdale road.

One hundred and twenty-fifth street, between Third avenue and Bloomingdale road.

Second avenue, between Forty-second and Fifty-third streets.

Lexington avenue, between Forty-third and Fifty-third streets.

Tenth avenue, between One hundred and Thirty-seventh and One hundred and seventieth streets.

There are still many portions of the roads and avenues that need repairing, which I shall cause to be done, so far as the limited appropriation on which I am authorized to draw, will allow me to do.

There has been no contract made for work to be done under my direction since January 6th of this year.

A contract, awarded by this department to John F. Gray, for working Eleventh avenue as a county road, from One hundred and Seventh to One hundred and forty-fourth street, dated January 6th, has not yet been confirmed by the Common Council.

The work of Macadamizing Second avenue, from Sixty first to One hundred and twenty-third street, under the contract made by this department with John Kinsley, bearing date December 17th, 1858, is now in progress—three

inspectors having been appointed thereon—their appointment dating from April 20th, 1859.

The contract made by this department with Nicholas Rodgers (Bartlett Smith, assignee,) for working Tenth avenue, as a county road, was completed April 25, 1859.

Subjoined is a statement of all the expenditures of this bureau for the quarter ending June 30th, under the appropriations on which I am authorized to draw:

STATEMENT OF EXPENDITURES IN BUREAU OF ROADS, FOR
THE QUARTER ENDING JUNE 30TH, 1859.

Amount expended under Appropriation for Roads and Avenues.

Bloomington Road.

For labor.....	\$10, 221 85
Material.	6,540 66

Third Avenue.

For labor	3,704 68
Material.	888 03

Second Avenue.

For labor.....	95 75
For flagging, cement and box for drain at One hundred and Thirtieth street and Third avenue	22 21
Building water tanks for watering roads	40 00
Filling in on Second avenue, between Forty-fifth and Fifty-third streets.....	175 00
Filling in on Forty-sixth street, between Third and Lexington avenues	25 00
Sharpening and repairing tools...	30 50

Carried forward.....	<hr/> \$21,743 68
----------------------	-------------------

Brought forward.....		\$21,743 68
Making a total expenditure, under the above appropriation, of twenty-one thousand seven hundred and forty-three dollars and sixty-eight cents.		
<i>Appropriation for Kingsbridge Road, from Tenth Avenue to Kingsbridge.</i>		
For labor.....	1,330 37	
Material	832 05	\$2,162 42
Total expenditure, under the above appropriation, two thousand one hundred and sixty-two dollars and forty-two cents.		
<i>Appropriation for Macadamizing Second Avenue from Sixty-First to One hundred and Twenty-third street.</i>		
Pay rolls of three inspectors, each, for sixty days, ending June 30th, 1859	360 00	
Bill of John J. Serrell, for surveys and specifications	657 68	\$1,017 68
<i>Appropriation for working a country road through the Eleventh avenue, from One hundred and Seventh to One hundred and forty-fourth streets.</i>		
For making surveys, plans and estimates, as per bill of Gardner A. Sage.....		\$601 05
Carried forward.....		\$25,524 88

Brought forward.....	\$25,524 83
<i>Appropriation for working Tenth avenue as a country road.</i>	
By vouchers drawn in favor of Nicholas Rogers (Bartlett Smith, assignee) for \$8,324 99, the same being final payment on his con- tract for working Tenth avenue as a country road.....	\$8,324 99
	<hr/> \$33,849 82

Making a total expenditure, in this bureau, of thirty-three thousand eight hundred and forty-nine dollars and eighty-two cents.

The greatest number of men employed, at any time during the season, was two hundred and sixty eight laborers and cartmen. The number employed at date of last pay roll, June 25th, was as follows, viz: One general foreman, thirteen foremen, ninety-nine cartmen, and one hundred and fifty-four laborers.

All of which is respectfully submitted.

JOHN NESBIT, *Sup't of Roads.*

BUREAU OF LANDS AND PLACES,
New York, July 1, 1859.

G. W. SMITH, Esq., *Street Commissioner*;

SIR:—In compliance with your request, I herewith submit a report of the business done in this bureau during the first and second quarters of the present year, together with the amount of triplicate vouchers that have been made by me, for work and labor performed, and material furnished in and about the city parks, under the care and charge of this bureau.

BATTERY.

I have had, and at present have men employed making new walks, setting curb around the grass plats, and filling large and deep holes where the water had become stagnant. I take great pleasure in stating, that at the present time, the Battery looks considerably better than it has for many years, and I hope by fall to have it making a fine appearance.

BOWLING GREEN.

I have caused the railing to be repaired, have had it well cleaned, and have placed some shrubbery in this park.

CITY HALL PARK.

I have caused to be relaid and raised the flagging leading to the courts, and the principal entrances where the water would lodge; also, raised and graded in front of the City Hall—this improvement was very much needed. The railing opposite Beekman street and Park place, I have caused to be removed, and set posts on the line of the proposed street, at the lower end of the park.

DUANE STREET PARK.

The railing has been repaired, the park thoroughly cleaned, and the beds made in proper form; this park presents a very good appearance.

PARK, WEST BROADWAY AND BEACH STREET.

This park has been well cleaned, is in good condition, and well taken care of.

FIVE POINTS PARK.

I am under the necessity of stating that this park is in a deplorable condition; the railing, and in fact all that tends to make a park, is gone.

WASHINGTON PARK.

I am very much pleased to state, that this park is in very good condition, and with a very few more slight repairs will be in complete order. I have been, and at present am making, good gutters to drain the water off of the walks, and the flagging has been raised wherever necessary.

UNION PARK.

In this park I have planted some shrubbery; repaired the privet around the railing; raised the flagging around the fountain, and in other places where needed. This park is in good order.

EAST AND WEST STUYVESANT PARKS.

I have caused to be placed in both of these parks some new trees and shrubbery; repaired the walks, and performed other necessary labor, to place the parks in good condition. There are but few more repairs required, which I am now having done,

THIRD AVENUE AND SEVENTH STREET PARK.

In this park I have had new privet placed; also, some shrubbery and choice seeds planted; the walks and flower beds have been thoroughly cleaned and repaired. The park is in good condition.

ABINGDON PARK.

This park has been generally cleaned, the grass mown and beds properly repaired.

THIRD AVENUE AND ONE HUNDRED AND TWENTY-THIRD STREET PARK.¹

This park is at present being cleaned; the walks placed in good order, and the beds and borders repaired.

CHRISTOPHER STREET PARK.

At the present time there are repairs going on this park of a varied character, which, in a few days, will be completed.

RESERVOIR PARK.

There was no appropriation made by the Legislature for this park, and consequently I have labored under a great disadvantage. I have, nevertheless, tried to redeem its very bad condition by having it cleaned, and am using my best endeavors to have it present at least a cleanly condition.

TOMPKINS PARK.

I am pleased to state, the railing around this park is completed, and the keys received by me from the contractor. I have had it ploughed and harrowed twice, and am now causing manure to be placed thereon, and thoroughly mixed with the earth; the men are making rapid progress. I would earnestly recommend that [the

Common Council pass a resolution authorizing a fountain to be placed in this park, thereby enabling me to properly lay out the grounds, and perform other necessary work.

MADISON SQUARE PARK.

The walks in this park have been put in good order; trees have been planted inside and outside of the park; the railing is in very bad condition, being rotten in many places, and requiring repairs very often.

The greatest number of men employed on the several parks at any one time, for the six months ending June 30th, was (24) twenty-four, comprising one foreman, twenty-three laborers and one cartman.

The least number of men employed on the several parks during the same period, was six.

I would here state, that these men are employed from time to time, to work on the different parks throughout the city, and I have made it an invariable rule when one or more could be dispensed with without any detriment to the interests of the city, to discharge him or them, believing that I am authorized to employ only the necessary number of men to keep the parks in good order.

I have also, under the authority of the Common Council and with your approval, employed two keepers in each of the following parks, viz:

Battery, City Hall Park, Washington Parade Ground, Union square, Stuyvesant Parks, Madison square and Tompkins square; and have paid each for their services, one dollar and fifty cents per day.

The number of men employed on the different parks on June 30th, was twenty-three.

Statement of expenditures, as shown by certified vouchers
made by the Superintendent of Lands and Places on
account of the appropriation for "Lands and Places:"

Whole amount of the appropriation..... \$16,000 00

Whole amount of the re-appropriation..... 5,098 08

\$21,098 08

Amount of expenditures during six months

ending June 30..... 4,700 98

Amount of appropriation and re-appropriation

not drawn by the Superintendent of Lands

and Places..... \$16,397 10

On account of the appropriation for Tompkins square.

Whole amount of the appropriation..... \$8,000 00

Amount expended during the six months end-

ing June 30..... 571 59

Amount of the appropriation for Tompkins square, on

hand June 30, 1859..... \$7,428 41

Total amount of expenditures during the six months end-

ing June 30, 1859..... \$5,272 57

Respectfully submitted,

(Signed) THOS. BYRNS,

Supt. of Lands and Places.

STREET DEPARTMENT,
BUREAU OF LAMPS AND GAS,
New York, July 1st, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR,—In compliance with your circular letter of June 8th, requesting a statement of the business, &c., of this Bureau, in two parts—the first to embrace the months of January, February and March; the second, the months of April, May and June,

I have to report: that in reference to the business of the first quarter, I have nothing of importance to communicate, inasmuch as by the non-passage of the tax levy nearly all business was suspended during that time.

On the 4th of January last, I notified all the parties having business transactions with this bureau, that no new appropriations having been made, no expense could be legally incurred; and that all work done by them must be at their own risk of receiving compensation therefor; yet the various parties expressed their willingness to continue their work, and take their chance of receiving payment for the same.

I, however, refused to issue any orders for new work to be done, except for lamp irons, as below stated, but allowed the different parties to continue under their contracts, in order that the city might not be left in darkness, and that the public lamps might be reglazed. I would state, however, that there was an unexpended balance from the year 1858, of thirty-six thousand

three hundred and eighty dollars and forty-three cents (\$36,380 43), which amount was reappropriated by the Common Council. By refusing, therefore, to give orders for new work, the affairs of this bureau have been prevented from falling into arrears.

Early in February last, the contract with John Roach for furnishing fifteen hundred iron lamp posts, was completed, the whole number having been delivered by him as follows: one thousand to the works of the Harlem Gaslight Company, at foot of One hundred and eleventh street, East river; four hundred and sixty-six to the works of the Manhattan Gaslight Company, and thirty-four in public yard opposite Essex Market. The total cost of the fifteen hundred was nine thousand six hundred and twenty-two dollars and forty cents (\$9,622 40); about one-half the amount of former contracts.

There having been a large number of gas lamp-posts set in the upper part of the city during the months of November and December, 1858, several of which were in front of churches, and being without crossheads and frames, therefore, they could not be lighted; and as numerous requests were being daily made by citizens that the same might be completed; and inasmuch as the award of contract to Balthazer Laing, made August 30th, 1858, for fifteen hundred lamp irons, had not yet been confirmed by the Common Council, and therefore could not be executed, I directed Messrs. Cameron, Johnson & Co., to fit up as many as might be required for immediate use, at a cost not exceeding the amount bid by Mr. Laing; and in accordance with that arrangement, they continued to furnish them until the 1st of April, when by my orders the work was discontinued.

Early in March, complaint was made that several parties in Fulton Market had at different times tapped the service-pipe belonging to the city, and were using the gas for their own private benefit; on examination being made, I found the facts to be as stated, and that some of the parties had been burning the gas for the last two or three years. I, therefore, on the 16th March, directed the New York Gaslight Company to cut off all the private burners attached to the Corporation pipe, which were some twenty in number; and I am in hopes thereby to reduce the great expense of lighting that market.

In reference to the business of the last three months, I hope to give a more satisfactory report. The legislature having, on the 9th of April, passed the annual tax levy, in which was inserted the sum of four hundred and sixty thousand dollars (\$460,000) for lamps and gas, to which must be added the sum of thirty-six thousand three hundred and eighty dollars and forty three cents (\$36,380 43) reappropriated, making a total for lamps and gas for the year 1859, of four hundred and ninety-six thousand three hundred and eighty dollars and forty-three cents (\$496,380 43), that amount being more than was asked for in my estimate for 1859, I expect to show at the end of the current year, an unexpended balance of a considerable amount.

There having heretofore been no books or papers kept in this office, giving the number and location of gas-lamp posts fitted up, I was consequently unable to ascertain from any official source the correct number of public lamps in the city, but was compelled to certify to the number sent in on the bills of the three gas companies; I

therefore immediately on the appointment of the Inspectors, on the 1st of April last, directed them to count all the public lamps; two counts having been made, the districts being changed at the second count, that any discrepancy in their reports might be discovered, and the result of their labor is herewith submitted, (marked D, E, F, G.) I have to state that the total number of lamps in the district of the New York Gas Company, comprising all that portion of the city lying south of the centre of Grand street, appears to be three thousand one hundred and thirty. The New York Gas Company having presented their bill for March, in which the charge was for three thousand two hundred and fifty-two lamps, I returned the same to them, with a letter, requesting them to inform me where they found that number of lamps. In reply to which, after some delay, they stated that there was three thousand one hundred and thirty-six lamps standing, twenty lamps down, and ninety-six lamps having six foot burners, and which they count as two lamps each. All but four of the lamps reported as down, were down prior to my taking possession of this office, in April, 1858, and they have never been replaced. In reference to the lamps designated as having large burners, I would state that I have examined the same, and find that about thirty of them had the common three foot burner; the balance I intend to have tested by an experimental meter. I have caused them all to be taken off, and they are now in this office.

The New York Gas Light Company still continue their charge of from one dollar to one dollar and fifty cents each for cocks, tubes and burners, (a charge made by no

other company.) I purchased, on the 26th of April last, a sufficient quantity to last the balance of the year, at the price of about forty-two cents each, of a quality much superior to those furnished by the Gas Company.

I have found it necessary to employ eight laborers during the month of May, at one dollar and fifty cents per day, to remove the balance of the old oil lamp-posts, which had been superceded by gas; of which four hundred and eighty-seven, with one hundred and forty-three oil-lamps, have been stored, and are awaiting to be sold.

In order to prevent the new lamp-posts from rusting, I have also found it necessary to employ four painters from May 1st, at two dollars per day, to paint the gas-lamp posts; they are now nearly all painted.

Numerous complaints having been made of a deficiency of light in the Five Points, at the request of the officers of the Sixth Ward Police, and by direction of the Deputy (and at the time acting) Street Commissioner, I have caused to be made a large lamp, with three fourteen-inch reflectors; this will be fitted up on the 5th instant, on the post at the junction of Park and Worth streets, throwing a light both up and down Park street, and up Worth street. By this means I hope that benighted region will be comparatively enlightened.

There have been set and fitted up since January 1st, 1859, one thousand and sixty gas-lamp posts, of which the Harlem Gas Light Company have set eight hundred and six, and the Manhattan Gas Company, two hundred and fifty-four.

By my direction, or in compliance with resolutions of

Common Council, gas mains have been laid, and lamps lighted since January 1st, as follows:

The Harlem Gaslight Company have laid mains in and lighted with gas, the following streets, viz:

Eighty-fifth street, from Second to Third avenue.

Eighty-sixth street, from Avenue A to Fifth avenue.

One hundred and tenth street, from Second to Sixth avenues.

One hundred and eighteenth street, from Second avenue to East river.

One hundred and twentieth street, from Third avenue to Market square street.

One hundred and twenty-first street, from Third avenue to Market square street.

One hundred and twenty-second street, from Second avenue to East river.

One hundred and twenty-fourth street, from Sixth to Seventh avenue.

One hundred and twenty-fifth street, from First to Eighth avenue.

One hundred and twenty-sixth street, from Second to Sixth avenue.

One hundred and twenty-seventh street, from Fourth to Fifth avenue.

One hundred and thirty-eighth street from Kingsbridge road to North river.

One hundred and Forty-first street, from Kingsbridge road to North river.

One hundred and fifty-second street, from Kingsbridge road to North river.

One hundred and fifty-fifth street, from Kingsbridge road to Tenth avenue.

Fort Washington Depot road.

Kingsbridge road, from One hundred and Sixty-second to Two hundred and twelfth street.

Tenth avenue, from One hundred and forty-third to One hundred and sixty-second street.

Bloomingdale road, from Seventy-ninth to One hundred and fourth street.

Sixth avenue, from One hundred and twenty-fourth to One hundred and twenty-fifth street.

Second avenue, from One hundred and fourteenth to One hundred and twenty-second street.

Fourth avenue, from Eighty-third to Ninetieth street.

Market Square street, from One hundred and twentieth to One hundred and twenty-first street.

Third avenue, from Eighty-sixth to One hundred and fourteenth street.

First avenue, from One hundred and tenth to One hundred and fourteenth street.

Total number of lamps burning June 30th. . . . 1,670

The Manhattan Gaslight Company have laid mains in the following streets, viz:

Fiftieth street, from old main east of Second avenue to east of First avenue.

Sixty-fifth street, from old main east of Second avenue to east of First avenue.

Second avenue, west side, from Forty-ninth to Fifty-first street.

Stanton street, from Mangin to Tompkins street.

Tompkins street, from Rivington to Stanton street.

Forty-fourth street, from Third avenue west, to meet old main near Fifth avenue.

Forty-eighth street, from Lexington to Fourth avenue.

Forty-sixth street, from Second to Third avenues.

Forty-sixth street, from Tenth avenue west to meet old main.

Forty-sixth street, Eleventh avenue to North river.

Forty-fourth street, west of Eleventh avenue, from old main to North river.

Thirty-fifth street, from Tenth to Eleventh avenues.

Forty-fifth street, from Broadway to Eighth avenue.

Forty-sixth street, from Eighth to Ninth avenue.

Forty-seventh street, from Tenth avenue east to old main.

Forty-third street, from Tenth avenue east to old main.

Fifty-seventh street, south side, from Lexington avenue east to old main.

Lexington avenue, from Fiftieth to Fifty-seventh street.

Tenth avenue, west side, from Thirty-third to Thirty-fifth street.

Tenth avenue, west side, from Forty-sixth street north, half the block.

Fourth avenue, west side, from Forty-second to Fifty-seventh street.

Fourth avenue, east side, from Forty-second to Fifty-seventh street.

Second avenue, east side, from Forty-ninth to Fifty-fourth street.

First avenue, east side, from Twenty-ninth to Thirty-fifth street.

Eleventh avenue, west side, from Thirtieth to Thirty-fifth street.

The total number of miles of mains now laid by the Manhattan Gas Company is, $211\frac{1}{2}$.

The Manhattan Gaslight Company have lighted with gas the following streets, viz:

Sixth avenue, from Forty-fourth to Fifty-ninth street.

Eighth avenue, from Fifty-first to Fifty-seventh street.

Avenue D, from Tenth to Eleventh street.

Eleventh street, from Dry Dock street to East river.

Mangin street, from Rivington to Stanton street.

Tompkins do. do. do.

Stanton street, from Mangin to Tompkins street.

Forty-eighth street, from Third to Fourth avenue.

Forty-ninth street, from First to Second avenue.

Fiftieth street, from Third to Lexington avenue.

Thirty-fifth street, from Tenth to Eleventh avenue.

Forty-fourth street, from Third to Fifth avenue.

Forty-fifth street, from Ninth to Tenth avenue.

Forty-sixth street, from Second to Third avenue.

Forty-sixth street, from Tenth to Twelfth avenue.

The total number of lamps burning June 30, 1859, is eight thousand six hundred and fifty.

The following resolutions of the Common Council have not yet been complied with, viz:

"That gas-lamps be placed in Second avenue, from Forty-second to Forty-eighth street;" approved June 12, 1858:

"That Harlem Gas Company lay mains in Fourth avenue, from One hundred and twenty-ninth to One hundred and thirty-third street;" approved June 12, 1858:

- "That the Harlem Gas Company lay mains in Eighth avenue, from One hundred and twenty-fifth to One hundred and forty-fifth street;" approved November 12, 1858:
- "That the Manhattan Gas Company lay mains in Ninth avenue, from Fifty-first to Fifty-third street;" approved March 17, 1859:
- "That the Manhattan Gas Company lay mains in Forty-eighth street, from Ninth to Tenth avenue;" approved March 17, 1859:
- "That mains be laid, and lamps lighted in Forty-second street, between Eleventh avenue and Hudson river;" approved March 17, 1859:
- "That the Manhattan Gas Company lay mains in Forty-fifth street, from Ninth avenue to Eleventh avenue;" approved March 17, 1859:
- "That the Manhattan Gas Company lay mains in Ninth avenue, from Fifty-first to Fifty-fourth street;" approved May 24, 1859:
- "That mains be laid in Fifty-seventh street, from the Eighth to Ninth avenue;" approved May 24, 1859:
- "That the Manhattan Gas-light Company be directed to lay their mains in Forty-seventh street, from Eleventh avenue to the North river;" approved May 24, 1859:
- "That the Manhattan Gas-light Company be directed to lay their mains in Forty-third street, from Eleventh avenue to the Hudson river;" approved May 24, 1859:
- "That mains be laid in Fifty-second street, from the Third to the Fifth avenue;" approved May 24, 1859:

"That the Harlem Gas-light Company be directed to lay their mains in One hundred and nineteenth street, from the Third avenue to the East river;" approved June 7, 1859.

The requirements of several of the above resolutions cannot be complied with for the present, owing to the fact that the streets are not yet graded, while in others the curb and gutters are not yet set; therefore I have deferred fitting up lamp-posts therein, as it oftentimes occurs that the posts are not set on the line, and therefore have to be removed and reset, when the streets are curbed and guttered, thus causing an additional expense to our already overburdened taxpayers; in others, again, the Gas Companies consider it unjust, that they should be compelled to lay mains in streets in which there is not a solitary dwelling, by which they are deprived of the benefits derived from private consumers. Some of the above resolutions are now being carried out, or will be in a few days; and the probability is, that before fall the provisions of nearly all will be carried into effect. While upon this point, I would state, that in several cases, two or three resolutions have been passed by the Common Council, each having the same object in view; and that, too, a long time after the work has been completed, as in the cases of the John Street Methodist Church, Central Park Baptist Church, and others, the lamp-posts having been fitted up in front of these churches immediately after the passage of the first resolution; in others, again, it has happened that there are already either one or two lamps in front of a church designated in the resolution; and in several instances there are four. I would suggest, that

hereafter, in cases where there are one or two posts standing near the entrance of the church, that said posts be taken up, and reset in front of the entrance; thereby saving over twenty-five dollars per annum for each lamp, besides the cost of the posts, &c.

The following contracts are still in operation:

Contract with the Manhattan Gas Light Company, for lighting all that portion of the city lying north of the centre of Grand street, and south of the centre of Seventy-ninth street.

Contract with John Kelly, for furnishing oil and lighting all the oil-lamps in the city for one year. In reference to this contract, you will see the economy of lighting at so much per lamp, as there have been already over three hundred cut off since the commencement of this contract in November last. Under the old system the price paid was so much per year, and it mattered not how many were cut off, the contractor was still paid the whole amount of his contract. This contract will expire on the 22d day of November next.

A contract with Alexander Brandon, for repairing and reglazing all the public lamps in the city for one year; this contract will expire on the 7th of October next.

There is a contract with Messrs. Kelly & Vandervoort for furnishing three thousand gas-lamps, all complete, of which two thousand one hundred and seventy-nine have been furnished and delivered by them.

There is also a contract with Balthazer Laing, made the 6th day of April last, for furnishing fifteen hundred gas-

lamp irons, and drilling and tapping the crossheads for the same, at the price of \$80 99 each. Of these four hundred and five have been furnished and delivered by him.

The following contracts have expired—viz, one with John Roach for furnishing fifteen hundred iron lamp-posts, which was completed as before stated, in February last.

I would again call your attention to the contracts of the New York and Harlem Gas-light Companies, the former of which expired some three years since, and the latter on the 6th of November last; neither of which have yet been renewed.

As section 33 of the Charter of 1857, provides that, "Whenever any work is necessary to be done to complete or perfect a particular job, and any supply is needful for any particular purpose, and the several parts of the said work or supply shall together involve the expenditure of more than two hundred and fifty dollars, the same shall be by contract, unless by a vote of three fourths of the members elected to each Board it shall be ordered otherwise." And "All contracts shall be entered into by the appropriate heads of departments, and shall be founded on sealed bids or proposals, made in compliance with public notice, advertised in such of the newspapers of the city as may be employed by the Corporation for the purpose; said notice to be published for at least ten days in each of the daily newspapers so employed. And all such contracts when given, shall be given to the lowest bidder, who shall give security for the faithful performance of his contract."

To answer the requirements of the law, and to settle the conditions between the city and these companies on a better footing, I would renew the recommendations made in my report of December 31st, 1858—that either advertisements with specifications be made as directed, and new contracts entered into, or that the present arrangement should be legalized by a three-fourths vote of the members elected to both Boards of the Common Council.

In addition to the books mentioned in my last report, I have introduced one more, designated a "Lamp-post Book," in which is recorded the exact location of all public lamp-posts fitted up and lighted since May 1st, 1858, with the date thereof; also all that may be removed, keeping separate accounts for the districts of each gas company, so that hereafter there will be no difficulty in arriving at the exact number lighted by each company.

I would state that I have found the Inspectors authorized by ordinance of the Common Council, to be of great benefit. The city is laid out in six districts, and an Inspector is assigned to each; in their instructions being required to report daily any irregularities as to the lighting and condition of the public lamps which may fall to their notice, and to pay particular attention to all lamps which may be removed by parties engaged in the erection of new buildings or vaults. Lamps having heretofore been frequently taken down by builders without a permit from this office, in many cases the posts have been broken, and the lamps destroyed or lost; and when reset, if at all, the expense had to be borne by the city. This practice has now been abated: either the owner of the property or the builder being required to obtain a permit from this

office for the removal of the lamp-post, on condition that when reset the cost thereof will be paid by them to the gas company doing the work.

The Inspectors assigned to the district of the New York Gas Company also place new cocks, tubes and burners in old lamps when needed; for this the gas company have heretofore charged fifty cents each. The Inspector of the district in which oil-lamps are located, in addition to his other duties, is required to see that all oil-lamps are cut off when gas is substituted therefor; so that the city does not pay for gas and oil-lamps at the same time; and I will inform you, that by the duties which they perform, together with ascertaining the number of lamps, the salaries of the Inspectors for this year have been already saved.

I submit herewith abstracts of all vouchers certified by me for the six months, ending June 30th. (See abstracts A and B, statements of the cost of gas supplied to the various Police Stations, public offices, &c.;) and for lighting, fitting, and repairing lamps, &c., see Abstract C.) Also statements showing the number of lamps in each street lighted by the different gas companies, also the number and location of the oil-lamps, for which see Abstracts D, E, F, G.

In conclusion, I would state, that no notice has been taken by the Common Council in reference to the suggestions made in my former report; all of which I will take this occasion to renew. And I now express my satisfaction at being able to state, notwithstanding the fact, that upon entering upon the duties of this office, no books or

papers could be discovered whereby the least information could be gained as to its details, that the business of this bureau is now conducted in a systematic and economical manner, the books being always written up, and copies of all communications which have been sent, as also, all those which have been received being kept on file, so that my successor, whoever he may be, will have no difficulty in entering at once, fully posted, as to the duties appertaining to this office.

All of which is respectfully submitted,

(Signed,)

WILLIAM GAYTE,
Sup't. of Lamps and Gas.

(ABSTRACT A.)

Abstract of Vouchers certified by WILLIAM GAYTE, Superintendent of Lamps and Gas, on account of the appropriation for Lamps and Gas, for the year 1859, for the three months ending March 31, 1859.

DATE.	No of Voucher	NATURE OF EXPENDITURE.	TO WHOM PAID.	AMOUNT.
Jan. 4.	83	Lighting markets and City Hall, four weeks, ending December 31, 1858.	J. Sherman, W. Currie, G Taylor, C Downey, A Miller, T. Kettleman and M Gayte.....	\$190 00

OFFICE SUPERINTENDENT REPAIRS AND SUPPLIES,
New York, July 1, 1859.

GUSTAVUS W. SMITH, Esq., *Street Commissioner*:

SIR,—In reply to your letter dated the 8th inst., calling on me to report the business done in this bureau during the first and second quarters of the present year, I would most respectfully reply:

That in compliance with the instructions contained in your letter dated January 3d, 1859, in which my attention is called to the charter of 1857, "that no expense shall be incurred by any of the departments or offices thereof, whether the object of expenditure shall have been ordered by the Common Council or not, unless an appropriation shall have been previously made covering such expense:" Also wishing me to notify all persons having business relations with this office, of the present condition of the affairs of this department, and be myself governed by the rule laid down in the charter, viz: "No expense shall be incurred unless an appropriation shall have been previously made."

All persons to whom orders had been given from this bureau were notified of the condition of affairs, and all orders were discontinued for work until after the passage of the tax levy; consequently the business of this bureau for the first quarter of the year was confined to work under contract.

I therefore submit a detailed report of work done and materials furnished by the Bureau of Repairs and Supplies, for which triplicate vouchers have been made and

transmitted to your department, from the 31st of December, 1858, to the 1st of July, 1859.

(Seventy-eight thousand one hundred and twenty-five dollars and sixty-four cents)...	<u>\$78,125 64</u>

Amount of outstanding bills, and work in progress,
about.....\$12,000 00

Of the various jobs in the foregoing report, the total cost of which exceeds two hundred and fifty (\$250) dollars, and which therefor, under section 38 of the charter of 1857, should have been done by contract, after due advertisement, I beg to report :

That the payment of \$25,041 was the amount due, as per contract, for the erection of Tompkins Market.

That the repairs to City Hall, amounting to \$2,477 74, the principal part of which was expended in repairing the Mayor's office, in accordance with a resolution of the Common Council ; the balance in different parts of the hall.

The repairs to Hall of Records, amounting to \$1,493 63, is payment in part for repairs done in accordance with a resolution of the Common Council. The total amount of work in said building cannot be estimated for until the repairs are completed, which will not be finished before the first of August.

The alterations in Times Building, occupied by Street

Department, amounting to \$3,800 75, was done in pursuance of a resolution of the Common Council.

The repairs to house No. 261 William street, costing \$403 15, was incurred in shoreing up said house—it being city property; it became necessary from excavating being made on the adjoining premises.

The amount expended for iron railing around Tompkins Square (\$27,437), being payment in full for the erection of the same in accordance with a contract therefor.

The amount of \$826, expended on the Macdougall street bell tower, was partly for slight repairs, and the balance of \$725 was for a new look-out, done under contract, according to a resolution of the Common Council.

The amount of \$4,295, expended for engine company No. 15, was for the erection of a house, under a resolution of the Common Council, and was duly awarded by contract, as prescribed by the Charter.

The amount of \$378 55 was for the erection of temporary house for steam fire engine company "J. C. Cary," and repairs to house occupied by steam fire engine company "J. G. Storm;" and the balance, \$125, for plans, and specifications for the erection of three temporary houses in the Park, for two steam fire engines and engine company No. 42.

The amount \$2,195 89 expended, of which \$2,142 was for making alterations in house No. 39 Liberty street, for use of hose company No. 8, and under contract duly awarded as prescribed by the Charter. The balance was for some slight repairs.

The amount \$1,767 55, expended, of which \$1,549 was for alterations in house for use of hose company No. 58, and, under contract, was duly awarded as prescribed by the Charter. The balance for additional repairs not in contract.

The amount \$726 67 expended, of which \$666 was for making alterations in house for use of hose company No. 13, and under contract duly awarded as prescribed by the Charter. The balance was for additional repairs not in contract.

With reference to contracts now under process of completion in this bureau, the following will be found a correct statement of the nature of the work contracted for, the total amount of the contract, and the amount advanced, if any, to each contractor on the work already done:

Repairs and alterations to Centre Market....	\$10,640 00
House for hook and ladder company No. 9....	4,773 00
Rebuilding the Fifteenth Precinct Station-house	8,550 00
Alterations and additions to Tompkins Market exclusive of roof.....	55,150 00
Probable cost of roof.....	14,000 00
Building in the Park for three steam fire engines and for engine company No. 42.....	5,875 00
Proposals for the erection of house for hook and ladder company No. 4, to cost about...	4,000 00
And for repairs and alterations to house formerly occupied by engine company No. 32, for the use of hose company No. 22, are now being advertised for.	

Plans and specifications have been prepared for the erection of a building, to be called the "Infants' Home," to cost \$25,000, for which proposals will be advertised for in a few days.

Plans and specifications are now being prepared for a new Station house for the Twenty-second Precinct, to cost about \$12,000; also for a house for hook and ladder company No. 7, at the probable cost of \$4,000; and for additions and repairs to the look-out on Essex Market, to cost \$1,500.

Plans and specifications have also been prepared for alterations, additions and repairs to several Station-houses, in pursuance of resolutions, approved November 30th, 1858, but it being impossible to carry said resolutions fully into effect, in consequence of the reduced amount of the appropriation for the construction and repairs of public buildings, the work on these houses has been deferred in order to obtain from the Police Commissioners their views in regard to when the expenditure of that portion of the appropriation to which the Police Department is considered to be entitled could be most advantageously made.

I would take this opportunity to urge the necessity of immediate action in regard to the repairs of the City Hall. The season is advancing, the best working portion having already passed, and unless the work is commenced at once, and vigorously prosecuted, the building will remain another winter roofless.

I will call your attention to the difficulty experienced in making repairs to Station-houses. When a requisition is made on the Street Department for repairs, we are

obliged, as per instructions, to examine the premises and report as to the necessity and probable cost; this report, if approved, is returned to this office, when the order for the necessary repairs is given. The delay thus necessarily occasioned is regarded by the Captains of Police as unwillingness to comply with the requisition; consequently, when the workmen are sent from this bureau, they frequently find the repairs already made by order of the Police Commissioners or Captains. I would therefore beg leave to state, that while I have endeavored in all cases where requisitions have been made for repairs to Police Station-houses, or any public buildings coming under my supervision, to have the same examined, and report to you the probable cost of the repairs asked, and whether, in my judgment, the same is necessary or not; when necessary and approved by you, I have had it attended to immediately.

In conclusion, I would therefore beg leave to recommend that hereafter, in all cases where the Police Commissioners or Captains have repairs made at any of the Station-houses without first making a requisition on the Street Department, and a reasonable time given to have the same done, that they be required to provide means of payment other than upon certified vouchers from this bureau, and charged to the appropriation for Public Buildings, as heretofore, which may have the effect of preventing in many cases a useless expenditure of money.

Yours respectfully,

(Signed,)

JONATHAN PURDY,

Sup't. Rep's. and Supplies.

OFFICE SUPERINTENDENT REPAIRS AND SUPPLIES.

New York, July 12th, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR—Being called upon by the Comptroller, in January last, to make an estimate of the probable cost of the proposed alterations and repairs to the second story of the Hall of Records, upon which to base his application to the Common Council for an appropriation for that purpose, I stated that the then contemplated alterations and repairs would cost about \$5,000.

On application to the Common Council, the following resolution was adopted:

“Resolved, That the sum of five thousand dollars be, and the same is hereby appropriated to alter, repair, and re-furnish the Comptroller's office; that the same be done by the Street Commissioner, without contract, under the direction of the Comptroller.

“Adopted by the Board of Aldermen, Feb. 10th, 1859.

“ “ “ Councilmen, “ 11th, “

“Approved by the Mayor, Feb. 19th, 1859.

“D. T. VALENTINE,

“*Clerk Common Council.*”

Immediately upon a receipt of a copy of the above resolution, the necessary orders were given to carry the same into effect.

When the workmen were about commencing, it was proposed by the Comptroller, that the old walls, instead

of having arched openings cut through them, as first intended, should be entirely removed, and iron girders and columns substituted; also that the old staircase should be removed, and a new double flight constructed on the outside. These changes from the original design being objected to, in consequence of the insufficiency of the appropriation, the reply was, "That the necessary means would be provided by the Comptroller." As the resolution gave the direction of the alterations to the Comptroller, and as the responsibility of the increased expenditure was assumed by him, orders were given to remove about two-thirds of the old walls and groined arches; iron columns, girders and beams were then put up, upon which brick arches were turned, forming a perfectly fire-proof building.

The stairs were taken from the interior of the building, by which a large space of valuable room was obtained, and a convenient and ornamental double flight of iron stairs put up under the portico, on the northerly end of the building.

Marble tiling has been laid in the principal office, between the counters, and the balance of the floor, throughout the entire second story, laid with narrow Georgia pine, in the best manner.

About one hundred and fifty feet in extent of solid oak-top counters have been put up, with closets, drawers, shelves, pigeon-holes, &c., underneath. Gas-pipes have been introduced and carried through the entire premises, leaving a large number of outlets to be used as may be required. Four marble-top wash-basins, with silver

plated self-acting cocks, have been constructed, supplied with Croton water, through pipes arranged in the most secure manner, so as to prevent the water, in case of leakage, from running into the Register's office below. Large and expensive cases for books, maps and papers have been put up where required. Partitions have been put up in the attic, forming a valuable room for the storage of papers not required for constant reference. An iron stair case leads to said room.

The cost of the abovenamed alterations and repairs, including painting, will be about \$8,000, and when completed will probably be the most convenient and commodious public office in the city—nearly approximating to what the offices of the principal departments of the city government should be.

Respectfully yours,

(Signed,)

JONATHAN PURDY,

Sup't. Repairs and Supplies.

BUREAU OF REPAIRS AND SUPPLIES,
DEPUTY SUPERINTENDENT,
New York, July 1, 1859.

G. W. SMITH, Esq.,

Street Commissioner:

SIR.—Agreeable to request in your letter of the 8th June, I herewith transmit the report of business of this bureau, for the six months of this year ending the 30th June.

On entering upon the new year, this bureau was embarrassed by the announcement that the appropriation for expenditures, under my control, were exhausted, and that under no consideration could any expense be incurred until after appropriations were made.

Acting under these instructions, there was no business, except the immediate office transactions, until the passage of the Annual Tax Levy, which did not occur until the 19th of April.

At that time there was a great pressure of business, occasioned more particularly by the presentation of bills for work done and supplies furnished, which appear to have been ordered by other departments of the city government, previous to the passage of the Tax Levy.

However, on the certificate of the Heads of the Department, and under instructions from your office, I audited these bills, and made out vouchers for their payment, notwithstanding the irregularity connected with the ordering of the work and supplies.

At this time there are no back bills outstanding against the department to my knowledge, except bill of J. Donnelly for coal, statement of which is herewith transmitted, marked "C."

There has been no contract made in this bureau since the commencement of the year, either for work to be done or supplies to be furnished, as all the heavy repairs (exceeding two hundred and fifty dollars) to public buildings, &c., are carried on in conformity with section 37 of the ordinance reorganizing the Street Department (passed 1857,) under the immediate supervision of the Superintendent of this bureau.

Specifications for a contract for "stationery" were prepared by order of yourself, but owing to the non-passage of the Tax Levy, and the accumulation of bills referred to above, as ordered by the Heads of the Departments, the appropriation for that purpose was exhausted before contracts could be consummated. But none of the supplies purchased have been separately of an amount to make a contract necessary under the 38th section of the city charter of 1857; but since my last report, contracts for wood have expired, and new contracts are now being prepared under the immediate supervision of yourself for both wood and coal.

I have, on requisition from the Comptroller and instruction from yourself, ordered furniture, amounting to about one thousand dollars (\$1,000), for refurnishing the Comptroller's office, with bills at present in the office to be audited at the earliest moment possible. The appropriation for stationery is quite exhausted, as I informed you in my letter of the 15th of June.

Herewith is a detailed statement, marked "D," showing the different public offices and departments that have been furnished with stationery for the half year.

In compliance with directions from your office, I have continued to furnish stationery to the various departments and public offices, and await further instructions in regard to the appropriation to be drawn against in payment for these supplies.

Subjoined is a statement marked "B," of the appropriations, and the several amounts drawn against them by triplicate vouchers, since the first of January to date.

Also, a statement marked "A," of the amounts paid for repairs done and supplies furnished to the different offices and departments during the same period.

There have been drawn by the Contract Clerk, which does not appear in my books, from the appropriation for printing and advertising for departments, the sum of one hundred and eighty-four dollars and twenty-five cents.

The books and records of this office are the same as stated in my last report; and no goods are ordered or work performed unless upon a requisition from the proper authority, and the same are paid for by triplicate vouchers drawn upon the Comptroller.

By reference to the minutes of the Board of Aldermen, it will be seen that a committee was appointed to investigate the books and accounts of this bureau; they are, and have been open for inspection at any and all times that

may suit their convenience; but up to the present moment they have not examined them.

All of which is most respectfully submitted.

Yours, &c.,

(Signed,)

JOHN RICHARDSON.

C.

On the 13th of November, 1858, there was a contract awarded to James Donnelly, for from 1,500 to 3,000 tons of coal, at \$3 95 per ton, (of 2,240 pounds.) The coal to be weighed, and the quality subject to the inspection of such person as might be appointed by the Street Commissioner. This contract was not confirmed by the Common Council; but Mr. Donnelly agreed with me to furnish the coal necessary for the use of this department, *at the same price per ton*, and upon the same conditions as the contract called for until its confirmation.

Mr. Donnelly supplied coal, by my order, as per agreement, until January, 1859, amounting to $594\frac{1}{2}\frac{1}{4}\frac{5}{10}$ tons, at \$3 95 per ton. He has never rendered an account of coal and wood delivered to the departments, until this day; when I find he has the Corporation charged with coal to date, amounting to $954\frac{1}{2}\frac{5}{10}\frac{8}{10}$, at \$5 per ton; this amount includes $594\frac{1}{2}\frac{5}{10}\frac{4}{10}$ tons ordered by myself. He also renders account of eight loads of wood, at \$2 50 per load, amounting to \$20; and for cutting and carrying in the same, at 88 cents per load, \$7 04. He also charges for carrying in coal, 31 cents per ton, amounting to \$295 99.

The whole amount of his bill, as rendered by himself, for coal and wood, is

954 $\frac{1158}{2108}$ tons of coal, at \$5.....	\$4,772 89
8 loads of wood, at \$2 50.....	20 00
Carrying in coal, at 31 cents.....	295 99
Carting and carrying in wood, at 88c.....	7 04
Total.....	<u>\$5,095 92</u>

You will not fail to see that Mr. Donnelly has delivered, upon my order, coal, amounting to \$2,348 30; the balance, amounting to \$2,747 62 for wood and coal, was delivered without order from this department.

STATEMENT of accounts, showing the exact amounts paid for Repairs done, and Supplies furnished to the different offices and departments, for the Deputy Superintendent of Repairs and Supplies, from January 1st, 1859 to July 1st, 1859.

OFFICE OF CHIEF ENGINEER OF THE FIRE DEPARTMENT,
New York, July, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR:—In compliance with the request contained in your circular of June 8th, 1859, referring to section 29 of the charter of 1857, which prescribes that, "Every head of department shall report in writing to the Common Council, quarterly, the state of his department, with such suggestions in relation to the improvement thereof, and to the public business connected therewith, as he may deem advisable:" I most respectfully transmit the accompanying report (in two parts), the first embracing the months of January, February and March, 1859, the second, the months of April, May and June, 1859, being a minute detail of the workings of this bureau during the said time.

Owing to the long delay in the passage of the Tax Levy by the late Legislature, the business of this department was considerably crippled during the first quarter of the present year, viz: for the months of January, February and March, 1859, there being no money in the treasury to pay for any work done, and the law not allowing any expenditure to be incurred without an appropriation having been previously made for the same, consequently the amount of certified vouchers which I transmitted to you during that period, (and which were ordered paid by you after the passage of the Tax Levy,) "was very small,

amounting to but three thousand five hundred and twenty-eight dollars and thirteen cents, (\$3,528 13.")

Very respectfully submitted,

(Signed) HENRY H. HOWARD,
Chief Engineer of Fire Department.

G. W. SMITH, Esq., *Street Commissioner:*

SIR:—During the second quarter of this year, " (viz: for the months of April, May and June, 1859,)" the expenditures were much larger, amounting to thirty-two thousand four hundred and seventy-five dollars and forty-seven cents," (\$32,475 47,) as shown by certified vouchers which I have presented to you weekly, as also a statement presented monthly of account with appropriation for Fire Department.

Adding this with the amount expended during the first quarter, shows a total amount of expenditures for the six months ending June 30th, 1859, of thirty-six thousand and three dollars and sixty cents, (\$36,003 60,) leaving a balance of appropriation now on hand against which there are no vouchers certified by the Superintendent of this Bureau, of twenty-eight thousand two hundred and twenty-one dollars and forty cents, (\$28,221 40.)

The whole amount of the appropriation was sixty-four thousand two hundred and twenty-five dollars, (\$64,225.) In addition to the above, there has also been expended, and drawn from the account of " Arrearages for 1858,"

the sum of thirteen hundred and thirty dollars and ninety-three cents, (\$1,330 93.)

In my report to the Street Commissioner, in October, 1858, the amount asked for by me, viz: sixty-seven thousand dollars, (\$67,000,) I considered sufficient to defray the necessary expenses of the Fire Department for the year 1859. In that statement I embraced the following new apparatus, viz: Hose carriages Nos. 6, 38, 42, 44 and 58.

During the last six months, however, the Common Council have been very liberal to the Fire Department, and have appropriated quite a large amount for several other new apparatus, and for general repairs to old apparatus.

If this work is to be paid for out of the balance of appropriation now on hand, it will shortly be exhausted, and the department left completely paralyzed; and as the expense of the department will be somewhat increased, owing to the necessary outlay attendant upon the coming parade in October, I would respectfully suggest that no moneys be drawn from the present appropriation to pay for the above-mentioned work, lately ordered by the Common Council, but that it be placed in the "Arrearages for the year 1859," in the Tax Levy to be presented to the Legislature next winter.

Of the new apparatus asked for by me, but one has been finished, viz: Hose carriage No. 38. The balance are now under headway.

During the last quarter, the new leather hose, (viz: 25,000 feet,) for which the city contracted, for the use of the Fire Department, has all been delivered at this office,

properly tested and placed in service. It gives very general satisfaction.

The two steam fire engines purchased by the city, for the use of the Fire Department, have been brought into service on several occasions during the past six months, and I make no hesitation in pronouncing them as cumbersome, unwieldy, and an entire failure—and will never realize to the city one-quarter the amount expended upon them. The one now in use by engine company No. 8, I delay expressing an opinion upon, as I do not consider that she has as yet had a fair trial.

Another suggestion I would respectfully make, that of the balance of appropriation for the Fire Department now on hand, a portion be retained for the necessary expenses of the department during the coming winter, as it is during the cold season that the fire apparatus should be kept in the best working order.

Very respectfully, submitted,

(Signed) HENRY H. HOWARD,
Chief Engineer of Fire Department.

STREET DEPARTMENT,
New York, March 31, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR:—The entire appropriation for the Fire Department was expended in December of last year, and the delay in making the appropriation for this year has placed the department in a very embarrassing position. It is actually necessary that the Fire Department should be in perfect working order at all times, particularly during the winter months; yet, at the time when most needed, no work can be done, from the want of funds to carry it on.

In submitting my report for the quarter ending March 31st, I can simply state, that no work has been done but such as the exigencies of the case required, and none other than to keep the apparatus in running and working order.

Provision should be made to keep a portion of the appropriation for use in the winter season, and to guard against the delay consequent upon the passage of the Tax Levy; at least one-quarter of the appropriation should be reserved for the end of the year, when it could be re-appropriated, and work done when most needed.

It was considered necessary during the extreme cold weather to place the two steam fire engines belonging to the city, in service, and one of them was accordingly placed in charge of Exempt Engine Company, and the other held in reserve. The fortunate escape of the city

from large fires prevented them from being brought into actual service, except on two occasions, at neither of which were their services actually required, though their capacity to force large quantities of water was fully tested. From the limited opportunities to try these engines, in actual service, it remains doubtful whether they will meet the requirements of the city, or be of that efficient service promised for them.

I trust that you will see the necessity of prevailing upon the Common Council to make preparations in future, for winter service. The expenses are nearly double that of any other part of the year. The breakage of engines from frost; the hard running on sidewalks, when the streets are impassable; the freezing of gates and pipes of the engines, and the damage generally is such, that it should be a special object to protect the apparatus, even to the neglect of other times. The average expense of a fire in cold weather is one hundred and eighty dollars, and in the summer season about sixty dollars. By this statement you can plainly see the great mistake in spending all for repairs and decorations in summer.

Respectfully submitted,

(Signed) JOHN B. LEVERICH,
Supt. of Fire Apparatus.

STREET DEPARTMENT,
New York, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR:—In reply to your circular directing a report of the condition, expense and general account of the working of the department, I would respectfully report, that the Chief Engineer, as Head of the Bureau of Fire Department, will present a detailed account of the disbursements of the department, and to what the appropriation has been applied.

It therefore remains, that I should present my views in regard to the manner of conducting the Fire Department, and the disbursement of moneys appropriated thereto, premising, that any change suggested is not with a view of fault-finding at any one now in command or in power, as the same manner of conducting the business of the Fire Department was in vogue years before the present officers assumed the control.

It has been customary for the Chief Engineer to submit to the Street Commissioner, and before that officer had charge of the disbursements of the fire appropriation, to the Commissioner of Repairs and Supplies, a requisition or statement of what he considered the necessary sum to carry on the department for the year, and it has seldom happened that the Common Council altered the sum asked for by the Head of the Department, except to add thereto; yet despite this known fact, but one year has passed in the last ten, with-

out the appropriation has been exhausted before the year expired. Previous to the adoption of the last charter the work was done on credit, and the deficiency placed in arrears; and this course was forced upon the Street Department last winter, and will be again before the present year expires. In a badly built city like ours, we must have an efficient Fire Department, and no matter how willing the members may be, without good apparatus, they are comparatively powerless; and the only way under the present laws, that I can see to prevent the expenditure of the whole appropriation before the time, is, as I stated in my last report, to set aside a portion of it for the contingencies of the winter months.

The expense of the fire apparatus, has for the last six or eight years, averaged three thousand dollars per month. This includes new apparatus ordered by the Common Council, rebuilding and general repairs; but I am satisfied that the work can be done better, the firemen be better satisfied, and the apparatus kept in a fit state for duty at all times, for at least half the amount. It was customary during the term of service of Cornelius V. Anderson as Chief Engineer, for the Chief Engineer to meet with the Fire Department Committee of the Common Council, and by his advice, much expense was saved; and at the present time, if such a rule were adopted, it would work in like manner. The Common Council, for the last four years, have been unlimited in their favors to the firemen; they have but to ask, and, if any shadow of necessity exists, their favors are granted, without distinction to companies. Yet, while all this is gratifying to those who witnessed the ill-feeling between the firemen and Common Council

in 1854 and 1855, and honorable to the gentlemen who assist by their acts to keep the department perfect, it in the end only tends to embarrass those who have the disbursement of the fund, and who, carrying out the orders of the city legislature, are forced to allow the department to remain in a bad condition, during the time when their services are most required, or violate the provisions of the charter, which distinctly states, "that no moneys can be spent unless appropriated for the special object."

The appropriations for the present year was unusually small, yet, all that was asked for by the Chief Engineer. Once in every three years it is customary for the department to turn out en-masse, to show the people their condition and numbers; and, as each endeavors to vie with the other who shall show the finest apparatus, the consequence is, that in each parading year the draft on the Common Council for favors is too great for the usual appropriation to stand, particularly with a Common Council so generously inclined toward those asking as the present.

In the report of the Chief Engineer of the expenses of the department, it will be seen that, if the resolutions already passed the Common Council be carried out, the whole of the appropriation will be expended, and the same trouble will have to be undergone this coming winter, as kept the department busy during the past; and it only remains for the Common Council to adopt some means to prevent a recurrence of it any succeeding year. And on that point I would suggest, that an average be made of the expenses of each company, engine, hook and ladder and hose companies separately, and in the next Tax Levy, appropriate the same to their account, let them draw from their fund,

and the bills be by the Chief Engineer or other officer, and if any thing remains over at the end of the year, place it again to their credit with the new appropriation. By this means companies could be made careful of their apparatus, and the expense would be found considerably lessened.

I would suggest that application be made to the Common Council for an ordinance governing the steam fire engines now in use, and hereafter to be placed in service. The expense attending them has been drawn from the balance left after the engines were purchased, but as that is exhausted, the engines will either have to be laid up, or the companies pay their own expenses. Two of these engines are much too large for general use, and could an exchange be made for lighter ones, the city would be benefited thereby.

Respectfully submitted,

(Signed) JOHN B. LEVERICH,
Supt. of Fire Apparatus.

(Copy.) BUREAU OF COLLECTION OF ASSESSMENTS,
New York, July 7, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR:—In compliance with the duty prescribed by the charter, referred to in your circular of June 8th, and to which, also, my attention has been called by your note of 6th inst., I have to present the following,

QUARTERLY REPORT, No. 1.

On the 1st of January, 1859, a requisition was made upon the Street Department, for a "statement" showing the "uncredited balances" apparently due the City, by the Records of this Bureau; such a statement was prepared, accordingly, by Daniel E. Delavan, Esq., the then Collector of Assessments, and was adopted as a basis for the subsequent accounts to be kept in, and with this office, and presented an aggregate "balance," as first stated in the following,

ACCOUNT CURRENT:

1859.			
Jan'y 1,	Balance, being amount as per statement rendered,.....	\$1,040,746 43	
Mch. 31,	Amount collected for interest on assessments during the quarter ending this day,	16,915 94	
"	Amount assessment lists received for collection during the quarter ending this day,...	150,661 42	
"	Amount received for First avenue opening, (not in this office,)....	833 72	
"	Amount errors in "old accounts," passed to the credit of the city,.....	146 50	
"	Amount cash paid A. V. Stout, Chamberlain,	166,708 69	\$1,209,807 01
"	Amount transmitted for collection, by Clerk of Arrears,	58,882 20	
"	Amount cancelled by resolution of the Common Council,	322 00	
April 1,	Balance, being amount of uncollected assessments,.....		225,912 89
			\$983,394 12

QUARTERLY REPORT, No. 2,

Showing the current business, &c., of the Bureau of Collection of Assessments, for the quarter ending June 30th, 1859.

ACCOUNT CURRENT.

1859.			
April 1,	Balance, as per last "quarterly report,"	\$983,394 12	
June 30,	Amount collected for interest on assessments, since last quarterly report,	35,291 78	
"	Assessment lists received for collection, since last quarterly report,	1,412,923 13	
"	Amount Errors, &c., in "old accounts," (prior to May, 1858,) credited since last quarterly report,	350 46	
			2,461,959 49
"	Amount paid A. V. Stout, Chamberlain, since last quarterly report,	350,878 40	
"	Amount assessed to Corporation, by virtue of ordinance,	3,499 38	
"	Amount liens cancelled on Comptroller's certificates,	14,793 86	
"	Amount errors, &c., in "old accounts," (prior to May, 1858,) corrected, ..	14 90	
"	Amount transmitted for "collection, by Clerk of Arrears,"	33,507 63	
"	Amount "assessments vacated," by order of the Supreme Court,	7,588 88	
			410,283 05
July 1,	Balances, being amount of uncollected assessments,		\$2,051,676 44

On the 14th of June, 1859, the former Collector of Assessments, Daniel E. Delavan, Esq., resigned his office, and the present incumbent was appointed his successor, and the time thus limited has afforded your Collector a familiarity with the affairs of this Bureau, scarcely sufficient, at this present, to report or suggest the inauguration of much material improvement.

The method of "Weekly Returns" by the Deputies, and payments to the Chamberlain by the Collector, after the lapse of another week—as heretofore practiced—has been succeeded by the following:—All collections are deposited

daily, to the credit of the Collector of Assessments, and by him paid to the Chamberlain, on Wednesday of each week; all these deposits are made in the bank of which the Chamberlain is president, and no checks are drawn, excepting weekly, to his order.

By reference to the statement of January 1st, 1859, of assessment lists on hand, it will be seen that over four-fifths of the amount uncollected was upon lists which were confirmed in 1856 and 1857. Of the owners of property, large numbers were very difficult to find, many had never been notified, and many others had long since sold to other parties, and when the reputed purchasers were called upon, they, in turn, denied having any such possession.

Diligent efforts have been made, during the present season, to complete, in legal form, the demands necessary to enable the city authorities to collect these old assessments; and, notwithstanding the difficulties encountered, this work is now nearly finished, and an additional clerk has been employed for the express purpose of making up the returns to transmit to the Clerk of Arrcars.

In the "Account Current," attached to this report, is an item of \$14,793 86, entitled "Liens Canceled on Comptroller's Certificates." The items embraced in this amount are assessments paid to former Collectors, prior to May, 1858, and by them neglected to be discharged of Record; and in order that the proper credits might be made, and these unjust liens released, the Comptroller has issued certificates, setting forth that satisfactory evidence of payment has been produced, and concluding

with the following declaration: "Now, therefore, in consideration of the premises, I, Robert T. Haws, Comptroller of the City of New York, being satisfied with the proof to me presented and made, of the actual payment of the amount, and for the purpose aforesaid, to an authorized officer of the Corporation of the said city, in pursuance of the authority vested in me by law, do hereby declare and certify that the said assessment, and every part thereof has been duly paid, and the lien created thereby ought to be, and is hereby canceled and discharged of Record." Upon the receipt of these certificates from the Street Department, and by order of the Street Commissioner, the liens described by them have been immediately discharged of Record in this Bureau and the certificates returned to the Street Department.

All of which is respectfully submitted,

(Signed,)

JONATHAN TROTTER,

Collector of Assessments.

ANNUAL REPORT
OF
THE COMPTROLLER

OF THE
CITY AND COUNTY OF NEW YORK,

EXHIBITING THE
Revenues and Expenditures of said City and County.

ALSO,

THE LOANS, RECEIPTS AND DISBURSEMENTS UPON THE VARIOUS TRUST
AND SPECIAL ACCOUNTS, FOR AND DURING THE FISCAL YEAR ENDING

December 31st, 1858.

NEW YORK:
CHARLES W. BAKER, PRINTER TO THE COMMON COUNCIL.
1859.

ANNUAL REPORT

THE COMPTROLLER

OF THE CITY OF NEW YORK

FOR THE YEAR ENDING JUNE 30, 1891

NEW YORK: PUBLISHED BY THE COMPTROLLER, 110 NASSAU ST., N.Y.

1891

PRINTED BY THE COMPTROLLER, 110 NASSAU ST., N.Y.

In Common Council,

JULY 21, 1859.

THE ANNUAL REPORT OF THE COMPTROLLER,

Exhibiting the Revenues and Expenditures of the City and County of New York ; also the Loans, Receipts and Disbursements upon the various Trust and Special Accounts, for and during the fiscal year ending December 31, 1858, was received, laid on the table, and 2,500 copies ordered to be printed, under the direction of the Comptroller.

D. T. VALENTINE,

Clerk of the Common Council.

REPORT.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE.

July 18, 1859.

To the Honorable the Common Council:

The 102d section of the ordinance organizing the departments of the Municipal Government, passed May 30, 1849, makes it the duty of the Comptroller to "report to the Common Council, at its first meeting in January in each year, for the general information of the citizens of the city of New York, a full and detailed statement setting forth :

" 1. The receipts and expenditures of the Corporation during the preceding year, and the different sources of the city revenue and the amount received from each.

" 2. The several appropriations made by the Common Council, the objects for which they were made, and the amount of moneys expended under each appropriation.

" 3. The moneys borrowed on the credit of the Corporation, the authority for each loan, and the terms upon which it was obtained."

The 32d section of the Amended Charter of 1857, provides that "until the Common Council shall otherwise direct, the existing ordinances shall apply to the departments herein mentioned, so far as the same are applicable thereto, and not inconsistent with this act."

In compliance with the foregoing requirements, the Comptroller herewith respectfully submits his ANNUAL REPORT, exhibiting the receipts and expenditures of the Corporation (including also the Council for the year ending December 31st, 1858. For obvious reasons preparation of this report has necessarily been delayed much more than usual.

OPERATIONS AND STATE OF THE TREASURY.

RECEIPTS—From the accounts of the Chamberlain (see p. 36,) it appears that the amount of cash on hand December 31, 1857, was as follows:

To the credit of the Corporation.....	\$1,365,776	37
To the credit of the Commissioners of the Sinking Funds.....	1,670,741	59
	<u>\$3,036,517</u>	<u>96</u>
The total receipts from all sources, on City account, including also the moneys borrowed on Revenue Bonds and the sums received on Trust and Special accounts,* from January 1, to December 31, 1858, amounted to.....		
	\$17,152,473	19
The receipts on account of the Commissioners of the two Sinking Funds amounted to.....	1,801,722	34
	<u>18,954,195</u>	<u>53</u>
Total.....	<u>\$21,990,713</u>	<u>49</u>

DISBURSEMENTS—The total disbursements during the year, were as follows :

* The following explanations of these classifications of the accounts may be useful:

"CITY ACCOUNTS."—Under this general head, are comprised all those which represent the Revenues of the Corporation, including Taxes; also all expenditures for support of the City Government.

"TRUST ACCOUNTS."—This designation refers to the accounts representing Disbursements on Street and other Public Improvements, the cost of which is defrayed by assessments upon property in the vicinity of such improvements deemed benefited thereby; also the receipts upon such assessments; including, also, the loans upon Assessment Bonds. In relation to all works of this character, the Corporation acts as trustee or agent of the property owners, directing and superintending the execution thereof, without charge, and loaning its credit to raise money in advance of the collection of assessments levied to pay for the same.

"SPECIAL ACCOUNTS," are those which exhibit the receipts and expenditures on account of the construction of those public works, the cost of which is provided for by the issue of "Corporation Stocks" redeemable from the Sinking Fund, or otherwise—*e. g.* "Croton Water Works Extension," "Central Fund," "Central Park Improvement Fund," "Tompkins Market Rebuilding," &c. The laws and resolutions relating to the several issues of stocks, provide that separate accounts shall be kept of each, by the Comptroller and Chamberlain—and that the proceeds thereof shall only be used for or applied to the objects and purposes respectively for which they were *specifically* authorized and created.

On City accounts, including Special and Trust Funds	\$15,497,563 86
On account of the Commissioners of the Sinking Funds.....	2,312,870 21
Total.....	<u>\$17,810,434 07</u>

RECAPITULATION.

TOTAL RECEIPTS—Including the balance on hand at the beginning of the year.....	\$21,990,713 49
Total disbursements.....	<u>17,810,434 07</u>
Balance on hand December 31, 1858.....	\$4,180,279 42
Of this sum there was standing to the credit of the “city treasury” upon the books of the Shoe and Leather Bank, as per certificate of W. A. Kissam, cashier, (see p. 36,) the sum of.....	\$3,020,685 70
And to the credit of the Commissioners of the Sinking Funds....	<u>1,159,593 72 \$4,180,279 42</u>

The total cash receipts of the Commissioners of the Sinking Funds, from all sources, including the balance on hand at the beginning of the year, amounted to \$3,472,463 93

The disbursements, in the aggregate, amounted to.. 2,312,870 21

Balance on hand December 31, 1858..... \$1,159,593 72

as per statement of the Chamberlain, on p. 37, the same standing to the credit of the Commissioners of the Sinking Fund, for the Payment of Interest on the City Debt.

SOURCES OF REVENUE.

The \$17,152,473 19 received during the year, as above stated, was derived from various sources, and credited to the following accounts, viz:

ON CITY ACCOUNT—

TAXES—amount collected by the Receiver of Taxes and the Clerk of Arrears.....	\$8,535,614 87
INTEREST ON TAXES, collected by the Receiver of Taxes and Clerk of Arrears.....	166,625 91
Carried forward.....	<u>\$8,702,240 78</u>

The receipts from revenues pledged and appropriated to the two Sinking Funds, as well as the payments from said funds respectively, from the first establishment of the same down to and including the year 1858, are exhibited in the accompanying tables. (See pp. 46 & 58.)

APPROPRIATIONS.

The amount of appropriations made prior to the year 1858, for the support of the city government, which remained unexpended at the close of 1857, cannot now be stated. It is found that, in accordance with a custom which appears to have originated some forty years since, it has been the practice to transfer at the close of each year to the debit of a "Profit and Loss Account," all expenditures on city account, and to credit the same account with all revenues from taxes, &c., received. The balance then remaining to the debit or credit of this "Profit and Loss Account," has been carried to an account entitled "City and County of New York." In some years the receipts appear to have exceeded the expenditures, while in other years they have been largely deficient. The statement on p. 42, exhibits the amount of receipts and expenditures and the balances of "Profit and Loss Account," transferred, as above stated, to the "City and County of New York," for each year since 1820; with a detailed statement of said last-mentioned accounts, resulting in a debit balance of \$1,159,304 01.

The appropriations for support of the city and county government, including also the state taxes for the year 1858, amounted to \$8,621,091 31, as stated in detail on page 40. The balances remaining unexpended December 31, 1858, including the appropriations for previous years, after divers revisions and alterations of the accounts, was finally assumed to amount, exclusive of \$25,000 for reconstruction of the county jail, to the sum of \$988,805 66, as stated on page 40; but it is quite probable the same may not be entirely correct.

In this connection, it is deemed proper to state the opinion entertained by the undersigned, as fully set forth and explained in his communication to the Common Council, under date of April 25, 1859 (see Board of Aldermen, Doc. No. 19), that the custom of regarding all

balances of appropriations for city purposes remaining unexpended at the close of each year, as having lapsed or become merged in a general unappropriated fund in the treasury, and therefore requiring a re-appropriation to make the same available, is not only without any legal warrant, but in violation of positive enactments upon that subject. Such appropriations once made, and the moneys to pay the same duly provided by tax levied, never expire except by exhaustion; and the money so raised can never "lapse" or be diverted to any other than the purpose for which it was originally raised, without authority from the State Legislature.*

EXPENDITURES.

The warrants drawn upon the Chamberlain during the year 1858, exclusive of those issued by the Commissioners of the Sinking Funds, amounted to \$15,294,176 73, classified as follows:

* The following extracts show the existing laws in relation to appropriations made by the general and state governments, which differ from the laws relating to appropriations by the Common Council for the support of the government of the city of New York.

Constitution of the United States, Article 1, Section 9:

"No money shall be drawn from the treasury, but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time."

Act of Congress, passed 3d March, 1795, Sect. 16; Brightley's Digest, p. 42, Art. 1, Sect. 5:

"Where any money shall have remained unexpended upon any appropriation by law, other than for the payment of interest on the funded debt, or the payment of interest and reimbursement, according to contract, of any loan or loans made on account of the United States, as likewise moneys appropriated for a purpose in respect to which a larger duration is specially assigned by law, for more than two years after expiration of the fiscal year, in which the act shall have been passed, all and any such appropriations shall be deemed to have ceased and been determined, and the moneys so unexpended shall be immediately thereafter carried, under the direction of the Secretary of the Treasury, to the account on the books of the treasury denominated the 'Surplus Fund,' to remain, like other unappropriated moneys, in the treasury; and it shall not be lawful, for any cause or pretense whatsoever, to transfer, withdraw, apply or use for any purpose whatever, any moneys, carried as aforesaid to the surplus fund, without further and specific appropriations by law."

Constitution of the State of New York, Art. 7, Sect. 8:

"No moneys shall ever be paid out of the treasury of this state, or any of its funds, or any of the funds under its management, except in pursuance of an appropriation by law; nor unless such payment be made within two years next after the passage of such appropriation act; and every such law making a new appropriation, or continuing or reviving an appropriation, shall distinctly specify the sum appropriated, and the object to which it is to be applied; and it shall not be sufficient for such law to refer to any other law to fix such sum."

For State Tax and Common Schools for State.....	\$1,401,566 09
“ General Expenses of the City and County.....	6,658,769 46
“ Redemption of Revenue Bonds.....	5,932,350 00
“ Disbursements on Trust Accounts.....	495,007 35
“ Ditto on Special Accounts	805,483 83
	<hr/> \$15,294,176 73

The warrants for this sum were charged in the books of this department to the several accounts specified on page 40.

The disbursements made by the Chamberlain during the year, according to his account thereof, amounted to \$15,497,563 86, as stated on page 40, for which sum warrants were duly returned by him.

On comparing these statements, it will be seen that there are numerous discrepancies between them; but, as yet, no time has been found to undertake to investigate and reconcile them. It is known that the disbursements by the Chamberlain included a large number of warrants issued in previous years which were not presented before, and it is not improbable that some warrants had been issued, which were omitted to be registered. A considerable number of warrants which, according to the account in the general ledger, entitled “Warrants Drawn,” were entered during the year, had not been presented to the Chamberlain for payment, and were supposed to be outstanding on the 31st December, 1858. The balance remaining to the credit of “Warrants Drawn” at that date, and which purported to represent all the warrants issued previously and not presented for payment, was \$146,187 41.

It is believed, however, that this account is altogether incorrect, inasmuch as it was formerly the practice to enter all warrants drawn by the Auditor, from the accounts kept by him in the margins of the audit books, before it was known whether they would be signed by the Comptroller, who not unfrequently withheld his signature thereto.*

* The present practice is to register and enter Warrants *after* they have been duly executed, i. e. signed by the Comptroller, and countersigned by the Mayor and the Clerk of the Common Council.

All warrants are distinguished by the letters “A” and “B.” The former are printed in *black ink*, and are used only for payments upon city account. The “B” warrants are printed in *red ink*, and are exclusively used in making payments upon Special and Trust accounts.

In addition to this sum, a considerable number of warrants executed in various years for different purposes and charged to the several accounts of expenditures, but never called for, had been deposited with the Chamberlain to the credit of an account entitled "Unclaimed Warrants," and the balance to the credit of this account, and apparently due thereon, December 31, 1858, was \$60,214 17.

THE SINKING FUNDS.

The disbursements made by the Commissioners of the Sinking Funds are shown in the statement on page 7, as already stated.

The capital of the Sinking Fund for the Redemption of the City Debt, on the 31st December, 1858, amounted to \$2,698,021 19

The Sinking Fund for the Payment of Interest on the City Debt, had accumulated a surplus over and above all charges against the same, prior to December 31, 1858, of \$2,579,534 12

In view of the fact that the revenues pledged to the Sinking Fund for the Payment of Interest on the City Debt, now annually produce more than sufficient to meet all the interest payable therefrom, and that a large surplus had accumulated, which the Commissioners of the Sinking Funds had no power to invest permanently, the Comptroller made application to the Legislature, at its last session, for the passage of an act authorizing the Commissioners to transfer said surplus to the Sinking Fund for the Redemption of the City Debt, and to invest the same in the manner provided by law in relation to said last-mentioned fund; also to transfer and invest, in like manner, any surplus which may hereafter accrue during any year from the revenues pledged to said Sinking Fund for payment of interest.

All warrants duly executed as above, are entered in the "Journal to the General Ledger" to the credit of "A, Warrants Drawn," or "B, Warrants Drawn," as the case may be, and the appropriate accounts of expenditure, as indicated by the indorsements upon the margins of the warrants are at the same time debited with the amounts. After presentation to, and payment by the Chamberlain, the warrants are canceled by a stamp cutter, and returned periodically, with detailed lists thereof, to the Comptroller, when they are examined and noted in the Registers opposite their respective numbers, and then entered in the Journal, to the credit of the Chamberlain, and debited to the respective accounts of "Warrants Drawn."

The balance at any time to the credit of said accounts should show the amount of warrants afloat, including those which may not have been called for. The Auditor of Accounts will hereafter, as far as he may be able, notify persons in whose favor warrants have been executed, when they are not called for.

A law to this effect was accordingly passed, a copy of which is given on page 63, and in pursuance thereof the surplus existing in the fund for payment of interest on the city debt, amounting to \$2,579,534 12, has been transferred as of 1st January, 1859, to the Sinking Fund for the redemption of said debt, thus increasing the capital of the latter at that date to \$5,277,555 31. This amount is exclusive of \$661,989 78 in bonds and mortgages owned by the Corporation according to the old books—the same having been received upon various sales of real estate, and other accounts, the proceeds thereof, when collected, being pledged to the Sinking Fund for the Redemption of the City Debt.

The statement on page 62 shows the investments made on account of these funds, and also the amount of cash and other assets on hand at the beginning of the present year.

The only charges to be made against this fund, prior to the year 1870, are the following:

WATER STOCK issued under the act of 1839, redeemable	
“on or after 1st January, 1858,”.....	\$168,330 00
WATER STOCK issued under the act of 1834, redeemable	
“on or after 1st January, 1860,”.....	2,500,000 00
FIRE INDEMNITY STOCK, redeemable “on or after May 10,	
1868,”.....	402,768 00
Total.....	<u>\$3,071,098 00</u>

DEBT OF THE CORPORATION.

The entire indebtedness of the Corporation, exclusive of the floating debt (which is usually denominated “arrears,”) according to the books of this department, amounted, on 31st December, 1858, to \$22,689,298,* which may be classified as follows, viz :

* Of this sum there was held by the Commissioners of the Sinking Fund, the following amounts, viz:	
Of the \$14,399,993 permanent or Stock Debt, redeemable from the Sinking	
Fund for the Redemption of the City Debt.....	\$3,465,152 00
“ 1,224,000 Stock Debt, redeemable from Taxation.....	312,200 00
“ 1,600,900 Central Park Assessment Fund Stock	6,800 00
	<u>\$3,784 152 00</u>

See detailed account of the above on page 62.

1. The Permanent or Stock Debt, redeemable from the Sinking Fund.....\$14,399,998 00
2. The Stock Debt, redeemable from Taxation..... 1,224,000 00
3. The Stock Debt, redeemable from Assessments for Opening Central Park..... 1,600,900 00
4. The Temporary or Bond Debt, consisting of the following:

REVENUE BONDS OF 1858, redeemable from the Taxes for 1858.....	\$4,368,700 00	
ASSESSMENT BONDS, redeemable from Assessments for various street and other improvements	1,095,700 00	5,464,400 00
Total	\$22,689,298 00	

The statement on page 66, exhibits the amount of stocks outstanding, the various purposes for which they were issued, the dates when, and the sources from which the interest as well as the principal thereof are severally payable.

The \$4,368 700 of revenue bonds of 1858, above stated, were payable at the following periods, with interest at the rate of six per cent. per annum, from dates of issue, viz:

1859, January 15.....	\$234,000
February 15.....	99,200
March 1.....	387,700
March 15.....	317,100
April 1.....	525,500
April 15.....	490,900
May 15.....	339,300
June 1.....	373,300
June 15.....	313,300
July 1.....	770,500
July 15.....	434,500
August 15.....	83,400
	<u>\$4,368,700</u>

The \$1,095,700 of assessment bonds outstanding were payable as follows:

Six per cents, payable July 1, 1861.....	\$789,600
Seven per cents, payable October 1, 1862.....	306,100
	<hr/>
	\$1,095,700

Interest payable half yearly, on the 1st days of May and November.

AUTHORITY FOR TEMPORARY LOANS.

The authority for issuing "Revenue Bonds" is contained in the 33d section of the amended charter of 1857, which prohibits the Corporation from borrowing any money whatever "except in anticipation of the revenues of the year in which such loan shall be made, unless authorized by a special act of the Legislature." In pursuance of this section, the Common Council, by a section in the ordinance making the annual appropriations, authorize "the Comptroller to borrow, from time to time, on the credit of the Corporation, in anticipation of its revenues, and not to exceed in amount such revenues, such sums as may be necessary to meet expenditures."

"Assessment Fund Bonds," for the payment of awards for opening streets, &c., are authorized to be issued by an ordinance of the Common Council, passed August 8, 1840, entitled "An Ordinance to Provide for the Payment of Awards for Opening Streets and Avenues," in pursuance of an act of the Legislature, passed April 9, 1813, entitled "An act to reduce several laws relating particularly to the city of New York, into one act." There are no bonds of this character outstanding.

Authority is given to issue "Assessment Bonds" by an act passed April 16, 1852, entitled "An act to authorize the Mayor, Aldermen and Commonalty of the city of New York, to issue Assessment Bonds," and an ordinance of the Common Council, approved by the Mayor, December 30, 1854, entitled "An ordinance to authorize the issue of Bonds upon Contracts, payable by Assessments, in pursuance of the act of the Legislature, passed April 16, 1852," and the amendment of said ordinance, approved by the Mayor, October 12, 1857. The

\$1,095,700, of Assessment Bonds outstanding, as above stated, were issued in pursuance of the authority thus given.

Sec. 18 of the act, chap. 579, Laws of 1853, creating the Bureau of Arrears, also gives to the Corporation authority "to borrow, on the credit of the Corporation, from time to time, such amounts as may be required to meet the deficiencies caused by delay in collecting arrears of assessments; the aggregate amount so borrowed not to exceed, at any time, the aggregate amount of said arrears then outstanding."

TAXES.

While the Common Council are authorized and required by the Charter to make "appropriations for every branch and object of city expenditure," they have no power, under existing laws, to levy taxes; and inasmuch as nearly the entire revenues of the Corporation, except such as are derived from taxes, are pledged to the Sinking Fund for the Redemption of the City Debt, and for the payment of the interest on said debt, it becomes necessary every year to make application to the State Legislature, in order to keep in motion the wheels of the city government. The Common Council appropriate or designate amounts estimated to be required, but the moneys necessary to pay such appropriations cannot be raised without an act of the Legislature.

The necessary estimates are, under existing ordinances, required to be prepared and submitted to the Common Council by the Comptroller; the appropriations are then made, and the Comptroller is directed to apply to the Legislature for the passage of an act authorizing the raising by tax of the amount needed. Upon such application, the Legislature authorize the Board of Supervisors of the county to levy such tax, which is accordingly levied, and thereafter, from time to time, collected and deposited in the treasury, when it becomes available.

The fiscal year begins on the 1st of January; but, under the existing law, no moneys are received from the annual taxes before September or October following. Consequently, the means for paying the State taxes, which become due on the 1st of March, and for carrying on the government are, to a great extent, borrowed every year upon Revenue

Bonds; and the interest accruing thereon constitutes an important item in the annual Tax Levy.

This system of continually anticipating the revenues of the city, and depending entirely upon loans for means to pay the current expenses of the government, should be changed. It has been proposed to change the fiscal year; but the Comptroller does not consider this to be necessary or advisable, believing that the object in view can better be attained by altering the time for making and confirming the assessments or valuations of property, and collecting the taxes, than in any other way. This can be effected only by legislative action. Under the present law, the Commissioners of Taxes and Assessments are required to complete their valuation of the taxable property within the city and county, and submit the same to the Board of Supervisors, on the first Monday of July in each year. The Supervisors then fix the rate of tax necessary to produce the gross sum required, and cause the amounts to be extended—when they are transmitted to the Comptroller, to have the unpaid Croton water rents for the previous year inserted opposite the ward numbers of property on which the same may be due, and also to have the words “arrears,” or “sold,” according as the fact may be, entered opposite the ward numbers on which any arrears are due, or which may have been sold for taxes, assessments or water rents. These entries being duly made, the rolls or books are then placed in the hands of the Receiver of Taxes. The law requires that the rolls shall be delivered to the Receiver with the warrant of the Supervisors for collecting the taxes, on or before the first day of September in each year; but it is seldom that this is done until some time after that date. Last year it was late in the month of October before the tax books were delivered to the Receiver—whose business was thus crowded into a short space of time, and citizens desiring to pay their taxes were subjected to great inconvenience and delay on account of the crowd of persons constantly waiting in the Receiver’s office. In the hurry and confusion thus caused, numerous mistakes were made, both by the clerks and the owners of property, which have occasioned a great deal of trouble, and added largely to the labors of this department.

It is, therefore, recommended, that measures be taken to procure a change in the law, requiring that the valuations of property shall be completed and submitted to the Board of Supervisors as early as the 1st of February in each year, and that the tax books be duly prepared and delivered to the Receiver on or before the 1st of April thereafter. By such an arrangement more time would be given for performing the work, which is very desirable, and a much less amount of money would have to be borrowed than is now required.

The amount of taxes uncredited, and apparently due the city and county, on 1st January, 1859, was in round numbers, about as follows:

On Personal Estate,.....	\$1,744,650 00	
“ Real “	2,132,200 00	\$3,876,850 00
On arrears of Croton Water Rents, <i>i. e.</i> , rents which had accrued and become payable prior to 1st May, 1858,.....		88,000 00
		<u>\$3,964,850 00</u>

A more full account of the above is given on page 68 of this report.

The amount of regular rents for Croton Water, remaining due upon the current Water year, commencing 1st May, 1858, has not been ascertained.

Of the \$1,744,650 of Personal Taxes due, it is estimated by the Receiver of Taxes that not more than \$300,000 will ever be realized.

The taxes on Real Estate, so far as actually due, it is believed will, for the most part, ultimately be collected. The apparent amount will be reduced somewhat by the discovery of payments made and omitted to be credited; also, by remissions and various corrections of errors.

The amounts due upon regular water rents, it is estimated will also finally be collected. (All the revenues of the Corporation from this source, are pledged to the Sinking Fund for the Redemption of the City Debt.)

It is intended to have a sale for Unpaid Taxes and Water Rents, as soon as the proper accounts can be prepared, and the necessary notice given.

TAXATION OF NON-RESIDENTS.

An act was passed by the Legislature, in February, 1855, (chap. 37,) authorizing a tax to be levied on the personal estate, or capital invested by non-residents doing business in the State of New York, the same as if they were residents of the state. A separate tax-book has been made up each year since the passage of that act, containing the names of persons residing in other states, who are engaged in business in this city, and subject to the provisions of said law. The valuation of property assessed under the act referred to, the amount of tax levied thereon in each year, and the amount remaining unpaid thereon, December 31, 1858, will appear from the following statement:

YEAR.	VALUATION.	AMOUNT OF TAX.	AMOUNT UNPAID, DEC. 31, 1858.
1855.....	\$14,491,530.....	\$174,767 40.....	\$46,282 02
1856.....	18,601,265.....	257,254 70.....	78,694 85
1857.....	17,227,986.....	268,135 48.....	79,144 96
1858.....	12,034,532.....	196,200 70.....	59,320 00
		<u>\$896,358 28.....</u>	<u>\$263,441 83</u>

Some persons assessed under this law have resisted the collection of the tax levied against them. An application was made to the United States Circuit Court by Denning Duer, Esq., for an injunction against the Receiver of Taxes and others, restraining them from taking any steps for the collection of the tax imposed upon him, on the ground that the law is in violation of the Constitution of the United States, and is otherwise illegal and void. The case was recently decided in favor of the city authorities, and the application for an injunction was denied. Justice Ingersoll, in delivering his decision, said: "The property of a non-resident, within the limits of a state, whether it be real or personal, is equally protected by the law, with the property of the resident. There would appear, therefore, to be no good reason why it should not equally pay in taxes for such protection; no good reason why the non-resident, with the resident, should not give a portion, in order to secure the perfect enjoyment of the remainder."

REMISSIONS OF TAXES, &c.

By a resolution of the Common Council, passed February 25, 1856,* it is made the duty of the Comptroller to publish, in his Annual Report, the Remissions of Taxes, Assessments and Croton Water Rents made by the Common Council, and a similar resolution was passed by the Board of Supervisors, July 14, 1856.

The statement on page 69, is therefore given, showing the remissions of Taxes made by the Board of Supervisors and the Common Council for the year ending December 31, 1858, as well as several years previous.

The amount remitted in the Bureau of Receiver of Taxes in 1858,	
was.....	\$28,952 21
In the Bureau of Arrears.....	2,102 45
Total.....	<u>\$31,054 66.</u>

The taxes levied in each year are based upon specific appropriations made by the Common Council and the Board of Supervisors for city and county purposes. To the extent that the taxes are remitted or uncollected, there must be a deficiency in the means to pay such appropriations. It does not appear, however, that any measures have hitherto been taken to supply or make good the deficiencies always occurring from this cause. Such deficiency should every year be provided for in the Tax Levy for the next succeeding year.

No record has been kept in this Department of the remissions of Croton Water Rents made during the year.

The remissions made of Assessments will be stated in another part of this report.

*“ Resolved, That whenever a resolution for the Remission of any Tax, Assessment, or Rent for Croton Water is passed by the Common Council, it shall be the duty of the Clerk thereof to transmit to the Finance Department, a copy of said resolution, signed by him, for the purpose of enabling the Comptroller to adjust the account between the Corporation and the Receiver of Taxes, and Collector of Assessments, and, also, to credit the property where the same has been returned to the Clerk of Arrears; and it shall be the duty of the Comptroller to have the resolutions thus sent to him copied into a separate book, and to give a detailed statement of the remissions thus made, in his annual report; and when the resolution is copied, this fact shall be stated on it, with the sum remitted, as given in the resolution, and the original resolution shall be sent by the Comptroller to the Receiver of Taxes, the Collector of Assessments, or the Clerk of Arrears, as the case may require.”

VALUATION OF TAXABLE PROPERTY.

The statement given on page 75, of this report, shows the comparative valuation of property in each Ward of the city for the years 1857 and 1858.

The total valuation and amount of taxes for said years was as follows:

	Valuation.	Amount of Taxes.
1857.....	\$520,559,482	\$8,066,566 52
1858.....	531,194,290	8,621,091 31

INCREASE OF TAXATION.

Notwithstanding the constant yearly increase in the amount of taxable property within the city and county, there has for several years been a still larger proportionate increase in the rate of taxation; and the statement on page 76 has been prepared, for the purpose of showing, by comparison, the objects of expenditure which have caused the same. It will be seen, by reference to said statement, that the gross amount of taxes, for all purposes, for the year 1858, was

	\$8,621,091 31
And for the year 1853.....	5,069,650 05
Increase.....	\$3,551,441 26

The increase in six years thus appears to be over seventy per cent., while the increase in valuation of the taxable property for the same period is only about twenty-eight per cent.

A large portion of this great increase is composed of items over which neither of the local legislative bodies, or the Department of Finance, have any effective control in fixing the sums to be expended. The following are some of said items:

	1853.	1858.
State Tax.....	\$103,408 23	\$1,172,644 31
Common Schools for State.....	129,971 91	390,408 96
Alms-house	385,000 00	605,000 00
Board of Education for City Common Schools.....	604,000 00	1,226,013 00
	<u>\$1,222,380 14</u>	<u>\$3,394,066 27</u>

The practical operation of the State Common School law is very onerous upon this city, and takes from it large amounts every year for the benefit of the interior counties. The following statement shows the amount of taxes imposed upon and paid by this county for State Schools during the last five years, the sums apportioned therefrom to this county, and the amounts retained for distribution in other parts of the state.

YEAR.	Amount of State School Tax.	Amount of Tax Money Apportioned to City and County of New York.	Amount retained for Distribution in other Counties.
1854.....	\$257,616 11	\$95,648 06	161,968 05
1855.....	271,639 40	89,257 92	182,381 48
1856.....	383,805 37	152,345 06	231,460 31
1857.....	390,408 16	160,069 75	230,339 21
1858....	398,416 98	153,582 95	244,834 03
	\$1,701,886 82	\$650,903 74	1,050,983 08

The total amount paid during said period was..... \$1,701,885 82

And the sum apportioned to this county..... 650,903 74

Balance retained..... \$1,050,983 08

It would seem that a more equitable system would be one similar to that in respect to the support of other local institutions. Our city government has never faltered in its support of Free Schools, whether for the state at large or for the city only ; and it is to be hoped that a sense of justice will induce the Legislature to relieve us from the burden so justly complained of, by providing that each county shall support its own schools.

It will be remembered, that the revenues derived from Auction Duties in this city, which formerly belonged to the Corporation, and which were appropriated to aid in building the Erie Canal, with the full understanding that they should again revert to the Corporation, are still retained by the state; and it is recommended, that application be made at the next session of the Legislature for the restoration of those revenues to the City Treasury.

In this connection it may be interesting as well as useful to show the whole amount of the taxes raised for support of the State Government, including the enlargement of the canals and the proportion thereof, levied upon and paid by the city and county of New York during the last six years.

Valuation of taxable property in the State of New York, and amount of taxes raised yearly for all State purposes except for common schools; also, valuation of property within the city and county of New York, and the yearly amount of State Taxes (except for State Common schools) assessed against said city and county.

State at large.			City and County of New York.	
YEAR.	VALUATION.	AMOUNT OF TAX.	VALUATION.	AMOUNT OF TAX.

It is confidently believed that a just and proper equalization in the valuation of property throughout the state, would operate favorably to the inhabitants of the city and county of New York, and reduce the proportion of taxation for state purposes, to which they have heretofore for many years been subjected. The act passed at the last session of the Legislature, (chapter 312,) entitled "An act to equalize the State Tax among the several counties of this State," will, it is hoped, accomplish the desired purpose.

ASSESSMENTS.

During the last few years, the progress of public as well as private improvement in our city has been very remarkable—new streets, avenues, and parks, have been opened and improved, and public buildings have been erected in every section of the city.

The expenses of opening, grading, and paving streets and avenues, constructing sewers, flagging sidewalks, &c., are, except in a few cases,

provided for by an assessment upon the property in the vicinity supposed to be benefited by such improvements.

Formerly, all contracts made for executing these works, were upon the express condition embodied therein, that payments should be made by the Corporation, as the assessments were collected from the property owners; the contractor to be allowed the interest accruing and collected thereon. This manner of payment oftentimes obliged the contractor to wait longer than was convenient for him; the assessments, in some cases, not being fully collected before two or three years—a fact that was known and taken into the account, in making his estimate and bid for the work. In order to remedy this, and to open the way for a more extensive competition among contractors, an act of the Legislature was procured in 1852, (chap. 397), in pursuance of which, the Common Council passed an ordinance, October 17, 1852, to anticipate the collection of assessments for street and other improvements, by the issue of "Assessment Bonds," in a manner similar to that in which the annual taxes are authorized to be anticipated, by the issue of revenue bonds; and it was made the duty of the Comptroller to pay eighty-five per cent. upon each job, on the completion of the same, and to reserve the remaining fifteen per cent. until the confirmation by the Common Council of the assessments levied to pay for the work. A subsequent ordinance, (passed December 30, 1854), authorized advances to be made to the extent of seventy per cent. on all contracts amounting to over \$10,000, as the work progressed, for which interest should be charged; the money to be provided by issuing assessment bonds, the assessments, in both cases, being pledged for the payment of said bonds.

The amount of assessments uncredited upon the books of the Bureau of Arrears, and the Bureau of Collection of Assessments, and apparently due to the Corporation, on 1st January 1859, was as follows:

On account of the "Assessment Fund," being assessments for opening streets, avenues, and public parks:

In the Bureau of Arrears.....	\$313,516 77
In the Bureau of Collection of Assessments.....	646,109 60
Total.....	<u>\$ 959,626 37</u>

On account of the "Street Improvement Fund," comprising all assessments for grading, paving, curb and guttering streets, flagging sidewalks, constructing sewers, fencing vacant lots, filling sunken lots, &c., &c.:

In the Bureau of Arrears.....	\$828,482 22
In the Bureau of Collection of Assessments.....	394,636 83
Total.....	<u>\$1,223,119 05</u>

RECAPITULATION.

WHAT FUNDS.	IN BUREAU OF ARREARS.	IN BUREAU OF COLLECTION OF ASSESSMENTS.	TOTAL.
Assessment Fund.....	\$313,516 77	\$646,109 60	\$959,626 37
Street Improvement Fund..	828,482 22	394,636 83	1,223,119 05
Totals.....	1,141,998 99	1,040,746 43	2,182,745 42

The communications heretofore made by the Comptroller to the Common Council (Board of Aldermen, Doc. No. 17, 1859, and Board of Councilmen, Doc. No. 5, same year), contain full lists of all the "openings" and "improvements" embraced in the above accounts, with the amounts due on each.

It is known that there is an apparent deficiency, amounting to a large sum, in the accounts of several of the former officers of the Bureau of Collection of Assessments. By an arrangement between Comptroller Flagg and the Street Department, an investigation of the books and accounts of said bureau was undertaken last year, under the immediate direction of the Street Commissioner, the result of which was reported by him to the Mayor, who communicated the same to the Common Council on 24th February, 1859. (See Board of Aldermen, Doc. No. 14.) The examination made embraced the period during which Mr. Isaac Edwards, and his deputies Samuel Allen, Robert McKinnin, Julius Johnson and Robert McGary were in office, say from January, 1853, to January, 1856.

A settlement has since been made by the Comptroller with these parties upon equitable and satisfactory terms. Instead of being defaulters to the Corporation, as had been erroneously charged, it was found that, including the fees to which they were entitled upon their collections and returns to the Bureau of Arrears, a considerable balance was actually due them, which has been paid; they having given bonds with security to make good any items which may hereafter be found to have been collected by them, and not duly accounted for.

Upon the retirement from office of Mr. Edwards and his deputies, they were succeeded by Joseph R. Taylor, who was appointed collector, and Ira A. Libby, Walter Oakley and Horatio N. Sherwood, deputies, all of whom continued in office until about May, 1858, when they were severally removed, and their accounts remain unsettled.

Under the provisions of an act of the Legislature, passed April 17, 1858, entitled an "Act in relation to Frauds in Assessments for local improvements in the city of New York," proceedings have been instituted for vacating several assessments on account of alleged frauds and irregularities therein. Said law provides that any lands which may be discharged from assessment liens, may be again assessed for such amount as would have been justly chargeable if fraud or irregularity had not been committed. It is therefore hoped that no serious losses will be sustained from this cause. Some amendments of the law, it is thought, may be required in order to render the same fully effective.

It has been ascertained that a number of the contracts upon which payments have been made were upon irregular certificates of the surveyors, the same covering work not originally contracted for, and in some cases a much greater quantity than subsequent examinations and the final returns of the surveyor on the work warranted. In such cases the excess of payments cannot be included in the assessment to be made upon the property benefited by the improvement, but must ultimately be provided for by taxation.

It is proposed to have a sale for Unpaid Assessments as soon as convenient, after a sale has been held for Taxes and Croton Water Rents.

REMISSIONS OF ASSESSMENTS.

It is found, on inquiry, that various remissions of assessments were made during the year 1858 and previously, but no record of the same has been kept in this Department; and it would appear that the resolution of the Common Council, of February 25, 1856, making the Comptroller the medium of communicating all orders to the Collector of Assessments and Clerk of Arrcars, in respect to such remissions, has been entirely overlooked. The amount, therefore, of such remissions cannot now be stated.

Assessments being always levied for the exact amount of the cost of the particular works, it follows, of course, that any remissions made must cause a corresponding deficiency in the means to meet such cost. But no provision has ever been made for reimbursing the trust funds for the deficiencies thus occasioned. The existing laws and ordinances require that all the trust and special accounts shall be kept, by both the Comptroller and the Chamberlain, entirely separate and distinct from all other accounts in their books. The Tax Law passed each year contains this clause: "No portion of the said respective sums hereinbefore named shall be expended or applied to any purpose or object, other than the objects and purposes respectively, for which the Board of Supervisors of said city and county of New York, are hereinbefore empowered to raise the same, as aforesaid."

It will thus be seen that the moneys raised by tax cannot lawfully be applied or used for the purpose of making payments on the Trust and Special Accounts; neither can the moneys received upon assessments for works, the cost of which is to be defrayed thereby, properly be applied to any other purpose. In like manner the proceeds of the various issues of stocks are required, by express provisions of the laws and ordinances under which they are issued, to be used only for the purposes and objects for which they were authorized to be created.

In practice, these wholesome and wise provisions appear to have been entirely disregarded; and to this cause, principally, is to be attributed the confusion and disorder found to exist in the financial accounts of the Corporation.

CENTRAL PARK.

COST OF LANDS.—The cost of the lands taken for this Park, under the provisions of the original law and the act authorizing the purchase of the Arsenal property, was.....\$5,406,178 89
As follows, viz:

Awards for damages.....	\$5,073,428 70	
Expenses of the Commissioners in surveying and laying out the same, as taxed by the Supreme Court	54,345 10	
Amount paid to the State of New York for the Arsenal buildings and grounds connected therewith.....	275,000 00	
Sundry incidental expenses and charges for advertising, taking acknowledgments of releases, recording deeds, &c.	3,405 09	\$5,406,178 89

MEANS OF PAYMENT.—The means of paying for the lands taken for the Central Park, provided by various laws and ordinances, were as follows, to wit:

1. An assessment upon lands contiguous to the Park, deemed benefited thereby, amounting to	\$1,661,395 00	
Less for collector's fees included.....	3,000 00	\$1,658,395 00

2. Authority was given to the Corporation to create a "Central Park Fund Stock," redeemable from the Sinking Fund of the city, in not exceeding forty-five years, with interest at 5 per cent. per annum, payable from Taxation. In pursuance of this provision of the original law, and an ordinance of the Common Council, approved February 29, 1856, there had been issued prior to December 31, 1858, of stock redeemable July 1, 1898, the sum of.....	400,200 00	
--	------------	--

Carried forward..... \$2,058,595 00

Brought forward.....	\$2,058,595 00
3. By an act passed Februry 13, 1857, authority was given to increase the rate of interest on the Central Park Fund Stock, thereafter to be issued, to 6 per cent. per annum. Under this amendment of the original law there was issued prior to December 31, 1858, as follows, viz :	
Six per cent. stock redeemable July 1st, 1887.....	2,382,900 00
Do. do. do. July 1st, 1898 (for the Arsenal purchase)	275,000 00
Total.....	<u>\$4,716,495 00</u>

Under existing laws and ordinances, such further issue of this stock as may be necessary to complete the payments for the Park are authorized to be made.

SETTLEMENT OF AWARDS.—The total number of awards for damages was eighteen hundred and fifty-three, and the amount awarded was

	\$5,073,428 70
The number of awards settled prior to Dec. 31, was seventeen hundred and ninety-eight, and the amount paid thereon.....	\$5,192,673 76
Less interest allowed on same.....	166,147 67 5,026,526 09
Leaving fifty-five awards unpaid, amounting to	<u>\$46,902 61</u>

In addition to the above, the amount of fraudulent payments said to have been made by J. B. Smith, and which are charged to the account, is \$2,898 84. There was also overpaid on several awards, through error, and not collected, the sum of \$211 87. These two items should, in some way, be provided for.

The amended act, passed February 13, 1857, provides, that the interest accrued and to accrue on the several awards, shall be raised by tax; and the Board of Supervisors will, therefore, be requested to include the same in the levy for the present year.

ASSESSMENTS FOR BENEFITS.—The whole amount of the assessments, including the sum of \$3,000 on account of the costs of collecting the same, as above stated, was.....\$1,661,395 00
Of this sum, there had been deposited with the Chamberlain, of collections made in the Bureau of Collection of Assessments, exclusive of interest, the sum of..... 1,057,237 40

Showing a balance apparently due on same, December 31, 1858, of..... \$604,157 60

According to a statement furnished by the Street Department, giving an account of "all uncredited balances apparently due the city upon assessment lists chargeable to Daniel E. Delavan, Collector, on 1st January, 1859," the amount then due on this account was as follows, viz:

Southwest Division.....	\$135,506 93	
Southeast do	102,132 70	
Northeast and Northwest do.....	263,294 97	500,934 60
Apparent deficiency.....	\$103,223 00	

This will be increased by a remission, made by the Common Council, of the assessment against the Reformed Dutch Church, Bloomingdale, on account of the park, amounting to \$1,144.

In addition to the above, it is known, as previously stated, that considerable amounts have been collected (the receipts of the collectors therefor having been exhibited,) which were not credited upon the books in the collector's office, and which will much reduce the sum yet to be received from that source.

In order to provide for the payment of the awards for damages, the collection of the assessments for benefits was anticipated by an issue of "Central Park Assessment Fund Stock," to the amount of \$1,600,000, redeemable on the 5th February, 1859, which was duly paid at maturity.

COLLECTORS' FEES.—Under the existing ordinances, the fees allowed the Collectors of Assessments are two and one-half per cent. on all col-

lections made, and upon such items as shall, after two separate demands, remain unpaid, and be returned to the Bureau of Arrears, accompanied by due proof of such demands for payment, two per cent. is allowed. The cost of collecting the assessments for the opening of Central Park, according to these rates, would amount to about \$40,000, which will reduce the proceeds of said assessments to that extent, less the \$3,000 originally estimated, and render it necessary to increase the amount of Central Park Fund Stock, to be issued—or, in case this cannot legally be done, to make other provision therefor.

It is proper to remark, that the late Collectors of Assessments (Mr. Taylor and his deputies) are understood to claim fees upon the whole amount of assessment lists placed in their hands during their term of office, including the Central Park list, whether collected or duly returned to the Bureau of Arrears by them, or by their successors. The latter having actually been paid such fees upon their collections and returns, it follows that, in case said claim, or any portion of it, is allowed, some provision must be made for the amount.

IMPROVEMENT OF THE PARK.—Under the act passed April 17, 1857, entitled "An act for the regulation and government of the Central Park, in the city of New York," the Mayor, Aldermen and Commonalty of the city were required, from time to time, to create and issue a public fund or stock, to be denominated "The Central Park Improvement Fund," in such sums of money as should be required by the Board of Commissioners of said Park, for the purpose of regulating and improving the same; but no plan for laying out and improving the same was authorized to be adopted or undertaken, of which the entire expense, when funded, should require for the payment of the annual interest thereon a greater sum than \$100,000 per annum. The stock thus created was to be redeemable in thirty years, from the Sinking Fund for Redemption of the City Debt, and the Park was specifically pledged to secure such redemption, the interest thereon to be paid from taxation.

The amount of said stock, issued previous to 1st January, 1859, was \$650,000, on account of which there had been deposited to the credit of

the Commissioners the sum of \$600,000, leaving a balance in the treasury of \$50,000, which has since been paid over.

PROPOSED ADDITION TO THE PARK.—By the act chap. 101, Laws of 1859, authority was given to the Board of Commissioners of the Central Park, in behalf of the Corporation of the city, to acquire title and add to the Park, the land lying between One hundred and sixth street on the south, One hundred and tenth street on the north, Fifth avenue on the east, and Eighth avenue on the west—the cost to be defrayed by an assessment for benefits and the creation of a stock, bearing six per cent. interest, to be known as “The Central Park Additional Fund,” the principal being redeemable in not exceeding forty-five years, from the Sinking Fund for Redemption of the City Debt, and the interest to be provided for annually by taxation.

The increase in the amount of taxes accruing to the city in consequence of the enhancement in value of real estate situated in the upper part of the island, over and above the former value of the land now withdrawn from taxation, on account of the opening of this noble park, will, it is thought, afford more than sufficient means for the payment of interest on the debt incurred for its purchase and improvement, without any increase in the general rate of taxation.*

DOCKS AND PIERS.

The cost of constructing these necessary works for the accommodation of the commerce of the city, including repairs and renewals, involves a large outlay, which is provided for by the annual tax levy; all the revenues derived from rents thereof being devoted to the Sinking Fund for the Redemption of the City Debt.

* The following statement exhibits the comparative valuation of real estate in the three wards particularly affected:

WARD.	VALUATION IN 1855.	VALUATION, 1859.	INCREASE.
Twelfth.....	\$8,462,635	\$10,026,725	\$1,564,090
Nineteenth.....	9,382,686	12,621,894	3,239,008
Twenty-second.....	10,593,139	13,261,025	2,667,886
	<u>\$28,438,660</u>	<u>\$35,909,644</u>	<u>\$7,470,984</u>

The amount appropriated and raised for these purposes, in 1857, was \$175,000; and in 1858, \$150,000; and there remained unexpended at the close of the last fiscal year, the sum of \$167,753 07. Owing to the neglect on the part of the Corporation to keep in proper repair, and also to delays in dredging slips and rebuilding certain piers, &c., the Comptroller was compelled, in many instances, to make large allowances to lessees for repairs made by them, and for damages occasioned by such delays, &c.

The total amount of such allowances, made during the year ending December 31, 1858, was \$40,543 91; and the revenues of the Sinking Fund were consequently reduced to that extent, from what they would have been but for the causes stated; and there can be no doubt that this loss would have been prevented by a timely and judicious expenditure of a much smaller sum.

STATE OF THE ACCOUNTS.

The condition of the books and accounts on the 1st of January, 1859, was very unsatisfactory. After considerable delay, a BALANCE SHEET of the General Ledger was prepared, (see p. 38,) which purported to exhibit the general financial condition of the Corporation at that time. In consequence of the large accumulation of claims requiring attention, and the confusion occasioned by the removal and separation of the several bureaux of the Department while the alterations are being made in the building to be occupied, and various other causes, a very thorough examination of the old books has thus far been prevented.

A new set of books was procured and opened on the 1st of January last, and such balances on the old books as have been investigated and found to be correct have been duly transferred. The plan adopted is, to enter in the Journal to the new General Ledger, to the credit of an account entitled "*Old Books*," all items of assets of the Corporation; and to debit the same account all liabilities ascertained and brought forward. In this way, whatever deficiency may exist, will ultimately appear by the balance to the debit of "*Old Books*" account. No reliable estimate can be made at this time of the extent of the deficiency, sup-

posed to exist, in the amount of assets to meet the liabilities of the Corporation.

The work of investigating the accounts will be prosecuted as fast as possible, and the results will, from time to time, be communicated to the Common Council.

Respectfully submitted.

ROBT. T. HAWS,
Comptroller.

Total, *\$5,277,555 31

* In addition to these assets, and the annual revenues by law appropriated to this Fund, the REAL ESTATE belonging to the Corporation, estimated as worth, (exclusive of the Croton Aqueduct and Reservoir,) more than thirty millions of dollars; also, the Bonds and Mortgages received for sales of Real Estate, &c., amounting to \$661,989 78, are all pledged for the redemption of the City Debt.

Chapter 406, Laws of 1859.

AN ACT

TO AMEND AN ACT ENTITLED "AN ACT CREATING A PUBLIC FUND OR STOCK IN THE CITY OF NEW YORK, TO BE CALLED THE CROTON WATER STOCK, AND IN RELATION TO THE SINKING FUND OF SAID CITY," PASSED MAY THIRTEENTH, EIGHTEEN HUNDRED AND FORTY-FIVE.

Passed April sixteenth, Eighteen hundred and fifty-nine; three-fifths being present.

Whereas, The revenues set apart by and mentioned in title two of an ordinance of the Mayor, Aldermen and Commonalty of the city of New York, entitled "An Ordinance providing for the Redemption of the City Debt, and the payment of the interest thereon," passed February twenty-second, eighteen hundred and forty-four, being the revenues pledged and appropriated to the payment of the interest upon the said city debt, have accumulated after the payment of all interest provided for in said ordinance, to be paid on said debt, and chargeable to said sinking fund, for the payment of the interest on said debt, so that on the first day of January, eighteen hundred and fifty-nine, they amounted to the aggregate sum of two millions five hundred and seventy-nine thousand five hundred and thirty-four dollars and twelve cents;

And, whereas, There is no object to which said sum, and the accumulations which may hereafter arise from said revenues can be applied, as no power exists by which the Commissioners of the Sinking Fund, mentioned in said ordinance, can invest said moneys permanently ;

And, whereas, It is desirable that said surplus and the accumulations which may hereafter arise from said revenues, after the payment of all interest on said debt, should be transferred to the Sinking Fund for the Redemption of the City Debt, provided for in said ordinance; therefore,

The People of the State of New York, represented in Senate and Assembly, do enact as follows :

§ 1. The Commissioners of the Sinking Fund of the city of New York, mentioned in the ordinance of the Mayor, Aldermen and Com-

monalty of said city, passed February twenty-second, eighteen hundred and forty-four, are hereby authorized and empowered to transfer the sum of two millions five hundred and seventy-nine thousand five hundred and thirty-four dollars and twelve cents (being the surplus on the first day of January, eighteen hundred and fifty-nine, over and above a sufficiency to pay the interest accrued to that date), from the Sinking Fund for the Redemption of the City Debt of the said city of New York, and to invest the same in the manner authorized by law and ordinance in relation to said last-mentioned Sinking Fund.

§ 2. On the last day of December, in each and every year, the surplus then existing in the Sinking Fund for the Payment of Interest on the said City Debt, after the payment of the interest which may have accrued during the year, chargeable to or payable out of the said fund, shall be transferred to the Sinking Fund for the Redemption of the City Debt of said city; and the Commissioners of the Sinking Fund of said city are hereby authorized and required to invest the surplus, so transferred, in the same manner as now provided by law in respect to the revenues pledged to the Sinking Fund for the Redemption of the Debt of said city.

§ 3. This act shall take effect immediately.

LIST OF SUCCESSIVE COMMISSIONERS OF THE SINKING FUND of the City of New York, for the Redemption of the City Debt, established by an ordinance of the Common Council, approved August 9, 1813, in pursuance of an Act of the State Legislature, passed June 8, 1812.

The annexed statement of the General Book-keeper, shows the number and amount of warrants drawn and registered during the first six months of the year; and also the number and amount of warrants paid and returned by the Chamberlain, including those drawn prior to the 1st of January last.

Respectfully submitted,

ROBT. T. HAWS, *Comptroller.*

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
July 25, 1859.

HON. ROBERT T. HAWS, *Comptroller*:

SIR:—In compliance with your request, I have the honor to state, that according to the register of warrants drawn, kept by me, the whole number of city warrants executed and registered, from the 3d of January to the 30th June, inclusive, was 5,597, amounting to \$8,962,387 72*

* The total amount of warrants drawn on the Chamberlain, as above, is.....	\$8,962,387 72
The amount of disbursements, according to the Auditor's reports, is as follows, viz:	
First Quarter, ending March 31.....	\$3,815,026 79
Second " " June 30.....	5,130,055 82
	<hr/>
	\$8,945,112 61
Difference.....	<hr/>
	\$17,275 11

This difference is composed of the following items, viz:

" A," Warrant No. 38.....	\$7,347 00	
" " " 1219.....	8,053 13	\$15,400 13

These were issued through mistake, in settlement of claims payable from the County Treasury, and the amounts have since been refunded, by County Warrants, which have been credited to the proper accounts.

The following warrants were duly executed by the Comptroller, and registered, but not being countersigned by the Mayor and Clerk, have not been included in the Auditor's reports, viz:

A, No. 466.....	\$533 33	
" 885	416 66	
" 1733	416 66	
" 4260	208 33	\$1,874 98
	<hr/>	
		\$17,275 11

H. P. B.

Of these there had been presented to, and
 duly paid by the Chamberlain, and by
 him returned, 4,986, amounting to..... \$8,516,363 01
 Leaving unpaid 611, amounting to..... \$446,024 71

Some of these not having been called for, are still in
 the hands of the Auditor.

The whole number of city warrants paid by the Cham-
 berlain, and returned, with his weekly accounts to this
 office, is 5,181, amounting to..... \$8,573,388 20
 Of which 195 were drawn prior to the 1st
 of January, 1859, and amounted to..... 57,025 19
 Leaving 4,986 of those drawn and paid dur-
 ing the present year, and amounting, as
 above stated, to \$8,516,363 01

Very respectfully,

(Signed,)

H. P. BOSTWICK,

Gen'l Book-keeper.

ANNUAL REPORT
OF THE
CITY INSPECTOR
OF THE
CITY OF NEW YORK,
FOR THE
YEAR ENDING DECEMBER 31, 1858.

NEW YORK:
CHAS. W. BAKER, PRINTER, 29 BEEKMAN STREET.
1859.

DOCUMENT No. 31.

BOARD OF ALDERMEN,

AUGUST 1, 1859.

The following Annual Report of the late City Inspector, for the year 1858, was received from Daniel E. Delavan, City Inspector, laid on the table, and ordered to be printed.

D. T. VALENTINE, *Clerk.*

CITY INSPECTOR'S DEPARTMENT,
New York, August 1, 1859.

*To the Hon. the Common Council
of the city of New York:*

GENTLEMEN:—I find in this department the Annual Report of the former City Inspector, for the year 1858, and respectfully offer the same to your Honorable Body for adoption.

Very respectfully,
your obedient servant,
DANIEL E. DELAVAN,
City Inspector.

The subjects in this report, exhibited in tabular form, (both summary and detail,) of matters pertaining to this office, are presented in the following order, viz:

A General Summary, showing the total number of deaths reported to this department, divided into white and colored persons, males and females, adults and children, with the number of Still-born and Premature Births, Malformations, Old Age, Casualties, Suicides, &c., during the year.

EXPLANATION OF THE ABBREVIATIONS USED IN THE FOREGOING ATMOSPHERIC TABLES.

C. clear; when there are but few clouds and the sun unobscured. Cy. cloudy; when the sun is obscured and the sky mostly filled with clouds.
 C. Cy.; when the sun is unobscured most of the time, but a large part of the sky clouded. V. variable; fleeting clouds, sun occasionally obscured.
 F. fog. R. rain. St. storm. S. snow. N. north. S. south. E. east. W. west. T. S. thunder storm.

REMARKS UPON THE WEATHER OF VARIOUS SEASONS AND MONTHS
OF THE YEAR 1858.

THE weather of January was warmer than usual. There was no day during all of which the temperature was freezing; and only three days upon which the mercury in the thermometer ranged below 32° Far. at sun-rise. Rain fell in abundance, but snow scantily.

February was the coldest month of the year, as well as of the winter of 1857 and 1858; the lowest temperature was 8° F. February and March were noted for strong westerly winds, although the latter month was not as cold as in former years. All the winter months of 1858 were warmer than usual, excepting February. The weather of May was quite as changeable as that of April; it was damper than usual; one-third of the month was rainy, and the amount of rain which fell upon a level, $7\frac{1}{2}$ inches, was greater than in any other month of the year. Vegetation commenced in good time, and was not interrupted by drought during the season. The weather of June was warmer and damper than usual, and embraced the hottest day, and the highest temperature of the summer; the early part of July had the same kind of weather as June; but the latter part of the month, as well as the whole of August, and indeed of most of the season, was comparatively cool and variable. September was a pleasant month generally, although the temperature (90°) was higher than in August, and 38° lower than in October, or than it had been noticed in September, in this city, in 50 years.

The weather of October was very fine and dry.

The mean temperature of November and December were about the same; consequently, the former was cooler and the latter warmer than ordinary; both of these were also damper, and had more rain than the preceding two months.

The following mean readings for the year, having been omitted in the summary, are now supplied in conclusion:

DOCUMENT No. 32.

BOARD OF ALDERMEN,

OCTOBER 6, 1859.

The following communication from the Comptroller, transmitting a detailed list of all accounts against the Corporation, audited and paid during the quarter ending September 30, 1859; also a statement of appropriations unexpended, was received, laid on the table, and ordered to be printed.

D. T. VALENTINE, *Clerk.*

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, Oct. 6, 1859.

Gentlemen of the Common Council:

I have the honor to transmit herewith the usual Quarterly Report, prepared by the Auditor of Accounts, of all claims against the Corporation, audited and paid during the third quarter of the fiscal year, ending Sept. 30, amounting to \$4,806,423 01.

The expenditures under the several heads of account during the first, second and third quarters of the year respectively, and the total amount will appear by the statement appended hereto, of which the following is a summary:

ON CITY ACCOUNTS.

First quarter, ending	March 31..	\$768,324 55	
Second	" June 30..	2,424,810 80	
Third	" Sept. 30..	1,546,115 38	
			<u>\$4,739,250 73</u>

REVENUE BONDS OF 1858.

First quarter end'g	March 31..	\$1,038,000 00	
Second	" June 30..	2,042,300 00	
Third	" Sept. 30..	1,288,400 00	
			<u>4,368,700 00</u>

TRUST ACCOUNTS.

First quarter end'g	March 31..	\$1,812,397 69	
Second	" June 30..	201,204 24	
Third	" Sept. 30..	1,354,596 20	
			<u>\$3,368,198 13</u>

SPECIAL ACCOUNTS.

First quarter end'g	March 31.	\$196,304 55	
Second	" June 30..	461,770 78	
Third	" Sept. 30..	617,311 43	
			<u>\$1,275,386 76</u>

TOTAL EXPENDITURES.

First quarter end'g	March 31..	\$3,815,026 79	
Second	" June 30..	5,130,085 82	
Third	" Sept. 30..	4,806,423 01	
			<u>\$13,751,535 62</u>

APPROPRIATIONS.

The amount of appropriations made in previous years remaining unexpended on December 31, 1858, (as assumed) was... \$988,805 66

The amount appropriated for the support of the city government, and payment of interest on Revenue Bonds, Central Park and other stocks, &c., included in the taxes for 1859, as finally fixed and levied by the resolutions adopted by the Hon. the Board of Supervisors, on Sept. 6, 1859, as per tabular statement hereto annexed 6,546,034 11

Amount received from State

Treasurer for apportionm't

of school money,.....	207,332 95	6,753,376 06
		<hr/> \$7,742,172 72

The amount of expenditures on city account to Sept. 30, 1859, as per annexed tabular statement.....	4,739,250 73
	<hr/>

Amount remaining unexpended September 30, 1859	<u>\$3,002,921 99</u>
--	-----------------------

WARRANTS OUTSTANDING.

The amount of warrants executed during the first nine months of the present year, and not presented to the Chamberlain for payment, prior to Sept. 30, as per accompanying statement of the general book-keeper, was \$314,157 10.

Some of these not having been delivered, are still in the hands of the Auditor of Accounts, waiting the call of persons in whose favor they are drawn.

Of the warrants executed and issued prior to 1st January, 1859, no reliable record has been found. The number and amount presented to, and paid by, the Chamberlain monthly, as per his returns to this office since the 1st Jan'y last, is as follows:

Month.	Number.	Amount.
January.....	148	\$43,448 60
February.....	18	1,253 69
March.....	5	1,531 35
April.....	8	3,002 42
May.....	7	2,638 86
June.....	7	4,150 27
July.....	0
August.....	0
September.....	0
Total.....	193	<u>\$56,025 19</u>

Of the above, the following shows the years in which they were executed, and the number and amount for each year:

Year.	Number.	Amount.
1853.....	2	\$16 69
1854.....	9	35 87
1855.....	37	135 18
1856.....	54	2,788 08
1857.....	15	379 50
1858.....	76	52,669 87
Total.....	193	<u>\$56,025 19</u>

Respectfully submitted,

ROBT. T. HAWS, *Comptroller.*

STATEMENT OF WARRANTS DRAWN UPON THE CHAMBERLAIN.

	Drawn in 1859.		Drawn Prior to January 1, 1859.	
	No.	Amount.	No.	Amount.

DOCUMENT No. 33.

BOARD OF ALDERMEN,

OCTOBER 10, 1859.

The following communication from the Street Commissioner, in connection with the quarterly report of the business of his department for the three months ending September 30, 1859, was received, laid on the table and directed to be printed.

D. T. VALENTINE, *Clerk.*

STREET DEPARTMENT,
STREET COMMISSIONER'S OFFICE,
New York, Oct. 10, 1859.

To the Honorable the Common Council:

In compliance with section 29 of the charter of 1857, which requires that "every head of department shall report, in writing, to the Common Council, quarterly, the state of his department, with such suggestions in relation to the improvement thereof, and to the public business connected therewith, as he may deem advisable," I have to submit detailed statements, taken from the books of my office, and marked Schedules A and B, and reports from the heads of the different bureaux, marked Appendices A to H, enclosed herewith, for full exhibit of the public business transacted under this department since the 30th June last,

Schedule A shows the amount of requisitions drawn by me upon the Comptroller on each appropriation for the three months ending September 30th, the total amount of which is three hundred and forty-three thousand five hundred and twenty-five dollars and one cent (\$343,525 01); the amount of requisitions drawn by me upon the Comptroller on each appropriation for the preceding six months, the total amount of which is six hundred and thirty-six thousand seven hundred and eighty-four dollars and sixty-four cents (\$636,784 64); and the aggregate for the nine months ending September 30th, viz: nine hundred and eighty thousand three hundred and nine dollars and sixty-five cents (\$980,309 65.)

Although by this statement there appear to be considerable balances to the credit of most of the appropriations, it must be borne in mind that this statement embraces merely the amount of requisitions drawn upon the Comptroller, and that in the case of several appropriations, the amounts of outstanding bills, and contracts in progress are nearly sufficient to absorb the whole balance. Among such are the appropriations for the Fire Department, public buildings construction, &c., fuel, furniture, &c., and stationery, concerning which communications and recommendations have recently been made to your Honorable Bodies, by me.

Schedule B, (Book-keeper's statement) shows the amount of appropriation drawn on account of each office or work, the amount of each assessment list delivered to the Collector of Assessments, and the amount returned to the Bureau of Arrears.

The Superintendent of Street Improvements furnishes in his report a detailed statement of all vouchers drawn

by him during the quarter, amounting to twenty-eight thousand two hundred and three dollars and fourteen cents (\$28,203 14) of all assessment lists received, bids opened, contracts signed, and final payments made, and makes suggestions of great importance. See Appendix A.

The Superintendent of Wharves, (see Appendix B,) reports the work performed in his bureau and vouchers drawn, amounting to twenty-one thousand eight hundred and thirty-six dollars and seventy-two cents (\$21,836 72.)

The Superintendent of Roads, reports as above—Vouchers drawn since January 1st, fifty-one thousand eight hundred and forty-five dollars and forty-five cents \$51,845 45). See Appendix C.

The Superintendent of Lands and Places, (see Appendix D), reports on the condition of the various parks under his supervision, and the amount of vouchers drawn for expenses incurred, viz: for Lands and Places since last report, four thousand two hundred and one dollars and forty-two cents (\$4,201 42;) for Tompkins square, two thousand eight hundred and six dollars and eighty-seven cents (\$2,806 87).

The Superintendent of Lamps and Gas, (see Appendix E,) reports the business transacted in his bureau and amount of vouchers drawn, one hundred and four thousand one hundred and ninety-six dollars and seventy-eight cents (\$104,196 78.)

The Superintendent of Repairs and Supplies reports the business of his bureau, and amount of vouchers drawn, thirty-eight thousand nine hundred and ninety-four dollars and twenty-four cents (\$38,994 24.) See Appendix F.

The Deputy Superintendent of Repairs and Supplies, furnishes statement in detail of the amount of supplies obtained for, and repairs done to, each Corporation office, and reports having drawn vouchers in payment therefor, to the amount of thirty-four thousand two hundred and seventy-eight dollars and forty-three cents (\$34,278 43.) See Appendix G.

I have received no quarterly report from the Chief Engineer of the Fire Department. A copy of a communication from him, dated 17th ult., describing the condition of his bureau, was transmitted to the Common Council on the 19th ult.

The Collector of Assessments (see Appendix H.) reports that he has received for collection, since his last report, one hundred and ninety-two thousand four hundred and eighty-two dollars and twenty-eight cents (\$192,482 28); that he has collected and paid over to the City Chamberlain, nine hundred and sixty-nine thousand and ninety-seven dollars and sixty-six cents (\$969,097 66); that he has returned to the Bureau of Arrears uncollected three hundred and fifty-one thousand three hundred and sixty-seven dollars and ten cents (\$351,367 10); and that there now remain in his hands assessment lists to the amount of eight hundred and forty-two thousand nine hundred and fifty dollars and nineteen cents (\$842,950 19).

Since my last report to your Honorable Bodies, the assessments for Bowery extension and Central Park opening have been returned to the Bureau of Arrears, closing the unfinished business which was found in this bureau on the assumption of the duties of his office by my predecessor. The present condition of affairs, in this portion of

my department, is a source of great satisfaction to me, and I take pleasure in calling your attention to it. There is now not a single assessment list in the office which has remained there beyond the time prescribed by ordinance.

For list of inspectors of contract work, employed in this department on the 30th of September, see Appendix marked I.

Your attention is again urgently solicited to the important subject of making appropriations for the year in such manner that departments shall not be put to the necessity of coming to a dead stop, or of violating the charter.

For nearly four months, at the commencement of every year, for seven-eighths of the public business, there is no legal power to incur any expenditure. I know of no remedy but a change in the fiscal year, in accordance with my former recommendations. Provision should also be made in case of appropriations exhausted previous to the expiration of the year for which they were made. These changes are necessary to prevent utter disorganization of the public business.

I would again ask that appropriations be made more definite—a certain sum for a certain purpose, and that the amount so appropriated be exclusively under the control of the department having charge of the work.

Respectfully submitted,

G. W. SMITH,

Street Commissioner.

SCHEDULE A.

TAX LEVY.

STATEMENT showing the amount of each Appropriation for the year 1859, for the Board of Councilmen of 1858; amount included in the Tax Levy, as it passed Street Commissioner, on each Appropriation and Account.

APPROPRIATIONS APPERTAINING TO THE

	Re-appropriations.	Amount asked by St. Comm'r.

	\$197,068 20	\$1,321,070 00

Appropriations not appertaining to the Street Department, exclusively, upon which Requisitions have been drawn by the Street Commissioner:

Arrearages.....	
Charges on Arrears of Assessments.....	
City Inspector's Department.....	
Carried forward.....	

* This amount was passed by the Board of Councilmen as a "General Appropriation" for the Deputy Superintendent of Repairs and Supplies, (in addition to \$230,000, under eight distinct heads,) which, together with \$36,000 passed by the same Board, as "General Appropriations, for seven distinct Bureaux, (in addition to sums for special objects, may be considered the amount asked for by this department, as the proper one to be included under the title "Contingencies, Street Department."

† In the late Comptroller's last report, this balance was stated to be on hand, and was included in the re-appropriations. The original Appropriation has since been discovered to have been exhausted, and the re-appropriation void.

‡ This amount was passed by the Board of Councilmen under seven distinct heads, for work coming under the Bureau of Street Improvements. § Asked for of Committee on Finance.

APPENDIX A.

Superintendent Street Improvements—Copy of Quarterly Report, to Sept. 30th, 1859.

STREET DEPARTMENT—BUREAU OF STREET IMPROVEMENTS,
New York, October 5, 1859.

G. W. SMITH, Esq.,

Street Commissioner:

SIR—I herewith transmit the quarterly report, ending September 30th, 1859, in tabular form, exhibiting all the expenditures and work done under the supervision of this Bureau; also an estimate of the amount necessary to be appropriated for the year 1860, for works in progress, and work that will probably be required to be done during the next year. I have omitted asking for an appropriation for the BATTERY ENLARGEMENT, as there appears to be an unexpended balance of nineteen thousand dollars (\$19,000), which was re-appropriated last year, and the tax levy of this year authorizes twenty thousand dollars (\$20,000) more to be raised, making a total of thirty-nine thousand dollars (\$39,000), and which, in my opinion, is all that will be required to finish the work. I have also omitted any additional appropriation for blasting DIAMOND REEF, as there was an unexpended balance re-appropriated last year of twenty thousand dollars (\$20,000), and the tax levy for this year authorizes twenty thousand six hundred dollars (\$20,600) more to be raised, making forty thousand six hundred dollars (\$40,600).

The Comptroller does not recognize the unexpended balances re-appropriated last year of nineteen thousand

dollars (\$19,000) on the BATTERY ENLARGEMENT, and the twenty thousand dollars (\$20,000) for blasting DIAMOND REEF.

If he is correct in his position, it will require an appropriation of nineteen thousand dollars (\$19,000) on the Battery Enlargement, and nine thousand dollars (\$9,000) on the blasting of DIAMOND REEF.

In my report of December 28, 1858, I recommended that the Common Council apply to the Legislature for the passage of a law appointing a commission to adjust and settle outstanding and illegal contracts heretofore made, being twenty-four in number, on which the city has paid two hundred and twenty-seven thousand nine hundred and twenty-seven dollars (\$227,927) on account of the work done, to the contractors or their assignees.

The contractors, with two or three exceptions, ceased working under their contracts, on being notified by this Department that their contracts were illegal, and that no further payments would be made on account of work done under such contracts, and of which there has been seven completed and assessment rolls returned to this office, amounting to ninety-eight thousand nine hundred and eighty dollars and fifty-two cents (\$98,980 52), where they still remain awaiting some legislative action previous to being sent to the assessors.

Some of these contracts have been made in good faith, and at fair prices by the contractors, while others appear to have been made with a fraudulent intent.

The owners of the property on the line of the work having received some benefit from the work done, should

be made to pay a fair equivalent for the same, thereby reimbursing the city for the large amounts advanced.

For a particular and full statement of those contracts, I refer you to my report of the 28th December last.

The Common Council having taken no action in the matter, I respectfully call your attention to the subject again, as without some legislative action the city must lose the large amounts advanced on account of these contracts, and also become involved in litigation for an equal amount claimed by contractors on these works.

I call your attention to my recommendation in the report of 28th December, in the matter of preparing ORDINANCES relating to work to be done under the supervision of this Bureau. Many of the ordinances passed, are not clear and explicit, and do not give sufficient authority to perfect the works contemplated to be done under them, and frequently they have to be sent back for correction, causing delay and embarrassment to the operations of this Bureau; which would be obviated by having them prepared in this Bureau previous to their passage.

The following communications with recommendations, have been made, and no action appears to have been taken in the matter:

Communication of January 9, 1859, in relation to laying out an *exterior street* along the new established line of the Harbor Commissioners, and to amend and change the grades of the street and avenues adjacent thereto.

This would require the action of the Legislature—a longer delay would be a serious injury to the owners of

the water grants, and of the property owners on the streets and avenues requiring a change of grade.

Communication of January 8th, 1859, with recommendation and resolution for *reletting* the BATTERY ENLARGEMENT contracts.

February 11th; communication with plans for changing the grade of the Eighth avenue, from Sixty-fourth to Eighty-first street, and the adjacent streets.

The property owners on the line of the avenue, are anxious to have some action taken in the matter, as the avenue is in an unfinished, dilapidated and dangerous condition.

March 10, 1859, communication and ordinance for regulating and grading Fiftieth street, between Lexington and Fifth avenues.

This street having been contracted out under an illegal ordinance, and partially done, was abandoned by the contractor, who left it in a filthy and dangerous condition; this work could be relet on the passage of the ordinance recommended.

It is highly important that this ordinance should be passed, as valuable and costly improvements are being made on the streets.

June 23, 1859; communication with new ordinance for regulating Fifty-second street, from the Fourth avenue to the East river.

This street was also contracted under an illegal ordinance, and is nearly finished; it requires the passage of the new ordinances recommended previous to reletting.

June 23d, 1859; communication with new ordinance for regulating Fifty-first street, between the Sixth and Eighth avenues.

This street is about one half finished, and was let under an illegal ordinance, and also requires the passage of the new ordinance referred to previous to being relet.

June 31, 1859; communication in regard to the change of grade, and regulating and setting curb and gutter in Forty-ninth street, between Second and Third avenues, requires a new ordinance, the former ordinance being defective and irregular; no contract was made for the work.

June 3d, 1859; communication with recommendation and ordinance, in the matter of numbering and renumbering streets.

This requires immediate attention; application is constantly made to this Bureau to rectify and renumber streets, which appear to be in an unsatisfactory and confused state.

A new and well devised system is required that will prevent the confusion and continued change in street numbers, that must arise in numbering streets under the present ordinance. My opinion in regard to this matter, and reasons for a change, is fully stated in the communication made for that purpose.

June 7, 1859; communication and ordinance recommending a change in the ordinances for repairing and laying sidewalks.

At present the ordinances are particularly inoperative for want of the proper appropriation for that purpose,

which appropriation was asked for in the tax levy of last year, but not passed by the Legislature. The amendment asked for in my communication would, in my opinion, obviate the necessity of an appropriation, and would compel the owners of property to lay and keep their sidewalks in proper repair.

In most cases the owners of property have complied with the terms of the notice sent to them to repair their sidewalks, while others do not appear to have paid any attention to such notice. If this portion of the duties devolving on this Bureau is to be properly carried out, it is requisite that the proper means be provided for that purpose, either by an appropriation therefor, or by a change in the ordinance as asked for.

The Inspector of Sidewalks has faithfully performed the duty of notifying the owners of property, and recommending them to do their own repairs.

The Inspector reports, that upwards of three thousand sidewalks have been repaired or laid new since last October.

In the matter of Inspectors, some action should be taken by the Common Council authorizing the appointment of a fixed number of competent and reliable men at a fair salary, for the purpose of inspecting the various works in operation under the supervision of this Bureau. At present the compensation allowed for the performance of this duty, and the uncertainty of employment, frequently being only for a few weeks or days, will not command the services of the proper persons.

There are twenty-seven Inspectors at present on the

several works in progress—one third of this number properly organized and paid a fixed salary would, in my opinion, perform the duty far better and at less expense than is now incurred under the present system of continual change in appointments, and selection of new men unacquainted with the duty. To give more efficiency and responsibility, there should be permanent inspectors appointed at a fixed salary.

This duty is not performed in a satisfactory manner at present, and probably will not be until proper compensation is made and steady employment given.

Specifications have been drawn and issued for proposals for all ordinances passed by the Common Council for work to be done under this Bureau ; but contracts have not been made in many cases in consequence of delays in confirming the awards of contract, which is embarrassing to the operations of this Bureau in carrying out the several improvements intended by the several ordinances passed, and frequently creates an extra expense in re-letting the work. All specifications contain a clause that if the award of contract is not confirmed within three months, the contractor to whom it is awarded is at liberty to abandon it, which is frequently done.

The expense of re-advertising and issuing new specifications is one hundred and ten dollars (\$110) in each case.

The various appropriations for street regulation, filling sunken lots and setting curb and gutter stones, and which amounts to one million three hundred and twenty-five thousand eight hundred dollars (\$1,325,800) are on trust

account, and not raised in the tax levy, but paid by local assessments laid on the property benefited by the improvements.

The appropriation of ten thousand dollars (\$10,000) asked for, is for carrying out the ordinances, passed by the Common Council, the expense of which is less than two hundred and fifty dollars (\$250), and is authorized to be done by the Street Commissioner without contract. This appropriation would enable the Department to do the work as cheap as individuals, and would save a large expense in advertising and printing specifications, which expense in most cases would exceed the cost of the work to be done.

This amount would be required in the first place to be raised in the tax levy; it would afterwards be repaid on the collection of the assessment to be laid on the property for the work done, and would be a permanent fund to do similar work hereafter.

The appropriation of five thousand dollars (\$5,000) for flagging and repairing sidewalks in front of Corporation property, is for repairing and flagging in front of the public squares and buildings, which properly comes under the jurisdiction of this Bureau, and generally requires immediate attention.

The appropriation of six thousand dollars (\$6,000) for resetting monument stones, is for the purpose of resetting the stones designating the corners of the streets and avenues, and which requires immediate attention, as these land-marks have been generally displaced, and must, if not attended to soon, cause serious difficulties to the property owners in defining their several boundaries.

An appropriation for this purpose was asked for last year, but not granted by the Legislature. Little or no attention has been paid to the preservation of these stones formerly, and the great mass of them have been removed or filled over, thus destroying their utility.

Written notices have been issued from this Bureau to the surveyors and contractors on the various streets and avenues in process of regulation, to notify this Bureau in all cases where they will be endangered by excavations or filling, in order that they may be reset on the proper grade.

In conclusion, I must again urge the necessity of some legislative action in the matter of adjusting and settling the outstanding and illegal contracts as a matter of justice to the contractors, the property owners, and for the best interests of the city.

These old contracts occupy a considerable portion of the time of this Bureau, without arriving at any satisfactory results; many of them were made at fair prices, and in good faith, and in consequence of the delay in settling them up, or in making payments upon them, serious losses and embarrassment has been caused to the parties interested therein.

A simple and effective law in three sections would, in my opinion, be all that is required to settle the whole matter, and could be settled as well in two months as in seven years.

The first section should name a Commission.

The second should give the requisite authority to settle

and make valid and legal the amounts adjusted and fixed by the Commissioners as a fair equivalent for the work done.

The third should authorize and direct the Assessors to apportion and assess the amounts fixed by the Commissioners as the legal amounts to be assessed on the parties benefited by the improvements made.

All of which is respectfully submitted.

(Signed.)

E. EWEN,

Superintendent Street Improvements.

Final payments have been made on the following Works:

Forty-third street, from 11th avenue to Hudson river; Norman McLeod, contractor. The contractor was stopped in the prosecution of his contract by an alteration in the grade, and this payment is made for the amount of work done and material furnished and piled up, a new contract having been made with John Hodgins for relaying curb and gutter, and replacing sidewalks. A settlement was made with Norman McLeod, by ordinance of Common Council, and payment made to claimants for work done by order of Court of the Common Pleas.

New Bowery and Pearl street, from Chatham square to Peek slip. David Donaldson, contractor.

BUREAU OF STREET IMPROVEMENTS,

October 1, 1859.

E. EWEN,

Superintendent Street Improvements.

APPENDIX B.

STREET DEPARTMENT—BUREAU OF WHARVES,
New York, September 30, 1859.

G. W. SMITH, Esq.,

Street Commissioner:

SIR:—In compliance with the instructions contained in your letter of the 3d instant, I respectfully submit my quarterly report, embracing the usual record of my transactions, and of the progress and present condition of the Bureau under my charge.

The Comptroller forwarded to this Department a list of those slips which needed dredging very much, urging an early attention to the same, upon the ground that some of the lessees refused to pay the rent due from them, since the condition of the slips being such as to render them almost useless, some of them being bare at low-water. An agreement was entered into with Messrs. Liddle & Orr, and Mr. James Hart, and subsequently with Messrs. Morris & Cummings, who stipulated to dredge the slips on the North and East rivers, the former at the rate of eighteen cents per cubic yard, and the latter at the rate of twenty cents per cubic yard.

The Harbor Commissioners ordered the material to be deposited on Oyster Island, which explains the reason why so high a rate per cubic yard was adopted. The matter of dredging the slips is progressing rapidly, and as far as I can learn, to the entire satisfaction of those who have an interest in the same.

The following have been excavated:

Slips between piers Nos. 60 and 61, Nos. 61 and 62, and the end of pier 61, E. R. for which vouchers have been drawn in favor of Liddle & Orr, to the amount of.....	\$750 00
Slip between piers Nos. 29 and 30, North river, for which I have drawn vouchers in favor of Liddle & Orr, to the amount of.....	1,490 72
Slip between piers 56 and 57, East river, for which I have drawn vou- chers in favor of Messrs. Liddle & Orr, to the amount of.....	243 44
Slip between piers 42 and 43, East river, for which I have drawn vou- chers in favor of Jas. Hart, amount- ing to.....	1,050 00
Slip between piers 43 and 44, East river, for which I have drawn vou- chers in favor of Jas. Hart, amount- ing to.....	420 00
Whole amount paid for dredging....	<u>\$3,954 16</u>

The following is a list of the contracts made with the city in relation to wharves, piers and slips:

A contract made with Richard Wel-
den, for repairing pier west side of
Gouverneur slip, No. 52, East river;
the work to be completed within
forty-five days; August 22d, 1859;

dated March the 10th, 1859. I have
drawn vouchers for the same to the
amount of.....\$2,000 00

A contract made with Jenkins Sloat,
for building a pier at the foot of
106th street, H. R., dated 1859,
the whole work to be completed
within ninety days, September 27th,
1859. I have drawn vouchers for
the same in favor of Jenkins Sloat,
(Charles Keenan, assignee) amount-
ing to..... 5,990 00

Whole amount paid on contract.... \$7,990 00

The following embraces a list of the piers which have
been repaired; and before entering into a detailed state-
ment of the repairs done on the same, a word explanatory
would not be out of place. The expenses in some cases
apparently exceed the limit of \$250; still, it must be
borne in mind, that in every case of excess, except where
the city claims a joint ownership with private individuals,
there is more than one appropriation. The following
piers were repaired in—

July, pier 40, North river.....	\$271 95

All of which is respectfully submitted,

BERNARD KELLY,

Superintendent of Wharves.

APPENDIX C.

STREET DEPARTMENT—BUREAU OF ROADS.

October 1, 1859.

G. W. SMITH, Esq.,

Street Commissioner:

SIR: In compliance with your instructions, I submit for your consideration the following report of the condition of the bureau under my charge, together with an estimate of the appropriations required to continue the improvements in the roads already commenced, and maintain them in a proper condition during the coming year.

The short time which has elapsed since my appointment, and the incomplete records of the bureau, (which latter difficulty has, however, been in a great measure removed by information derived from other branches of the department,) have precluded the possibility of my submitting as detailed a report as I could desire. For the same reason I refrain from offering recommendations which have suggested themselves to my mind; preferring to wait until a little more time and opportunity of observation shall have sanctioned their propriety, and given to them somewhat of the weight due to experience.

The only contract for work under this bureau, at present existing, is that made with John Kinsley for Macadamizing Second avenue, from Sixty-first to One hundred and twenty-third street. I regret to say that its conditions are not strictly complied with, and the work progresses but slowly. There has, however, lately been an improvement in this latter respect, but not to such an

extent as to justify the expectation that it will be completed in the prescribed time. If finished to Eighty-sixth street during the present season, it will be quite as much, if not more, than the present indications promise.

The state of the roads is not such as to give occasion to any serious complaint, except in some particular localities. To some of these my attention has already been practically directed, and it shall be my endeavor to remedy the evil in every instance to as great an extent as the very limited means at my disposal will permit. I can hope, however, to accomplish but a small part of what ought to be done during the present season. The appropriations, originally small, have been nearly exhausted; for this reason, the force now employed is exceedingly small. It will be increased; but the necessity of a judicious disposal of it demands that it should not be hastily done.

The condition of Forty-ninth street, from Second avenue to the East river, was such that its repair could no longer be delayed; and I have accordingly placed a small force upon it for that purpose.

Second avenue, from Forty-ninth to Sixty-first street, is, for the most of the distance, below grade, leaving the man holes of the sewer lately built, projecting, in some cases, two feet above the general surface. It should be brought to grade; and it is proposed to do it, if the state of the funds will permit. I hope it may be at least partially accomplished.

The easterly side of this avenue, above Sixty-first street, requires the expenditure of many times the amount which can at present be devoted to it.

The Macadamizing of Third avenue has been left unfinished between Seventy-sixth and Seventy-ninth streets. This should be completed before winter, and, if possible, some attention paid to the surface at other points between Sixty-sixth and Eighty-sixth streets. Above this latter street its state is such as to be beyond remedy during the present season ; it should be provided for liberally in the appropriations for next year.

The New York and Harlem Railroad Company, in rebuilding their wall from Eighty-sixth to Eighty-ninth street, have left the westerly side of Fourth avenue in a situation in which it should not be suffered to remain. Since my attention was called to it, I have not been able to examine the subject sufficiently to determine whether the work required should be done by the company or the city. I would respectfully ask for your decision of that question.

The Bloomingdale and Kingsbridge roads are, for the most part, in very good order ; essential improvement having been effected in them by the use of a material not heretofore employed. This has, however, been but partially applied ; and thus far experience suggests that it should be adopted more extensively hereafter.

There are many other roads which require attention ; but their situation is not such as to call for special remark in this report.

Of the general appropriation of forty thousand dollars for roads and avenues, there has been thus far expended thirty-two thousand two hundred and fifty-seven dollars

and ninety-seven cents ; leaving a balance on hand of seven thousand seven hundred and forty-two dollars and three cents. This, however, includes the sum of nine hundred and thirty-seven dollars and fifty cents, which has been returned to the Street Commissioner upon vouchers certified to by the former Superintendent of Roads, but which have not yet been approved by him. Deducting these, the available balance would be six thousand eight hundred and four dollars and fifty-three cents.

Of the appropriation of ten thousand dollars for Kingsbridge road, there has been expended seven thousand four hundred and sixty-two dollars and forty-nine cents ; leaving the balance of two thousand five hundred and thirty-seven dollars and fifty-one cents. This balance also includes unapproved vouchers, amounting to nine hundred and three dollars and seventy-five cents, which, if allowed, would reduce it to sixteen hundred and thirty-three dollars and seventy-six cents.

Under the appropriation for Macadamizing Second avenue, amounting at the beginning of the year to forty-nine thousand eight hundred and nineteen dollars and fifty-seven cents, there has been expended three thousand one hundred and ninety-eight dollars and ninety-five cents ; leaving a balance of forty-six thousand six hundred and twenty dollars and sixty-two cents.

The appropriation for Eleventh avenue amounted at the beginning of the present year to nineteen thousand nine hundred and ninety-seven dollars and fifty cents ; of this, only six hundred and one dollars and five cents has been expended. The unexpended balance is, therefore,

nineteen thousand three hundred and ninety-six dollars and forty-five cents.

As stated in the last report from this bureau, the final payment on the contract of Nicholas Rogers, (Bartlett Smith, assignee,) for working Tenth avenue as a country road, amounting to eight thousand three hundred and twenty-four dollars and ninety-nine cents, has been made within the present year.

From the above statement it will be seen that the total expenditure by this bureau during the present year, exclusive of the unapproved vouchers above mentioned, is fifty-one thousand eight hundred and forty-five dollars and forty-five cents. Of this amount, twelve hundred and seventy-three dollars and eighty-seven cents is upon vouchers drawn by myself.

It will also be observed that when even a small amount, to be reserved for contingencies, is deducted from the unexpended balances above given, there will be little left to devote to the improvement of the roads.

The amount estimated last year, as necessary for the roads and avenues, was one hundred and twenty-seven thousand dollars.

I have examined this estimate in connection with the expenditures since made, and with the present condition of the roads; and the examination has convinced me of its correctness, and induced me to make it the basis of that which I append to this report.

STATEMENT of expenditures in the Bureau of Roads, from
1st of January to 1st of October, 1859.

1. Under appropriations for roads and avenues.

BLOOMINGDALE ROAD.

Labor.....	\$14,278 18	
Material.....	10,212 71	
	<hr/>	\$24,490 89

THIRD AVENUE.

Labor.....	\$4,980 30	
Material.....	2,107 74	
	<hr/>	7,088 04
Repairs to Second avenue.....		270 75
" Fourth avenue.....		52 00
" Eighth avenue.....		289 54
" Lexington avenue.....		26 00
" One hundred and twenty-fifth street.....		15 75
" Forty-sixth street, between Third and Lexington avenues.....		25 00
		<hr/>
Total expenditure.....		\$32,257 97

Balance on hand, \$7,742 03; upon this, vouchers, amounting to \$937 50 have been drawn by the Superintendent of Roads, which are retained by the Street Commissioner.

2. Appropriation for Kingsbridge road.

Labor.....	\$3,638 31	
Material.....	3,824 18	7,462 49
	<hr/>	
Carried forward.....		39,720 46

Brought forward..... \$39,720 46
 Balance, \$2,537 51, against which vouchers,
 amounting to \$903 75 have been drawn,
 but are retained by the Street Commis-
 sioner.

3. Appropriation for Macadamizing the
 Second avenue.

Surveys.....	\$657 68	
Inspection.....	516 00	
Labor.....	103 49	
John Kinsley, on contract.....	1,921 78	
	<hr/>	3,198 95

Balance on hand, \$46,620 62.

4. Appropriation for Eleventh avenue.

Surveys.....	601 05
--------------	--------

Balance on hand, \$19,396 45

5. Appropriation for Tenth avenue having
 been exhausted, final payment on con-
 tract to Nicholas Rogers (Bartlett Smith,
 assignee) has been made from appropria-
 tion for arrearges.....

8,324 99

Total amount expended by bureau... \$51,845 45

*ESTIMATE of the amount of money required by the Bureau
 of Roads for the year ending December 31, 1860.*

For Bloomingdale and Kingsbridge roads.....	\$30,000
For Third avenue.....	25,000
For Second avenue.....	15,000
For "Roads and Avenues".....	30,000
Total.....	<u>\$100,000</u>

All of which is respectfully submitted,

H. L. SOUTHARD, *Superintendent of Roads.*

APPENDIX D.

G. W. SMITH, Esq., *Street Commissioner:*

SIR—In compliance with your request of Sept. 3d, I beg to submit this, my quarterly report, ending Sept. 30, 1859.

The Battery has been in a very bad condition; I am grading and raising the walks, also setting the curbs that have sunk six inches below the earth, and setting them around the beds; the expense so far for same, coal, ashes, &c., will amount to \$233, which is paid; there is also a bill of \$125 for filling in the Old Battery place, and grading the same where the water has stagnated and became a nuisance. I have not finished the work, but carry it forward speedily as possible. I have made much improvement on the Battery—the principal expense has been for laborers and keepers, who are setting the curbs and grading the walks. The amount expended on this work for the year for labor and materials, has been about \$500.

CITY HALL PARK.

I have made much improvement in this park by raising and relaying the flagging, raising and grading the walks in front and rear of the Hall; I have also opened and placed the posts on the line for a street from Beekman street, according to orders; the expense to this time has been about \$600 for sand, seed and ashes, and flagging. It is nearly impossible to keep this park dry, as there are no drains or gutters to carry off the surface water. I would recommend to the department that some steps be

taken to have drains or gutters made, so that the walks should be passable at all times.

WASHINGTON SQUARE.

At the commencement of the year, I had the borders well spaded; subsequently I had seed of various kinds sown, and according to instructions from the department caused sand and gravel to be furnished, the flags in low places to be relaid; and, in a word, had necessary repairs made to all the walks, and put up new seats where necessary; I had new gutters and drains made on the principal walks, with cobble stones where required—all at a cost of \$245 35. There is yet some flagging to be relaid, and some to be furnished before the cold season arrives, which will cost about \$200. This park is in good condition; the improvements and general appearance is quite apparent; the materials to this date cost \$453 08.

UNION SQUARE.

This park needed improvement and care: acting under orders, I had the flags around and about the fountain relaid and raised, sand and gravel furnished, the walks repaired with foundry ashes, nuisances removed, new trees, privet, grass-sods and seeds sown, new seats put up where old ones decayed: to this date the cost has been \$239 75. I would suggest that some improvement should be made, as the cost will be trifling; there are some bars broken, which I shall have repaired. There is no chance for the water to run off; no drains or gutters, and I shall have to drain the park as well as I can, until instructions are issued to lay down drains or gutters.

MADISON SQUARE.

This park is in good order and well cared for. I would state that no park in this city needs an iron railing as much as Madison square; the wood fence is fast decaying, and it will not last much longer: the trees and shrubbery will be entirely destroyed, as it cannot be kept together. It is a large park, but has no drains or gutters to carry off the water; those drains are as essential as the railing. The cost to this date for materials for improvements, re-grad-ing the walks, new and strong seats put up in various places, sowing seeds, &c., amounts to \$255 50. There are some repairs to be made to the railing in order to keep it together this winter; also some repairs to the sidewalks, which I shall have done, so as the public can pass—the cost will be trifling.

EAST AND WEST STUYVESANT PARKS.

These parks are in good condition and well cared for. I had new trees planted where others were blown down, the tree boxes repaired and painted and properly supported; also caused new seats to be put up in place of those broken down, seeds sown, &c., &c., and to this date the cost has been \$129 34. The flagging around the fountain and to the entrances has sunk, and will have to be raised; other minor improvements should be made before the stormy weather sets in, which will cost about \$75 for each park.

THIRD AVENUE AND SEVENTH STREET PARK.

I have this park in good order, and the expenses to this date for materials, \$15; other improvements should be made—shrubs and trees set out, walks graded, and the

railing painted; but as it is now surrounded by market sheds, it cannot be done conveniently.

CHRISTOPHER STREET PARK.

This park is in an admirable condition, well looked after; I have sowed choice seeds and new privet—planted at a cost of \$12.

ABINGDON SQUARE.

To this park I caused great attention to be paid, the shrubbery well looked after and protected. It is in fine condition.

DUANE STREET PARK.

This park I put in good order; I found some portion of the railing missing, but the bill has not been rendered—about \$30 cost.

WEST BROADWAY AND BEACH STREET PARK.

This railing was broken in some parts, which I have replaced at a cost of \$10. The park is in good order and gives satisfaction.

RESERVOIR SQUARE PARK.

According to orders I had men lifting the foundation, and carting away the old iron rubbish, at an expense of \$100. You will recollect there is no appropriation for this work, the expense coming from my general appropriation; it was not directed to be used as a park, until after the general appropriation was made.

THIRD AVENUE AND ONE HUNDRED AND TWENTY-SECOND
STREET PARK.

This park looks well; trees and shrubs are all in good condition; these small parks are looked after by my men at proper seasons; there are no men permanently employed for that purpose.

MOUNT MORRIS SQUARE.

I have done nothing with this park except leveling a portion for the accommodation of some citizens for a play ground—this was done by orders from this department.

There was an expense incurred last winter for shoveling snow from the park of \$115 74. There is no contract in this Bureau, except for the Fourth avenue park railing, which is now in progress to be completed this spring.

General appropriation.....	\$16,000 00
Re-appropriated.....	5,098 08
Total.....	<u>\$21,098 08</u>
Bills rendered and paid.....	\$2,356 29

Amount expended from Jan. 1, to June 30....		\$4,201 42
Do. do. from June 30, to Sept. 30....		<u>4,050 54</u>
Total.....		<u>\$8,251 96</u>

TOMPKINS SQUARE.

The first work done was to plough and harrow at an expense of \$200; the carting away of rubbish cost \$142 50; a bill for enclosing the entrances \$123; there is also a charge for seed, a bill for relaying and raising the flags, a bill for garden mould, a bill for carting sods, a bill for harrowing before the seed was sown: the park looks well, all the seed is sown, the plots and walks laid out, and the improvements can now be seen.

I have procured without any expense to this department or to the city some 36,000 loads of gravel and other materials, which answered all purposes to bring the walks to a regular grade.

Appropriation	\$8,000 00
Bills rendered and paid.....	\$465 50
Pay Roll No. 15.....	142 84
“ 19.....	228 75
“ 34.....	439 75

Total.....	<u>\$3,149 71</u>

All of which is respectfully submitted.

THOS. BYRNES,

Superintendent of Lands and Places.

APPENDIX E.

STREET DEPARTMENT—BUREAU OF LAMPS AND GAS,
New York, Oct. 1, 1859.

G. W. SMITH, Esq.,

Street Commissioner:

SIR:—In compliance with your letter of September 3d, requesting a statement of the business, &c., of this bureau, for the quarter ending September 30th, I have to report that the affairs of this bureau are still progressing in a very favorable manner; nine months of the year having already expired, with an unexpended balance on hand of two hundred and fourteen thousand one hundred and twenty-nine dollars and twenty-four cents, (\$214,129 24,) much more than sufficient to cover all expenditures for the balance of the year.

In my report of July 1st, I informed you that I had found a discrepancy in the number of gas lamps reported as being lighted by the New York Gaslight Company. Upon notifying the Gas Company of the fact, and informing them that I would insist upon a deduction being made of the number in error from May 1st, 1858, (the date of my taking possession of this office,) to March 1st, 1859, up to which time they had been paid; they replied that they believed their count was correct, but that they would make any deduction providing our inspectors would join with a committee of their lighters and count the lamps together, so that there could be no mistake as to the right number, which proposition I agreed to; and the result was, that the count came out the same as before. The company

immediately on the fact being ascertained, made the deduction for the time specified above, being a saving of over three thousand dollars per annum.

Since my last report, I have caused to be removed the remainder of the old oil lamp-posts which had been superseded by gas; there is now at Carmansville over six hundred waiting to be advertised and sold.

On the 1st of July last, a contract for one thousand iron lamp-posts was awarded to Ross McGuire, and sent by you to the Common Council for confirmation. On the 21st of July, the same was confirmed by the Board of Aldermen, and sent to the Board of Councilmen for concurrence, was there referred to the committee, but I believe no action has yet been had upon it.

I would state that there are several resolutions now in this office, directing various streets in the upper portion of the city to be lighted with gas; but the same cannot be complied with, owing to the fact that there is not even one lamp-post now on hand in the yard of the Harlem Gas Company.

On the 16th of July, 1858, a resolution was approved, directing the clock in front of H. Sperry & Co., at No. 338 Broadway, to be lighted with gas from sunset to sunrise, at the expense of the city. The same was complied with, and the clock continued to be lighted until about the first of May last, at which time the premises changed hands; since then, it has not been lighted; and I notice that a resolution is now pending before the Common Council, directing that the same should be again lighted at the expense of the city. As the only means of access

to the clock is through the premises of a private party, in which valuable goods are stored, I think it inexpedient to hire a stranger to enter therein, and I would therefore recommend that the lighting of said clock at the expense of the city be dispensed with.

Your attention is respectfully called to the contract with Alexander Brandon, for repairing and reglazing the public lamps, which will expire on the 7th instant; it is highly necessary that some action should be taken to have a new contract made; until which time, possibly some arrangement can be made with the present contractor, to have the repairing of the lamps continue.

I would also call your attention to the contract with John Kelly, for lighting the oil lamps, which will expire on the 22d day of November next. As there are now but one hundred and eighty oil lamps in the city, many of which will be discontinued before next spring, I hardly think it necessary to advertise for another contract; for I doubt whether a person could be found to take it, even if advertised.

The contracts with the New York and Harlem Gaslight Companies, are in the same condition as stated in my last report. No action having yet been taken thereon.

The contracts with Kelly & Vandervoort, for three thousand gas lamps, and with Balthaser Laing, for fifteen hundred lamp irons, are still progressing; the former of which will be concluded before the close of the present year.

By my direction, or in compliance with resolutions of

the Common Council, gas mains have been laid, and lamps lighted since July 1st, as follows, viz:

The Harlem Gaslight Compay have laid mains in the following streets, viz:

Avenue A, from Eighty-ninth to Ninety-first street.

First avenue, from One hundred and twenty-third to One hundred twenty-fifth street.

Second avenue, from Seventy-ninth to Eighty-sixth street.

Second avenue, from One hundred and twenty-third to One hundred and twenty-seventh street.

Sixth avenue, from One hundred and tenth to One hundred and twenty-third street.

Sixth avenue, from One hundred and twenty-fifth to One hundred and twenty-ninth street.

Eighth avenue, from One hundred and twenty-fifth to One hundred and thirty-seventh street.

Old Kingsbridge Road, from One hundred and forty-seventh to One hundred and fifty-sixth street.

Seventy-ninth street, from Broadway to Tenth avenue.

Ninetieth street, from Fourth to Fifth avenue.

One hundred and eleventh street, from Third to Fourth avenue.

One hundred and nineteenth street, from Second avenue to Harlem river.

One hundred and twenty-eighth street, from Fourth to Sixth avenue.

One hundred and sixty-first street, from Tenth to Eleventh avenue.

And have fitted up posts, and lighted with gas, the following, viz:

Second avenue, west side, from Seventy-ninth to Eighty-third street, seven lamp-posts.

Third avenue, east side, from Eighty-sixth to Ninety-eighth street, eleven lamp-posts.

Third avenue, west side, from Eighty-seventh to Ninety-eighth street, twenty-two lamp-posts.

Fourth avenue, east side, from Eighty-sixth to Eighty-eighth street, five lamp-posts.

Fifth avenue, both sides, from One hundred and twenty-ninth to One hundred and thirty-second street, eleven lamp-posts.

Fifth avenue, east side, from One hundred and thirty-second to One hundred and thirty-third street, one lamp-post.

Eightieth street, south side, from Second to Third avenue, two lamp-posts.

Eighty-eighth street, both sides, from Third to Fourth avenue, ten lamp-posts.

Ninetieth street, both sides, from Third to Fourth avenue, eight lamp-posts.

Ninety-first street, both sides, from Third to Fourth avenue, five lamp-posts.

Ninety-second street, both sides, from Third to Fourth avenue, five lamp-posts.

One hundred and seventeenth street, both sides, from Second to Fourth avenue, seven lamp-posts.

One hundred and twenty-third street, both sides, from Second to Fourth avenue, eleven lamp-posts.

One hundred and twenty-ninth street, both sides, from Fifth to Eighth avenue, thirty-two lamp-posts.

Third avenue, southeast corner of One hundred and thirtieth street, one lamp-post.

Total number of lamps burning September 30th, is one thousand seven hundred and ninety-seven.

The Manhattan Gaslight Company have laid mains in the following streets, viz:

Twelfth street, from Dry Dock street to the East river.

Forty-second street, north side, from Eleventh avenue to the North river.

Forty-second street, south side, from Tenth avenue to the North river.

Forty-third street, from Eleventh avenue to the North river.

Forty-seventh street, from Tenth avenue to the North river.

Forty-eighth street, from Ninth to Tenth avenue.

Forty-ninth street, from Ninth to Tenth avenue.

Fifty-second street, from Eighth to Ninth avenue.

Fifty-third street, from Eighth to Ninth avenue.

Fifty-fourth street, from Eighth to Ninth avenue.

First avenue, west side, from Forty-fifth street, north one-half the block.

First avenue, east side, from Sixty-fifth to Seventy-first street.

Fifth avenue, east side, from Forty-second to Fifty-fourth street.

Ninth avenue, east side, from Fifty-first to Fifty-fourth street.

Ninth avenue, west side, from Fifty-second to Fifty-third street.

Avenue D, from Eleventh to Fourteenth street.

And have fitted up lamp-posts, and lighted with gas, the following, viz:

First avenue, east side, from Thirtieth to Thirty-fifth street, eleven lamp-posts.

Sixth avenue, west side, near Waverly place, one lamp-post.

Sixth avenue, west side, corner of Forty-first street, two lamp-posts.

Eleventh avenue, west side, from Thirtieth to Thirty-fifth street, nine lamp-posts.

Eleventh avenue, east side, from Thirtieth to Thirty-ninth street, eighteen lamp-posts.

Fourth street, south side, between Avenues C and D, two lamp-posts.

Waverly place, south side, east of Sixth avenue, one lamp-post.

Nineteenth street, south side, east of First avenue, two lamp-posts.

Twenty-ninth street, north side, between Fourth and Madison avenues, two lamp-posts.

Thirtieth street, south side, between Fourth and Madison avenues, two lamp-posts.

Thirty-fifth street, east of Eleventh avenue, one lamp-post.

Forty-second street, from Tenth avenue to the North river, fifteen lamp-posts.

Forty-third street, between Ninth and Tenth avenues, three lamp-posts.

Forty-third street, from Eleventh avenue to the North river, eight lamp-posts.

Forty-fifth street, both sides, from Seventh to Eighth avenue, seven lamp-posts.

Forty-sixth street, from Eighth to Ninth avenue, seven lamp-posts.

Forty-seventh street, from Ninth to Tenth avenue, four lamp-posts.

Forty-eighth street, from Ninth to Tenth avenue, seven lamp-posts.

Forty-ninth street, from Ninth to Tenth avenue, nine lamp-posts.

Total number of lamps burning September 30th, is eight thousand seven hundred and sixty-one.

I submit herewith abstracts of all vouchers certified by me for the three months ending September 30th, (see Appendix A,) statement of the cost of gas supplied to the various police stations, public offices, &c., and for lighting, fitting and repairing lamps, &c., (see Appendix B,) statement of expenditures on account of the appropriation for lamps and gas for the year 1859, (see Appendix C,) also, in compliance with your request, an estimate of the appropriations requisite for this bureau for the year 1860, (see Appendix D-)

You will see that there is an increase in this estimate

over the appropriation of 1858, as also over my estimate for the current year. This is caused by the large number of lamp-posts which have been fitted up, with the additional number required to comply with the resolutions of the Common Council, the number of lamps at the head of each gas company being the number which should be burning on the 1st of January next, while the additional is the number estimated to be required during the year; the item of forty-three thousand dollars, (\$43,000,) includes gas to Police Stations, Public Markets, Public Offices, City Hall, City Prison, Hall of Records, Bell Towers, &c., and for one hundred and twenty fire companies at seventy-five dollars each, as per resolution of Common Council, approved February 19th, 1859.

Should the award of contract for one thousand lamp-posts not be confirmed in time for the contractor to receive his pay for the same out of the appropriation for 1859, then there will be required in addition to my estimate a reappropriation sufficient to cover the cost of the said posts; also, a reappropriation to cover the cost of the lamp-irons now under contract.

Respectfully submitted,

WILLIAM GAYTE,

Supt. of Lamps and Gas.

(APPENDIX A.)

ABSTRACT of Vouchers, certified by William Gayte, Superintendent of Lamps and Gas, on account of the Appropriation for Lamps and Gas, for the year 1859; for the three months ending September 30th, 1859.

DATE.	No. of Voucher	NATURE OF EXPENDITURE.	TO WHOM PAID.	AMOUNT.
July 1.	82	Painting lamp-posts, two weeks, ending June 30th.	H. Pike, John Holland, T. McCabe, J. E. Church.	\$91 00
" 1.	83	Fitting up and lighting lamps, month of June.	Harlem Gaslight Co.	5,071 11

Total amount..... \$38,994 24

The repairs and alterations to the Hall of Records were authorized by the following resolution of the Common Council:

Resolved, That the sum of five thousand (\$5,000) dollars be, and the same is hereby appropriated to alter, repair, and refurnish the Comptroller's office; that the same be done by the Street Commissioner, without contract, under the direction of the Comptroller.

In compliance with your instructions, and in accordance with the resolution, giving to the Comptroller the direction of the work, particular regard was paid to his wishes, in all matters; nothing of importance being done without consultation with, and the approval of, himself or his representatives.

Previous to the commencement of operations, it was supposed that the necessary alterations could be completed for the appropriated amount, but during the progress of the work the necessity for more extensive improvements was developed.

In consideration of the increased available space to be obtained thereby, the Comptroller decided to order said improvements to be made.

Although the expenditures have greatly exceeded the amount authorized, I think it will be generally conceded, that the successful result fully justifies the increased expenditures.

The offices as completed, answer in every respect the requirements of the Finance Department, justly receiving the favorable notice and approval of the public, and being generally acknowledged as the most comfortable and conveniently arranged public office, of which the city can boast.

In making the alterations and repairs, the following parties have been employed, viz:

Messrs. Keyser & Berrian, at the request of his Honor the Mayor, for the necessary carpenter's work, amounting to.....	\$3,813 19
Carried forward.....	\$3,813 19

Brought forward.....	\$3,813 19
Messrs. Stewart & Smith, at the request of the Comptroller, for mason's work.....	3,685 69
John Elder, Jr., plumbing.....	620 50
William Brower, painting.....	984 78
Cameron, Johnson & Co., iron work.....	1,065 02
T. B. Brown, shoring.....	271 34
H. F. Aubrey, glazing.....	47 10
Winham & Fernbach, architects.....	55 00
William Jones, gas fitting.....	181 20
F. Manon, cleaning.....	4 50
Keyser & Co., tinning.....	88 35
Total amount.....	<u>\$10,816 67</u>

When the amount of work that has been done is considered, it must be admitted, that the city has received full value for the money expended.

Since my last quarterly report, proposals have been received and contracts awarded, for the following work, viz:

Contract for repairs to the City Hall, confirmed by the Common Council, and approved by the Mayor, September 20, 1859, was executed September 23, 1859.

The contractor is making' preparations for carrying on the work, but as a large amount of heavy timber will be required, which is yet to be sawed, and as directions have been given not to strip the building until fully prepared for active operations, there will be no evidence of progress for some time.

Amount of contract.....	\$11,500 00
House for hook and ladder company No. 4, is in progress, and will soon be inclosed.....	4,320 00
Repairs to house of hose company No. 22, nearly completed.....	856 00
Building to be called "Infants' Home," con- tract confirmed and executed, and excava- tion commenced.....	23,900 00
House for hook and ladder company No. 7. The party to whom this contract was award- ed, has appealed to the Common Council to be released, in consequence of an error of \$1,000 in the proposal. If the application is successful, the work must be readvertised.	
Additions and repairs to Essex Market Bell- tower, nearly completed.....	907 00
Look-out on Marion street Bell-tower, in pro- gress.....	2,689 00
House for hose company No. 43, waiting con- firmation.....	3,500 00
House for engine company No. 35, waiting con- firmation.....	3,068 00
Alterations of house 84 Attorney street for hose company No. 4, waiting confirmation..	1,186 00
Repairs to house of hose company No. 51, nearly completed.....	578 00
Additions and repairs to Nineteenth Precinct Station-house, in progress.....	3,450 00

Roof to Tompkins Market.

The contractors on this work are now progressing rapidly and satisfactorily with their respective contracts ;

and all that is required to insure the early completion of the building is the definite action of the Common Council in regard to the contract for the roof, now before that body.

The failure in having this work progressing in its regular order will not only prevent the proper execution of the incidental work on the building, but will cause serious damage to the whole interior, from the want of the protection that should be afforded thereby. I would therefore recommend that the Common Council be urged to arrange this matter with as little delay as possible.

The second story truss frames are now up, the third story beams on, and the fronts backed up, ready for the third story iron work, which is now on the ground; and I am informed by the contractors that everything embraced in their contracts, practicable without the roof, will be completed October 1st.

Plans have been submitted by the Police Commissioners for the erection of the Twenty-second Precinct Station-house; but, as the erection of the building in accordance therewith will involve an expenditure of an amount exceeding by five thousand dollars the specific appropriation for that purpose, plans are being prepared for a building that will cost not to exceed the amount authorized to be expended, which, if approved by the Board of Commissioners, will be immediately put under contract.

I take pleasure in stating that the contracts previously reported are progressing favorably, with the exception of the "Rebuilding of the Fifteenth Precinct Station-house;" the work on the building having been delayed in consequence of an error on the part of the architect. It being

impracticable to carry the plans into effect, application was made to the Common Council for authority to rectify the error. While waiting their action, the Police Board discovered that the plans, although a long while under their consideration, and finally officially approved by them, were generally defective; and, upon application to the Common Council, a resolution was adopted directing the Street Commissioner to contract with certain parties for the proposed alterations, at an additional cost of five thousand five hundred and eighty dollars.

This resolution being in direct violation of the charter, which distinctly says that "all contracts shall be founded on sealed bids," I have conceived it to be my duty to call your attention to the matter before taking the usual preliminary steps to carry it into effect, and have, therefore, referred the resolution back to you for further orders. Early action is desirable, as it is important to have the building inclosed before winter.

The following is a correct statement of the amount for which vouchers have been transmitted, the amount due on contracts, and the amount of work ordered; also, the amount of work waiting confirmation, together with that for which resolutions have been adopted:

Amount on contracts.....	\$92,903
Amount of work in progress without contract..	12,500
Amount for which vouchers have been drawn...	64,210
	<hr/>
	\$169,613
Total amount of appropriation for this year....	\$204,059
	<hr/>
	169,613
	<hr/>
Balance.....	\$34,446
	<hr/>

Work waiting confirmation.

Roof Tompkins Market.....	\$14,500	
House hook and ladder company 7....	4,350	
	<hr/>	18,850

Work for which resolutions have been adopted and approved.

House hose company No. 59, about....	\$3,200	
House engine company No. 41, about...	4,500	
Altering house hook and ladder company		
11, about.....	1,500	
Repairs Tenth Precinct Station.....	1,500	
	<hr/>	10,700
		<hr/>
		\$29,550

From the above it appears that there is now on hand an available balance of thirty-four thousand four hundred and forty-six dollars ; but when the work for which resolutions have been adopted is contracted for, the amount will be reduced to four thousand eight hundred and ninety-six dollars.

In conclusion, I would beg leave further to report, that the public buildings are now in a very good condition ; and that, unless some unforeseen injury to them should arise, the amount required to keep them in repair for the ensuing year may with safety be considerably reduced.

All of which is respectfully submitted,

JONATHAN PURDY,
Superintendent Repairs and Supplies.

APPENDIX G.

BUREAU OF RÉPAIRS AND SUPPLIES,
DEPUTY SUPERINTENDENT'S OFFICE,
New York, October 6, 1859.

G. W. SMITH, Esq.,

Street Commissioner:

SIR:—Agreeable to request, in your circular of September 3,d I herewith transmit "a quarterly statement" of the business of this bureau, including also an "estimate of appropriations" required by the bureau for the year 1860.

In document herewith transmitted, marked "No. 1," you have account, in detail, of amount of repairs done and supplies furnished to the different offices and departments, from January 1st to October 1st, 1859, showing the bureau to have purchased, within the period designated, and drawn triplicate vouchers on the Comptroller for the same, to the amount of eighty-six thousand five hundred and seventy-nine dollars and forty-nine cents.

There has also been drawn by Keeper of City Hall, from the appropriation for fuel, furniture and supplies to Corporation offices, up to, and inclusive of September 24th, 1859, the sum of three thousand nine hundred and thirty-three dollars and twenty-five cents, which, added to the amount, nineteen thousand eight hundred and fifteen dollars and forty-three cents, drawn directly by this bureau, makes the amount from the appropriation to October 1st, 1859, twenty-three thousand seven hundred and forty-eight dol-

lars and sixty-eight cents, leaving balance unexpended, as shown in statement marked "B," one thousand two hundred and fifty-one dollars and thirty-two cents; and there are bills in the office to be audited quite sufficient to exhaust this amount; there has also been drawn by Keeper City Hall, for payment of extra watchmen, on the night of the fourth of July, from the appropriation for "Contingencies, Street Department," the sum of forty-eight dollars; also by Contract Clerk, as mentioned in my last report, from the appropriation for "Printing and Advertising for Departments," the sum of one hundred and eighty-four dollars and twenty-five cents.

Vouchers in favor of James Donnelly, for coal, amounting to two thousand three hundred and forty-one dollars and forty-four cents, appear properly, in account of vouchers drawn on Comptroller, but not having been entered in detail upon the general ledger, do not appear in the balance.

In paper marked "B," you have a full "statement," showing the appropriations drawn from, the exact amounts drawn, and balances unexpended, over which this bureau has the exclusive control.

The difference between "payments made" and "expenditures incurred," must necessarily be something; but, fortunately, at this time, it is not large, probably not exceeding five thousand dollars, divided as near as may be, as follows: some two thousand dollars for furniture, mostly for Finance Department, bills for which were rendered too late to be embodied in this report; the balance, three thousand dollars, for various purposes, including stationery, printing, and supplies of various kinds for different offices and departments of the Corporation.

The appropriation for stationery having been exhausted some time since, I have furnished the articles to the various offices and departments, by your order, since that time from the "Contingency, Street Department," to the amount of one thousand six hundred and ninety-one dollars and seventy-nine cents, statement of which you will find herewith annexed, marked "D."

The following circular, received from your department, was, as you directed, sent to all the offices and departments under the city government, receiving their stationery from this bureau; but up to the present moment, I have received but one reported estimate, through your office, in answer to it:

" CIRCULAR.

"You are hereby informed, that the appropriation for 'Stationery,' for the year 1859, is exhausted.

"I have to request that your future requisitions on this department for supplies of this character, may be for the least quantities that will answer necessary purposes.

"You will confer a favor on this department by having an accurate estimate made of the amounts of stationery of different kinds that will probably be required in your department or office for the year 1860; if convenient to you, I would be pleased to have this estimate before the 1st of September next.

"Very respectfully,

"Signed,

"*Street Commissioner.*"

In making estimates for the coming year, I have the data of the past year only, as a guide; but after careful calculations, with a due regard to economy, I transmit for your consideration, the following estimate of appropriations for the year 1860, amounting to one hundred and sixty-two thousand five hundred dollars, believing it to be as near correct as may be.

All of which is respectfully submitted.

Yours, &c.,

JOHN RICHARDSON,

Deputy Superintendent.

STATEMENT, showing the amount of repairs done and supplies furnished by Deputy Superintendent of Repairs and Supplies to the different Offices and Departments, from January 1st to July 1st, and from July 1st to October 1st, 1859.

APPENDIX H.

BUREAU OF COLLECTION OF ASSESSMENTS,
New York, Oct. 7, 1859.G. W. SMITH, Esq., *Street Commissioner:*

SIR:—In compliance with your request, referring to the duty prescribed by Sec. 29 of the Charter of 1857, I have to present the following

QUARTERLY REPORT, No. 3.

Showing the current business, &c., of the Bureau of Collection of Assessments for the Quarter ending with the 30th day of September, 1859.

ACCOUNT CURRENT.

1859:				
July 1	Balance, as shown by last Quarterly Report	\$2,051,676 44		
Sept. 30	Amount collected for Interest on Assessments, since last Quarterly Report.....	8,421 49		
"	Amount, Assessment Lists received for collection.....	192,482 28		
"	Amount, Over-payments received.....	3,737 30		
"	Amount Errors in old Assessments, passed to the credit of the City.....	3,007 00		
"	Amount, Interest paid Cogswell & Lamoureux, on Assessments transferred.....	5 63		
			\$2,259,330 14	
"	Amount paid A. V. Stout, City Chamberlain, since last Quarterly Report.....	969,097 66		
"	Amount Assessed to Corporation, in Lists transmitted for collection by Clerk of Arrears.....	86,612 33		
"	Amount, Errors in old Assessments, transmitted for collection by Clerk of Arrears.....	323 02		
"	Amount, Interest on Assessments over-paid.....	492 21		
"	Amount paid Cogswell & Lamoureux, on Assessments transferred.....	81 63		
"	Amount, Liens cancelled on Comptroller's certificates.....	8,406 00		
"	Amount transmitted for collection by the Clerk of Arrears.....	351,367 10	1,416,379 95	
Oct. 1	Balance being amount of Uncollected Assessments.....			842,950 19

The practical results displayed by the above statement, reveal a degree of

diligence in the active labor of this Bureau, which is gratifying to me, and I trust also may be quite as acceptable to yourself.

The large number of old assessments, including particularly that of Central Park opening, which have long embarrassed this Bureau with their multitude of errors and omissions of former collectors, have been closed during the last quarter. This fact is worthy of especial report, and I am happy to say that there is now in this office, no assessment list, which has remained beyond its legal term of one year.

Respectfully,

JONA. TROTTER,

Collector of Assessments.

APPENDIX I.

List of Inspectors employed in the Street Department, on contract work, the 30th September, 1859.

In Bureau of Street Improvements, 26.

Samuel Banta, regulating Ninth avenue, from Fifty-third to Sixty-fourth street.

BUDGET FOR 1860,

TOGETHER WITH

Draft of an Ordinance making the Annual Appropriations
for said year,

AND

Draft of an Act authorizing the raising by tax of the amount
required to pay said Appropriations.

BOARD OF ALDERMEN,

DECEMBER 7th, 1859.

DOCUMENT No. 34.

NEW YORK;

CHAS. W. BAKER, PRINTER, 29 BEEKMAN STREET.

1859.

Corporation of the City of New York.

IN THE BOARD OF ALDERMEN, DECEMBER 7th, 1859.

The following Communication from the Comptroller, transmitting his

Financial Estimates, or Budget for 1860,

with draft of an Ordinance making the Annual Appropriations for said year, for the expenditures of the City Government, and draft of an Act authorizing the raising by tax of the amount required to pay said appropriations, was received and referred to the Finance Committee, and fifteen hundred copies thereof were ordered to be printed, under the direction of the Comptroller.

D. T. VALENTINE,

Clerk of the Common Council.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, December 7th, 1859.

To the Honorable the Common Council of the City of New York:

In compliance with the twentieth section of an "Ordinance to re-organize the Finance Department of the City of New York," passed December 31st, 1857, the Comptroller herewith respectfully submits to your Honorable Bodies, a detailed statement of the Receipts and Expenditures of the Corporation, for the year, commencing January 1st 1860, with an estimate of the probable amount of tax required to be levied for said year; also a draft of an ordinance, making the annual appropriations, and a draft of an act of the Legislature authorizing the raising the necessary amount of money by a tax.

GENERAL CLASSIFICATION OF RECEIPTS AND EXPENDITURES.

The Receipts and Expenditures of the City Government, may be classed under the following general heads:

- I. FOR THE SUPPORT OF THE CITY GOVERNMENT,
—Including the Expenses of the Police, Alms-House Department, Board of Education, the Board of Health, the Fire Department, Board of Assessors and the City Courts, and the usual annual Contributions to various Charitable and other Institutions.
- II. INTEREST ON THE CITY DEBT.
- III. REDEMPTION OF THE PRINCIPAL OF THE CITY DEBT.
- IV. PUBLIC WORKS,—The cost of which is defrayed by the issue of Corporation Stocks.
- V. PUBLIC IMPROVEMENTS,—The expense of which is defrayed by Assessments for benefits, upon property in the vicinity thereof.

The ordinary expenses of the Government are provided for by the Annual Taxes.

The interest on a portion of the City Debt, and the redemption of the principal of part of said Debt are also provided for by taxation; while the other portion of said debt, both principal and interest, is payable from the Sinking Funds created by the income from the rents of Croton Water and other revenues of the Corporation, specifically pledged and appropriated to said funds.

The objects for which "Annual and occasional appropriations" are required to be "made by proper ordinances of the Common Council," are comprised under the first, second, and third heads above mentioned, and include all expenses provided for and defrayed by taxation; and the estimates required from the Comptroller, refer exclusively to said three heads, the first of which relate to the ordinary expenses,

FOR THE SUPPORT OF THE CITY GOVERNMENT.

The accompanying estimates are based mainly upon the information received from the heads of the several Departments and other officers, in reply to a circular addressed to them respectively, under date of 19th September, 1859, a copy of which circular, with a list of the officers to whom copies of the same were addressed, and also copies of the replies thereto received, with the remarks made thereon by the Comptroller, are appended to this communication.

The amended charter of 1857, mentions the several Departments in the following order :

I. THE LEGISLATIVE DEPARTMENT :

The ordinary expenses of this Department have usually been indicated by, and provided for, under the following heads of accounts, viz: 1. "City Contingencies"; 2. "Donations," and 3. "Printing and Advertising for Common Council."

In addition to these, the appropriations heretofore made for the purposes indicated by the following titles of accounts, have included the expenses of this Department, as well as of all others, under the same heads, viz: "Cleaning of, and Supplies to Corporation Offices," "Lamps and Gas," "Salaries" and "Stationery." It being desirable that all appropriations made, shall, so far as practicable, be for specific pur-

poses, it is proposed to divide the general appropriation for Salaries in the manner hereinafter shown.

With the exception of the amount provided for in the estimates under the aforesaid general heads of "Cleaning of, and Supplies to Corporation Offices," "Lamps and Gas," and "Stationery," the following is the estimate of the expenses in this department for the year 1860:

City Contingencies.....	\$70,000 00
Donations.....	20,000 00
Election Expenses.....	20,000 00
Printing and Advertising for the Common Council..	60,000 00
Salaries—Legislative Department	23,830 00
Total.....	<u>\$193,830 00</u>

Next to the Legislative Department, the charter mentions

II. THE MAYORALTY.

The expenses of the Mayoralty, except as provided for by the three above-mentioned general appropriations, are estimated by his Honor the Mayor, as follows, viz:

Contingencies—Mayor's office.....	\$10,500 00
Salaries—Mayor's office.....	13,000 00
Total.....	<u>\$23,500 00</u>

III. THE EXECUTIVE DEPARTMENTS.

1. *The Department of Finance.*

The expenses of this Department, for which special appropriations are required to be made, are estimated as follows :

Charges on Arrears of Assessments.....	\$2,000 00
Charges on Arrears of Taxes.....	2,000 00
Contingencies—Comptroller's Office.....	17,500 00
Carried forward.....	<u>\$21,500 00</u>

Brought forward.....	\$21,500 00
Errors and Delinquencies.....	3,000 00
Lands purchased for Taxes and Assessments...	60,000 00
Rents.....	40,000 00
Real Estate, Expenses.....	175,000 00
Salaries—Department of Finance.....	92,500 00
Total.....	<u>\$392,000 00</u>

2. *The Street Department.*

The estimated expenditures for objects and purposes within the cognizance of this Department, are as follows:

Contingencies—Street Department.....	\$35,000 00
Flagging Sidewalks and Fencing Vacant Lots..	2,500 00
Fire Department.....	60,000 00
Lamps and Gas.....	424,000 00
Lands and Places.....	21,000 00
Printing for Departments.....	20,000 00
Public Buildings—Construction and Repairs...	110,000 00
Roads and Avenues.....	60,000 00
Salaries—Street Department.....	76,000 00
Stationery and Blank Books.....	25,000 00
Street Improvements.....	16,000 00
Supplies for, and Cleaning Public Offices.....	35,000 00
Supplies for Police Department.....	20,000 00
Wharves, Piers and Slips.....	239,000 00
Total	<u>\$1,143,500 00</u>

3. *The Croton Aqueduct Department.*

The following is the estimate for expenditures in this Department:

Aqueduct—Repairs and Improvements.....	\$15,000 00
Belgian Pavement.....	250,000 00
Carried forward.....	<u>\$265,000 00</u>

Brought forward.....	\$265,000 00
Contingencies—Croton Aqueduct Board.....	5,000 00
Salaries—Croton Aqueduct Department.....	29,000 00
Sewers—Repairing and Cleaning	50,000 00
Streets—Repaving and Repairs.....	100,000 00
Water Pipes and Laying.....	116,000 00
Wells and Pumps.....	4,000 00
Total.....	<u>\$569,000 00</u>

4. *The Alms-house Department.*

The estimated expenditures of this Department are as follows:

Alms-house Department	\$639,150 00
Alms-house—Buildings and Repairs.....	107,049 00
Total.....	<u>\$746,199 00</u>

5. *The Law Department.*

For the expenses of this Department, the following appropriations are estimated to be required:

Contingencies—Law Department.....	\$20,000 00
Salaries—Law Department	26,750 00
Total.....	<u>\$46,750 00</u>

6. *The City Inspector's Department.*

The expenses for this Department are estimated as follows:

Abatement of Nuisances.....	\$2,500 00
City Inspector's Department—Contingencies..	18,000 00
Cleaning Markets	8,500 00
Cleaning Streets.....	300,000 00
Salaries—City Inspector's Department.....	88,500 00
Total.....	<u>\$417,500 00</u>

IV. THE BOARD OF METROPOLITAN POLICE COMMISSIONERS.

For the payment of the proportion of the City and County of New York, of the expenses of said Board, the following amounts are estimated to be required:

Fire and Police Telegraph.....	\$6,000 00
House for Detention of Witnesses.....	10,000 00
Police Fund.....	1,205,560 00
Police—Contingencies for the Deputy Superintendent,	5,000 00
Total.....	<u>\$1,226,560 00</u>

V. THE BOARD OF EDUCATION.

The amount of money required to be provided for the government and expenses of said Board, is estimated under the following head:

<i>Common Schools for the City</i>	<u>\$1,314,052 00</u>
--	-----------------------

NOTE.—The above represents the gross amount required by said Board, of which the sum of \$207,332 95, is received from the State as the proportion of this city, of the three-quarter mill State School Tax, and of the Income from the State Common School and United States Deposit Funds, leaving the actual amount to be raised by tax \$1106,719 05. This amount, however, is exclusive of the State Tax for Common Schools, assessed upon the County of New York, amounting to \$399,677 61.

VI. THE BOARD OF HEALTH.

The expenses for objects under the cognizance of said Board, are estimated at the following sums:

Board of Health.....	\$35,000 00
Salaries—Commissioners of Health	4,250 00
Total.....	<u>\$39,250 00</u>

VII. THE FIRE DEPARTMENT.

The expenses for general repairs and maintenance of fire engines and apparatus, including hose, hook and ladder and hose carriages, and all implements appertaining to the same; also for

repairs of engine and other houses, and for supplies for the same, are provided for by appropriations made for the expenditures of the Street Department. The only expenses besides these, are estimated as follows :

Salaries—Fire Department.....	<u>\$38,500 00</u>
-------------------------------	--------------------

VIII. THE BOARD OF ASSESSORS.

The only expenses of said Board, except those provided for by general appropriations or otherwise,* are embraced under the following head :

Salaries—Board of Assessors....	<u>\$7,000 00</u>
---------------------------------	-------------------

IX. THE CITY COURTS.

The expenses of the District (Civil) Courts, and Police District Courts, including the rent of Court rooms and offices, and also the supplies for the same, are all provided for under other heads except the following :

Salaries—City Courts.....	<u>\$88,000 00</u>
---------------------------	--------------------

X. THE SOCIETY FOR THE REFORMATION OF JUVENILE DELINQUENTS.

The amount required to be paid to said Society, annually by the Corporation, in pursuance of chap. 186 of the Laws of 1831, is \$4,000; and the additional amount, in pursuance of a resolution of the Common Council, passed Dec. 26, 1855, is \$4,000, making :.....

	<u>\$8,000 00</u>
--	-------------------

XI. JUDGMENTS. [See Note, p. 12.].....

XII. OLD CLAIMS,.....	<u>\$25,000 00</u>
-----------------------	--------------------

* All expenses for advertising by the Board of Assessors, are chargeable to, and payable from the appropriate Trust Fund, the same being included in the assessments, to defray the cost of the work in relation to which the advertisements are made.

RECAPITULATION.

Showing the Estimated Expenses for the ordinary support of the City Government:

I. THE LEGISLATIVE DEPARTMENT.....	\$193,830 00	
II. THE MAYORALTY.....	23,500 00	
III. THE EXECUTIVE DEPARTMENTS, viz:		
1. <i>The Department of Finance...</i>	\$392,000 00	
2. <i>The Street Department</i>	1,143,500 00	
3. <i>The Croton Aqueduct Department.....</i>	569,000 00	
4. <i>The Alms-house Department ...</i>	746,199 00	
5. <i>The Law Department.....</i>	46,750 00

XI. JUDGMENTS*.....		
XII. OLD CLAIMS.....	25,000 00	
Total.....	\$6,278,641 00	

* No reply having been received to the letter of inquiry addressed to the Corporation Counsel for information upon this subject, no estimate has been inserted under this head. This title of account is intended to embrace claims which are or may be prosecuted to Judgment, and which are not contemplated or provided for by appropriations under some other heads. Judgments recovered against the Corporation which are founded on claims for work payable by assessments, require no appropriation to be made for their payment, the same being payable from the appropriate Trust Funds.

The estimated amount of money required to be appropriated and raised by taxation, for the payment of

INTEREST ON THE CITY DEBT,

is as follows :

Interest on Revenue Bonds.....	\$235,000	00
Interest on Floating Debt Fund Stock*....		
Interest on Central Park Fund Stock of 1887	183,960	00
Interest on Central Park Fund Stock of 1898	36,465	00
Interest on Central Park Improvement Fund Stock of 1887.....	125,000	00
Interest on Public Building Stock, No. 3...	17,500	00
Interest on Public Education Stock of 1873,	7,700	00
Interest on New York City Stock for Docks and Slips.....	25,000	00
Interest on Public Stock for Rebuilding Tompkins Market.....	10,200	00
	<u>\$640,825</u>	<u>00</u>

The amount of money required to be appropriated and raised by taxation for the payment of installments falling due on the principal of the city debt in the year 1860, is as follows :

REDEMPTION OF THE CITY DEBT.

Public Building Stock, No. 3.....	\$50,000	00
Public Education Stock of 1873.....	4,657	36
	<u>\$54,657</u>	<u>36</u>

GENERAL RECAPITULATION.

Showing the total estimated amount of appropriations required to be made for the expenditures of the Corporation for the year 1860 :

For the support of the City Government.....	\$6,278,641	00
For Interest on the City Debt.....	640,825	00
For the Redemption of the principal of the City Debt..	54,657	36
Total.....	<u>\$6,974,123</u>	<u>36</u>

* In case the plan recommended for providing for the floating debt is adopted, the interest payable in 1860, on so much of the stock as may be issued therefor, must be provided for as above.

It has been the practice heretofore for the Common Council to include in their appropriations all expenditures for County purposes, as well as all those relating particularly to the Corporation of the city. The Act, Chap. 590 of the Laws of 1857, changing the organization and manner of electing members of the Board of Supervisors, provided that appropriations for County purposes should thereafter be made by the Board of Supervisors, and paid by warrants drawn on the County Treasurer. This law was not carried into full effect until within the present year, and in accordance with the same, the appropriations for 1860 for County purposes, including the payment of the State taxes, will be made by the Board of Supervisors, and the estimated amount of the same for said year, as submitted to that body by the Comptroller, is \$1,980,000 00.

It has been usual for many years to provide in the annual Tax Levy for a large amount of arrearages,* under which head a great variety of claims were included, having their origin more or less in every Department. In view of the plain and explicit provisions of the Charter, which prohibit the contracting of debts and the incurring of expenses without an appropriation having been first made for the particular objects of such expenses, the propriety of contracting such debts before the necessary appropriations shall have been made therefor, is certainly very questionable, unless some extraordinary emergency should arise which would seem to warrant such proceeding. I have therefore endeavored to impress upon the various officers of the Government the necessity of confining their operations within the limits of the appropriations for the year ; and although unsuccessful to the extent which was desired, it is gratifying to be able to state that the amount of expenses thus incurred in all the Departments during the current year, will probably fall considerably short of \$75,000, for which the Com-

* The amount of appropriations under the head of " Arrearages," during the last seven years, will appear as follows :

1853.....	\$742,157 91	
1854.....	123,770 22	
1855.....	481,612 76	
1856.....	415,932 83	
1857.....	488,370 47	
1858.....	593,966 19	
1859.....	321,001 00	\$3,166,811 38

mon Council will be requested to provide by a special ordinance. In this connection it is but justice to the Street Commissioner to state, that the liabilities incurred for purposes within the cognizance of his department, have, in no case, exceeded the amount of the appropriations for the same. To avoid any serious inconvenience or detriment to the public interests from under-estimates for the annual appropriations in the future, a plan will be suggested in another part of this communication.

RECEIPTS.

The estimated income from the revenues of the Corporation, for the year 1860, besides taxes, and exclusive of those appropriated to the Sinking Funds, and which are applicable to the above stated general purposes of the government, are detailed on page 35, amounting to \$326,482 95.

Assuming that the foregoing estimates are correct, and should the same be adopted by the Common Council, the amount required to be raised by taxation will be \$6,647,640 41, as shown by the following:

Expenditures	\$6,974,123 36
Receipts	<u>326,482 95</u>
Estimated amount required to be raised by taxation.....	\$6,647,640 41

Of this amount, authority is conferred upon the Board of Supervisors, by existing laws, to levy taxes for purposes included in the foregoing estimates, to the amount of \$2,653,611 41, leaving to be yet provided for, by a special law, the sum of \$3,994,029, as detailed on page 37.

The estimated amount required to be raised by taxation, for County and other purposes, as previously stated, (including the additional sum provided to cover deficiencies in the realization of the taxes), is \$1,980,000 00,

Brought forward.....	\$1,980,000	00
The amount to be raised by the same means for the Corporation, as above stated, is	\$6,647,640	41
Add to cover deficiencies arising from errors, abatements and losses	239,359	59 6,887,000 00
Estimated total amount of taxes for State, County, and City purposes, for 1860	\$8,867,000	00
The amount of the Tax Levy for all purposes, in 1859, without any allowance to cover deficiencies therein, was.....	\$9,860,926	09
The estimated amount for 1860, as above, is	\$8,867,000	00
Deduct amount included therein to cover deficiencies	307,920	90 8,559,079 10
Estimated actual decrease in the amount of expenditures to be provided for by taxation in 1860, equal to about fourteen per cent.....	\$1,301,846	99

It will be perceived, that no provision is made in the foregoing estimates for the deficiency in the finances of the Corporation, which is generally known to exist. It is impossible to state, at present, the exact amount of such deficiency. The immense accumulation of business in this department, at the beginning of the present year, requiring immediate attention, and the want of proper facilities, during the greater part of the year, have rendered an extended investigation of the old books and accounts impracticable. Enough, however, has been ascertained, to render it probable, that the aggregate of deficiency and losses will be large; and the question arises, how the same shall be provided for. Shall the whole of the estimated amount be included in the Tax Levy of 1860, or shall it be funded? After careful and serious reflection, and considering the subject in all its bearings, I unhesitatingly recommend that the latter course be adopted. I have, therefore, prepared a draft of a law, which is hereto appended, to be submitted to the Legislature, should it meet your approval, authorizing the creation of a public stock, to be designated the "Floating Debt Fund Stock of the City of New York," for a sum not exceeding

\$3,000,000, to bear interest at the rate of six per cent. per annum, and to be redeemable within twenty years, and paid in annual installments after the year 1864. The annual installments and interest to be provided for by taxation.

The fact of the existence of such deficiency, and the various causes of the same, have already been made known to the Common Council, but a brief reference to the same, here, will not be out of place.

It has long been the practice to levy taxes each year, for the exact amount of the annual appropriations, no allowance being made for deficiencies in the realization of the taxes, which always occur, from over-valuations, and other errors in the assessment, and from abatements and remissions, as well as from losses on personal taxes. The annual deficiency from these causes is estimated to have been about three and one half per cent. of the whole amount of the Tax Levy. Of the whole amount of personal taxes due and unpaid, on the first day of January, 1859, say \$1,744,650, the officers of the Bureau of the Receiver of Taxes estimated, that not more than \$300,000 would ever be collected; which would leave a loss, from this cause alone, of nearly a million and a half of dollars. The draft of a law above-mentioned contains a provision, designed to prevent the recurrence of such deficiency hereafter, from the causes above stated.

The deficiencies in the Trust Accounts, as detailed in my communication to the Common Council, under date of November 17, 1859, (see Board of Councilmen, Doc. No. 16), arising from causes not yet ascertained, amount to nearly half a million of dollars; and other deficiencies, from causes therein stated, amount to nearly a quarter of a million more.

Another large item of deficiency has grown out of the opening, widening and improving of streets. In opening and widening streets, the law provides, that a portion, not exceeding one third of the value of the buildings removed or destroyed, may be assessed against the Corporation. The laws formerly in force provided, that no property should be assessed for benefits in the improvement of streets, for more

than one half (and by a subsequent law, for not more than one third) of the value of the property as assessed for taxes; the remaining cost of such improvement, therefore, fell upon the City Treasury, and so far as has been ascertained, no provision has been made for the reimbursement of the same. The amount of deficiency from these causes, it is estimated, will reach the sum of \$250,000. It is true that the cost of these improvements has all, or nearly all, been paid; but the money so paid was raised for other specific objects, or borrowed upon Assessment Bonds, which are still outstanding, or have been in part paid from moneys raised by taxation, for the ordinary expenses of government.

A large amount of assessments, made prior to January 1st, 1859, upon the real estate owned by the Corporation, remain unpaid, and the remissions by the Common Council, from time to time, of assessments made by their authority, have also caused a deficiency in the Trust Funds, for which no provision appears to have been made. Assessments being always made for the exact amount of the cost of the particular works, it follows, of course, that any remissions, or amounts not realized, must cause a corresponding deficiency in the means wherewith to redeem the assessment bonds upon which the money is raised for executing said works. It is earnestly recommended, that some effective means be provided, to prevent such losses in the future.

A considerable amount of advances, and payments heretofore made to contractors on the public works, have been, and will be lost by the proceedings which have been instituted for the vacation of the assessments made to reimburse the same, on the ground of irregularity and fraud in the contracts therefor; but the aggregate sum cannot now be stated. Other losses have arisen from payments made upon fraudulent certificates of inspectors, certifying to the performance of work which was never done, and from alleged payments made for work not authorized, and for which no contracts were made, which amounts cannot, therefore, be included in assessments.

It has been suggested, but is not warranted by ascertained facts, that the deficiencies and losses accruing from the foregoing and other causes, have, to some extent, been made good, by a gain from merging a portion of the unexpended appropriations remaining at the end of

each year, into a general fund. It is found, that no accounts were opened with the appropriations made. Such appropriations were not regarded, or treated in the accounts, as debts to be paid; neither were the taxes levied to pay such appropriations treated in the accounts as assets. All moneys expended were charged to accounts corresponding to the titles of the appropriations, and such accounts were, at the end of each year, carried to "Profit and Loss" account. The receipts from taxes were credited to "Taxes" of each year, and at the end of the year, carried to the credit of "Profit and Loss;" and the balance remaining, after such entries were made, either to the debit or credit of "Profit and Loss," was transferred to an account entitled "The City and County of New York." This last-mentioned account exhibited a debit balance on the 31st December, 1858, according to the old general ledger, of \$1,159,304 01, which, as an asset, is not likely to prove available for the payment of debts. There has, however, been some gain from the source above-mentioned; but the amount has been absorbed by the losses from the defalcations of various collectors of the revenues of the Corporation, and by the sums advanced for the purchase of lands sold for assessments.

Three or four years will probably have elapsed before all of the losses to the treasury will have been developed, inasmuch as many of the items of assessment now apparently due to the city, and counted among the assets, have no doubt been actually collected; and proceedings now pending to vacate other assessments will hardly be determined within that time. The suits brought against the Corporation, based on fraudulent contracts and claims, will also require much time in their litigation and final disposition. For these reasons, it is proposed not to pay any installments on the principal of the stock, which is recommended to be issued for funding these debts, before the year 1865, by which time it is presumed that the whole amount of the debts to be funded will have been ascertained. Meanwhile the interest on said stock, or so much thereof as may be issued from time to time, is to be provided for by taxes.

The Tax Law, passed in each year, contains a provision restricting the the expenditure of the money to be raised, to the particular objects and

purposes specified in the appropriations. This restriction is, no doubt, entirely proper; but it sometimes occurs, from want of proper care in making the estimates upon which the appropriations are based, that an insufficient amount is provided for some purposes, and for others, a larger sum is appropriated than is required. Under the restrictive provision referred to, no remedy is afforded, in cases where a failure of the appropriation prevents a necessary expenditure, for any injury which the public interests may sustain. It is, therefore, deemed expedient that authority shall be given to the Common Council, under certain conditions, to transfer, by resolution or ordinance, from appropriations in excess of probable expenditures to be made under them, to those in which there may be a deficiency, such sum or sums as may be deemed expedient. A clause to this effect has accordingly been inserted in the draft of the tax law for 1860.

In view of the increase, not only in the amount, but also in the rate of taxation, for many years, and of the complaints which it has occasioned on the part of our citizens, and also of the generally prevalent expectation that the upward tendency of the rate of taxation has reached its maximum, every new item of expenditure and every increase in amounts heretofore appropriated to specific purposes, should be carefully scrutinized, and well considered, before they are adopted. In preparing the estimates, the Comptroller has endeavored to make them adequate to the probable wants of the government; and whilst he has endeavored to guard against extravagant expenditure, he has also aimed to avoid an unwise parsimony.

In his last annual report to the Common Council, the Comptroller recommended that means be taken to procure a change in the law, so that the valuation of property should be completed and submitted to the Board of Supervisors as early as the first of February in each year, and that the tax books should be duly prepared and delivered to the Receiver by the first of April thereafter. Such an arrangement would enable the treasury to realize the proceeds of the Tax Levy several months earlier than the money can be collected under the existing law, and would save the Corporation the interest upon a large amount of money which is annually borrowed, in anticipation of the receipt of the

taxes, to carry on the government. The proposed change is again urgently recommended to your Honorable Bodies for your action thereon.

In conclusion, the Comptroller would strongly urge upon your Honorable Bodies the importance of immediate action in making the necessary appropriations for the coming year. If the required ordinance is passed before the first of January, the draft of the necessary Tax Law can be submitted to the Legislature immediately after the assembling of that Body, and will be more likely to be acted upon early in the session than if postponed to a later period. If the appropriations are delayed beyond the first of January, it will probably be several weeks before they are passed, and a corresponding delay will be caused in the action of the Legislature:--all of which delays, as experience has shown, seriously retard and embarrass the operations of the government.

Respectfully submitted,

ROBT. T. HAWS,
Comptroller.

EXPENDITURES.

AN ESTIMATE OF THE AMOUNT OF MONEY WHICH WILL BE REQUIRED TO DEFRAY
THE EXPENSES OF THE SUPPORT OF THE GOVERNMENT OF THE CITY OF NEW
YORK, TO PAY THE INTEREST ON A PORTION OF THE CITY DEBT, AND THE AN-
NUAL INSTALLMENTS OF THE PRINCIPAL OF SAID DEBT, FOR THE YEAR 1860.

Corporation of the City of New York.

DETAILED FINANCIAL ESTIMATES

FOR 1860.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, September 19th, 1859.

[CIRCULAR.]

*To the Heads of the several Departments
and Branches of the City Government:*

The 31st section of the amended charter of 1857, provides as follows:—

“Annual and occasional appropriations shall be made by proper ordinances of the Common Council for every branch and object of city expenditure; and no money shall be drawn from the City Treasury, except the same shall have been previously appropriated to the purposes for which it is drawn.”

A previous section of the same act (the 22d) also provides that—

“No warrants shall be paid by the Chamberlain, on account of any appropriations, after the amount authorized to be raised by tax for that specific purpose shall have been expended.”

The 20th section of the Ordinance to Reorganize the Finance Department of the City of New York, approved Dec. 31, 1857, makes it the duty of the Comptroller—

“To submit to the Common Council, on or before the first day of November in each year, a detailed estimate of the receipts and expenditures for the year, commencing on the first of January following, in order that the annual appropriations may then be made; and also an estimate of the probable amount of tax that may be required for the year, commencing on the first of January following, with the draft of an act authorizing the raising of such tax, in order that an application may be made to the Legislature for authority to levy the same.”

To enable the Comptroller to prepare the estimates required from him as above, he respectfully solicits from the heads of departments, and others, statements in detail, of the probable expenses of conducting the branches of the public business with which they are severally charged, during the ensuing year, which expenses are payable from the City Treasury, and required to be provided for in the annual tax levy, such statements to be rendered on or before the 15th of October.

It being desirable that the detailed statements now called for shall be made out in a uniform manner, it is requested that a complete list of the officers and clerks of each department who receive compensation for their services, established by resolution or ordinance of the Common Council, may be furnished in the following order—

1. The office or bureau in which the officer or clerk named is employed.
2. The title, or official designation of the officer or clerk.
3. The name of the incumbent of the office or clerkship.
4. The amount of salary, with a brief reference to the ordinance authorizing the same.

Expenditures, other than for salaries, should be detailed under the titles of the bureaux in which they are to be made.

In view of the constant increase in both the rate and amount of taxation, to which the inhabitants of our city have been subjected for several years past, and which has

afforded just cause of complaints on the part of tax payers, it is particularly requested, that all items of expenditure in the various Departments, which, in the judgment of the respective heads thereof, can be dispensed with, without detriment to the public interest, may be omitted in the estimates for the coming year.

The Comptroller is confident that the general expectation of our citizens, that the continued annual increase in their public burdens will be checked, is appreciated by all the Executive Departments, and he is therefore well convinced that a ready and hearty co-operation will be given by them in all proper efforts to secure, as far as may be in their power, a more economical administration of the City Government.

The statements of expenses now called for, relate only to those for the support of the City Government. The disbursements on Trust and Special Accounts are not to be included therein.

The Comptroller being required to submit a detailed estimate of the receipts of the Corporation, the several departments are respectfully requested to furnish statements of the probable income from the various sources of the city revenue under their charge, respectively, with the same minuteness of detail as required in the statements of expenditures.

Very respectfully,

ROBERT T. HAWS, *Comptroller.*

CORPORATION OF THE CITY OF NEW YORK.

Respectfully submitted,

WM. ALLEN, *Clerk to Comptroller.*

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
BUREAU OF DEPOSIT AND DISBURSEMENT,
CHAMBERLAIN'S OFFICE,
New York, November 3d, 1859.

Hon. ROBT. T. HAWS, *Comptroller:*

DEAR SIR:—Yours of the 19th September is at hand. In answer, I offer the following as the amount necessary to pay the expenses of this office:

Salary of Chamberlain	\$500 00
Salary of 1st Clerk.....	1,500 00
Salary of 2d Clerk	1,200 00
Salary of Paymaster's 1st Clerk.....	1,500 00
Salary of Paymasters 2d Clerk.....	1,200 00
Total.....	<u>\$5,900 00</u>

Yours, respectfully,

A. V. STOUT, *Chamberlain.*

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
BUREAU OF RECEIVER OF TAXES, October, 1859.

ROBT. T. HAWS, Esq., *Comptroller:*

DEAR SIR:—In reply to your circular of the 19th September, I would respectfully state that the estimate for the expenses of this Bureau for the year 1860, is as follows, viz:

James Kelly, Receiver of Taxes	\$3,000,	Res. B'd Sup's Dec. 14, 1853.
John P. Hone, Deputy do	2,500,	Do do do.
A. Vredenburg, 1st Clk & Bookk'r.....	2,000,	Do do Dec. 26, 1856.
N. D. Thayer, 2d Clerk.....	1,200,	Do do Dec. 14, 1853.
James S. Combs, 3d Clerk	1,200,	Do do do.
Henry B. Cook, 4th Clerk	1,200,	Do do do.
W. G. McLaughlin, 5th Clerk	1,200,	Do do do.
J. H. Howard, 6th Clerk.....	1,200,	Ord. Reg. F. Dep. Dec. 31, 1857
J. S. Vredenburg, 7th Clerk.....	1,200,	Do do do.
Peter Fargis, Messenger	700,	Res. B'd Sups. Dec. 14, 1853.
J. J. Dickinson, Assis't, \$2 50 p. day.....	780,	Do do do.
8 extra clerks, for six mo. \$3 per day.....	3,760,	Revised Ord. 1859.
Total.....	\$19,940	

It will be perceived that the above estimate is similar to that for the year 1859. It will also appear from former estimates of the expenses of this bureau, and the number of clerks employed, that little if any difference is exhibited for the past nine years, while the amount of taxes, and consequently the amount of work has very materially increased, there now being ten millions of dollars to collect in place of three millions in 1850.

There are twenty-six Ward Books, besides the Ledger and Day Books, to be kept, and the number of items to post is now over 125,000.

Bearing 'in mind your instructions for the strictest economy in all the departments, contained in your circular of January 21st, 1859, it is with reluctance that the undersigned recommends any additional expenditure, and would not do so if the increase of labor and the convenience of tax payers did not demand it. I am however constrained to recommend that two more permanent clerks be appointed in this Bureau.

Respectfully,

JAMES KELLY, *Receiver of Taxes.*

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
BUREAU OF ARREARS—OFFICE OF THE CLERK OF ARREARS,
November 15, 1859.

R. T. HAWS, Esq., *Comptroller:*

SIR:—Under the authority of the act of April, 1843, section 1, which provides that the Comptroller and Street Commissioner may bid in lands sold for taxes and assessments, and shall execute a lease therefor, and may assign any of such purchases within one year from sale at seven per cent. interest, &c., and which powers and duties were by the act of July 20, 1853, organizing the Bureau of Arrears, transferred to the Clerk of Arrears, the undersigned at the recent sale for taxes, bid in, for the Corporation of the

city of New York, certain lands and tenements, amounting in the aggregate, to the sum of \$14,722 40.

The sale at present in progress, will probably increase this sum to \$18,000.

It is proposed that another sale for taxes, and also a sale for assessments be held in the year 1860, at which it will no doubt be necessary to bid in a large amount for the Corporation, especially at the sale for assessments.

I estimate the appropriations necessary, as follows, viz:

For lands purchased for taxes, in 1859.....	\$18,000
“ “ “ 1860.....	20,000
“ for assessments, 1860.....	75,000

Respectfully,

JOS. C. PINCKNEY, *Clerk of Arrears* .

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
BUREAU OF ARREARS—OFFICE OF CLERK OF ARREARS,
November 21, 1859.

ROBERT T. HAWS, Esq., *Comptroller*:

DEAR SIR:—The following approximate statement shows the condition of the fund heretofore provided for the payment of certain expenses in this Bureau, and an estimate of the amount of such expenditures for the year 1860:

	Charges on Arrears of Taxes.	Charges on Arrears of Assessments.
Unexpended balances remaining December 31, 1858.....	\$4,760 00	\$2,950 25
Additional amount appropriated in 1859.....	5,000 00	5,000 00
	<u>\$9,760 00</u>	<u>\$7,950 25</u>
The Expenditures in 1859, have thus far amounted to.....	\$3,739 17	\$3,705 11
And the Receipts, being for collections on account of expenses of sales for Taxes.....	2,435 19	50 60
Excess of Expenditures beyond Collections.....	1,303 98	3,654 51
Balances unexpended.....	<u>\$8,456 02</u>	<u>\$4,295 74</u>

I am of the opinion that these balances, with but small additions thereto, will be sufficient for the ensuing year.

Respectfully,

J. C. PINCKNEY, *Clerk of Arrears*.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
BUREAU OF THE COLLECTION OF CITY REVENUE,
New York, November, 1859.

STREET DEPARTMENT.

STREET COMMISSIONER'S OFFICE,
New York, 15th October, 1859.

ROBT. T. HAWS, Esq., *Comptroller*:

SIR:—In accordance with your request conveyed in your circular of September 19th, I have the pleasure to transmit herewith estimates of the probable expenses for the year 1860, of the following named bureaux in the Street Department, viz:

Street Improvements.	Lands and Places.	Wharves.
Repairs and Supplies.	Lamps and Gas.	Roads.
Repairs and Supplies, Deputy Superintendent.		

No estimate has been received from the Bureau of the Chief Engineer of the Fire Department, although one was requested.* The amount asked for last year, was \$75,625. These estimates were made by the various superintendents with as much accuracy as the data before them would allow. No perfectly accurate estimates can be made until it is definitely known what work is to be done.

I also enclose list of officers and clerks in this department, who receive compensation for their services, established by Common Council.

It was my intention to have seen and conferred with you before forwarding these documents, but the pressure of business has prevented. I shall be glad to do so, however, whenever it will best suit you.

Respectfully,
G. W. SMITH, *Street Commissioner*.

* See page 69.

List of Officers and Clerks in the Street Department, together with the Amount of Salary paid to each, as fixed by ordinance of the Common Council, approved, January 4th, 1859.

STREET COMMISSIONER'S OFFICE.

GUSTAVUS W. SMITH, Street Commissioner	\$5,000 00

Total.....	<u>\$75,770 00</u>
------------	--------------------

CITY OF NEW YORK—STREET DEPARTMENT,

BUREAU OF STREET IMPROVEMENTS.

OFFICE OF SUPERINTENDENT OF STREET IMPROVEMENTS,

New York, October 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR:—The following are the estimated expenses of this Bureau, for which provision is required to be made in

The Tax Levy of 1860.

For flagging sidewalks and fencing vacant lots, under ordinances of the Common Council.....	\$10,000 00
For resetting Monument stones.....	6,000 00
For preliminary surveys and maps.....	5,000 00
For repairs of sidewalks in front of city property.....	5,000 00
Carried forward.....	<u>\$26,000 00</u>

Brought forward.....	\$26,000 00
For street signs and numbers.....	10,000 00
For contingent expenses of Bureau of Street Improvements.....	1,500 00
Total.....	<u>\$37,500 00</u>

E. EWEN,

Superintendent Street Improvements.

Remarks by the Comptroller.—In addition to the above items, Mr. Ewen, has furnished an estimate of expenditures to be made under his Bureau, upon *Trust Accounts*, amounting to \$1,325,800, which are omitted, no formal appropriations therefor being deemed necessary. The expenses of flagging sidewalks and fencing vacant lots under ordinances of the Common Council, are recoverable from the owners of the adjacent property benefited thereby, and therefore payable from the Trust Funds; but inasmuch as many of the jobs amount to but small sums, in order to avoid the great additional expense of advertising and preparing formal assessments for such work, upon the suggestion and request of the Street Commissioner, the sum of \$2,500 is inserted in the proposed ordinance to constitute a fund for the payment for such small jobs; the same to be collected back by the Corporation.

The expenses for preliminary surveys, including advertising and maps, so far as the same are or may be properly chargeable to and included in the assessments for the proper works, after the same shall have been executed, should be paid from the "Street Improvement (Trust) Fund." Such surveys will doubtless be ordered, in some cases, long before the improvement will be made, and perhaps, in some instances, the proposed improvement may never be carried out. In such cases, after waiting a reasonable time, provision can be made for the reimbursement of such expenses to the Trust Fund by taxation.

The only special provision necessary to be made by taxation for the purposes above-named, is embraced in the appropriation proposed for "Street Improvements." See page 33.

CITY OF NEW YORK—STREET DEPARTMENT,
BUREAU OF WHARVES,
New York, September 30th, 1859.

G. W. SMITH, Esq., *Street Commissioner* :

SIR:—After a careful and laborious inspection into the condition of the Wharves, Piers and Slips under my charge, at the present time, and as near as lies in my power to determine, I have prepared an estimate of the cost of repairing and rebuilding the piers, and of dredging the various slips belonging to the city, making, at the same time, some provision for contingencies that may arise.

The following piers require immediate attention, many of them being in a dangerous condition, while upon others, should an early and judicious expenditure be made, they will be better able to resist the action of the elements, and thereby save the city the necessity of resorting to larger outlay of money to secure them safety and permanence:

Piers that want Repairs.

Pier 33, North river, wants mooring piles, backing pieces and sheathing repairs.....	\$1,000 00
Pier 23, North river, wants fendering and surface repaired.....	600 00
Pier 20, North river, wants fendering, mooring piles, sheathing and backing pieces.....	1,200 00
Carried forward.....	<u>\$2,800 00</u>

Brought forward.....	\$2,800 00
Pier 18, North river, wants piles on the under side secured.....	250 00
Pier 14, North river, wants fendering, mooring piles, backing pieces and surface repaired.....	1,300 00
Pier 13, North river, wants fendering	250 00
Pier 12, North river, surface repaired, fenders and backing pieces.....	350 00
Pier 45, North river, wants fendering and surface repaired.....	500 00
Pier 41, North river, surface repaired	400 00
Pier 38, North river, surface repaired and backing pieces.....	500 00
Pier 52, North river, wants fendering, backing and sheathing repaired....	1,000 00
Pier Thirty-ninth street, North river, wants fendering, mooring piles and backing pieces.....	500 00
Pier 2, East river, wants the surface repaired and backing pieces the entire length.....	1,100 00
Pier 7, East river, wants fendering.....	250 00
Pier 8, East river, wants fendering	300 00
Pier 12, East river, wants mooring piles, the surface repaired	700 00
Pier 15, East river, wants fendering and the corner bands repaired	250 00
Pier 18, East river, wants fendering, mooring piles and corner bands	500 00
Pier 19, East river, wants fendering and the corner bands, mooring piles and backing pieces on the Corporation side.....	700 00
Pier 24, North river, wants fendering	250 00
Pier 32, North river, wants fendering	250 00
Pier 35, North river, wants repairs on the under side and the surface sheathed.....	600 00
Pier 44, North river, wants fendering	250 00
Pier 55, North river, wants fendering and backing pieces	250 00
Bulkhead foot of Rivington street	500 00
Pier Twenty-sixth street, North river	700 00
Pier Sixty-first street, North river, wants fendering and corner bands. [This pier is claimed as private property, by Mr. Towle.].....	250 00
Pier One hundred and twentieth street, North river. [This pier wants filling in between the street and the pier]	250 00
Bulkhead foot of Delancey street, wants fendering and mooring piles	250 00

Total amount of small repairs \$15,200 00

Piers on the East River that want Rebuilding.

Half of Pier 4.....	3,000 00
Half of Pier 6	3,000 00
Pier 20.....	3,000 00
Pier 21.....	4,500 00
Pier 22.....	4,500 00
Half of Pier 23	3,500 00
Half of Pier 25.....	2,000 00

Carried forward..... \$23,500 00

Brought forward.....	\$23,500 00
Half of Pier 29.....	3,125 00
Pier 30.....	4,000 00
Pier 31.....	3,500 00
Pier 34.....	4,600 00
Pier 43.....	7,500 00
Half of Pier 53.....	1,500 00
Half of Pier 54..	1,500 00
Short pier on north side of Grand Street ferry, half.....	1,000 00
Pier 61.....	3,800 00
Pier Twenty-third street	3,000 00
Pier Twenty-fifth street	5,000 00
Pier Twenty-eighth street	4,300 00
Pier Eighty-sixth street, south side of ferry slip, wants rebuilding on the north side; wants raising, fendering and filling in	2,500 00
Pier Thirty-eight street, wants rebuilding and filling in with grade of the street	1,500 00
Bulkhead foot of Seventeenth street, on the side of the street, wants rebuilding	2,000 00
Amount for Rebuilding on East river	<u>\$90,325 00</u>

Piers that want Rebuilding on the North River.

Pier 36.....	\$6,800 00
Pier 37.....	7,250 00
Pier 39.....	4,500 00
Pier 40.....	5,000 00
Pier 42.....	2,500 00
Pier 43.....	8,500 00
Pier 46.....	3,000 00
Pier 47.....	5,400 00
Pier 48.....	6,500 00
Pier 49.....	5,400 00
Pier 50.....	6,000 00
Pier 53.....	7,500 00
Pier 54.....	5,300 00
Pier Seventeenth street	4,500 00
Pier Eighteenth street	4,000 00
Pier Twentieth street.....	3,250 00
Pier Twenty-second street.....	3,250 00
Pier Twenty-sixth street, has been filled in on one side; wants a new pier. The old one is in a dangerous condition.....	3,000 00
Total for Rebuilding on the North river.....	<u>\$91,650 00</u>
Dredging various slips will require	\$40,000 00
Raising vessels	2,000 00
For new work.....	75,000 00

RECAPITULATION.

Small Repairs.....	\$15,200 00
Rebuilding Piers—	
East river.....	\$90,325 00
North river.....	91,650 00
	<hr/> 181,975 00
Dredging various Slips.....	40,000 00
Raising Sunken Vessels.....	2,000 00
For new work.....	75,000 00
	<hr/>
Total Amount of Appropriation.....	<u>\$314,175 00</u>

All of which is respectfully Submitted,

B. KELLY, *Supt. Wharves.*

Remarks by Comptroller.—No "New Work," having been ordered by the Common Council there seems to be no necessity for the item of \$75,000 included in the above estimate, and the same is therefore left out of the appropriation for "Wharves, Piers, and Slips," which appropriation of \$239,000 is deemed sufficient for all purposes required under this head.

CITY OF NEW YORK—STREET DEPARTMENT,
BUREAU OF LANDS AND PLACES,
New York, October 3, 1859.

G. W. SMITH, Esq., *Street Commissioner:*

SIR:—In compliance with your request for an estimate of expenditures necessary for the Bureau of Lands and Places for the year 1860—I report as follows:

1. *The Battery*—The railing requires painting; there are also many dead trees that will have to be removed and replaced by new ones in the spring, which, with keeping it in order, making all repairs, including laying out the newly made ground, will cost about \$6,000 00
 2. *The City Hall Park*—The railing needs painting and the flags to be raised and relaid. Gutters or drains should be made, and new trees set out in place of dead ones. This, with the expense of keeping it in good order, is estimated at..... 2,500 00
 3. *Union Square*—The railing needs painting, also some drains and gutters wanted, flags relaid; some trees and shrubs needed; next spring the walks will need dressing, which, with the labor to keep it in order and make those improvements for the year 1860, will need about..... 1,500 00
 4. *Washington Square*—The railing needs painting, some new flagging will be required, and the walks will have to be put in order next spring. There is also some dead trees to be removed and new ones planted, which, with the necessary labor, will cost about..... 2,000 00
- Carried forward..... \$12,000 00

Brought forward,	\$12,000 00
5. <i>East and West Stuyvesant Parks</i> —Require the railing to be painted, some drains and gutters to be made to protect the walks, several new trees inside and outside; the walks should be dressed—this, with the labor for the year, is estimated at one thousand dollars each, together	2,000 00
6. <i>Madison Square</i> —Will need gutters and drains, and some trees, shrubs, &c., which, with the necessary labor, will cost about	3,000 00
7. <i>Reservoir Square</i> —Will require to be painted, the park properly graded and laid out, new trees and shrubs set out. Estimate	3,000 00
8. <i>Fourth Avenue Park, Thirty-fourth to Thirty-eighth street</i> —For laying out this park, planting trees and shrubs, and furnishing all necessary materials—estimate	5,000 00
9. <i>Mount Morris Square</i> —To laying it out as a park, with trees and shrubs, and keeping it in order—cost about	2,000
10. <i>Five Points Park</i> —This has become a common, needs an iron railing, some trees, which, with the labor for the year, will cost about	4,000 00
11. <i>Third Avenue, One hundred and twenty-third street Park</i> —The walks need grading, the railing to be painted, some seats needed, new trees and shrubs will be required. Estimate	550 00
12. <i>Abingdon Park</i> —The railing needs painting, some new trees and shrubs will be required. Estimate	350 00
13. <i>Christopher Street Park</i> —The railing needs painting, and some trees and shrubs are wanted, at a cost of	250 00
14. <i>Duane Street Park</i> —The railing needs painting, some shrubbery, &c., will be required at a cost of	250 00
15. <i>West Broadway Park</i> —The railing needs painting; some trees and shrubs required	200 00
16. <i>Third Avenue and Seventh Street</i> —The railing needs painting; some trees and shrubs are wanted, which, with labor, will cost	600 00
17. <i>Worth Monument Park</i> —In this Park nothing has been done; it needs a railing, and to be laid out in good style; it will require some trees and choice plants and flowers, the walks laid out with and filled with white gravel; this, with the labor will cost about	800 00
18. <i>Tompkins Park</i> —Needs iron railing around the fountain, and drains and gutters sufficient to carry water off a space of ten and a half acres; a number of trees and shrubs; some sods for the borders will be required. Estimate	5,000 00
Total	<u>\$39,000 00</u>

The estimates given are as accurate as possible. You can see by my report that the expenditures are principally for labor; a great deal of money is needed for materials in the various parks; by having sufficient to build drains and gutters, they will last for years, but it will be a saving to the city.

Total estimate.....\$39,000

Very respectfully,

THOMAS BYRNES,
Superintendent Lands and Places.

Remarks by Comptroller.—The Street Commissioner concurs with the Comptroller in the belief that the following reductions may be made in the above estimate:

1. The Battery.....	Dedaction, \$4,000 00
8. Fourth Avenue Park.....	" 5,000 00
9. Mount Morris Square.....	" 2,000 00
10. Five Points Park.....	" 3,500 00
14. Duane Street Park.....	" 250 00
15. West Broadway Park.....	" 200 00
18. Tompkins Park.....	" 3,000 00
Total.....	<u>\$17,950 00</u>

The general appropriation of \$21,000, under the head of "Lands and Places," is deemed sufficient for all the above purposes.

CITY OF NEW YORK—STREET DEPARTMENT,
BUREAU OF ROADS, October 1st, 1859.

Estimate of the amount of money required by the Bureau of Roads, for the year ending 31st December, 1860.

For Bloomingdale and Kingsbridge roads.....	\$30,000 00
For Third avenue.....	25,000 00
For Second avenue.....	15,000 00
For Roads and Avenues.....	30,000 00
Total.....	<u>\$100,000 00</u>

All of which is respectfully submitted,

H. L. SOUTHARD,
Superintendent of Roads.

Remarks by Comptroller.—By the above it will be seen that \$25,000 is asked for the Third avenue. The rapid improvements on this avenue, below Yorkville, appear to require its pavement permanently within a year or two, and a much smaller amount will in my judgment suffice to keep it in repair, meanwhile. I do not see the necessity of \$30,000 for Roads and Avenues generally, besides the large sum of \$15,000 put down for the Second avenue and Bloomingdale and King's Bridge roads, the latter being the roads now generally used. I therefore estimate that the sum of \$30,000 will be sufficient for all the above purposes.

CITY OF NEW YORK—STREET DEPARTMENT,
BUREAU OF LAMPS AND GAS,
New York, Oct. 1, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR:—In compliance with your request of September 3d, I herewith transmit estimate of appropriations required for this Bureau, for the year 1860.

You will see that there is an increase in this estimate over the appropriation of 1858, as also over my estimate for the current year. This is caused by the large number of lamp-posts which have been fitted up, with the additional number required to comply with the resolutions of the Common Council.

Should the award of contract for one thousand lamp-posts not be confirmed in time for the contractor to receive his pay for the same out of the appropriation for 1859, then there will be required, in addition to this estimate, a re-appropriation sufficient to cover the cost of said posts; also, a re-appropriation to cover the cost of the lamp-irons now under contract.

Very respectfully, &c.,

WILLIAM GAYTE,
Superintendent of Lamps and Gas.

ESTIMATE OF APPROPRIATIONS REQUIRED FOR THE BUREAU OF LAMPS AND GAS,
FOR THE YEAR 1860.

1000 Lamp irons.....	1,000 00	
Cartage.....	1,000 00	<u>\$488,488 00</u>

Remarks by Comptroller.—The appropriation under the head of “Lamps and Gas,” for 1859, being largely in excess of the expenditure, and the expense of lighting the City Prisons being provided for in the estimate for the “Alms House Department,” and the contract for repairing and reglazing the public lamps having been taken for \$3,700, I estimate that the sum of \$424,000 will amply suffice for the above named purposes.

CITY OF NEW YORK—STREET DEPARTMENT,
OFFICE OF SUPERINTENDENT OF REPAIRS AND SUPPLIES,
New York, September 30th, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR:—In compliance with your directions of the 3d inst., I herewith transmit a detailed statement of the amount required for the Construction and Repairs to Public Buildings, for the ensuing year:

Ordinary repairs to Public Buildings.....	50,000 00
Repairs and improvements to Fulton market	10,000 00
Do. do Washington market.....	10,000 00
Building Station-house for Seventh Precinct, as per resolution of Common Council, November 30, 1858.....	12,000 00
Alterations and additions to the following Station-houses, viz: 2d, 3d, 5th, 6th, 9th, 11th, 12th, 13th, 14th, 16th, 17th, 18th and 20th Precincts, as per resolutions of the Common Council, approved November 30, 1859..	17,150 00
Building Areas and general repairs to City Hall	10,000 00
Total.....	<u>\$109,150 00</u>

Not knowing what the Common Council may resolve to have done, it is impossible to form an accurate estimate, at this early day, of the amount of money that will be required; but from the present condition of the public buildings, I think the amount herein stated will be sufficient for all ordinary purposes.

Respectfully yours,

JONATHAN PURDY,

Supt. Repairs and Supplies.

Remarks by Comptroller.—Upon consultation with the Street Commissioner, the above estimate has been changed by taking \$5,000 from the amount for repairs of Washington market, and adding the same to the item for general repairs of Public Buildings, making no change in the aggregate.

CITY OF NEW YORK—STREET DEPARTMENT,
BUREAU OF REPAIRS AND SUPPLIES,
OFFICE OF DEPUTY SUPERINTENDENT,
New York, October 1st, 1859.

Estimates for the year 1860.

Printing for Departments.....	\$35,000 00
Stationery.....	25,000 00
Advertising.....	15,000 00
Fuel, stoves, &c.....	15,000 00
Furniture, and books for public offices.....	20,000 00
Carried forward.....	<u>\$110,000 00</u>

Brought forward.....	\$110,000 00
Cleaning and lighting City Hall and Park Buildings.....	7,500 00
Supplies for Police Department.....	20,000 00
Contingencies, this Bureau.....	25,000 00
Total.....	<u>\$162,500 00</u>

JOHN RICHARDSON,

Deputy Superintendent Repairs and Supplies.

Remarks by Comptroller.—Upon advising with the Street Commissioner, it has been concluded that the sum of \$20,000 would be sufficient for all printing required by the Executive Departments and the City Courts.

The item of \$25,000 for "Contingencies" in this bureau has been stricken out, and provision made for the same, under the general appropriation of "Contingencies, Street Department."

The above estimate for "Fuel stoves,, furniture, cleaning, lighting, &c., has been reduced from \$42,500, to \$35,000 which latter sum is provided for under the head of "Supplies for, and Cleaning Public Offices."

The above item for "Advertising," has been stricken out, the same being provided for under the head of "Contingencies" in the several departments. All accounts for advertising will be rendered to, and certified by the head of the department authorizing the same, and paid by the Comptroller, upon the requisition of such officer.

STREET COMMISSIONER'S OFFICE,
New York, November 12, 1859.

ROBERT T. HAWS, Esq., *Comptroller*:

SIR:—Herewith I transmit copy of a statement of the probable amount that will be required to supply new and keep the fire apparatus in repair as made by Henry H. Howard, Esq., Chief Engineer, Fire Department, and this day received at this office, amounting in the aggregate to sixty thousand dollars (\$60,000.)

In view of the appropriation for "Fire Department" being already exhausted, and there being many items apparently not considered in the estimate of the Chief Engineer, I have to adhere to the amount of estimate (previously transmitted) of \$75,000, for that appropriation.

Respectfully,

G. W. SMITH, *Street Commissioner*.

(Copy.)

OFFICE CHIEF ENGINEER FIRE DEPARTMENT,
New York, October 25, 1859.

G. W. SMITH, Esq., *Street Commissioner*:

SIR:—I herewith transmit a statement of the probable amount that will be required to supply new and keep the apparatus and implements of the Fire Department in repair for the year 1860, viz:

New hose required.....	\$15,000 00
New apparatus do. and general repairs to apparatus.....	20,000 00
Wages for repairing and greasing hose, &c.....	10,000 00
Cartage.....	3,000 00
Arrearages for work ordered by the Common Council of 1859, and which was not in the Tax Levy, for 1859.....	12,000 00
Total.....	<u>\$60,000 00</u>

Respectfully submitted,

HENRY H. HOWARD,
Chief Engineer, Fire Department.

CROTON AQUEDUCT DEPARTMENT.

CITY OF NEW YORK—CROTON AQUEDUCT DEPARTMENT,

October 15, 1859.

To ROBERT T. HAWS, Esq., *Comptroller*.

In compliance with your circular instructions, the Croton Aqueduct Board returns estimates of the receipts of the department for the year 1860, also estimates of the expenses which will be incurred and "which are required to be provided for in the Annual Tax Levy," and "are payable from the city treasury;" also a list of the officers and clerks of the department and their salaries, with a reference to the authority by which they were fixed.

The appropriation for Aqueduct Repairs and Improvements, is for the necessary repairs to the aqueduct and fencing along the line. The Water Purveyor's communication, hereto annexed, will give you the items (except salaries) for which the several sums are asked.

Estimates of Receipts for the year 1860.

CITY OF NEW YORK—CROTON AQUEDUCT DEPARTMENT.
BUREAU OF PIPES, SEWERS AND PAVEMENTS,
OFFICE OF THE WATER PURVEYOR.
October 15, 1859.

To the Croton Aqueduct Board:

GENTLEMEN:—The Water Purveyor herewith respectfully submits the following estimate of the appropriations that will be required for the use of this bureau, during the year commencing January 1st, 1860, arranged under the following heads of expenditure, viz:

Street Expenses and Paving.....	\$120,000 00
Sewers, Repairing and Cleaning, including reconstructions.....	51,000 00
Wells and Pumps and Repairing.....	4,000 00
Water Pipes and Laying.....	120,000 00
	<u>\$295,000 00</u>

Trap Block Pavement, being for work ordered by the Common Council... \$300,000 00

Statements in detail, so far as the same are practicable, are appended under the several heads of expenditure.

Street Expenses and Paving.

Under this head it is estimated that there will be required for the purchase of materials and for general repairs to street pavements, the sum of... \$120,000 00

Sewers, Repairing and Cleaning.

For the general repairing and cleaning of sewers, receiving basins and culverts, there will be required..... \$25,000 00

For rebuilding the sewers in Ninth avenue, from Fortieth street to and through Thirty-ninth street to Eighth avenue, and in Eighth avenue, from Thirty-fifth to Thirty-ninth street, as per resolution of the Common Council..... 15,000 00

And for rebuilding sewer in Thirty-first street, between Lexington and Madison avenues, and in Thirty-third street, between First and Second avenues, under resolution of the Common Council..... 11,000 00

Total..... \$51,000 00

Wells and Pumps and Repairing.

For repairs to wells and pumps, including the proper covering and protection of disused wells, there will be required..... \$4,000 00

Water Pipes and Laying.

For Advertising.....	\$50 00
" Branches.....	3,500 00
" Cartage.....	2,500 00
" Casualties.....	1,000 00
" Distributing Reservoir.....	5,000 00
" Engineer's Office.....	300 00
" Fire Hydrants.....	3,500 00
" " repairing..	1,000 00
" Fuel.....	450 00
" Hydrant and stop-cock boxes.....	2,000 00
" Iron pipes.....	35,000 00
" Lead.....	5,000 00
" Miscellaneous bills.....	1,000 00
" Office expenses.....	500 00
" Oil.....	250 00
" Postage.....	50 00
" Proving and storage yard.....	1,000 00
" Public or drinking hydrants.....	1,500 00

Carried forward \$63,600 00

Brought forward	\$63,600 00	
" Small castings.....	2,500 00	
" Stationery.....	1,500 00	
" Stop-cocks.....	7,500 00	
" " repairing.....	1,200 00	
" Tapping pipes.....	1,200 00	
" Tools and repairing.....	1,000 00	
" Wages.....	40,000 00	
" Wagon hire.....	500 00	
" Water meters.....	1,000 00	\$120,000 00

Trap Block or Belgian Pavement.

The estimate under this head is designed to meet the proportion of the expense of laying this description of pavement which is borne by the city at large, under ordinances of the Common Council, and is as follows :

On Contracts Awarded and Confirmed.

Sixth avenue, from Carmine to Forty-second street.....	\$56,000 00	
Twentieth street, between Fifth and Sixth avenues.....	2,700 00	
		\$58,700 00

On Contracts Awarded, but not Confirmed.

Fifth avenue, from Washington square to Forty-second street,	\$45,000 00	
Eighth avenue, from Hudson street to Forty-second street...	46,000 00	
Thirty-fourth street, from Fourth to Ninth avenue.....	32,250 00	
Forty-sixth street, from Fifth to Sixth avenues.....	3,300 00	
Duane street, from Chatham street to City Hall place.....	1,250 00	
		127,800 00

For Work Ordered for which Contracts are to be made

State street, from Whitehall street to Battery place.....	\$5,000 00	
Chambers street, from Chatham street to Hudson river....	12,000 00	
Hudson street, from Canal street to Eighth avenue.....	64,500 00	
And for work which may hereafter be ordered by the Com-		
mon Council	100,000 00	181,500 00
Total for Belgian pavement		\$368,000 00
From this should be deducted the probable unexpended balance of this		
year's appropriations		68,000 00
		<u>\$300,000 00</u>

All of which is respectfully submitted,

By your obedient servant,

A. B. ROLLINS, *Water Purveyor.*

ALMS HOUSE DEPARTMENT.

OFFICE OF THE GOVERNORS OF THE ALMS-HOUSE,
New York, November 16th, 1859.

To the Honorable

*The President of the Board of Aldermen,
The President of the Board of Councilmen,
The Mayor,
The Comptroller.*

GENTLEMEN:—I herewith transmit a copy of a resolution adopted by the Board of Governors of the Alms-house, at a meeting held November 15, 1859:

Resolved, That the report of the Committee on Supplies and Finance be accepted and adopted, and that the same be signed by the President and Secretary, and transmitted to the President of the Board of Aldermen, the President of the Board of Councilmen, the Mayor and Comptroller, as the amount required by the Board of Governors, for the support and government of the Alms-house Department, for the year 1860, and in accordance with Section 25 of "An Act to Amend the Charter of the City of New York," passed April 14, 1857.

The sum required, as per said estimate herewith transmitted, being \$746,199.

ANTHONY DUGRO, *President*.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, November 10, 1859.

[COPY.]

RICHARD BUSTEED, Esq., Corporation Counsel:

SIR :—As I am now preparing the Annual Budget for the year 1860, to be submitted to the Common Council, you will oblige me by furnishing me, at your earliest convenience, with a list of all claims against the City, now in suits, in your charge, together with such other information in respect to them, as will enable this Department to make an estimate of the probable amount, and the Common Council to make provision for such as will ultimately become a charge upon the Corporation.

Respectfully yours,

(signed)

ROBT. T. HAWS, Comptroller.

Note by Comptroller.—No reply has been received to the above letter.

CITY INSPECTORS DEPARTMENT.

CITY OF NEW YORK—CITY INSPECTOR'S DEPARTMENT,
New York, October 10, 1859.

ROBERT T. HAWS, Esq., *Comptroller*:

SIR:—As requested by (circular) communication from your department, I have prepared a statement, in detail, of persons receiving compensation for services performed, as established by resolution or ordinance of the Common Council, designating the office, bureau and title, with the name of incumbent, and amount of salary received; with a brief reference to ordinance authorizing the same.

The opening and paving of new streets having increased the labor and expense of keeping the same in a good and cleanly condition, and to meet the full requirements of the year 1860, I am obliged to ask for an increase in appropriation for "Cleaning Streets."

From the fact, that the business of this department chargeable to "Contingencies," has been steadily increasing, and the amount heretofore yearly appropriated not being sufficient to meet the required expenditures, I deem it necessary to apply for an increase in said appropriation.

Also, the amount of appropriation for "Cleaning Markets" must necessarily be increased, the cleaning of, and carting garbage from, West Washington and other markets, having been added to the duties of this department.

The amounts of the various appropriations asked for, I deem, will be sufficient to meet the actual requirements of properly performing the various and increasing duties of this department, for the year 1860.

Very respectfully, your obedient servant,

DANIEL E. DELAVAN, *City Inspector*.

SALARIES.

City Inspector and his Clerks and Messengers.

DANIEL E. DELAVAN, City Inspector	5,000 00

Note by Comptroller.—The above estimate for “Contingent Expenses for Deputy Superintendent of \$5,000 has been provided for in a special appropriation under that head. The estimate for “Police Telegraph” is provided for under the head of “Fire and Police Telegraph”

The rent of the premises Nos. 86 and 88 White street, occupied as a House for the Detention of Witnesses, has been provided for under the general head of “Rents.” The items of “Repairs,” “Light,” and “Stationery” are also provided for under other heads. In addition to the “Salaries” above mentioned the sum of \$7,400 is added for the estimated expenses of boarding persons detained as witnesses, making the amount for the “House for Detention of Witnesses” \$10,000.

BOARD OF EDUCATION.

BOARD OF EDUCATION.

*To the Board of Finance Commissioners
of the City and County of New York:*

In pursuance of the first subdivision of the third section of the act, to amend, consolidate, and reduce to one act, the various acts relative to the Common Schools of the city of New York, the Board of Education hereby reports an estimate of the amount, over and above the sum specified in the fifteenth section of the said act, which will be required during the year 1860, for the purpose of meeting the current annual expenses of public instruction in said city, as follows:

For the salaries of teachers and janitors, in the Ward and Primary School's.....	\$650,000 00
For the incidental expenses of said schools.....	75,000 00
For pianos.....	10,000 00
For the support of the Free Academy.....	45,000 00
For repairs of the Free Academy building.....	2,000 00
For the support of Normal Schools.....	20,000 00
For apportionment to the Corporate Schools.....	30,000 00
For repairs through the shop.....	10,000 00
For the support of Evening Schools.....	70,000 00
For books, stationery, and other supplies for the depository....	90,000 00
For rent of school premises.....	15,000 00
For salaries of Superintendents, Clerks and other officers con- nected with the Board.....	26,000 00
For incidental expenses of the Board, including printing.....	10,000 00
For purchasing, leasing, and procuring sites; for erecting build- ings, and for furnishing, fitting up, altering, enlarging, and repairing the buildings and premises under their charge, for the support of schools which shall have been organized since the last annual apportionment of the school moneys, made by the Board, and for such further sum or sums as may be neces- sary for any of the purposes authorized by said act.....	235,000 00
Estimated deficiency for 1859.....	26,052 00
Total.....	<u>\$1,314,052 00</u>

And the Board of Education hereby reports, that after deducting from the said aggregate amount \$1,314,052, the amount of moneys appropriation to the county of New York, referred to in the fourteenth section of said act, and the several sums of money directed to be raised by the fifteenth section of the same act, the Board of Education estimates that the balance will be the amount, over and above the sum specified in the fifteenth section of said act, which will be required for the purposes specified in the said fifteenth section.

In the Board of Education,

November 9, 1859.

"*Resolved*, That the foregoing estimate be duly authenticated under the seal of this Board, in duplicate, and submitted to the Board of Supervisors, and to the Board of Finance Commissioners, as provided by law."

(Extract from the Minutes.)

RICH'D WARREN, *President*.

THOMAS BOESE, *Clerk*.

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,

November 16, 1859.

To the Board of Education:

At a meeting of the Board of Commissioners,* created by section 25 of the charter of the city of New York (passed April 14, 1857,) held at the Comptroller's office, this day, the following resolution was adopted, viz:

"*Resolved*, That the estimates of the Board of Education for the year 1860, be returned with the disapproval of this Board, as to the item of
pianos.....\$10,000 00

That the item of salaries be reduced from \$650,000 to 625,000,
equal to..... 25,000 00

That the item for purchasing sites, &c., be reduced from \$235,000,
to 210,000, equal to..... 25,000 00

Total reduction.....\$60,000 00

The estimates for 1860 are returned herewith, by order of the Board.

Very truly,

A. S. CADY, *Secretary*.

* Consisting of the President of the Board of Aldermen, the President of the Board of Councilmen, the Mayor and the Comptroller.

OFFICE OF THE BOARD OF EDUCATION,
 Corner Grand and Elm streets,
 New York, Dec. 9, 1859.

*To the Board of Finance Commissioners
 of the City and County of New York:*

" IN THE BOARD OF EDUCATION,
 December 7th, 1859.

" The President laid before the Board the following communication from the Department of Finance, together with the Annual Estimate of the Board of Education, of the probable amount necessary to be raised for meeting the current annual expenses of Common School Instruction for the year 1860, previously submitted to said Department of Finance, pursuant to the statute :

" " CITY OF NEW YORK, DEPARTMENT OF FINANCE,
 COMPTROLLER'S OFFICE,
 November 16, 1859.

" " *To the Board of Education :*

" " At a meeting of the Board of Commissioners, created by section 25 of the Charter of the city of New York, (passed April 14, 1857,) held at the Comptroller's office this day, the following resolution was adopted :

" " *Resolved*, That the estimates of the Board of Education, for the year 1860, be returned with the disapproval of the Commissioners, of the item in the estimate for pianos..... \$10,000 00
 That the item of salaries be reduced from \$650,000 to \$625,000, equal to, 25,000 00
 That the item for purchasing sites, &c., be reduced from \$235,000 to
 \$210,000..... 25,000 00
 Total reduction..... \$60,000 00

" " The estimates are returned herewith by order of the Board.

" " Very truly,

" " A. S. CADY, *Clerk.* "

" Mr. Waterbury offered for adoption the following preamble and resolutions :

" *Whereas*, The estimate of moneys necessary to be raised for the purposes authorized by the provisions of the act entitled ' An Act to amend, consolidate and reduce to one act the various acts relative to the Common Schools of the city of New York,' passed July 3d, 1851, was duly made by the Board of Education, and submitted to the Board constituted for that purpose, by the 25th section of the act entitled ' An Act to amend the Charter of the city of New York,' passed April 14, 1857, and the said Board have disapproved of the same and returned it, with objections, to the Board of Education; and whereas, the said estimate has been reconsidered by the Board of Education, and the said objections have been fully considered; therefore

" *Resolved*, That the Board of Education hereby adheres to its said original Estimate, as submitted to the Board, constituted by the 25th section of the act entitled 'An Act to amend the charter of the city of New York,' passed April 14, 1857.

" *Resolved*, That the Estimate specified in the preceding resolution, be returned to the Board designated in the said resolution, and that a copy of said preamble and resolution, with a certificate that the preamble and resolutions were adopted, and the said Estimate adhered to by a vote of two-thirds of all the members of the Board of Education then in office, and stating, also, the names of the members voting thereon, be properly authenticated in duplicate and transmitted to the Board designated in the preceding resolution, and to the Board of Supervisors.

" The President put the question whether the Board would agree with the foregoing preamble and resolutions, and it was decided in the affirmative, as follows:

" *AYES*—Messrs. McCay, Timpson, Crozier, Gould, Tuthill, Eager, Barry, Cogger, Andrews, Tucker, Gildersleeve, Farr, Slote, White, Metzgar, Reynolds, Byrne, Green, Warren, Benedict, Adams, Stafford, Cushing, Cantrell, Curtis, Fairman, Waterbury Ranney, Davenport, O'Keefe and Marriner—31."

[Extract from the Minutes.]

RICHARD WARREN,

President Board of Education.

[L. S.]

THOS. BOESE, *Clerk.*

STATE OF NEW YORK,

SUPERINTENDENT'S OFFICE, DEPARTMENT OF PUBLIC INSTRUCTION,
Albany, October 24th, 1859.

ROBERT T. HAWS, Esq., *Comptroller, &c.*

SIR:—This department cannot now give you exact figures in regard to the school-money for your city, inasmuch as the reports upon which the distribution of the public money is in part founded, have not yet been received. The amount of State School Tax to be raised is $\frac{3}{4}$ of a mill on each dollar of assessed valuation; and the amount apportioned to your city will not probably vary much from last year; viz.:

From State Tax.....	\$153,582 95	
From C. S. and U. S. D. Fund.....	53,750 00	
		<u>\$207,332 95</u>

Yours, respectfully,

H. H. VAN DYCK,

Superintendent of Public Instruction.

BOARD OF HEALTH.

MAYOR'S OFFICE,
New York, November 21, 1859.

WILLIAM E. WARREN, Esq., *Deputy Comptroller*:

DEAR SIR:—The following-named officers, members of the Board of Mayor and Commissioners of Health, receive salaries for the duties connected with their offices as such members, viz:

WILLIAM ROCKWELL, Resident Physician, per annum.....	\$1,250 00
(See act of Legislature, in relation to the public health, &c., passed 1850, chap. 275, sec. 11.)	
JEDEDIAH MILLER, Health Commissioner, per annum.....	3,000 00
	<u>\$4,250 00</u>

(See resolution of Common Council, approved May 4, 1853, proceedings of the Board of Aldermen and Assistants, vol. 21, p. 147, based on act of Legislature, amendatory of act in relation to the public health, &c, passed 1851, chap. 523, sec. 7.)

In regard to the sum required for expenses under head of "Board of Health," I believe the sum of \$40,000 will be sufficient.

Yours, very respectfully,

RICHARD SCOTT, *Secretary, of*
Mayor and Commissioners of Health.

FIRE DEPARTMENT.

BOARD OF FIRE COMMISSIONERS,
New York, October 29, 1859.

ROBERT T. HAWS, Esq., *Comptroller*:

DEAR SIR:—Agreeable to your circular "to the heads of the several departments and branches of the City Government," wishing a complete list of the officers and clerks who receive compensation for their services, I would simply say that this bureau or office is known as "the Commissioners of the New York Fire department," employing a clerk and messenger, viz:

Charles P. Knapp, Clerk.....	800 00
David Theall, Messenger.....	600 00
	<u>\$1,400 00</u>

The amount of salary being \$800 for the clerk, and \$600 for the messenger.

The clerk receiving his appointment and amount of compensation under an amended act, pasted March 10th, 1856, folio 33, Session Laws of 1856, as follows:

"Section eight of the act entitled 'An Act for the better regulation of the Firemen of the City of New York,' is hereby amended to read as follows:

"The Commissioners shall nominate and the Common Council shall appoint a clerk at a salary not exceeding eight hundred dollars a year, and the Commissioners and Clerk shall take an oath to well and faithfully perform the duties of their office."

The messenger's amount of compensation is decided by the Common Council; he has been receiving \$600 per annum, but there is now a resolution pending before the Mayor, for his signature, raising it to \$800, which, in all probability will be signed by him.

The cost of stationery, judging from previous years, I should say \$500 for the year, making the total of \$2,100 for the support of the Fire Commissioners.

All of which is respectfully submitted,

Yours, &c.,

CHARLES P. KNAPP,
Clerk to Fire Commissioners.

FIRE WARDENS' OFFICE,
New York, November 12th 1859.

WM. E. WARREN, Esq., *Deputy Comptroller*:

DEAR SIR:—In reply to your note requesting an estimate of the probable expenses of this office during the year 1860, I have to say that I am unable to give the required information, excepting so far as regards salaries, which is as follows, viz:

12 Fire Wardens * at \$500 per annum	\$6,000 00
1 Clerk at \$800 per annum.....	800 00
	<hr/>
	\$6,800 00

Very respectfully,

JOHN J. TINDALE, *Clerk to Fire Wardens.*

The following is a list of the present officers, and their salaries, respectively:

MICHAEL EICHELLS, Fire Warden.....	\$500 00
LOUIS C. MEEKS, do	500 00
R. B. SANDERSON, do	500 00
GEORGE C. BROWN, do	500 00
WM. H. McDONOUGH, do	500 00
JOHN S. CLAYTON, do	500 00
JOHN DOWNEY, do	500 00
JAMES M. MACGREGOR, do	500 00
JOHN CLEMENTS, do	500 00
ENOCH SMITH, do	500 00
STEPHEN HALLOCK, do	500 00
SAMUEL CHESHIRE, do	500 00
JOHN J. TINDALE, Clerk.....	800 00
	<hr/>
Total.....	\$6,800 00

*The salaries of the twelve Fire Wardens, as authorized by chap. 542 of the Laws of 1853, were fixed by the Common Council at \$500 per annum each, and the salary of the Clerk of the Board of Fire Wardens was fixed in pursuance of chap. of the Laws of , at \$800 per annum. (See Revised Ordinances of 1859, p. 209.) The Board of Supervisors are authorized by chap. 542, of 1853, "to raise by tax a sum necessary to defray the same."

MAYOR'S OFFICE,
New York, November 11, 1859.

ROBT. T. HAWS, Esq., *Comptroller:*

SIR:—The following is a list of Fire Alarm Bell-Ringers, appointed in pursuance of chapter 10, article 4, section 63, of the Revised Ordinances, whose salaries are required to be provided for in the Tax Levy of 1860; the same being payable according to section 65 of said ordinances, out of the appropriation for salaries of Fire Department. The amount of said salaries is seven hundred dollars each, as per resolution of the Common Council, passed January 15, 1855.

I also annex a list of fire telegraphic operators, appointed in pursuance of resolutions of the Common Council, of October 16, 1857, and February 3, 1858, whose salaries have been fixed at seven hundred dollars each, as per resolution, approved March 6, 1858, and for which provision should be made in the Tax Levy, as above.

Yours, &c.,

DANIEL F. TIEMANN, *Mayor.*

BOARD OF ASSESSORS.

OFFICE OF BOARD ASSESSORS,

New York, November 10, 1859.

ROBT. T. HAWS, Esq., *Comptroller*.

SIR:—In reply to the circular from the Finance Department, we herewith submit estimates of the expenditures necessary for the support of this office for the year 1860. Statement A, shows the names of the officers, their lawful designations or titles, with amount of salary, as fixed by the act, chap. 302, Laws of 1859.

Statement B, the estimated cost for printing and stationery. The whole of which, by law of 1859, is made a city charge

Very respectfully,

CHAS. McNEILL,
JACOB F. OAKLEY, } *Assessors.*
W. A. DOOLEY,

STATEMENT A.

Wm. A. Dooley, Assessor, \$2,000 per annum, payable monthly.....	\$2,000 00
Jacob F. Oakley, " 2,000 " " "	2,000 00
Chas. McNeill, " 2,000 " " "	2,000 00
Walter S. Pinckney, Clerk, 1,200 " " "	1,200 00
	\$7,200 00

Total, seven thousand two hundred dollars.

STATEMENT B.

Estimated amount for stationery and printing..... \$700 00

Making grand total of seven thousand nine hundred dollars.

* The salary of the Clerk is \$1,000.

CITY COURTS.

Of the several Courts within and for the city and county of New York, the Police Courts and the District Courts are classed as "City Courts," and as such, all necessary accommodations and supplies for them, including the salaries of their respective officers and attendants, are required to be provided for by the Corporation.

The Police Courts.

By the act, chap. 65, of the Laws of 1854, the number, respectively, of "Police Justices and Police Justices' Clerks," was fixed at eight. The number of "Assistant Clerks," as fixed by the Board of Supervisors, per resolution, June 1, 1858, in pursuance of chap. 264, Laws of 1858, was as follows: two at the First District Police Court; two at the Second District; two at the Third District; one at the Fourth District, and one at the Police Court at the Mayor's office, making eight in all.

The salaries of the Police Justices was fixed, in pursuance of an act, chap. 324, Laws of 1855, at \$2,000, which amount was increased "one sixth," by an act, chap. 129, of the laws of 1855, say to \$2,333 33, which is the present rate.

By resolution of the Board of Supervisors of December 31, 1857, the Police Justices were each allowed twelve hundred dollars per annum, in addition to their salaries, "for extra services in holding Courts of Special Sessions," and, as the salaries of the Clerk and other officers of said Court, are by law payable from the county treasury, and the fines imposed by said Court are payable into the same treasury, it is deemed proper that the compensation so allowed, by the Board of Supervisors for such services shall be provided for by them and paid from the county treasury, consequently, no provision therefor is necessary in the appropriations to be made by the Common Council.

The salaries of the Police Justices' Clerks are fixed at \$1,458 33, as follows:

By the act, chap. 324, Laws of 1852.....	\$1,250 00
One-sixth additional by the act, chap. 92, Laws of 1857.....	208 33
	\$1,458 33

The Assistant Clerks of the First, Second and Third Districts, and of the Police Court at the Mayor's office, were fixed by the Board of Supervisors, June 1, 1858, in pursuance of the act, chap. 264, Laws of 1858, at \$1,000 each; by the same resolution, the salary of the Assistant Clerk at the Fourth District Court was fixed at \$500 per annum.

The Interpreters, authorized to be appointed by resolution of the Common Council,

passed in October, were by said resolution to be paid at the rate of \$500 per annum each, which rate was increased to \$600 per annum by resolution of the Common Council, passed December 17, 1855, and the Board of Supervisors, by a resolution, passed December 30, 1857, made a further increase of \$150 per annum, "for Sunday services," thus making their present salaries \$750 per annum each.

The District Courts.

By the act, chap. 344, Laws of 1857, the number of Justices and Clerks respectively, was fixed at seven, and their salaries as follows: the Justices at \$3,000 per annum each, and the Clerks at \$2,000 per annum each.

The salaries of the officers attending these courts, of whom there are two allowed for each of the seven courts, were fixed by a resolution of the Board of Supervisors, passed August 5, 1857, at \$800 per annum.

The fines imposed by the Police Courts, and the fees of the District Courts are pledged to the Sinking Fund for payment of interest on the city debt.

The following are the estimates of and for the City Courts, for 1860:

THE POLICE COURTS.

POLICE COURT, FIRST DISTRICT,
HALLS OF JUSTICE,
New York, October 26, 1859.

TO ROBERT T. HAWS, Esq., *Comptroller*.

DEAR SIR:—In reference to making out the amount required for the use of this office for the year 1860, I spoke to my associate at the time I received your circular and had supposed, until I received your note this morning,

For salaries for this office there are two Justices, at a salary of \$3,533 33 each per annum.

Two Justices' Clerks, at.....	\$1,458 33 each,
Two Assistant Clerks, at.....	1,000 00 each.
An Index Clerk,* at.....	800 00
An Interpreter, at.....	750 00
For cleaning the office.....	360 00

Which, in all, would make, for salaries, the sum of \$13,893 33,

For fuel, for the office, I suppose would be about \$400.

* Appointment authorized by resolution of Board of Supervisors, December 24, 1855, and compensation fixed by resolution of same Board; passed June 18, 1856.

For stationery and printing, it is impossible for me to make an accurate estimate, for we use over one hundred different blanks; but from a rough calculation, I think twelve hundred dollars would supply us. I know of no other expenses.

Very respectfully,

JOHN LALOR, *Clerk.*

Note by Comptroller.

SALARIES PAYABLE FROM THE CITY TREASURY.

BARNABAS W. OSBORN, Police Justice.....	\$2,333 33

POLICE COURT, FOURTH DISTRICT,
New York, October 19, 1859.

To ROBT. T. HAWS, *Comptroller* :

SIR:—According to your request, I do hereby give you a list of persons employed at the above court, with all the particulars, &c., &c., so far as it lays in my power so to do.

J. Sherman Brownell, elected by the people, salary as Police Justice and Justice of the Special Sessions, \$294 44 a month, or \$3,533 28 a year. Act created for Police Justices, by the Legislature, somewhere about the years 1856 or 1857. Act in relation to Special Justices and salary for Police Justice and Justice of the Special Sessions and Sunday services, for which I have no means of ascertaining.

William Dodge, Police Justice's Clerk, appointed by the justice; salary \$121 52 a month, or \$1,458 33 a year. Act in relation to the appointment and salary, see Laws of New York, 1858, Chap. 264, pages 418 and 419.

James M. Byrne, Assistant Police Justice's Clerk, appointed by the justice; salary \$41 66 a month, or \$500 a year. Act in relation to the appointment and provision for salary, see Laws of New York, 1858, Chap. 264, pages 418 and 419; and also the Board of Supervisors, in the early part of the year 1858.

George F. C. Dohrenmend, Interpreter, appointed by the Justice; salary \$62 50 a month, or \$750 a year. Act in relation to the appointment and salary, see proceedings of the Common Council, about October or November, in the year 1854. Dates unknown. Salary increased by the Common Council, in the years 1856 and 1857. Dates unknown.

John Gallagher, Janitor, appointed by the Justice; salary \$25 a month, or \$300 a year. Act in relation to the appointment I have no means of ascertaining. Salary increased by the Board of Supervisors, I think, in the year 1858.

And the above court will use fuel, stationery, &c., &c., that is generally used at the different Police Courts; the quantity I have no means of ascertaining.

Respectfully, yours, &c.,

WILLIAM DODGE.

Note by Comptroller:

Probable receipts for next year \$5,000 00

Justice and clerk's salary regulated by act of Legislature, passed April 13, 1857.

Officer's salary regulated by Board of Supervisors, in 1857.

Cleaner, salary regulated by resolution of Common Council.

All of which is respectfully submitted,

ISAAC B. BATCHELOR, *Clerk*,

SECOND DISTRICT COURT.

October 13th, 1859.

ROBERT T. HAWS, Esq., *Comptroller*.

In compliance with your circular dated September 19th, 1859, I reply, that the business of this court is so fluctuating that it is next to an impossibility to furnish a statement of the amount of expenditures required, but such as I can give I most cheerfully do, viz:

CHARLES SWEENEY, Judge, salary.....	\$3,000 00 per year.
THOMAS F. PEERS, Clerk, do	2,000 00 "
JOHN MCINTYRE, Attendant, do	800 00 "
CHAS. NEARY, do do	800 00 "
	<hr/>
	\$6,600 00

One man to clean court..... \$120 00,

Which ought to be \$260 00.

As to the stationery and printing, I presume that about one half of the expenditure of the last two years will be sufficient, with care and prudence.

Yours, very truly,

THOS. F. PEERS,

Clerk of the Second District Court.

THIRD DISTRICT COURT.

New York, November, 1859.

ESTIMATE OF EXPENSES OF THE THIRD DISTRICT COURT FOR THE YEAR 1860.

WM. H. DUSENBERRY, Justice.....	\$3,000 00
WM. E. SMITH, JR. Clerk.....	2,000 00
[Section 68 of an act passed April 13, 1857, entitled An Act to re- duce the several acts relating to the District Courts, into one act.]	
JOHN DONOHUE, Special Officer.....	800 00
WM. SPAULDING, do	800 00
[Section 65 of same act, the Board of Supervisors fix the salary.]	
Amount of Salaries.....	<hr/>
	\$6,600 00

Probable amount of fuel, say 20 tons of coal; say 15 loads of pine wood.

Mrs. Helmes, who cleans the court rooms of the Police and Third District Courts, makes the fires, &c., receives for both courts the sum per year of \$300.

The Board of Supervisors fixed the sum to be paid for both courts at \$300.

Say for stationery and printing for the year \$350 00

The court room buildings belong to the Corporation.

Respectfully submitted,

WM. E. SMITH, JR.,

Clerk, Third District Court.

FOURTH DISTRICT COURT.

New York, October 28th, 1859.

ROBERT T. HAWS, Esq. *Comptroller:*

SIR:—Yours of October 25th was duly received; please excuse my seeming neglect of your circular of September 19th. It was overlooked in consequence of my absence

from the city. I herewith furnish you with an estimate of the expenses of the District Court, 4th district, to wit:

W. H. VAN COTT, Justice.....	\$3,000 00
DAVID SEAMAN, Clerk	2,000 00
EMIL LIPMAN, officer.....	800 00
THOS. G. VAN COTT, officer	800 00
	<hr/>
	\$6,600 00
Mary Ann Smith, \$12 a month.....	144 00

Coal for four stoves, from 8 to 10 tons.

Kindling wood.

Stationery, blanks, &c.

Ordinary repairs.

I have no means of knowing precisely, the amount required for the four last items; for salaries, see act April 13th, 1857.

Respectfully yours, &c.

DAVID SEAMAN, *Clerk, &c.*

FIFTH DISTRICT COURT.

New York, November 4, 1859.

HON. ROBERT T. HAWS, *Comptroller:*

DEAR SIR:—In answer to your communication of the 25th October, I would respectfully answer, that the following-named persons are attached to this court, and the respective amount of salary each person receives, to wit:

CHARLES K. SMITH, Justice, per annum.....	\$3,000 00
EDWARD S. McPHERSON, Clerk.....	2,000 00

(See § 68 of the District Courts act, passed April 13th, 1857, in relation to the salaries of the above persons.)

GEORGE STRINGHAM, Attendant.....	800 00
JOHN B. MITCHELL, do.	800 00
	<hr/>
	\$6,600 00

Peter Tracy, Attendant (contested)..... \$800 00

(§ 65 of the same act refers to the Session Laws of 1853, p. 992, in regard to their appointment.)

The payment of the salary of the third attendant, P. Tracy, is in litigation, and in my "pay-roll" returns have heretofore omitted his salary in the amount.

Printing, stationery, &c.....	500 00
-------------------------------	--------

(By referring to § 65 of same act, you will find the authority for above items.)

For cleaner and keeper of the court room, (Josephine Nichols) appointed by the Justice, at \$30 per month..... 360 00

(The salary and appointment of the above person is made and fixed by the

Comptroller or should be, he having the power.)

All of which is respectfully submitted, and in conclusion, I beg leave to offer my apology for my delay in responding to the communication from your department at an earlier date.

I remain, with respect,

Your obedient servant,

E. S. MCPHERSON, *Clerk.*

SIXTH DISTRICT COURT.

New York, November 5, 1859.

ROBERT T. HAWS, Esq., *Comptroller.*

SIR:—In answer to the request of the Comptroller to furnish to the Finance Department the amount of expenditures connected with the Sixth District Court, I proceed to state as follows:

THEO. J. FONDA, Justice.....	\$3,000 00
JOHN WAITE, Clerk of the Court.....	2,000 00
WILLIAM MASTERSON, Attendant.....	800 00
CHARLES FERBER, do.	800 00
	<hr/>
	6,600 00
Janitor, estimated.....	250 00
Rent of the Court, annually.....	1,000 00

SOCIETY FOR THE REFORMATION OF JUVENILE DELINQUENTS,
New York, October 24th, 1859.

ROBERT T. HAWS, Esq., *Comptroller, &c.*

SIR:—The Corporation of the city of New York have paid to the Society for the Reformation of Juvenile Delinquents, the sum of \$4,000 annually, commencing with the year 1831, by act of the Legislature, passed April 21st, 1831, copy of which you will find herewith in the pamphlet of acts in relation to our society. This sum has been regularly paid to our treasurer, every year, since the passage of the act referred to.

In the year 1855 the Managers of the society made an application to the Corporation of the City for an increase of this annual allowance, showing in their memorial, then presented, that since the granting of the original sum of \$4,000, the number of our inmates had increased from 181 to 500, as the annual average, and that during this period no increase had been granted by our city authorities of the annual allowance.

Upon this state of facts, and after a thorough examination of the financial management of the affairs of the society, by the Financial Committee of each Board, and a personal inspection of the condition of the inmates, and of the internal regulation of the House of Refuge on Randall's Island, both Boards of the Common Council passed a resolution appropriating \$4,000 additional thereafter. A certified copy of this resolution is handed herewith.

I take much pleasure in transmitting to you, the accompanying six reports of our Board of Managers, for the years 1852, 1853, 1854, 1855, 1857 and 1858, our Thirty-first report is out of print.

Respectfully, yours,

OLIVER S. STRONG, *President.*

Resolved, That the additional sum of four thousand dollars (\$4,000) be, and the same is hereby allowed to the use and benefit of the Society for the Reformation of Juvenile Delinquents, annually, and that the Comptroller is hereby authorized and directed to draw his warrant annually, subsequent to the first day of January 1856, for said amount, in addition to the amount designated by the Act of April 21st, 1831, until further ordered by the Common Council.

Adopted by the Board of Councilmen, December 3d, 1855.

Adopted by the Board of Aldermen, December 24th, 1855.

Approved by the Mayor, December 26th, 1855.

D. T. VALENTINE,

Clerk of the Common Council.

See Vol. xxiii, Proceedings of the Common Council, page 482.

AN ORDINANCE

MAKING THE ANNUAL APPROPRIATIONS FOR THE SUPPORT OF THE GOVERNMENT OF THE CITY OF NEW YORK, FOR THE YEAR 1860, THE PAYMENT OF THE INTEREST ON A PORTION OF THE CITY DEBT, AND THE ANNUAL INSTALLMENTS UPON THE PRINCIPAL OF SAID DEBT BECOMING DUE IN SAID YEAR.

The Mayor, Aldermen and Commonalty of the City of New York, in Common Council convened, do ordain as follows:

SECTION 1. To provide for the support of the Government of the City of New York, for the year 1860, the following sums of money are hereby respectively appropriated, for the objects and purposes set forth and explained in the Comptroller's Estimates hereto annexed, that is to say:

INTEREST ON PUBLIC STOCK FOR REBUILDING TOMPKINS MARKET, <i>ten thousand two hundred dollars</i>	10,200 00

SECTION 3. The following sums of money are hereby appropriated for the payment of the annual installments becoming due and payable in the year 1860, upon the stocks of the Corporation of the city of New York, hereinafter specified, to wit:

PUBLIC BUILDING STOCK, No. 3, (INSTALLMENT), <i>fifty thousand dollars</i>	50,000 00
PUBLIC EDUCATION STOCK OF 1873, (INSTALLMENT,) <i>four thousand six hundred and fifty-seven dollars and thirty-six cents</i>	4,657 36

SECTION 4. The Comptroller is hereby authorized to borrow, from time to time, on the credit of the Corporation, in anticipation of its revenues, and not to exceed in amount such revenues, such sums of money as may be necessary to meet expenditures under the appropriations for the current year, and to issue Revenue Bonds, in the usual form, for the

moneys so borrowed; also, to redeem and cancel the said bonds, from time to time, as they shall become due and payable, out of the moneys arising from the revenues aforesaid.

SECTION 5. It shall not be lawful for the several Departments of the City Government, or those having charge of expenditures, to make contracts, or incur liabilities, for purposes authorized by the Common Council, to an amount exceeding the several appropriations made for such purposes.

Resolved, That the Comptroller cause application to be made to the Legislature of the State of New York, for the passage of an act authorizing the Supervisors of the County of New York to raise money by tax, for City purposes, and to regulate the expenditure thereof; and also an act to provide for the funding of the floating debt of the Corporation of the City of New York, drafts of which said two proposed acts are hereto appended.

AN ACT

TO ENABLE THE SUPERVISORS OF THE COUNTY OF NEW YORK TO RAISE MONEY BY TAX FOR CITY PURPOSES, AND TO REGULATE THE EXPENDITURE THEREOF.

The People of the State of New York, represented in Senate and Assembly, do enact as follows :

SECT. 1. The Board of Supervisors of the county of New York are hereby empowered, as soon as conveniently may be, after the passage of this act, to order and cause to be raised by tax, on the estates real and personal, subject to taxation according to law, of and within the city and county of New York, and to be collected according to law, (in addition to the several sums heretofore authorized to be raised by special laws,) a sum not exceeding four millions two hundred and thirty-three thousand three hundred and eighty-eight dollars and fifty-nine cents, on account of the Corporation of the city of New York, for the following purposes, that is to say :

ABATEMENT OF NUISANCES, <i>two thousand five hundred dollars</i> . . .	\$2,500 00
AQUEDUCT—REPAIRS AND IMPROVEMENTS, <i>fifteen thousand dollars</i> .	15,000 00

Total.....	<u>\$4,233,388 59</u>

SEC. 2. The amount so authorized to be raised for the expenses of the said Corporation, which are, or may be incurred for cleaning streets in that part of the said city lying south of a line running through the centre of Fifty-seventh street, shall be assessed only upon the estates taxable for such purpose, lying and being south of said line; and the amount so authorized to be raised to pay the expenses of lighting said city, shall be assessed only upon the estates taxable for such purpose, lying and being within that portion of said city which the Common Council thereof have designated, by resolution or otherwise, or may hereafter so designate, as the "Lamp District."

SEC. 3. The said Board of Supervisors are hereby also empowered, in case of any judgment or judgments being obtained against the said Mayor, Aldermen and Commonalty of the city of New York, after the passage of this act, and before the annual taxes for the year 1860 are levied, which judgment or judgments shall be founded upon claims or debts not contemplated in any estimates or appropriations heretofore made by the Common Council of said city, or by the said Board of Supervisors, not provided for in any of the several amounts, by this act, or other law, authorized to be raised by taxes, or which may have been heretofore raised for such purpose, to include in the amount of taxes to be raised for and on account of said Corporation for the year 1860, such sum as shall be sufficient to satisfy such judgment or judgments, and all legal costs and expenses incident thereto for which the said Corporation may be liable; and such sum shall be collected in the same manner as other taxes are by law collected.

SEC. 4. In case any such judgment or judgments shall be recovered against the said Corporation at any time after the annual taxes for the year 1860 shall have been levied by said Board of Supervisors, and before the annual taxes for the year next succeeding shall have been levied, the said Mayor, Aldermen and Commonalty of the city of New York are authorized to borrow, upon the credit of the Corporation, such sums of money as, from time to time, may be necessary for the payment of such judgment or judgments, and the legal costs and expenses incident thereto, and which the said Corporation may be liable to pay, and to issue Revenue Bonds of the Corporation therefor, in the usual form.

the same to be payable at any time during the year 1861, from the taxes and other revenues of the Corporation applicable to such purposes, for that year; and the said Board of Supervisors, or other body authorized to levy the taxes for said city, for the year 1861, shall include an amount sufficient to pay such Revenue Bonds, so issued, with the interest thereon, in the annual tax levy for said year, in addition to the amounts provided in said levy for other purposes; and the same shall be collected in the manner provided by law for the collection of other taxes.

SEC. 5. No portion of the said respective sums in this act named, or of any other sum or sums of money heretofore appropriated by the said Mayor, Aldermen and Commonalty of the city of New York, to or for any specified objects or purposes, and raised, or to be raised by taxation or received from other sources, shall be expended for or applied to any other objects or purposes than those specially named and provided for in such appropriations: *Provided*, however, that in case any original appropriation, so made by the Common Council of said city, shall be found insufficient for the purpose for which the same was made, it shall be lawful for the said Common Council, and they are hereby empowered, upon the recommendation of the Comptroller, to authorize, by resolution or ordinance, a transfer to the credit of such deficient appropriation, such amount or amounts as may be deemed necessary, from any other appropriation or appropriations in which there may be an excess or surplus, over the estimated expenditure to be made for the current year, on account of which the said last-mentioned appropriation or appropriations were made; and the amount or amounts so transferred, shall be deemed and taken the same, and may be expended in the same manner as though the same had been originally embraced in such deficient appropriation.

SEC. 6. This act shall take effect immediately.

AN ACT

TO PROVIDE FOR FUNDING AND PAYING THE FLOATING DEBT OF THE CORPORATION OF THE CITY OF NEW YORK.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SEC. 1. The Mayor, Aldermen and Commonalty of the city of New York, are hereby authorized to borrow and raise by loan, from time to time, by creating and issuing a public fund or stock, to be called "The Floating Debt Fund Stock of the City of New York," which shall bear an interest not exceeding six per cent. per annum, and shall be redeemable on or before the first day of July, in the year one thousand eight hundred and ninety, as the said Mayor, Aldermen and Commonalty may determine, such sum, not exceeding three millions of dollars, as may be necessary to pay off and liquidate the floating debt of the said the Mayor, Aldermen and Commonalty of said city, arising from remissions or deficiencies of taxes and assessments or, the failure to collect any taxes or assessments levied or assessed, prior to the first day of January, one thousand eight hundred and fifty-nine, or from any mistakes, defalcations or frauds of any public officers of said city, or other persons, made or committed prior to said first day of January, one thousand eight hundred and fifty-nine, not otherwise specifically provided for.

SEC. 2. It shall be lawful for the said Mayor, Aldermen and Commonalty to determine what shall be the nominal amount or value of each share of the said stock, and of what number of shares the same shall consist; and they are hereby authorized to sell and dispose of such shares, at public auction or at private sale, and on such terms, not less than the par value thereof, as they shall think proper.

SEC. 3. For the payment of the interest on the loan authorized by this act, the Board of Supervisors of the county of New York shall order and cause to be raised by tax, on the estates, real and personal,

subject to taxation according to law, within said city and county, and to be collected, in addition to the ordinary taxes, yearly and every year, until the whole of said loan shall be redeemed and paid, such sum as may be necessary therefor.

SEC. 4. For the payment and redemption of said fund or stock so issued, the faith of said "The Mayor, Aldermen and Commonalty of the city of New York" shall be irrevocably pledged, and the said Board of Supervisors shall order and cause to be raised by tax, on the estates, real and personal, subject to taxation according to law, of and within said city and county, and to be collected, in addition to the ordinary taxes, yearly and every year, commencing with the year one thousand eight hundred and sixty-five, a sum sufficient, with the accumulation of interest thereon, to retire and discharge the whole amount of said stock by the time the same shall be payable, and which sum shall be paid to the Commissioners of the Sinking Funds of said city, on or before the first day of July in each year, commencing on the first day of July, in the year one thousand eight hundred and sixty-five; and the moneys so raised and paid shall be under the management and control of said Commissioners, and be invested by them in the same manner as now provided by law, in respect to the revenues pledged to the Sinking Fund for the redemption of the debt of said city.

SEC. 5. The moneys raised by virtue of this act shall be applied to the purposes herein particularly specified, and to no other purposes whatsoever.

SEC. 6. This act shall in no wise be so construed as to release or discharge from any liability to the said the Mayor, Aldermen and Commonalty of said city any person or persons who by mistake, defalcation or fraud, by themselves or others committed, are indebted or liable to the said Corporation for any moneys, or who may be in any otherwise indebted to said Corporation. And any moneys which may be collected or realized from the uncollected taxes and assessments, or from other arrears or sources which are the cause of the deficiency hereby provided to be paid, shall, as soon as so realized, be paid to the said Commissioners of the Sinking Funds for the purposes, specified in the fourth section of this act.

SEC. 7. This act shall take effect immediately.

DOCUMENT No. 35.

BOARD OF ALDERMEN,

DECEMBER 30, 1859.

The following communication from his Honor the Mayor, transmitting the address of the Rev. Henry E. Montgomery, at the laying of the corner-stone of the Infants' Home, in Fifty-first street, on Wednesday, December 28th, was received, laid on the table, and ordered to be printed.

D. T. VALENTINE, *Clerk*.

MAYOR'S OFFICE,
New York, December 30, 1859.

To the Honorable the Common Council:

GENTLEMEN:--I lay before your Honorable Body, the address of the Rev. Henry E. Montgomery, at the laying of the corner stone of the Infants' Home, in Fifty-first street, on Wednesday of the present week, and as the institution originated with the city authorities, is the first of its character in the United States, and is designed to reach, and care for a class of helpless little ones hitherto thrown upon the cold charities of the world, I respectfully recommend that it be printed for the use of the members of the Corporation.

The purposes and necessities of this institution, which is now under the direction of the Mayor of the city, and the First Directress of the Nursery and Childs' Hospital, are set forth in the address. These objects have my hearty sympathy and concurrence, and I cannot but hope, with proper discrimination and superintendence, that the institution will realize the best anticipations of those with whom the humane idea originated of providing an Infants' Home, alike for neglected and helpless orphans, for the children of those who are unable to provide means for their support, and for that more unfortunate class who know not the misery and degradation which attend their birth.

DAN'L F. TIEMANN, *Mayor*.

ADDRESS

UPON THE OCCASION OF

THE LAYING OF THE CORNER-STONE

Of the "Infants' Home,"

DECEMBER 28th, 1859.

ADDRESS.

WE assemble to-day, in the midst of a season consecrated for ages, by all true Christian hearts, to deeds of mercy, to celebrate the inception of one of those asylums for the miserable, which are the crowning glory of our religion.

Here, side by side with its sister charity, "The Nursery and Child's Hospital," which has already been productive of such beneficial results, will ascend, by the blessing of God, the walls of a "Home" for a distinct class of the unfortunate, who, from their peculiar destitution, claim a large place in the heart of the philanthropist.

We lay the corner-stone of the "Infants' Home" for the admission of such illegitimate children as have mothers of previous good character, whose reception into such an asylum will, in all probability, be the means of replacing the mother in the course of virtue, and in the way of an honest livelihood.

This is but one of the many benevolent institutions which are crystallizations from the river of the water of life in the everlasting gospel. As it is part, therefore, of the fruit of the ministry of the ever-blessed Son of God, we have celebrated the foundation of the "Infants' Home," by religious services; and, inasmuch as this is the first institution of the kind inaugurated in the United States, we propose, by your kind permission, to furnish you with a brief history of the origin of the proposed establishment, and to

exhibit, as concisely as possible, the features and working plan of the "Home."

Let me, at the outset, acknowledge my indebtedness, for not a little of the substance, and for some of the language of this address, to the "Report of the Select Committee, appointed by the Board of Governors of the Alms-house in New York," to investigate the subject of providing a Foundling Hospital; and, also, to the "History and design of the London Foundling Hospital," an admirable publication by the secretary of the institution. Dr. Sanger's recent work has likewise been consulted.

About the middle of the preceding century, Captain Thomas Coram, "a man eminent in that most eminent virtue, the love of mankind," and whose memory is fraught with interest to us of the New World, inasmuch as he was an active promoter of the early interests of the American colonies, being moved with compassion at the number of young children, exposed in the streets of the city, projected a "Hospital for Foundlings."

He knew, what every student of human nature cannot be ignorant of, that the motive to such a dereliction of maternal duty as the abandonment of offspring, must be beyond the ordinary casualties of indigence.

The crime, he found, proceeded from a desire in the mother to "avoid her shame."

He saw at once that the law which condemned the child-destroyer to death, carried on its very face, from a consideration of the despairing circumstances in which many of the fatal acts were committed, evidence of the necessity and justice of some more lenient remedy.

His mind arrived at the conclusion that the alarming evils of the murder and desertion of children were committed generally "for want of proper means for preventing the disgrace and succoring the necessities of their parents."

He therefore projected, and after years of indefatigable industry, succeeded in establishing, by Royal charter, a refuge, whither the shame-stricken mothers might fly, secure a home for their offspring, and be aided in returning to the path of virtue.

In all his memorials to persons of distinction, soliciting their support, Coram ascribes to the parent, as the motive of her cruel conduct towards her offspring, a desire to preserve her reputation; to "hide her shame;" and in Hogarth's design, illustrating the views of the Founder, it will be seen that he sketches him holding personal communion with the penitential mother, pouring into her heart the oil of gladness, whilst he points a refuge where she may consign the child of her shame and sorrow.

The noble purpose of Coram was steadfastly prosecuted—although, like the best and greatest works, it met with opposition, and required time for its accomplishment.

The hospital was reared; and in a few years, the philanthropic founder slept under its pavements.

But in the very beginning, due care was not taken in the admission of the foundlings. The objects of the bounty were not properly selected; and hence many evil consequences arose, which led to a radical reform of the laws of the establishment.

The system, under which the Hospital is at present con-

ducted, was established in 1760. It was then made a hospital for poor illegitimate children whose mothers are known.

The committee now require to be satisfied of the previous good character, and present necessity of the mother of every child proposed for admission.

I will recite one of the laws of the institution, and you will perceive the safeguards that were introduced into the plan of the hospital, in order to guard against the notorious evils that resulted from the indiscriminate reception of illegitimate infants.

"The committee shall be satisfied of the previous good character, and present necessity of the mother of every child proposed for admission, and that the father of the child (if living) has deserted the mother and child; and that the reception of the child will, in all probability, be the means of replacing the mother in the course of virtue, and the way of an honest livelihood."—3*d*. By law of the *London Foundling Hospital*.

The objects of the "Infants' Home" are precisely analogous to those of the "London Foundling Hospital;" and the safeguard with which its conductors propose to guard it from abuse and perversion, are identical with those precautions which have been found, by the experience of a century, to work with such efficiency in the English institutions.

Let it be distinctly understood, that the evils resulting from the indiscriminate reception of foundlings in the French and Russian hospitals, have been carefully provided against in the very construction of the "Infants' Home."

Of course, we cannot but be aware of the objections which are often advanced against institutions of the character of the one before us. It is urged, with some plausibility, that in providing a refuge in which shame may hide itself, you remove one of the very obstacles to the sin which the wholesome fear of that shame engenders; and that, to a certain extent, you encourage the commission of the vice, the consequences of which your benevolence seeks to avert.

The objection, we apprehend, is answered by the simple fact that the sin, whose sad consequences to the innocent, as well as the erring, we endeavor to repair, needs for its frequent commission no encouragement but the natural weakness of the one sex, and the wily seductions of the other, has been one of the crying evils of humanity ever since the first transgression.

The world had long tried the experiment of the effect of the fear of shame, and of the absence of all asylums for the guilty or innocent sufferers from sin, in deterring from the commission of the vice. No Foundling Hospitals graced the practical working of Heathenism, nor did Christendom establish them, until many centuries subsequent to the Christian era. And yet he would be a daring defender of the past who should presume to assert that the ancient Heathen world, or the early Christian kingdoms, were comparatively free from illegitimacy and infanticide.

The friends of this institution, the inception of which is celebrated to-day, do not claim that it is entirely free from the danger of abuse. No human institutions, however cautiously conducted, can be wholly free from perversion. Some daring Clodius will be found to pollute

the mysteries of the sanctuary, let the house be ever so carefully guarded.

"It must needs be that offenses come," and the evil will ever be present with the good until the tares and the wheat are for ever separated, in the day of the final discrimination; but the "woe" is not pronounced upon the good which indirectly offers opportunity for the admission of evil; but upon that individual by whom the offense cometh, or through whom the evil is engendered.

But, shall we abstain from doing positive and active good, because evil may incidentally result from the acts of benevolence? Surely not; else the hands and the feet of Christian charity would be almost entirely paralyzed.

It is true of all the remedial agencies which a prudent Christian zeal inaugurates, as of "every creature of God,"—they are good, and to be used with thanksgiving—but like the good creatures of God, also, those operations of wise benevolence are abused and perverted from their holy purposes.

A judicious philanthropist will consider both sides of a question like this, and will never allow the apprehension of partial evil to interfere with the establishment of an institution that undoubtedly will result in a great amount of positive good.

But there are persons who contend that a proper regard to expediency, and to the good of society, renders it unwise to establish institutions, whose aim is to relieve suffering which arises directly from sin—as if the relief afforded to the consequences of the guilt were a premium upon its repeated commission.

But, if this doctrine were carried out into general practice, and it must be a false doctrine if it cannot be so extended, what would become of the numerous medical and surgical charities of Christendom, which are half filled with cases originating in the weaknesses and vices of humanity.

If it be right to adopt curative measures in one case of suffering by sin, why is it not perfectly proper to resort to those means of relief in another instance, especially when we consider that the effects of many vicious habits are by no means confined to the individual transgressors ; but, unless checked by proper sanitary precautions, are extended to a wide circle of persons, who are entirely guiltless of the special sin which has entailed its long catalogue of woes.

The opinion of the objector, however, is at war with the whole nature and design of our religion. Christianity itself is a grand remedial agency for those who are suffering the consequences of their own as well as their first father's sins. It was tender compassion for humanity's weakness, accompanied by the divine desire and will to rescue our race from the effects of their own iniquity, which moved the adorable Son of God to descend from the throne of his universe, and to tabernacle in our flesh. He pitied the sinner, while he abhorred the sin.

But, if you will consider carefully the explicit objects of the institution, you will be able to judge for yourselves whether the good of society will not be eminently promoted by its establishment.

We will suppose, then, the case of a woman betrayed

and seduced, and then deserted by the villain who has encompassed her ruin.

It is a supposition, alas! that will continue to be frequently verified, until society shall take up the punishment of the seducer, and, by the indignant voice of opinion, he shall be consigned to the infamy which he so richly merits. But, as public sentiment exists at present, the frowns are almost all visited upon the offending woman. In the agony of shame and despair into which she is plunged by the consequences of her sin, she lays violent hands upon her offspring, breaking sacrilegiously into the citadel of its life. Is society benefited by the act to which, in her madness, she is goaded? Would it not have best promoted the public good if, by some merciful provision, the poor creature could have been restrained from the crime which will sink her into the lowest depth of infamy? And, again, would it not have subserved the interests of society to have rescued the child from destruction, and to have trained it as this institution proposes to do—to become a good and useful citizen?

But suppose that the shame-stricken mother does not commit the crime to which she is tempted, by the desire to conceal the proofs of her lapse from virtue, and that she is determined to risk her whole future reputation for the sake of the child whom she has made the innocent partner of her shame; where is she to turn for an honest livelihood? Rejected by her relations; forsaken by her seducer, who is generally beyond the clutches of the law, she is utterly without resource, save in the course of infamous prostitution, which is the natural consequence of her first step in sin.

Unless the sheltering walls of some asylum like the "Infants' Home," receive her child, and thus enable her to conceal her disgrace, she is pointed at by the finger of scorn, and hunted by the execrations of public opinion into the miserable, mouldering company of the "strange woman," whose houses are the way of hell. Deprived of that hope, which is one of the strongest incentives to exertion, who would not sink down into the wretched contentment of despair?

It is to stay the fearful descent into perdition of one who, perhaps, has transgressed more through another's wickedness, than through her own sin, that the "Infants' Home" is projected.

While it proposes to shelter the offspring of the fallen mother, and to train up the child to be useful in its day and generation, it will hold out the strongest inducement to the parent to amend her ways, and live thence forward in the fear of God. The erring one is counseled by the kind hearts of her own sex, and her child is kept faithfully to be returned, if possible, to the mother, as a part of the blessed wages which will reward her reformation.

The language of the institution, if it could speak, would be the exquisite lines, wherewith the poet paraphrases the well-known incident in St. John's Gospel:

"Oh, woman! if, by simple wile,
Thy soul has strayed from honor's track,
'Tis mercy only can beguile,
By gentle ways, the wand'rer back.
Go, go—be innocent, and live—
The tongues of men may wound thee sore;
But Heaven in pity can forgive,
And bids thee go, and sin no more."

Abundant testimony has been furnished by men of cultivated intellect and enlarged experience, in favor of the policy, as well as humanity, of institutions upon the plan of the "Infants' Home," when guarded with the restrictions that are incorporated in the constitution of the one before us.

Fielding, who was certainly well acquainted with the springs of human action, represents, in one of his tales, Mr. Allworthy, as employing the wisest and most humane reasons for befriending the supposed mother of the little foundling. When her enemies would have sacrificed her to ruin and infamy, by a shameful correction in a bridewell, so far from complying with this their inclination, by which all hopes of reformation would have been abolished, and even the gate shut against her, if her own inclination should ever hereafter lead her to choose the road of virtue, Mr. Allworthy rather chose to encourage the girl to return thither by the only possible means; for, he adds, too true I am afraid it is, that many women have become abandoned, and have sunk to the last degree of vice, by being unable to retrieve the first slip."

Dr. Brown, celebrated in his station, speaking of the abandonment of erring females, attributes to it their becoming desperate and profligate, and says that they are induced thereby to make a trade of that vice, which, at first, was a pitiable weakness.

The late Rev. Sydney Smith, who from his position was well acquainted with the practical working of the London Foundling Hospital, thus speaks:

"A very unfounded idea exists in the minds of some

men, little acquainted with the principles on which we proceed, that the doors of this hospital are flung open to the promiscuous reception of infants, and that every mother can here find an asylum for her offspring, whatever be her pretensions as a virtuous mother, an indigent mother, or a mother striving, by every exertion of industry, to give to her children creditable support. If this were so, this institution would aim directly, and in the most unqualified manner, at the destruction of two virtues on which the happiness of society principally depends :—the affection of parents and the virtue of women. * * *

“ These things are not so—our zeal is combined with greater knowledge ; and experience has taught us that the designs of the pious demand a circumspection not inferior to that with which the machinations of the wicked are pursued. •

“ No child eats of our bread, or drinks of our cup, whose reception, upon the whole, we are not certain to be more conducive than pernicious to the interests of religion and good morals. We hear no mother whom it would not be merciless and shocking to turn away; we exercise the trust reposed in us with a trembling and sensitive conscience ; we do not think it enough to say, this woman is wretched, and betrayed, and forsaken ; but we calmly reflect if it be expedient that her tears should be dried up, her loneliness sheltered, and all her wants receive the ministration of charity. The object has uniformly been to distinguish between hardened guilt and the first taint of vice.

“ By sheltering and protecting *once*, to reclaim *for ever after*, and not to doom to eternal infamy for one single

stain of guilt * * * * But, whatever be the crimes of the parents, and whatever views different individuals may take of the relief extended to them, there is no man who thinks that the *children* should perish for *their* crimes, or that those shall be doomed to suffer any misery who can have committed no fault. Therefore this part of the institution is as free from the shadow of blame as every other part is free from the reality.

Sir Thomas Bernard, Bart., who was for some years treasurer of the London Hospital, speaks as follows :

“The preserving and educating so many children, which, without the Foundling Hospital, would have been lost to that society of which they are calculated to become useful members, is certainly a great and public benefit.

“The adoption of a helpless, unprotected infant, the watching over its progress to maturity, and fitting it to be useful to itself and others here, and to attain eternal happiness hereafter, these are no common or ordinary acts of beneficence ; but their value and their importance are lost, when compared with the benefits which (without any prejudice to the original objects of the charity) the mothers derive from this institution, as it is at present conducted.

“The preserving the mere vital functions of an infant cannot be put in competition with saving from vice, misery and infamy, a young woman, in the bloom of life, whose crime may have been a single and solitary act of indiscretion.

“Many extraordinary cases of repentance, followed by restoration to peace, comfort and reputation, have come within the knowledge of the writer—some cases have oc-

curred, within his own observation, of wives happily placed, the mothers of thriving families, who, but for the saving aid of this institution, might have become the most noxious and abandoned prostitutes.

“Very rare are the instances—none has come within notice—of a woman relieved by the Foundling Hospital, and not thereby preserved from a course of prostitution.”

I add the evidence of the Treasurer of the London Hospital as a conclusive answer to the objection that these institutions, when properly conducted, have a tendency to encourage licentiousness.

The history of one hundred and three girls, after leaving the hospital, is given very specifically. Of this number, seventy-seven received, at the expiration of their apprenticeship in decent families, gratuities varying from two to five guineas for good conduct, such gratuities being awarded only on the certificate of the employer.

Four died; three became invalid or insane; seven forfeited the gratuity for obstinacy without vice; three committed offenses, but afterwards reformed; four never came for the gratuity; and of the whole number, out of a hundred and three, only three turned out bad characters. Of only two, it is to be remarked, that they were secretly taken away by their mothers, and on that account their subsequent history remains unknown.

Such testimonies, and from such witnesses, speak trumpet-tongued in behalf of the institution whose claims we present to you to-day. Our foundation principles have been exhibited. In the words of one who is well qualified to speak, with authority, in the premises:

We desire to found a charity, "not where indiscriminate admission will afford encouragement to vice, but where a woman, who has hitherto borne a good character, but has fallen into temptation and sinned, may, if penitent, be allowed to pour her griefs into a sympathizing female's bosom, and, instead of being utterly cast out, and thus thrown out of the pale of virtuous association, she may be assisted by receiving her child, and aided in reforming her life; and thus, while providing for the body of the infant, perhaps saving the mother's soul." Blessed work of mercy! Who can doubt that Heaven looks on upon its inception with an approving smile?

I come, now, to the consideration of the special reasons for the establishment of precisely such an institution as the "Infants' Home," in the city where our lot has been cast.

Last year, the Select Committee of Council, to whom had been referred a resolution of instruction to examine and report upon the expediency of establishing a Foundling Hospital, submitted their report.

The resolution in regard to this subject was founded on the acknowledged "want of suitable provision for the care of infants who are abandoned to the Alms-house Department, and the serious responsibility and care arising from the imperfect system of placing them at nurse, in all parts of the city." This report was prepared with great care, and after conference with several of our most eminent physicians, who, from their position, were well fitted to afford the counsels of experience.

We are assured by this authority that the city of New

York, like all populous cities, is "subjected to the practice of prostitution to an extent that involves greater sanitary evils than are apparent to any but those whose vocations are of such a nature as to bring the results within their notice; and the truth of this will be apparent when it is considered that when those who are unwilling to give birth to an infant, either from fear of expense or inability to support it, resort to medicinal or surgical means, and in some cases to self-inflicted violence, they, in all cases, prejudice their health, and even when their attempts are unsuccessful, the physical condition of the infant cannot be otherwise than permanently injured by the unnatural means employed to deprive it of vitality."

This evil should, therefore, be met face to face by the law-making and law-keeping classes. "It is as open and as patent as drunkenness or pauperism, which indeed are but its phases," and should no longer be handled with the soft gloves of a sickly sentimentality.

It is well remarked—

"Better face truth at once, in all its bareness, than for ever to be bandaged up in the folds of a silken falsehood."

However inexplicable it may now seem, it is a fact no less true than melancholy, that the practice of infanticide has prevailed to a very great extent even in some highly civilized countries. It was general throughout the ancient world. The Spartan code ordered that every child who was either weakly or deformed, should be put to death. And the brutal practice was not merely legalized by state enactment, but was vindicated by the ablest philosophers of that classic land.

Aristotle, in his treatise on civil polity, does not so much as insinuate a doubt as to the propriety of destroying such children as are maimed or deformed.

Even Plato did not scruple to indorse the infamous and unnatural practice.

It is perfectly well understood that a Roman citizen had the unrestricted right of putting his children to death, at any period of their minority.

At the birth of a child, the father decided whether he would bring it up, or expose it. But it did not always happen that exposed children lost their lives. In their exposure, they sometimes attracted the notice of the benevolent, and received their fostering care.

By far the greater number of these unfortunates, however, met with a different fate. They were declared by law to be the slaves, or absolute property, of those by whom they were reared; and several were saved from death, in order that their foster-fathers might derive an infamous livelihood by the mutilation of their persons, and their exhibition in the streets, in order to secure the alms of the benevolent. The slavery of these wretched creatures continued till the year 530 of the Christian era, when it was abolished by an edict of Justinian.

These facts are worthy of the consideration of those "half thinkers" who, in their desire to depreciate the beneficent results of Christianity, are wont to direct us, in triumph, to the evidences of Greek and Roman civilization.

Infanticide has been made a capital crime in all modern states, and my hearers will hardly fail to recall the thrilling narrative of the trial of Effie Deans, under the

severe statute of the realm at that period, which was aimed at the correction of the frequent murder of infants, in Scotland.

In order to take away the motive to its perpetration, and at the same time to provide an asylum for such poor children as might otherwise be exposed, through the poverty or inhumanity of their parents, Foundling Hospitals have been generally established, which, although resulting perniciously when not properly guarded against abuse, are, when conducted upon the plan of the London foundation, admitted by the wisest political economists, to be productive of the most beneficial results.

Few of our citizens, except those whose official position renders them cognizant of the subject, are aware of the extent of the mortality which prevails among the younger portion of the population of our metropolis. "Some of the frightful facts in regard to the brevity of infant life can be gathered from the records of deaths for one week. Of 503 deaths, no less than 177, or the enormous proportion of thirty-five per cent., were under one year of age, fifty-four being returned as still or premature births."

If this startling proportion gets into the bills of mortality, who will dare even to guess at the hundreds and thousands of cases occurring every year, which are known only to the woman and her physician—occurring, not only in squalid haunts of poverty, but among the so-called better classes, where exposure would be infamy?

We need only look at the records of our Coroners' inquests, and our Criminal Courts, to show to what an extent the crime of infanticide is practiced, instigated by

the desire of the mother to conceal the birth or existence of a child. A distinguished physician, of this city, appeared before your committee, and stated that in his own ward (the seventeenth) within the last five months, the bodies of no less than six children had been found exposed in the cemeteries, in sinks, and in the streets.

These had been born alive, as was evident from the *post-mortem* investigations. He further stated, that "there was hardly a physician in the city to whom application was not made every week to procure abortion, and they refusing, the women applied to quacks."

In Paris, where a largely-endowed Foundling Hospital exists—unguarded, however, by the wise restrictions which are proposed as the laws of the institution begun to-day—infanticide occurs very rarely, and the vile occupation of the abortionist, so often practiced with impunity here, is almost unknown.

The peculiar characteristics of our metropolis render such an institution as the "Infants' Home," a remedial provision of urgent necessity.

Well may it be claimed that much more must be done to save the lives of foundlings before, as a Christian community, we can be satisfied.

The daily increasing commerce of New York, and the constant tide of emigrants, either tarrying in or passing through it, are not without their sad results upon the helpless condition of infancy.

The constant influx of strangers from foreign lands leaves "a mass of debris behind, consisting, partly, of men

idle or vicious in their own country," who transport their wicked habits to the land of their adoption; partly of women who are transported hither oftentimes by foreign public bodies in order to get rid of their support, whose children become thieves and prostitutes.

In this vast emporium of trade, and centre of life, is there urgent need of every well-conducted missionary and reforming institution, to stem the torrent of iniquity, and to counteract, as far as possible, the tremendous evils that are entailed upon the innocent, as well as guilty victims of debauchery.

Besides the vast benefits which would directly result from the establishment of the "Infants' Home," to women who desire to repent of their transgression, and to the unconscious offspring of their shame, there are other advantages which would accrue from the institution, if liberally sustained, which cannot well be overrated.

Such a hospital, with its well-organized staff of medical officers, would serve as an admirable school for the study of infantile diseases.

From the cleanliness and respectability which would, no doubt, characterize the establishment, and the consequent comparative freedom from disease that it would enjoy, the chances of the adoption of its young inmates would be largely increased.

Then, also, considered in the light of a "training" school for the various useful employments of life, the "Infants' Home" possesses an additional claim upon our consideration.

How many candidates for immortality, who, but for the

rostering care of this institution, might have joined the host of profligates, and contributed to swell the aggregate of our criminals, may, under the religious and moral influences of the "Home," become honest and useful members of society; recruiting our various trades and domestic offices, and contributing to the effective force of the nation in her mercantile and naval service?

Surely, in view of these multiplied and vast benefits, we may asseverate, without fear of contradiction, that religion, reason, and experience, all concur in demanding the immediate establishment and cordial sustentation of this "Infants' Home."

The substance of the foregoing facts and statistics being in possession of the Committee of the Board of Councilmen of this city, and the opinions of many of the most eminent members of the faculty being in favor of the establishment of the "Infants' Home," as a measure of philanthropy that is imperatively called for, and the whole history of "Foundling Hospitals," from their earliest inception, having been read and considered,

The following resolutions were submitted, and have been adopted:

Resolved, That the lots adjoining the Nursery and Child's Hospital, in Fifty-first street, between Third and Lexington avenues, be set apart for the purpose of erecting thereon a building, to be called the "Infants' Home."

Resolved, That the Street Commissioner be, and he is hereby directed to advertise for proposals for a building to be erected on the lots south side of Fifty-first street, between Lexington and Third avenues, and adjoining the

building known as the Nursery and Child's Hospital, the same to conform, in plan, as near as may be, with the said adjoining building; and that the said Street Commissioner return the contract to the Common Council, for confirmation.

Resolved, That the said building, when completed, shall be devoted to the purposes of an "Infants' Home," to wit: the reception and care of illegitimate and deserted children, and shall be under the control of the Mayor and First Directress of the Nursery and Child's Hospital; and further, that the sum of twenty-five thousand dollars be, and the same is hereby appropriated, to carry the institution into effect.

Such is a brief account of the origin and nature of the institution whose corner-stone we have just laid in the midst of its friends, and, we trust, future supporters. We anticipate for it a long career of usefulness.

Its very appellation, the "Infants' Home," evinces a forethought and prudence that appear signally to have graced the measure from its very inception. And, already, as a further precaution, it has been wisely determined that the establishment shall be under the superintendence of females—those natural care-takers of the fallen and the helpless—that sex, without which youth would be unprotected, manhood without happiness, and age without consolation.

Almost synchronizing with those kindred charities, the House of Mercy, and the Nursery and Child's Hospital, it is destined, we trust and believe, to accomplish a most

benevolent and useful work, and it shall descend to future generations, among all the charitable institutions which are rapidly becoming the greatest ornament of our metropolis—to be a blessing to the helpless, and the miserable, upon whom Christ has bidden us to look in practical compassion.

The three institutions, which I have especially named, from the delicacy and difficulty which attend their management, are certainly entitled to be considered three of the best “graces” of the philanthropy by which they have been inaugurated.

Among the traditions of past ages that have been transmitted to us, is the record of a grand oratorical triumph on the part of one of nature’s most gifted sons. The vast assembly were hanging upon the words of the eloquent Roman, when, suddenly, the noble utterance fell from his lips, which the public sentiment has long since coined into a favorite maxim of morality:

“I think nothing human foreign to myself, because I, also, am a man.”

The disciple of the Lord Jesus looks upon the veriest outcast among the destitute and helpless of the human family, and feels in his heart, and carries out in his life, the sentiment which is the very essence of the life and precepts of the Redeemer. The vilest and the weakest are no strangers to me, because I am a Christian.

The corner-stone of this well-planned work of benevolent zeal has now been laid with rejoicing: may its walls arise, without injury or accident, to their completion; and when its portals shall be opened, and the throng of the

helpless shall be brought in, may the benediction of Heaven crown the education that shall be given to them!

May the hearts and the hands of our citizens be open with liberal supplies for carrying the design into effect! May its directors be endued with wisdom for the right discharge of the solemn trust committed to them!

“ Lord, bid this work of love
Be crowned with meet success ;
May thousands yet unborn
This institution bless!
Thus shall the praise resound to thee,
Now, and through all eternity.”

APR 29 1918
